The Edinburgh Investment Trust plc Ordinary Shares (ISIN: GB0003052338)

Liontrust Fund Partners LLP (the "PRIIP Manufacturer")
www.liontrust.co.uk

Liontrust Fund Partners LLP is authorised and regulated by the Financial Conduct Authority.

Revised on 31 December 2023.

What is this product?

Type

The Edinburgh Investment Trust plc (the "Company") is a UK closed-ended investment company whose shares are traded on the London Stock Exchange. The Company invests its assets with the aim of spreading investment risk and generating a return for shareholders.

Objectives

- The Company aims to invest primarily in UK securities with the long-term objective of achieving an increase of the Net Asset Value (NAV) per share in excess of the growth in the FTSE All-Share Index and growth in dividends per share in excess of the rate of UK inflation.
- The Company is actively managed within its objectives and is not constrained by a benchmark.
- The Company borrows money to invest in the stock market within prescribed limits with the aim of enhancing returns.
- The Company may use derivatives (contracts whose value is linked to the value of an underlying investment) with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Net Asset Value (NAV) return of the Company corresponds directly to the performance of the securities in which it invests and the income from them. The share price, which will determine the return to the investor, will also be affected by supply and demand. Consequently, the return to the investor may be higher or lower than the underlying NAV return.
- At any given time, the price you pay for a share will typically be higher than the price at which you could sell it.

Intended Retail Investor

The Company is intended for investors aiming for income and capital growth over the long term, who may not have specific financial expertise but are able to make an informed investment decision based on this document, the AIFMD investor information document and most recent Annual and Half-Yearly Financial Reports, have a risk appetite that is consistent with the risk indicator displayed within this document and understand that there is no capital guarantee or protection (100% of capital is at risk).

Term

The Company does not have a fixed life and can only be wound up with shareholders' consent.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 5 out of 7, which is a medium risk class. This figure rates the likelihood of losing money in the future at a medium risk level.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The use of borrowings may increase the volatility of the NAV and may reduce returns when asset values fall.

The product may invest in smaller companies which may result in a higher level of risk than a product that invests in larger companies. Securities of smaller companies may be subject to abrupt price movements and may be less liquid, which may mean they are not easy to buy or sell.

The product may use derivatives for efficient portfolio management which may result in increased volatility in the NAV.

A more detailed description of risk factors that apply to this product is set out in the latest Annual Financial Report.

Performance scenarios

Investment £10,000

		1 year	3 years	5 years Recommended holding period
Stress scenario	What you might get back after costs	£6,108	£4,894	£3,025
	Average return each year	-38.92%	-17.02%	-13.95%
Unfavourable scenario	What you might get back after costs	£9,404	£9,577	£7,046
	Average return each year	-5.96%	-1.41%	-5.91%
Moderate scenario	What you might get back after costs	£11,115	£13,711	£12,905
	Average return each year	11.15%	12.37%	5.81%
Favourable scenario	What you might get back after costs	£13,130	£19,610	£23,515
	Average return each year	31.30%	32.03%	27.03%

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest £10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Liontrust Fund Partners LLP is unable to pay out?

The assets of the Company are entrusted to The Bank of New York Mellon (International) Limited (the "Depository"). If Liontrust Fund Partners LLP encounters financial difficulties these assets will not be affected. If financial instruments are lost, the Depository (or its delegates), are generally required to return equivalent assets/value to the Company. If the Depository (or its delegates) encounter financial difficulties, the Company could suffer a loss in some circumstances. As a shareholder you will not be able to make a claim against the Company or the PRIIP Manufacturer under the Financial Services Compensation Scheme.

Key Information Document

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest £10,000. The figures are estimates and may change in the future.

Cost over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Investment £10,000

Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at the end of 5 years
Total Costs	£92	£274	£453
Impact on return (RIY) per year	0.92%	2.74%	4.53%

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

Impact on return per year

One-off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	
Ongoing costs	Portfolio transaction costs	0.11%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	0.81%	
Incidental costs	Performance fees	n.a.	The impact of the costs that we take each year for managing your investment. This includes the fee paid to the investment manager (0.45%), financing costs (0.26%) and operating expenses (0.10%)
	Carried interests	n.a.	

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

We have selected 5 years as the product invests for the long term. You can sell some or all of your investment directly through a stockbroker, an execution-only dealing service or if you invest through a provider of packaged products, that provider, on any business day.

If you sell some or all of your investment before 5 years the product will be less likely to achieve its objectives however, you will not incur any additional costs by doing so.

How can I complain?

You should contact the Chief Compliance Director at Liontrust Fund Partners LLP, 2 Savoy Court, London, WC2R 0EZ
