Risk Considerations

INVESTMENT INVOLVES RISKS. The value of the Fund can be volatile and investors may not get back the amount originally invested. Past performance is not indicative of future results.

- Franklin Mutual Global Discovery Fund invests principally in equity securities of companies of any nation, sovereign debts and participations in foreign government debts that the Investment Manager believes are available at market prices less than their fundamental value, as well as mid- and large-cap companies with a market capitalisation around or greater than USD 1.5 billion.
- The Fund is subject to debt securities risk, market risk, equity risk, credit risk, preferred securities risk, convertible securities risk, restructuring companies risk, foreign currency risk, liquidity risk, valuation risk, derivative instruments risk, swap agreements risk, volatility risk, counterparty risk, Chinese market risk and Europe and Eurozone risk.
- Security lending transactions may involve the risk that the borrower may fail to return the securities lent out in a timely manner and the value of the collateral may fall below the value of the securities lent out, which may result in a substantial loss to the Fund.
- The Fund may at its discretion pay dividends out of the capital or out of gross income of the Fund while paying all or part of the Fund's fees and expenses out of the capital of the Fund, which results in effectively paying dividends out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.
- Investors should not invest based on this marketing material alone. Offering documents should be read for further details, including the risk factors. Before you decide to invest, you should make sure the intermediary has explained to you that the Fund is suitable to you.
