What is this product?

Invesco India Equity Fund (the "Fund") is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is the CSSF, Luxembourg supervisory authority.

Objectives and Investment Strategy

The objective of the Fund is to achieve long-term capital growth by investing principally in equity or similar instruments of Indian companies.

The Fund shall primarily invest (at least 70% of the net asset value of the Fund) in equity and equity related securities issued by Indian Companies. For the present purposes, Indian Companies shall mean (i) companies having their registered office in India, (ii) companies located outside India carrying out their business activities predominantly in India, or (iii) holding companies, which are predominantly invested in companies with their registered office in India.

Up to 30% of the net asset value of the Fund may be invested in cash and cash equivalents, money market instruments, equity and equity related securities issued by companies and other entities not meeting the above requirements or debt

securities (including convertible debt) of issuers worldwide and denominated in any convertible currency. For the avoidance of doubt, less than 30% of the net asset value of the Fund may be invested in debt securities (including convertible debt).

Not more than 10% of the net asset value of the Fund may be invested in securities issued by or guaranteed by a country which is unrated (debt securities which are not rated by any international rating agency such as Moody's, Standard & Poor's and Fitch) and/or whose credit rating is below investment grade (below investment grade is defined as credit rating that is below BBB- from Standard & Poor's and Fitch, or below Baa3 from Moody's or an equivalent rating from an internationally recognized rating agency).

The Fund used to invest a proportion of its net asset value in India through a wholly owned Mauritian subsidiary of the SICAV. However, since 25 September 2018, the Fund is no longer invested through the subsidiary and the subsidiary is being wound up.

The Fund may use derivatives (including but not limited to futures, forwards, non-deliverable forwards, swaps and complex options structures) for hedging and efficient portfolio management purposes. Such derivatives may also incorporate derivatives on derivatives (i.e. forward dated swaps, swap options). However, financial derivative instruments will not be extensively used for investment purposes (i.e. entering into financial derivative instruments to achieve the investment objectives).

The Fund may engage in securities lending. The expected proportion of the net asset value of the Fund subject to securities lending is 20%. Under normal circumstances, the maximum proportion of the net asset value of the Fund subject to securities lending is 29%.

Use of derivatives / investment in derivatives

The Fund's net derivative exposure¹ may be up to 50% of the Fund's net asset value.

What are the key risks?

Investment involves risks. Please refer to the Prospectus for details including the risks factors.

- **General investment risk** - There can be no assurance that the Fund will achieve its investment objective. The instruments invested by the Fund may fall in value due to any of the key risk factors below and therefore your investment in the Fund may suffer losses. There is no guarantee of the repayment of principal.
- **Currency exchange risk** - The Fund's assets may be invested in securities denominated in currencies other than the base currency of the Fund. Also, a class of shares may be designated in a currency other than the base currency of the Fund. The net asset value of the Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.
- **Volatility risk** - Investors should note that volatility in the Fund's investment portfolio may result in large fluctuations in the net asset value of the Fund which may adversely affect the net asset value per share of the Fund and investors may as a result suffer losses.
- **Equities risk** - The value of, and income derived from, equity securities held may fall as well as rise and the Fund may not recoup the original amount invested in such securities. The prices of and the income generated by equity securities may decline in response to certain events, including the activities and results of the issuer, general political, economic and market conditions, regional or global economic instability and currency and interest rate fluctuations. Thus, this may adversely impact the Fund and/or the interests of investors.
- **Concentration risk**
 - As the Fund will invest primarily in equity or similar instruments of Indian companies, such concentration may exhibit a higher than usual degree of risk and the Fund may be subject to above average volatility. The diversification benefits that would ordinarily accrue from investment in a fund having a more diverse portfolio of investments, may not apply to this Fund.
 - The value of the Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event and natural disaster affecting the Indian market.
- **Emerging markets risk** - The Fund invests in emerging markets which may involve increased risks and special considerations not typically associated with investment in more developed markets such as, liquidity risk, currency

¹ Please refer to the offering document for details regarding the calculation methodology of net derivative exposure.

risks/ control, political and economic uncertainties, policy, legal or regulatory event affecting the relevant markets and taxation risks, settlement risks, custody risk and the likelihood of a high degree of volatility.

■ Exchange Control Risks

- Rupee is currently not a freely convertible currency and is subject to foreign exchange control policies imposed by the Indian Government. Any unfavourable movements in the Rupee exchange rates as a result of exchange control or control of currency conversion may lead to price depreciation of the Fund's assets, which may adversely affect the net asset value of the Fund.
- The foreign exchange control policies imposed by the Indian Government are subject to change, and may have an adverse impact on the Fund and its investors.

- **Risk of investing in financial derivative instruments ("FDI") for efficient portfolio management and hedging purposes** - Investments of the Fund may be composed of FDI used for efficient portfolio management or to attempt to hedge or reduce the overall risk of its investments. Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a FDI can result in a loss significantly greater than the amount invested in the FDI by the Fund. Exposure to FDI may lead to a high risk of significant loss by the Fund.

How has the Fund performed?

- The Fund Manager views Class A annual distribution - USD (the "Share Class"), being the focus share class of the Fund available to the public of Hong Kong, as the most appropriate representative share class.
- Fund launch date: 11 December 2006.
- Share Class launch date: 11 December 2006.
- The base currency of the Fund is USD.
- Past performance of the Share Class is calculated in USD.
- Performance is calculated after deduction of ongoing charges and is inclusive of gross income reinvested. Any entry/exit charges shown are excluded from the calculation.
- Past performance is not a guide to future performance.
- Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the Share Class increased or decreased in value during the calendar year being shown.

Is there any guarantee?

The Fund does not have any guarantees. You may not get back the full amount of money you invest.

What are the fees and charges?

Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the Fund.

| Fee | What you pay |
|-------------------------------------|--|
| Subscription fee/ Initial charge | Class A: Not exceeding 5.00% of the gross investment amount. Class C: Not exceeding 5.00% of the gross investment amount. |
| Switching fee | Up to 1.00% of the value of the shares being switched. |
| Redemption fee | N/A |

Ongoing fees payable by the Fund

The following expenses will be paid out of the Fund. They affect you because they reduce the return you get on your investments.

| Distribution fee | Class A: N/A Class C: N/A |
| Service agents fee | Class A: Up to 0.40% Class C: Up to 0.30% |

*The fees can be increased subject to the prior approval of the Securities and Futures Commission ("SFC") and by giving not less than three months' prior notice to the investors.

Other fees

You may have to pay other fees when dealing in the shares of the Fund.

Additional Information

- You generally buy and redeem shares at the Fund's next-determined net asset value after the Hong Kong Sub-Distributor and Representative receives your request in good order on or before 5:00pm, Hong Kong time, being the Fund's dealing cut-off time. Before placing your subscription or redemption orders, please check with your distributor for the distributor's internal cut-off time (which may be earlier than the Fund's dealing cut-off time).
- The net asset value of the Fund is calculated each "Business Day" as defined in the Prospectus and the price of shares is published each Hong Kong business day (i.e. a day on which banks in Hong Kong are open for normal banking business) at www.invesco.com/hk. This website has not been reviewed by the SFC.
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors at www.invesco.com/hk. This website has not been reviewed by the SFC.
- Investors may obtain other information of this product at www.invesco.com/hk. This website has not been reviewed by the SFC.
