**Investment Objective 投資目標**

This Fund aims to provide long-term capital growth for those who hold a long-term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long-term returns. It is intended that the investments will be made on a diversified basis. At least 70% of this Fund's net assets will be invested in equity and equity related securities of companies that are listed on any stock exchange in Taiwan, or of companies covering the different sectors of the economy in Taiwan or companies that derive a significant portion of their earnings from Taiwan and which are listed on any stock exchange. This Fund may also invest in common stocks, preferred stocks and depositary receipts issued by such companies and collective investment schemes (up to 10% of this Fund's net assets). The remaining assets of this Fund may include bonds (which may be below investment grade (i.e. below Baa3 by Moody's or BBB- by Standard & Poor's or Fitch) or unrated) and deposits. Due to the nature of the investment portfolio of this Fund, securities of small and medium sized companies may represent, at times, more than 30% of the net assets of this Fund. This Fund's investments may be denominated in any currency.
