APRIL 2021 / FACTSHEET

OVERALL
MORNINGSTAR RATING™*

1. The Fund invests primarily in equities and equity-related securities in any company where the majority of earnings of issuers or holding companies are derived from activities related to any commodities which are grown or raised, commonly known as agricultural or soft commodities.
2. The Fund is subject to risks, such as investment, equities and equity related instruments, counterparty, liquidity, currency risks and the risks of investing in small and mid-capitalisation companies.
3. The Fund's investment may be concentrated in the agricultural sector or a single country/region and the value of the Fund may be more volatile. Agricultural and soft commodities markets may be adversely affected by natural events and human errors. Investing in emerging markets may involve increased risks, including liquidity, currency/currency control, political and economic uncertainties, legal, taxation, settlement, custody and volatility risks.
4. The Fund may invest in derivatives for investment or efficient portfolio management purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
5. Investors may suffer substantial loss of their investments in the Fund.

OBJECTIVE

The investment objective of the Fund is to achieve capital growth by investing in the agricultural sector.

STRATEGY

The Fund has the flexibility to invest in companies from across the entire agricultural value chain - from planting to harvesting to delivering food to the table. We avoid valuing agriculture companies on their peak or trough earnings but focus instead on their quality and long-term growth potential.
