Fund objectives and investment policy

The fund aims to provide capital growth.

This alternative investment organisation does not comply with the limits set forth for UCITS, which might translate into an increased risk for investors. The fund will invest in commodity related instruments worldwide. The fund will have exposure to a broad range of commodities, across the energy, metals and agriculture sectors. The fund is designed to give investors exposure to commodities. The investment team aim to identify investment opportunities across these sectors, conducting in-depth research to select the best investments. The fund will predominantly gain its exposure to commodities through investment in financial derivative instruments and, to a lesser extent, shares of companies, bonds, foreign currency, money market instruments and hold cash on deposit. The fund will not acquire any physical commodities directly. Derivatives may be used to achieve the investment objective and to reduce risk or manage the fund more efficiently.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors. **Above is the Investment Objective of the fund. For details on the fund's Investment Policy please see the KID.**

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Performance over 5 years (%)

Past performance and any forecasts are not necessarily a guide to the future or likely performance.

The value of investments and income from them can go down as well as up and is not guaranteed. The distributions are not guaranteed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.
