## Valuation of Assets

The value of the assets held by the Subfunds is determined as follows:

- a) Cash, term deposits and similar assets are valued at their face value plus interest. If there are significant changes in market conditions, the valuation may be made at realisation price if the Company can cancel the investment, the cash or similar assets at any time; the realisation price in this sense corresponds to the sales price or the value that must be paid upon cancellation to the Company.
- b) Investments that are listed or traded on an exchange are valued based on the latest available trade price on the stock exchange which constitutes in principle the principal market for this investment.
- c) Investments traded on another regulated market are valued at the latest available trade price.
- d) Securities and money-market instruments whose latest available trade prices do not correspond to appropriate market prices, as well as securities and money-market instruments not officially listed or traded on an exchange or on another regulated market, and all other assets, are valued on the basis of their probable sales price.
- e) Claims for reimbursement from securities lending are valued at the respective market value of the securities and money-market instruments lent.
- f) The liquidation proceeds of futures, forward foreign exchange or options contracts not traded on exchanges or on other regulated markets means their net liquidating value determined, pursuant to the policies established by the Board of Directors, on the basis of calculations consistently applied for all types of contracts. The liquidation proceeds of futures, forward or options contracts, traded on exchanges or on other regulated markets, are based upon the latest available trade price of these contracts on exchanges and regulated markets on which the particular futures, forward or options contracts are traded by the Company. If futures, forward or options contracts cannot be settled on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such a value as the Board of Directors may deem fair and reasonable.
- g) Interest-rate swaps are valued at their market value by reference to the applicable interest-rate curve.
- h) Index and financial instrument-related swaps are valued at their market value, established by reference to the applicable index or financial instrument. The valuation of the index or financial instrument-related swap agreement is based upon the market value of such swap transaction established in good faith pursuant to procedures established by the Board of Directors.
- i) Target Fund Shares/Units in undertakings for collective investment in transferable securities ("UCITS") or undertakings for collective investment ("UCI") are valued at the latest redemption price determined and obtainable.

### Income recognition

Interest income is accrued daily. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes.

RMB or Chinese Renminbi refers to the official currency of the People's Republic of China. Unless the context otherwise requires, the term RMB refers to offshore Chinese Renminbi ("CNH") and not to onshore Chinese Renminbi ("CNY"). CNH represents the exchange rate of Chinese Renminbi that is traded offshore in Hong Kong or markets outside the People's Republic of China.

## All-in-Fee

The Company pays all costs to be borne by the respective Subfund from the assets of that Subfund:

Provided that it is not charged directly to the Shareholder under the terms of a particular Share Class, the All-in-Fee is charged monthly in arrears on a pro rata basis on the average daily Net Asset Value of the respective Share Class of a Subfund. The amount of the All-in-Fee charged is listed thereafter.

In return for the payment of the All-in-Fee the Management Company releases the Company from the following, conclusive enumerated commissions and expenditures:

- Management and central administration agent fees;

## Performance Fee

The Management Company may charge a performance-related fee to Subfund assets for selected Subfunds for their management, provided that this fee is not charged directly to the shareholder in the framework of a special share class. The performance-related fee will be calculated in accordance with the method described in the current sales prospectus.

According to the current prospectus a performance fee is foreseen for the following share classes:

- Allianz Global Intelligent Cities I14 (USD);
- Allianz Multi Asset Long / Short I14 (H2-JPY);
- Allianz Multi Asset Opportunities I14 (H2-JPY);
- Allianz Multi Asset Risk Premia I14 (H2-JPY).

It has been decided to set the performance fee rate at zero percent for the above-mentioned share classes.

## Retrocession of Management Fees

The investment management fees of certain underlying funds, in which some Subfunds invest, are partially or totally rebated by the investment managers of such underlying funds which have entered into agreements with Allianz Global Investors GmbH. Those amounts have been classified under caption other Income.

If a Subfund acquires shares of a UCITS or UCI which is directly or indirectly managed by the same investment manager or by another investment manager with which the Company is linked by common management or control, or by a substantial direct or indirect participation according to Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment then neither the Company nor the associated investment manager may charge fees for the subscription or redemption of units. In the case of the previous sentence, the Company will also reduce its share of the All-in-Fee for the part of units in such linked UCITS or UCI by the respective actual calculated fixed management fee of the UCITS or UCI acquired. However, a decrease does not occur with respect to such linked UCITS or UCI as far as a

reimbursement of this actually calculated fixed management fee is made in favour of the respective Subfund.

### Placement Fees

The Company may pay to the Management Company a placement fee ("Placement Fee") out of the assets of a Sub-Fund. The amount of the Placement Fee charged, if any, is in the sales prospectus.

The Placement Fee is determined as a fixed amount per Share which shall in particular serve as a compensation for the distribution. The Placement Fees is paid in a single instalment on the first Valuation Day after the expiry of the subscription period ("Payment Date") and at the same time added to the Sub-Fund's assets as prepaid expenses. The Net Asset Value on the Payment Date is therefore not impacted by the Placement Fee. The Sub-Fund's position of pre-paid expenses is then amortized over a defined number of years ("Amortization Period") on a daily basis from the Payment Date. The remaining position of prepaid-expenses per Share on each Valuation Day is calculated by linearly decreasing the fix amount per Share over the Amortization Period on a daily basis. After expiration of the Amortization Period the remaining position of prepaid expenses per Share is zero by definition.

### Securities Prices

In accordance with the Prospectus, the net asset values have been calculated by reference to the valuation day which might differ from their value on a dealing day.

The financial statements presented in this report have been prepared on the basis of the latest calculated net asset values in the period.

### Fair Value Pricing

A fair value pricing model is used for several Subfunds. A fair value pricing model means that the value of certain assets will be adjusted to more accurately reflect their fair value based upon certain criteria. Such adjustments may occur during monitoring periods as defined by the Board of Directors from time to time, if a single country equity risk exposure (excluding equity exposure held via target funds) of a Subfund reaches or exceeds a certain trigger level, as defined by the Board of

Directors from time to time, on the first Valuation Day of the respective monitoring period and, at the respective Subfund's deadline for receipt of applications, the main stock exchange of the respective country is already closed during normal course of business. If the aforementioned conditions are fulfilled the value of Subfund's assets which form part of the respective single country equity risk exposure based on the closing prices of the relevant country's main stock exchange is compared to their estimated value at the moment when the Subfund's Net Asset Value is calculated; the estimation is based on the movement of index orientated instruments since the close of business of the respective country's main stock exchange. If such comparison leads to a deviation in Subfunds estimated Net Asset Value by, at least, a certain trigger level, as defined by the Board of Directors from time to time, the Subfund's Net Asset Value will be adjusted accordingly to the extent that the unadjusted value would not represent their actual value.

j) Information on Performance Fee (as transaction to the Management Company) are set out under "Performance Fee" on page 1550 and "Ongoing Charges" on page 1568.

### Collateral Management

For some Subfunds, the Management Company has implemented collateral management processes to mitigate counterparty risks with OTC-counterparties. OTC-transactions are effected on the basis of standardised contracts that also provide for respective requirements in relation to accepted type of eligible collateral and discounts for collateral valuation (“haircuts”). The collateral management is performed on behalf of the management company by SST/BNYM collateral manager to which we outsourced the activity.

### Swing pricing

A Subfund may suffer reduction of the Net Asset Value per share due to investors purchasing, selling and/or switching in and out of shares of a Subfund at a price that does not reflect the dealing costs associated with this Subfund’s portfolio trades undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to reduce this impact and to protect shareholders’ interests, a swing pricing mechanism may be adopted by the Company as part of the general valuation policy. According to the prospectus swing pricing is foreseen for the following funds: Allianz Convertible Bond, Allianz Dynamic Asian High Yield Bond, Allianz Emerging Markets Local Currency Bond, Allianz Emerging Markets Select Bond, Allianz Emerging Markets Short Duration Bond, Allianz Emerging Markets Sovereign Bond, Allianz Emerging Markets SRI Bond, Allianz Emerging Markets SRI Corporate Bond, Allianz Euro Credit Risk Control, Allianz Euro Credit SRI, Allianz Euro Government Bond, Allianz Euro High Yield Bond, Allianz Euro High Yield Defensive, Allianz Euro Investment Grade Bond Strategy, Allianz Euro Subordinated Financials, Allianz Europe Income and Growth, Allianz Flexi Asia Bond, Allianz German Small and Micro Cap, Allianz Global Aggregate Bond, Allianz Global Credit SRI, Allianz Global Financials, Allianz Global Floating Rate Notes Plus, Allianz Global Government Bond, Allianz Global High Yield, Allianz Global Multi-Asset Credit, Allianz Global Opportunistic Bond, Allianz Green Bond, Allianz Indonesia Equity, Allianz Oriental Income, Allianz Selective Global High Income, Allianz SGD Income, Allianz Short Duration Global Bond, Allianz Short Duration Global Real Estate Bond, Allianz Strategic Bond, Allianz Thailand Equity, Allianz US High Yield, Allianz US Short Duration High Income Bond. The extent of such adjustment will be reset by the Company on a periodic basis to reflect an approximation of current dealing and other costs. Such price

adjustment may vary from Subfund to Subfund and will not exceed 3% of the original Net Asset Value per share. The price adjustment will be available on request from the Management Company at (i) its registered office and/or (ii) on the webpage <https://regulatory.allianzgi.com>. Please note that a partial swing pricing is applied. As at 31 March 2021 the price of the Allianz Global High Yield has swung. For more details see page 1019.

### TBA (to be announced) Securities

TBA positions refer to the common trading practice in the mortgage-backed securities market in which a commitment to buy or sell a mortgage backed security (issued by Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed future price at a future date is given. At the time of purchase of a TBA, the exact underlying pool of mortgages that is to be delivered is not known, but the main characteristics are specified. Such transactions are entered into with financial institutions specialised in such transactions.

Although the Subfund may enter into TBA purchase commitments with the intention of acquiring securities, the Subfund may also close a position prior to settlement by entering into an opposite transaction in order to fix the economical result of the initial transaction.

In the period under review the Subfunds entered into TBA transactions which are presented in the Statement of Net Assets within the unrealized gain/loss.

### Securities Repurchase Agreements, Securities Lending Transactions

The Company may enter into repurchase agreements and into securities lending transactions in accordance with the requirements as set out in the Securities Financing Transactions Regulation and in accordance with the requirements as set out in the Circulars 08/356 dated 4 June 2008 and 14/592 dated 30 September 2014 of the CSSF.

Pursuant to a Sub-Fund's individual Investment Restrictions and a Sub-Fund's specific Asset Class Principles and taking into consideration its obligation to redeem Shares on each Dealing Day, the Company may enter into securities repurchase agreements and securities lending transactions in accordance with the limits as disclosed in Appendix 7 of the prospectus.

On request, the recipients of retrocessions must disclose the amounts they actually receive for distributing the collective investment schemes of the investors concerned.

### Rebates:

In the case of distribution activity in or from Switzerland, the Management Company and its agents may, upon request, pay rebates directly to investors. The purpose of rebates is to reduce the fees or costs incurred by the investor in question.

Rebates are permitted provided that:

- they are granted on the basis of objective criteria;
- all investors who meet the objective criteria and demand rebates are also granted these within the same timeframe and to the same extent.

The objective criteria for the granting of rebates by the Management Company are:

- the amount of the fees generated by the investor;
- the investment behaviour shown by the investor (e.g. expected investment period);
- the investor's willingness to provide support in the launch phase of a collective investment scheme.

At the request of the investor, the Management Company must disclose the amounts of such rebates free of charge.

## 5. Place of Performance and Jurisdiction

Both the place of performance and the place of jurisdiction for Shares in the Company's Sub-Funds offered or distributed or from Switzerland shall be the seat of the Swiss representative.

## Ongoing charges

The Ongoing Charges are costs incurred by the Subfunds (or the respective Share Classes) during the preceding financial year (excluding transaction costs) and are expressed as a ratio of the average volume of the Subfunds (or of the average volume of the respective Share Classes) ("Ongoing Charges"). In addition to the All-in-Fee as well as the Taxe d'Abonnement, all other costs are considered except for the incurred transaction costs and any performance-related fees. Costs incurred will not be subject to cost compensation. If a Subfund invests more than 10 % of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Subfund (synthetic); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other

UCITS or UCI into consideration when calculating Ongoing Charges.

If a Swiss registered Subfund invests more than 10 % of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Subfund (synthetic); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other UCITS or UCI into consideration when calculating Ongoing Charges. If such a Subfund does not invest more than 10 % of its assets in other UCITS or UCI, any costs that may be incurred at the level of these UCITS or UCI are not taken into consideration. These Ongoing Charges have been calculated in accordance with the guidelines issued by the Swiss Funds and Asset Management Association (SFAMA).
