

SUPPLEMENT 13 dated 26th November, 2020
NOMURA FUNDS IRELAND – ASIA INVESTMENT GRADE BOND FUND

Supplement 13 to the Prospectus of Nomura Funds Ireland plc,
dated 21st May, 2020

This Supplement contains information relating specifically to the Nomura Funds Ireland – Asia Investment Grade Bond Fund (the "Sub-Fund"), a sub-fund of Nomura Funds Ireland plc (the "Fund"), an open-ended umbrella type investment company with segregated liability between each of its Sub-Funds, authorised by the Central Bank of Ireland (the "Central Bank") on 30th August, 2006 as a UCITS pursuant to the UCITS Regulations.

This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus for the Fund dated 21st May, 2020 (the "Prospectus") which immediately precedes this Supplement and is incorporated herein.

The Directors of the Fund whose names appear in the Prospectus under the heading "Management and Administration" accept responsibility for the information contained in this Supplement and the Prospectus. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this Supplement and in the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. Investors should read and consider the section entitled "Risk Factors" before investing in the Sub-Fund.

Profile of a Typical Investor

The Sub-Fund is suitable for investors seeking long-term income and capital growth and who are prepared to accept a moderate level of volatility.

1. Interpretation

The expressions below shall have the following meanings:

"Business Day" means every day which is a bank business day in Dublin, London and Singapore excluding Saturdays and Sundays or such other day or days as may be determined by the Directors and notified to Shareholders in advance.

"Dealing Day" means every Business Day or such other day or days as may be determined by the Directors and notified in advance to Shareholders provided that there shall be at least one Dealing Day in every two week period.

"Dealing Deadline"	means 13.00 Irish time on each Dealing Day or such other time as the Directors may determine and notify in advance to Shareholders provided always that the Dealing Deadline is no later than the Valuation Point.
"Distribution Payment Date"	means the tenth Business Day in the calendar month following the end of the relevant Distribution Period.
"Distribution Period"	means each calendar quarter.
"Debt and Debt-Related Securities"	includes but is not limited to (i) convertible bonds, (ii) preferred securities, (iii) zero coupon, pay-in-kind or deferred payment securities, (iv) variable and floating rate instruments, (v) Eurodollar bonds and Yankee bonds, (vi) distressed or defaulted securities (vii) corporate bonds and (viii) loans, loan participations and loan assignments.
"Equity and Equity-Related Securities"	includes but is not limited to equities, depository receipts, convertible securities (such as convertible preference shares) and preferred shares.
"Index"	means the J.P. Morgan Asia Credit Index (JACI) Investment Grade Index.
"Valuation Point"	means 15.00 Irish Time on each Dealing Day or such other time as the Directors may determine and notify in advance to Shareholders provided always that the Dealing Deadline is no later than the Valuation Point.

All other defined terms used in this Supplement shall have the same meaning as in the Prospectus.

2. Base Currency

The Base Currency of the Sub-Fund shall be US Dollars.

3. Available Classes

See Class Supplements.

4. Index

The J.P. Morgan Asia Credit Index (JACI) Investment Grade Index tracks total return performance of the Asia dollar investment grade bond market. JACI is a market cap weighted index comprising sovereign, quasi sovereign and corporate bonds.

As at the date of this Prospectus, the administrator of the Index, namely J.P. Morgan is availing of the transitional arrangements afforded under Regulation (EU) 2016/1011 (the “Benchmark Regulation”) and, accordingly, does not appear on the register of administrators and benchmarks maintained by ESMA pursuant to Article 36 of the Benchmark Regulation.

5. Investment Objective

The investment objective of the Sub-Fund is to generate income and capital growth by investing primarily in a diversified portfolio of primarily investment grade Debt and Debt-Related Securities in Asia.

6. Investment Policy

The Sub-Fund shall invest primarily in a diversified portfolio of investment grade Debt and Debt-Related Securities issued in the countries covered by the Index (the “Index Countries”) or issued in other countries provided that the business activities of the issuers of such securities are in the Index countries, as defined above.

The Investment Manager seeks to identify Debt and Debt Related Securities that are cheap relative to their comparable peers. Global, regional, sectorial or company specific events or news could provide opportunities for potential investment due to mispricing. Following an assessment of the intrinsic credit quality of a particular company, it is possible to estimate a fair spread or yield that a company’s bond should be priced. This analysis will take into account both fundamental analysis such as business fundamentals, corporate strategy, financial profile, management and shareholders and market forces such as valuation, market technicals and bond structure. After taking into consideration the investment restrictions and objectives for the Sub-Fund, the Investment Manager will implement the investment recommendations if they believe that any mispricing be recognized by the market in the foreseeable future.

The Sub-Fund may invest in Debt and Debt-Related Securities issued by corporations, financial institutions, limited liability companies or limited partnerships, other forms of enterprise and in sovereign and quasi-sovereign Debt and Debt-Related Securities, which are listed or traded on Recognised Exchanges.

Under normal circumstances, the Sub-Fund will invest at least 80% of its net assets in investment grade Debt and Debt- Related Securities. Investors should note that investment grade Debt and Debt-Related Securities may be subject to ratings downgrades by the rating agencies during the holding period of the Debt and Debt- Related Securities. In the instance of one or more downgrades to below investment grade or otherwise, the Sub-Fund may continue to hold such securities. Such downgrades might affect the net asset value of the Sub-Fund.

No more than 30% of the Sub-Fund’s net assets may be invested in Debt and Debt-Related Securities which have a rating of below investment grade or are unrated. The Sub-Fund will take a higher rating of either Standard & Poor’s or Moody’s when determining a rating constraint.

The Sub-Fund shall primarily consist of Debt and Debt-Related securities denominated in US Dollars as well as the various Asian currencies included in the Index countries.

The Sub-Fund may hold Equity and Equity-Related Securities that it receives in connection with its ownership of certain Debt and Debt-Related Securities, such as defaulted securities in the course of reorganisation which are subsequently converted into Equity and Equity-Related Securities.

While certain Debt and Debt-Related Securities (i.e. convertible bonds) and Equity and Equity-Related Securities (i.e. convertible shares) may embed a derivative component (such as an option, which would give the holder the option to buy the underlying asset at a predetermined price), they will not embed any leverage.

The Sub-Fund is considered to be actively managed in reference to the Index by virtue of the fact that it uses the Index for performance comparison purposes. Certain of the Sub-Fund's securities may be components of and may have similar weightings to the Index. However, the Sub-Fund may deviate significantly from the Index and the Investment Manager may use its discretion to invest in companies or sectors not included in the Index.

The Sub-Fund will be managed so as to maintain a near fully invested position, other than during periods where the Investment Manager believes that a larger cash position is warranted.

The Sub-Fund may initiate spot foreign exchange transactions for the purposes of settling transactions in the securities. Performance of the Sub-Fund may be strongly influenced by movements in foreign exchange rates because currency positions held by the Sub-Fund may not correspond with the securities positions held.

General

Any changes to the investment objective of the Sub-Fund and any material changes to the investment policy may not be made without the prior written approval of all Shareholders or approval on the basis of a majority of votes cast at a general meeting of Shareholders of the Sub-Fund. Any such changes may not be made without the approval of the Central Bank. In the event of a change in investment objective and/or a change to the investment policy, a reasonable notification period will be provided by the Fund to enable Shareholders to redeem their Shares prior to implementation of such change.

The Sub-Fund's investments are subject to the investment restrictions as set out in Appendix I to the Prospectus.

A list of the stock exchanges and markets in which the Sub-Fund is permitted to invest, in accordance with the requirements of the Central Bank, is contained in Appendix II to the Prospectus and should be read in conjunction with, and subject to, the Sub-Fund's investment objective and investment policy, as detailed above. The Central Bank does not issue a list of approved markets. With the exception of permitted investments in unlisted securities and over the counter derivative instruments, investment will be restricted to those stock exchanges and

markets listed in Appendix II to the Prospectus.

There can be no assurance that the Sub-Fund may achieve its investment objective or avoid substantial losses.

Share Class Currency Hedging

Foreign exchange transactions may be used for currency hedging purposes. A Share Class of the Sub-Fund which is denominated in a currency other than the Base Currency may be hedged against exchange rate fluctuation risks between the denominated currency of the Share Class and the Base Currency of the Sub-Fund. The Investment Manager may attempt to mitigate the risk of such fluctuation by using forward currency contracts, for currency hedging purposes, subject to the conditions and within the limits laid down by the Central Bank. Where a Class of Shares is to be hedged using such instruments, this will be disclosed in the relevant Class Supplement. While it is not intended that a Hedged Share Class will be leveraged, the use of hedging techniques and instruments may result in a Hedged Share Class being over or under hedged due to external factors outside the control of the Company, subject to the requirements of the Central Bank. To the extent that leverage is employed, leverage will be measured using the commitment approach of measuring risk.

Use of Derivatives

The Sub-Fund may employ (subject to the conditions and within the limits laid down by the Central Bank) financial derivative instruments and techniques for efficient portfolio management and/or hedging. Efficient portfolio management transactions may be entered into by the Sub-Investment Manager with one of the following aims a) a reduction of risk b) a reduction of cost with no increase or a minimal increase in risk; c) generation of additional capital or income with no, or an acceptably low level of risk (relative to the expected return).

The financial derivative instruments and techniques which may be used by the Sub-Fund for efficient portfolio management and/or to hedging are futures and forward currency contracts.

Futures are contracts in standardised form between two parties, entered into on an exchange, whereby one party agrees to sell to the other party an asset at a price fixed at the date of the contract, but with delivery and payment to be made at a point in the future. The Sub-Fund may, subject to the conditions and limits laid down by the Central Bank, enter into futures contracts on Debt and Debt-Related Securities. The Sub-Fund may use the foregoing techniques for efficient portfolio management and /or for hedging.

Forward contracts are similar to futures contracts but are not entered into on an exchange and are individually negotiated between the parties. The Sub-Fund may engage in FX forwards for hedging currency risks.

The use of financial derivative instruments by the Sub-Fund may create leverage. To the extent that leverage is employed, leverage will be measured using the commitment approach of measuring risk, whereby such leverage cannot exceed 100 per cent of the Net Asset Value of the Sub-Fund. In practise, it is anticipated that the use of financial derivative instruments by the

Sub-Fund will be minimal and, therefore, the actual level of leverage will be in the region of 10% of the Net Asset Value of the Sub-Fund. It is possible that the Sub-Fund may be leveraged up to 100% of Net Asset Value at any point in time.

Securities Financing Transactions

The Sub-Fund may enter into repurchase agreements, reverse repurchase agreements and/or securities lending agreements for efficient portfolio management purposes only where the objective of using such instruments is to hedge against risk and/or to reduce costs borne by the Sub-Fund or to generate additional capital or income which is consistent with the risk profile of Sub-Fund and the risk diversification rules set down in the UCITS Regulations.

All types of assets which may be held by the Sub-Fund in accordance with its investment objectives and policies may be subject to a securities financing transaction.

The maximum proportion of the Sub-Fund's assets which can be subject to securities financing transactions is 100% of the Net Asset Value of the Sub-Fund. However, the expected proportion of the Sub-Fund's assets which will be subject to securities financing transactions is between 0% and 20% of the Net Asset Value of the Sub-Fund's assets. The proportion of the Sub-Fund's assets which are subject to securities financing transactions at any given time will depend on prevailing market conditions and the value of the relevant investments. The amount of assets engaged in each type of securities financing transactions, expressed as an absolute amount and as a proportion of the Sub-Fund's assets, as well as other relevant information relating to the use of securities financing transactions shall be disclosed in the annual report and semi-annual report of the Fund.

Further information relating to securities financing transactions is set out in the Prospectus at the sections entitled "*Securities Financing Transactions*"

7. Sub-Investment Manager

The Investment Manager may delegate the investment management function to one or more Sub-Investment Managers. The Sub-Investment Managers shall not be paid directly out of the Sub-Fund. Information relating to the Sub-Investment Managers will be provided to Shareholders upon request. In any event, details of the Sub-Investment Managers shall be disclosed in the periodic reports of the Sub-Fund.

The Sub-Investment Management Agreements provide that the Sub-Investment Managers will manage the assets of the Sub-Fund in conformity with the investment objectives and investment policies of the Sub-Fund as set out in this Supplement and within the investment restrictions set out in Appendix I to the Prospectus.

8. Additional Risk Factors

The attention of investors is drawn to the "Risk Factors" in the Section of the Prospectus entitled "The Fund". In addition, investors should be aware of the following risks applicable to the Sub-

Fund.

Sovereign Debt

The governmental entity that controls the repayment of sovereign debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of such debt. A governmental entity's ability to repay principal and interest due in a timely manner may be affected by, among other factors, its cash flow, the extent of its foreign reserves, the availability of sufficient foreign exchange on the date a payment is due, the state of its country's economy, the relative size of the debt service burden to the economy as a whole, restrictions on its ability to raise more cash, the governmental entity's policy towards the International Monetary Fund and the political constraints to which a governmental entity may be subject. Governmental entities may also be dependent on expected disbursements from foreign governments, multilateral agencies and others abroad to reduce principal and interest arrearage on their debt. The commitment on the part of these governments, agencies and others to make such disbursements may be conditioned on a governmental entity's implementation of economic reforms and/or economic performance and the timely service of such debtor's obligations. Failure to implement such reforms, achieve such levels of economic performance or repay principal or interest when due may result in the cancellation of such third parties' commitments to lend funds to the governmental entity, which may further impair such debtor's ability to service its debt on a timely basis. Consequently, governmental entities may default on their sovereign debt. Holders of sovereign debt, including the Sub-Fund, may be requested to participate in the rescheduling of such debt and to extend further loans to governmental entities.

Emerging Markets

Investing in emerging markets involves certain risk and special considerations not typically associated with investing in other more established economies or securities markets apply. Such risks may include (a) the risk of nationalisation or expropriation of assets or confiscatory taxation; (b) social, economic and political uncertainty; which may impact on the value of the securities the Sub-Fund invests in; (c) greater price fluctuations which may lead to losses, (d) less liquidity and markets may be less efficient, which may make it difficult for the Sub-Fund to purchase or sell securities from these markets; (e) smaller capitalisation of securities markets; (f) currency exchange rate fluctuations impacting the value of the relevant investment; (g) high rates of inflation leading to devaluation of the Investments in the Sub-Fund; (h) differences in auditing and financial reporting standards which may result in the unavailability of material information about issuers and might overstate the profitability of individual securities in which the Sub-Fund invests, resulting in long term loss to the Sub-Fund; (i) less extensive regulation of the securities markets; which may result in more volatile stock prices and potential loss of investment; (j) longer settlement periods for securities transactions; (k) less developed corporate laws regarding fiduciary duties of officers and directors and the protection of investors; (l) restrictions on the expatriation of funds or other assets might be imposed which limit the Sub-Fund's ability to liquidate or acquire assets to the detriment of investors and (m) the investment in markets where trustee and/or settlement systems are not fully developed, as a result transaction and custody costs in emerging markets can be high and delays and risks of loss attendant in settlement procedures can occur.

Loans, loan participations and loan assignments

These securities represent an undivided fractional interest in a loan obligation by a borrower. They are typically purchased from banks or dealers that have made the loan or are members of the loan syndicate. The loan may be made to non-U.S. or U.S. companies. They are subject to the risk of default by the borrower. If the borrower fails to pay interest or repay principal, the Sub-Fund can lose money on its investment. The loan participations and assignments purchased by the Sub-Fund must be transferable securities. Only loan participations and assignments which are "securitised" and capable of free sale and transfer to other investors and which are purchased through recognised regulated dealers are deemed to be "transferable securities" traded on recognised markets.

9. Application for Shares

Applications for Shares may be made to the Administrator on behalf of the Fund. Applications must be received by the Administrator by no later than 13.00 (Irish time) on the last day of the Initial Offer Period or thereafter by the Dealing Deadline for the relevant Dealing Day. Applications accepted by the Administrator on behalf of the Fund and received prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any applications received after the Dealing Deadline for a particular Dealing Day will be processed on the following Dealing Day unless, in exceptional circumstances, the Directors in their absolute discretion otherwise determine to accept one or more applications received after the Dealing Deadline for processing on that Dealing Day provided that such application(s) have been received prior to the Valuation Point for the particular Dealing Day.

Initial applications should be made using an original Application Form obtained from the Administrator or the Distributor but may, if the Administrator so determines, be made by facsimile with originals to follow via post as soon as possible subject to prompt transmission to the Administrator of the original signed Application Form and such other papers (such as documentation relating to money laundering prevention checks) as may be required by the Directors or their delegate. Subsequent applications to purchase Shares following the initial subscription may be made to the Administrator by facsimile or written communication (excluding telephone orders) or such other means as may be permitted by the Directors and in accordance with the requirements of the Central Bank (which, for the avoidance of doubt, shall exclude electronic e-mail) without a requirement to submit original documentation and such applications should contain such information as may be specified from time to time by the Directors or their delegate. Amendments to a Shareholder's registration details and payment instructions will only be made following receipt of original written instructions from the relevant Shareholder.

Fractions

Subscription monies representing less than the subscription price for a Share will not be returned to the investor. Fractions of Shares will be issued where any part of the subscription monies for Shares represents less than the subscription price for one Share, provided however, that fractions shall not be less than .0001 of a Share.

Subscription monies, representing less than .0001 of a Share will not be returned to the investor but will be retained by the Fund in order to defray administration costs.

Method of Payment

Subscription payments net of all bank charges should be paid by CHAPS, SWIFT or telegraphic or electronic transfer to the bank account specified in the Application Form. Other methods of payment are subject to the prior approval of the Directors. No interest will be paid in respect of payments received in circumstances where the application is held over until a subsequent Dealing Day.

Currency of Payment

Subscription monies are payable in the currency of the Share Class. However, the Sub-Fund may accept payment in such other currencies as the Fund may agree at the prevailing exchange rate quoted by the Administrator. The cost and risk of converting currency will be borne by the investor.

Timing of Payment

Subject as set out below, payment in respect of subscriptions must be received in cleared funds by the Administrator no later than four (4) Business Days after the end of the Initial Offer Period or the relevant Dealing Day (as the case may be).

With effect from 1st July, 2020, payment in respect of subscriptions must be received in cleared funds by the Administrator no later than three (3) Business Days after the end of the Initial Offer Period or the relevant Dealing Day (as the case may be).

The Fund reserves the right to defer the issue of Shares until receipt of cleared subscription monies by the Fund.

If payment in cleared funds in respect of a subscription has not been received by the relevant time, the Fund or its delegate may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the investor interest at the 7 day London Interbank Offer Rate as fixed by the British Banking Association (LIBOR) + 1%, which will be paid into the Sub-Fund together with an administration fee which shall be representative of the custody fees incurred as a result of the late payment (which shall be at normal commercial rates). The Fund may waive either of such charges in whole or in part. In addition, the Fund has the right to sell all or part of the investor's holding of Shares in the Sub-Fund or any other sub-fund of the Fund in order to meet such charges.

Confirmation of Ownership

Confirmation of each purchase of Shares will be sent to Shareholders within 24 hours of the purchase being made. Title to Shares will be evidenced by the entering of the investor's name

on the Fund's register of Shareholders and no certificates will be issued.

10. Redemption of Shares

Requests for the redemption of Shares should be made to the Administrator on behalf of the Fund by facsimile or written communication (excluding telephone orders) or such other means as may be permitted by the Directors (which, for the avoidance of doubt, shall exclude electronic e-mail) and should include such information as may be specified from time to time by the Directors or their delegate.

Redemption requests should be sent to the Administrator to be received by the Dealing Deadline for the relevant Dealing Day. Requests for redemption received prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any requests for redemption received after the Dealing Deadline for a Dealing Day will be processed on the next Dealing Day unless, in exceptional circumstances, the Directors in their absolute discretion otherwise determine to accept one or more requests received after the Dealing Deadline for processing on that Dealing Day provided that such request(s) have been received prior to the Valuation Point for the particular Dealing Day.

Redemption requests will only be accepted for processing where cleared funds and completed documents including documentation relating to money laundering prevention checks are in place from original subscriptions. No redemption payment will be made from an investor holding until the original subscription application form and all documentation required by or on behalf of the Fund (including any documents in connection with anti-money laundering procedures) has been received from the investor and the anti-money laundering procedures have been completed.

If the number of Shares to be redeemed on any Dealing Day equals one tenth or more of the total number of Shares of the Sub-Fund in issue on that day, the Directors shall have the right to limit redemption, as more particularly set out under the heading "Redemption of Shares" in the Prospectus.

The minimum value of Shares which a Shareholder may redeem in any one redemption transaction is the Minimum Transaction Size specified in the relevant Class Supplement. In the event of a Shareholder requesting a redemption which would, if carried out, leave the Shareholder holding Shares having a Net Asset Value less than the Minimum Holding, the Fund may, if it thinks fit, redeem the whole of the Shareholder's holding.

Method of Payment

Redemption payments will be made to the bank account detailed on the Application Form or as subsequently notified to the Administrator in writing. Redemption payments following processing of instructions received by facsimile will only be made to the account of record of a Shareholder.

Currency of Payment

Shareholders will normally be repaid in the currency of their Share Class. If, however, a

Shareholder requests to be repaid in any other freely convertible currency, the necessary foreign exchange transaction may be arranged by the Administrator (at its discretion) on behalf of and for the account, risk and expense of the Shareholder.

Timing of Payment

Subject as set out below, redemption proceeds in respect of Shares will normally be paid within four (4) Business Days after the relevant Dealing Day, provided that all the required documentation has been furnished to and received by the Administrator.

With effect from 1st July, 2020, redemption proceeds in respect of Shares will normally be paid within three (3) Business Days after the relevant Dealing Day, provided that all the required documentation has been furnished to and received by the Administrator.

Withdrawal of Redemption Requests

Requests for redemption may not be withdrawn save with the written consent of the Fund or its authorised agent or in the event of suspension of calculation of the Net Asset Value of the Fund or the relevant Class.

Compulsory/Total Redemption

Shares of the Sub-Fund may be compulsorily redeemed and all the Shares may be redeemed in the circumstances described in the Prospectus under the sub-headings "Compulsory Redemption of Shares" and "Total Redemption".

11. Conversion of Shares

Subject to the Minimum Subscription and Minimum Holding requirements of the relevant Sub-Fund or Class, Shareholders may request conversion of some or all of their Shares in one Sub-Fund or Class to Shares in another Sub-Fund or Class or another Class in the same Sub-Fund in accordance with the procedures specified in the Prospectus under the heading "Conversion of Shares".

12. Suspension of Dealing

Shares may not be issued, redeemed or converted during any period when the calculation of the Net Asset Value of the Sub-Fund or the relevant Class is suspended in the manner described in the Prospectus under the heading "Suspension of Valuation of Assets". Applicants for Shares and Shareholders requesting redemption and/or conversion of Shares will be notified of such suspension and, unless withdrawn, applications for Shares will be considered and requests for redemption and/or conversion will be processed as at the next Dealing Day following the ending of such suspension.

13. Fees and Expenses

The Sub-Fund shall bear (i) the fees and expenses relating to the establishment of the Sub-Fund, estimated to amount to Euro 15,000, which may be amortised over the first five Accounting Periods of the Sub-Fund or such other period as the Directors may determine and in such manner as the Directors in their absolute discretion deem fair; and (ii) its attributable portion of the fees and operating expenses of the Fund. The fees and operating expenses of the Fund are set out in detail under the heading "Fees and Expenses" in the Prospectus. The fees and expenses relating to the establishment of the Fund have been fully amortised.

Investment Management Fees

An Investment Management Fee may be payable out of the assets of the Sub-Fund at a rate per annum (as set out in the relevant Class Supplement) of the daily Net Asset Value of each Class of Shares, before deduction of fees, expenses, borrowings and interest. The Investment Management Fee is calculated and accrued daily and payable quarterly in arrears. The Investment Manager shall be entitled to be reimbursed by the Sub-Fund for reasonable out of pocket expenses incurred by it and any VAT on fees and expenses payable to or by it. The Investment Manager shall pay, out of its own fee, the fees of any Sub-Investment Manager.

The Investment Manager may also be entitled to an Incentive Fee payable in arrears in respect of the Sub-Fund, as specified in the relevant Class Supplement.

Sales Charge

A sales charge of up to 5% of the Net Asset Value per Share held by a Shareholder may also be charged to Shareholders. Such commission shall be payable to the relevant Distributor. The sales charge (if any) for each Class of Share is set out in the relevant Class Supplement.

Redemption Fee

The redemption price per Share shall be the Net Asset Value per Share. It is not the current intention of the Directors to charge a redemption fee generally. The Directors will give not less than three months' notice to Shareholders of their intention to introduce a redemption fee generally. However, the Directors are empowered to charge a redemption fee of up to 3% as set out under the section headed "Abusive Trading Practices/Market Timing" on page 68 of the Prospectus and may exercise their discretion in this respect if they have reason to believe that any Shareholder requesting redemption is attempting any form of arbitrage on the yield of Shares in the Fund.

In the event of a sales charge and/or a redemption fee being charged, Shareholders should view their investment as medium to long term.

14. Dividends and Distributions

The Articles of Association of the Fund empower the Directors to declare dividends in respect of any Shares in the Fund out of the net income of the Fund whether from dividends, interest or

otherwise and/or net realised gains (i.e. realised gains net of realised and unrealised losses) or net realised and unrealised gains (i.e. realised and unrealised capital gains net of all realised and unrealised losses), subject to certain adjustments.

It is the intention of the Fund to enter into the HM Revenue and Customs (“HMRC”) reporting fund regime for certain Classes (Class I Sterling, Class I USD, Class F Sterling, Class F USD, Class A Sterling and Class A USD) of the Sub-Fund. Entry into the reporting fund regime will be made for accounting periods commencing from 1 January, 2014, or whenever the Class launches, if later. The Directors intend to take all practicable steps, consistent with applicable laws, regulatory requirements and investment objectives and policies of the Sub-Fund, to facilitate certification as a reporting fund and to retain the reporting fund status for subsequent periods. Please see the section headed “United Kingdom Taxation” on page 92 of the Prospectus for further information.

The amount to be distributed in respect of Class SD JPY Hedged and Class JD JPY Shares in respect of each Distribution Period shall be determined by the Directors in consultation with the Investment Manager within the amount available for distribution provided that any amount which is not distributed in respect of such Distribution Period may be carried forward to the next Distribution Period. Distributions not claimed within six years from their due dates will lapse and revert to the Sub-Fund.

It is not the current intention of the Directors to make distributions in respect of Class A, Class F, Class I and Class Z Shares of the Sub-Fund. The income, earnings and gains of the Sub-Fund attributable to such Classes will be accumulated and reinvested on behalf of Shareholders of Class A, Class F, Class I and Class Z Shares of the Sub-Fund.

Distributions, if applicable, will be paid by cheque or warrant or bank transfer at the expense of Shareholders, or, upon election by a Shareholder, may be reinvested in additional Shares.

The Directors may at any time determine to change the policy of the Sub-Fund with respect to distribution. If the Directors so determine, full details of any such change will be disclosed in an updated Prospectus or Supplement and all Shareholders will be notified in advance of such change becoming effective.

15. Transfer Restrictions

Shares in the Sub-Fund have not been and will not be registered under the Securities and Exchange Law of Japan or with any securities regulatory authority in Japan. Shares may not be offered or sold, directly or indirectly in Japan or to or for the benefit of any resident of Japan, except as permitted by applicable Japanese law.

16. Taxation

Potential investors and Shareholders are referred to the section headed “Taxation” on page 84 of the Prospectus which contains summaries of Irish, United Kingdom and German taxation law and practice relevant to the transactions contemplated in the Prospectus. As this Supplement forms part of the Prospectus, potential investors and Shareholders are advised to read this

section of the Supplement in conjunction with the section headed "Taxation" contained in the Prospectus.

United Kingdom Taxation

The attention of potential United Kingdom resident Shareholders is drawn to the summary of certain aspects of the anticipated tax treatment in the United Kingdom as set out below.

It is the intention of the Fund to enter into the HMRC reporting fund regime for certain Classes (currently Class I Sterling, Class I US\$, Class F Sterling, Class F US\$, Class A Sterling and Class A US\$) of the Sub-Fund. Entry into the reporting fund regime will be made for accounting periods commencing from 1 January, 2014, or whenever the Class launches, if later. The Directors intend to take all practicable steps, consistent with applicable laws, regulatory requirements and investment objectives and policies of the Sub-Fund, to facilitate certification as a reporting fund and to retain the reporting fund status for subsequent periods. Please see the section headed "United Kingdom Taxation" on page 92 of the Prospectus for further information.
