**Quick facts (con't)**

3. Subject to prior approval from the SFC, the Fund Manager may amend the above-mentioned dividend policy in respect of the R6 Class Units in the future by giving the affected Unitholders not less than one (1) month's notice of such changes.

**Financial year end of the Sub-Fund:** 31 December

**Min. investment:** HK\$ 10,000 initial, HK\$ 5,000 additional

**What is this product?**

The Sub-Fund is a fund constituted in the form of a unit trust.

**Objectives and Investment Strategy**
**Objective**

To provide a return consisting of income and capital growth over medium to long term.

**Investment Strategy**

The Sub-Fund will seek to achieve its investment objective by primarily investing at least 70% of its assets in Hong Kong debt securities (rated or unrated<sup>#</sup>), including (but not limited to) sovereign and/or non-sovereign, floating and/or fixed, of varying maturities issued by the government or by multi-lateral agencies or by companies, and denominated in Hong Kong dollars. The types of debt securities that the Principal Hong Kong Bond Fund primarily intends to invest into are government bonds, corporate bonds/debentures, floating rate note, bills, commercial paper and certificates of deposit. In addition, the Sub-Fund will invest not more than 30% of its assets in other short-term investments such as bills and deposits or may hold cash.

The Sub-Fund will not enter into any financial derivative instruments, including financial futures contracts or financial options contracts.

<sup>#</sup> Investment in unrated debt securities is only limited to those issued by the "exempt authority" within the definition of Section 7 of Schedule 1 to the MPF Regulation.

**Investment Mix as at 31 December 2019**

1	Hong Kong Dollar Bonds	88.5%
2	US Dollar Bonds	9.8%
3	Cash and Time Deposit	1.6%

**Use of derivatives / investment in derivatives**

The Sub-Fund will not use derivatives for any purposes.

### What are the key risks?

**Investment involves risks. Please refer to the Explanatory Memorandum for details including the risk factors.**

- 1. Investment risk** — The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors and therefore your investment in the Sub-Fund may suffer losses. There is no guarantee of the repayment of principal.
- 2. Interest rate risk** — Interest rate movements have an impact on the valuation of debt securities and hence, the NAV of a Sub-Fund. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.
- 3. Credit/counterparty risk** — The Sub-Fund may be exposed to credit and counterparty risk of issuers of the debt securities that the Sub-Fund may invest in. If the issuer of debt securities in which the Sub-Fund invested in defaults or suffers insolvency, such securities may become worthless and the performance of the Sub-Fund will be adversely affected. Further, investments in debt securities which involve a counterparty are subject to the credit risk or default risk of the counterparty. This may adversely affect the NAV of the Sub-Fund and investors may as a result suffer loss.
- 4. Downgrading risk** — The credit rating of a debt securities or its issuer may subsequently be downgraded. In the event of such downgrading, the value of the Sub-Fund may be adversely affected. The Manager may not be able to dispose of the debt securities that are being downgraded.
- 5. Dividend paid effectively out of capital** — In respect of the R6 Class Units, the Fund Manager may at its discretion pay dividend out of gross income while paying all or part of the fees and expenses attributable to the R6 Class Units out of the capital of such Units, resulting in an increase in distributable income for the payment of dividend in respect of the R6 Class Units and therefore, the Sub-Fund may effectively pay dividend out of capital. This amounts to a return or withdrawal of part of a Unitholder's original investment in the R6 Class Units or from capital gains attributable to that original investment. Any distributions involving payment of dividend effectively out of the capital of the R6 Class Units may result in an immediate reduction of its NAV per unit.
- 6. Risk associated with debt securities rated below investment grade or unrated** — The Sub-Fund may invest in debt securities rated below investment grade (as determined by credit rating agency(ies) approved by the MPF Authority) or unrated, as may be allowed under the MPF Regulation. Such securities are generally subject to lower liquidity, higher volatility and greater risk of loss of principal and interest than high-rated debt securities, which may adversely impact the returns of the securities and in turn the net asset value of the Sub-Fund.

### How has the Sub-Fund performed?

Past performance information is not indicative of future performance. Investors may not get back the full amount invested.

The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.

These figures show by how much the Retail Class Units increased or decreased in value during the calendar year being shown. Performance data has been calculated in HKD including ongoing charges and excluding subscription fee and redemption fee you might have to pay.

Where no past performance is shown there was insufficient data available in that year to provide performance.

Fund launch date: 21 June 2011

Retail Class launch date: 13 October 2011

*Retail Class is selected as the most appropriate representative unit class as it has the longest track record.*

### Is there any guarantee?

The Sub-Fund does not have any guarantees. You may not get back the full amount of the money you invest.
