

Aberdeen Standard SICAV I - Select Euro High Yield Bond Fund

A Acc EUR

Performance Data and Analytics to 30 June 2020

Important Information

- The Fund invests in Euro denominated sub-investment grade fixed interest securities issued by corporations or government related bodies.
- The Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Credit risk reflects the ability of a bond issuer to meet its obligations.
- The Fund has a significant position in high-yielding bonds, which means a higher risk to investor's capital and income.
- The Fund's exposure to a specific regional market increases potential volatility.
- The Fund's net derivative exposure may be up to 50% of the Fund's net asset value and subject to counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk.
- Investment in this fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the Investment could be lost.
- Investors are responsible for their investment decisions and should ensure that the intermediary has advised on fund's suitability and consistency with their investment objective. If in doubt, please seek independent financial and professional advice.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents (particularly the investment policies and risk factors) for more details before investing.

Investment objective

To achieve long-term total return by investing at least two-thirds of the Fund's assets in fixed interest securities which are Sub-Investment Grade and denominated in Euro and issued by corporations or government related bodies.

Cash includes cash on call, cash used as margin, fixed deposits, unrealised profit/losses on derivative positions and forward currency contracts. Where bonds are split-rated between two or more of Moody's, S&P and Fitch, the data shown takes a conservative approach, splitting lower. This may not be consistent with the arrangement detailed in the prospectus, which may detail taking a higher rating where there is a split. In the absence of any agency ratings an Internal Fund Manager rating may be applied.

Figures may not always sum to 100 due to rounding.
