

## Authorised Unit Trust Feeder- Retail (Unbundled) - 31 March 2023

TM home investor feeder fund is the Authorised Unit Trust Feeder for UK's first Financial Conduct Authority regulated residential Property Authorised Investment Fund (PAIF). This factsheet is for information only. It is not designed to provide advice on the suitability of an investment for your personal financial situation. Investors should read the Key Investor Information Document or Prospectus which are available on [www.homeinvestor.fund](http://www.homeinvestor.fund) or by contacting [info@hearthstone.co.uk](mailto:info@hearthstone.co.uk).

### Investment Objective Summary

The Fund invests in private rented sector housing across mainland UK regions and aims to capture UK house price growth and provide an element of income return. The property investment manager, Hearthstone Asset Management Limited, uses quantitative asset allocation and qualitative regional stock selection to build a portfolio of assets reflecting the distribution of UK mainland housing stock which are let under assured shorthold tenancies (AST's) and corporate lets. Investment returns comprise capital growth and rental income. The e.surv Acadata House Price Index is used for performance comparisons only. It is not a target benchmark and the fund is not constrained by it. This index has been chosen as a comparator benchmark as it is based upon actual sales completed and is mix-adjusted.

Please see the Key Investor Information Document or Prospectus for the full Investment Objective and Policy wording, and on the choice of performance comparator.

### Property Investment Manager's commentary

Net of charges and with income reinvested the Fund has returned between 2.71% and 3.25% in the 12 months to 31st March, depending on share class. Its property valuations were largely unchanged by the Standing Independent Valuer during the month; two exceptions being a detached house in Peterborough which was increased by £10,000 to £360,000, and a semi-detached house in Erdington, West Midlands increasing by £5,000 to £160,000.

Rent collection remains high, with 99.3% of rents due being received over the past 12 months. Rental growth has averaged 6.3% over the past year – existing tenancies increasing by 4.7% and re-lets of vacated properties increasing by 9.1%. By comparison, the ONS Rental Index reports 4.7% annual increase in its March release. We remain focused to work with residents to ensure high rent collection and low voids.

e.surv Acadata's House Price Index shows a 3.6% annual increase in average transaction prices for March. They note that despite increased interest rates and inflationary pressures, there is evidence that buyers are shopping for smaller/cheaper properties having reassessed their budgets or, in Acadata's own words, "are cutting their cloth in terms of the type of property they expect to purchase", and that their "surveyor and valuer research 'on the ground' last month supports this view of price growth reduction rather than falling prices".

\* The Standing Independent Valuer (SIV) attached a material valuation uncertainty clause to the Spectrum flats in Manchester in April 2021 following a failed EWS1 (external wall safety) assessment. These assessments were introduced by the government to improve fire safety of high-rise buildings including external cladding. As of the end of February there was no clarity as to potential cost and timing of any remedial works, or whether this may require funding from leaseholders, the clause remains in place. Consequently, the SIV states less certainty and a higher degree of caution should be attached to its valuation of these units, and that it may take longer than the usual 3-6 month marketing period should a decision be made to sell them individually. However, the original developer of the flats has recently signed the Government's Buildings Safety Repairs pledge and stated its intent to work with the site's Residents Management Company to agree a schedule of remediation works. All residents are aware of the situation and additional fire safety measures have been implemented. The 17 flats held by the fund, of which 12 are in a building below 18 metres, are part of a larger development of c. 600 apartments. Since a Material Valuation Uncertainty clause has been attached to these properties, the 30th June 2022 financial statements were qualified.
