<b>Singapore Dollar</b>			
Class ASGD\$acc	Class ASGD\$inc*	SGD\$2,500	SGD\$100

*Please contact the Distributor and/ or Hong Kong Representative for further information on Share Classes available to investors.*

**Dividend Policy:** The ‘inc’ share classes will distribute dividends (if any) monthly. The Fund will not declare or make dividend payments on ‘acc’ share classes.

\* For this Share Class, JCF may at its discretion pay dividends out of gross income while charging all or part of the fees and expenses in respect of the Share Class to the capital of the Fund, resulting in an increase in distributable income available for the payment of dividends by the Fund and therefore, the Fund may effectively pay dividends out of capital. This may result in an immediate reduction of the Fund's net asset value per share for the Share Class.

**Financial Year End of the Fund:** 31 December

## What is this product?

The Fund is a sub-fund of JCF which is constituted in the form of a mutual fund. JCF is domiciled in Ireland and established as an umbrella fund with segregated liability between sub-funds. JCF's home regulator is the Central Bank of Ireland (the "Central Bank").

## Objective and Investment Strategy

The Fund's investment objective is to obtain maximum total return, consistent with preservation of capital.

The Fund will normally invest up to 80% of its net asset value (but at all times not less than two thirds of its net asset value) in income producing securities of US issuers. The Fund may invest in preferred stock, and all types of government securities and debt securities, including specifically debt securities that are convertible or exchangeable into equity securities and debt securities that carry with them the right to acquire equity securities as evidenced by warrants attached to or acquired with the securities. The Fund has no pre-established maturity or quality standards, and its average maturity and quality may vary substantially. The Fund may invest without limit in debt securities or preferred stock rated below investment grade or unrated debt securities of similar quality as determined by the relevant Sub-Investment Adviser and may have substantial holdings in such securities.

Subject to the above, no more than 10% of the net asset value of the Fund may be invested in securities traded on any one emerging market and the aggregate amount of the Fund which may be invested in securities traded on the emerging markets is 20% of the net asset value of the Fund.

The Fund will not invest substantially in financial derivative instruments ("FDI") for investment purposes. The Fund may employ investment techniques and instruments, such as trading in futures, options and swaps and other FDIs both for efficient portfolio management and, subject to a limit of 10% of its NAV, for investment purposes, principally to achieve a reduction of risk, reduction of costs, generation of additional capital or income for the Fund, access to markets not otherwise available or immediately available, to synthetically short or to endeavour to limit losses in emergency market conditions. Foreign exchange hedging is deployed at class level and may be deployed at security level.

## What are the key risks?

**Investment involves risks. Please refer to the Hong Kong Offering Document for details including the risk factors.**

### I. Risk of Investing in Securities

There can be no assurance that the Fund will achieve its investment objective. The value of shares of the Fund and the income from them may rise or fall, as the capital value of the securities in which the Fund invests may fluctuate. The investment income of a Fund is based on the income earned on the securities it holds, less expenses incurred. Therefore, the Fund's investment income may be expected to fluctuate in response to changes in such expenses or income.

## 2. Interest and Credit Risk

- The debt or interest bearing component of this Fund, if any, depends primarily on interest rate risk and credit risk. Interest rate risk is the risk that the value of a portfolio will fluctuate in response to changes in interest rates. Generally, the value of debt securities will tend to decrease in value when interest rates rise and increase in value when interest rates fall. Shorter term securities are less sensitive to interest rate changes than longer term securities, but they also usually offer lower yields. Subject to applicable maturity restrictions, the Fund will vary the average maturity of its portfolio based on a Sub-Investment Adviser's analysis of interest rate trends and other factors.
- The Fund is subject to credit risk which is the risk that the issuer will be unable to make principal and interest payments when due, and the Fund's net asset value may as a result be adversely affected.

## 3. High Yield Securities

- The Fund is not subject to any limit on the percentage of debt securities or preferred stock rated below investment grade, which may be held in its portfolio, and it may have substantial holdings of such non-investment grade securities.
- Such securities are generally subject to higher credit risk and a higher possibility of default than more highly rated securities. If the issuer defaults, investors may suffer substantial losses.
- Investments in securities below investment grade or unrated securities of similar quality may be considered more speculative than higher quality investments with respect to sensitivity to adverse changes in economic and political conditions, liquidity and volatility.

## 4. Loan Participations

The Fund may invest in floating rate commercial loans arranged through private negotiations between a corporation or other type of entity and one or more financial institutions ("Lender"). Such investment is expected to be in the form of participations in, or assignment of, the loans, which may or may not be securitised ("Participations"). They are subject to the risk of default by the underlying borrower and in certain circumstances to the credit risk of the Lender if the Participation only provides for the Fund having a contractual relationship with the Lender, not the borrower. Thus, the Fund may not have any right of set-off against the borrower nor directly benefit from any collateral supporting the loan.

## 5. Liquidity Risk

Some of the markets in which the Fund will invest are less liquid and more volatile than the world's leading stock markets and this may result in the fluctuation in the price of the shares of the Fund. Certain securities may be difficult or impossible to sell at the time that the seller would like or at the price that the seller believes the security is currently worth.

## 6. Risk of Investing in FDI

- The Fund may invest in FDIs for investment purposes. Given the leverage effect of FDIs, such investments may result in total or substantial loss.
- The price of FDIs may move in unexpected ways, especially in abnormal market conditions.
- FDIs involve other risks of loss, such as credit, currency, leverage, counterparty, liquidity, index, settlement default and interest risks.
- Increased margin calls and unlimited risk of loss are also risks which may arise through the use of FDI as is the potential inability to terminate or sell FDI positions.

## 7. Emerging Markets Risk

The Fund may invest its assets in emerging markets. Investing in emerging markets involves greater risks of loss than investing in more developed markets due to, among other factors, currency and exchange control risks, political and economic risks, legal and regulatory risk and custodial risk. In addition, markets in emerging countries are generally less liquid and more volatile than developed markets.

## 8. Risks Relating to the Charging of Fees and Expenses to Capital

- For Class A\$inc, Class AHK\$inc, Class AAUD\$inc, Class ANZD\$inc, and Class ASGD\$inc Shares of the Fund, JCF may at its discretion pay dividends out of gross income while charging all or part of the fees and expenses in respect of the relevant Share Class to the capital of the Fund. This may result in an immediate reduction of the Fund's net asset value per share for the relevant Share Class.

- Investors should note that the payment of dividends out of gross income whilst charging fees and expenses to capital is deemed to be an effective payment of dividends out of the Fund's capital and amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment.

## Is there any guarantee?

The Fund does not have any guarantees. You may not get back the full amount of money you invest.

## What are the fees and charges?

### Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the Fund.

	Class A	Class B

	<b>Annual Rate (% of the net asset value of each class)</b>	
<b>Expenses</b> The Fund pays a fee for administration, accounting, custody services as part of its expenses	Up to 0.75%	
<b>Total Fees and Expenses Limit</b>	2.5%	3.5%

### Other fees

You may have to pay other fees when dealing in the shares of the Fund.

### Additional Information

- Applications for shares or requests for redemption or exchange of shares (“Orders”) can be sent to the Hong Kong Representative, which will endeavor to forward Orders received by 5:00 p.m. (Hong Kong time) on a business day to the Administrator as soon as practicable. Orders received by the Hong Kong Representative by such cut-off time and received by the Administrator in Dublin prior to the regular trading session of the New York Stock Exchange (normally 4:00 p.m. (New York time)) on the same day will be processed on that business day based on the Fund’s next-determined net asset value. Investors should note that the distributors may have earlier cut-off times.
- The net asset value per share of the Fund will be published on each Business Day in the Hong Kong Economic Times and the Standard.
- The composition (i.e. the relative amounts paid out of (i) net distributable income and (ii) capital) of the dividends for Class A\$inc, Class AHK\$inc, Class AAUD\$inc, ANZD\$inc and ASGD\$inc Shares of the Fund for the last 12 months (on a rolling basis) are available from the Hong Kong Representative on request and also on our website, [www.janusinternational.com](http://www.janusinternational.com). The aforementioned website has not been reviewed by the Hong Kong Securities and Futures Commission.
- The Hong Kong Representative, Janus Capital Asia Limited, can be contacted at Suite 2507-11, ICBC Tower, Citibank Plaza, 3 Garden Road, Central Hong Kong, telephone number (852) 3121 7000.
