The Board of Directors (the "Board") is pleased to present the Audited Annual Report of JPMorgan Investment Funds (the "Fund") for the year ended 31 December 2020, and considers that taken as a whole they are fair and balanced and provide the information necessary for shareholders to assess the Fund's position and performance.

Structure of the Fund

The Fund is a variable capital open-ended investment company, organised as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed JPMorgan Asset Management (Europe) S.à r.l. (JPMAME) as Management Company of the Fund. The Fund is organised as an "umbrella" with a number of Sub-Funds each of which has its own investment objective, policies and restrictions.

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, on undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

The Fund currently has 18 Sub-Funds. All of the Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and a number of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions: Austria, Belgium, Chile, Croatia, Curacao and Sint Maarten, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Italy, Jersey, Korea, Liechtenstein, Macau, The Netherlands, Norway, Poland, Portugal, Singapore, Slovakia, Spain, Sweden, Switzerland, Taiwan and the United Kingdom.

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010, as amended, relating to undertakings for collective investment.

A management agreement between the Fund and JPMorgan Asset Management (Europe) S.à r.l. sets out the matters over which the Management Company has authority under Chapter 15 of the Law of 17 December 2010. This includes management of the Fund's assets and the provision of administration, registration, domiciliation agent and marketing services. All other matters are reserved for approval by the Board and a schedule setting out such matters for clarity is in place between the Board and the Management Company. The matters reserved for the Board include determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving key investment and financial data, including the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary.

Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board requests, and receives, reports from, amongst others, the Management Company, the investment managers, risk management as well as proposals for changes to existing Sub-Funds or proposals to launch new ones as appropriate. Senior representatives of each of these functions attend Board meetings by invitation to enable the Directors to question the reports presented to them.

The Directors take decisions in the interests of the Fund and its shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Fund and its shareholders. The subject of conflicts of interest is documented in the Prospectus and the Management Company's policy on conflicts of interest is available for inspection on the website:

https://am.jpmorgan.com/content/dam/jpm-am-aem/emea/lu/en/communications/lux-communication/conflicts-of-interest-ce-en.pdf

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

The Board is chaired by Mr. Saunders and consists of five Independent Non-Executive Directors, one Non-Executive Director and two Executive Directors.

The Board defines an Executive Director as someone who is employed by JPMorgan Chase & Co or any of its affiliates, a Non-Executive Director as someone who has a business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates, and an Independent Non-Executive Director as someone who is free of any business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates. All Board meetings require a majority of Non-Executive Directors to be in attendance.

In appointing a Director the Board takes into account the relative mix and composition of the Board, which as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the Fund's business.

The Board does not limit the number of years of Directors' service and it does take into account the nature and requirements of the fund industry and of the Fund's business when making recommendation to shareholders that Directors be elected. The terms of each Director's appointment are set out in a contract for services and these are available at the Fund's registered office for inspection.

At the forthcoming Annual General Meeting shareholders are being asked to consider appointing Marion Mulvey to the Board as an Executive Director.

Ms Mulvey is Co-CAO and Head of Asset Management Operations in EMEA for J.P. Morgan Asset Management. She also has global responsibility for Fee Billing, Equities Middle Office, Multi-Asset Solutions Middle Office and Distribution Middle Office Operations.

Ms Mulvey joined J.P. Morgan in 2014 from Citigroup, where her last role was as Product Head for the Alternatives Fund Administration business in EMEA. She spent 13 years with that business in total and also held a number of senior operational roles including Head of Fund Accounting in EMEA. Previously, Ms Mulvey worked at Salomon Smith Barney for 3 years, managing the European Equity Product Control team.

She trained as a Chartered Accountant holding roles both in private practice and as an Audit Manager in the financial services audit department at KPMG.

Ms Mulvey is a Fellow of the Institute of Chartered Accountants in Ireland. She is also a member of the Institute of Directors, holding a Certificate and Diploma in Company Direction. Ms Mulvey is currently a Director of several JPMorgan managed Luxembourg funds and also several UK legal entities.

Induction and Training

All new Directors will receive an induction incorporating relevant information regarding the Fund and their duties and responsibilities as a Director. In addition, the Board takes active steps to keep up to date with developments relevant to the Fund and have ensured that a formal training programme is in place.

Board of Directors' Report (continued)

Board Evaluation

The Board carries out a biennial review of its performance.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. For the year ended 31 December 2020 the Chairman is paid EUR 57,000 per annum and the other Directors EUR 46,000 per annum pro rata apart from the Executive Directors who have agreed to waive their remuneration. No element of the remuneration paid by the Fund to the Directors is performance related.

Board Meetings and Committees

The Board meets quarterly but if necessary additional meetings will be arranged. Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit or Remuneration Committee, but has established an AML Committee in October 2020. In addition, where there are specific matters that need further consideration, a Sub-Committee of the Board could be formed for the specific purpose. Such circumstances could be where the Board requests some amendments to the Prospectus and where it is not appropriate to wait till the next quarterly Board meeting for this to be approved. These Sub-Committee meetings are usually formed of a minimum of two Directors.

There were eight Board meetings held during the year. Four of these were quarterly Board meetings where, amongst other matters, the agenda included those items highlighted under the section above called 'Role and Responsibility of the Board' and four were ad hoc Board meetings. In addition to the Board meeting where the Auditors present the report on the audit of the Fund accounts, the Non-Executive Directors also meet with them annually without the Executive Directors being in attendance.

Internal Control

Investment management and all administrative services are provided by the Management Company and custody of assets is provided by J.P. Morgan Bank Luxembourg S.A. The Board's system of internal control therefore mainly comprises monitoring the services provided by the Management Company and the Depositary, including the operational and compliance controls established by them to meet the Fund's obligations to shareholders as set out in the Prospectus, Articles of Incorporation as well as all relevant regulations. The Management Company formally reports to the Board on a quarterly basis on the various activities it is responsible for and in addition shall inform the Board without delay of any material administrative or accounting matters.

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular the Board has adopted the ALFI Code of Conduct (the "Code") which sets out principles of good governance. These principles are set out below:

- 1. The Board should ensure that high standards of corporate governance are applied at all times;
- 2. The Board should have good professional standing and appropriate experience and to ensure that it is collectively competent to fulfil its responsibilities;
- 3. The Board should act fairly and independently in the best interests of the investors;
- 4. The Board should act with due care and diligence in the performance of their duties;
- 5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents;
- 6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled:
- 7. The Board should ensure that an effective risk management process and appropriate internal controls are in place:
- 8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
- 9. The Board should ensure that shareholder rights are exercised in a considered way and in the best interests of the Fund; and
- 10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed.

The Board considers that the Fund has been in compliance with the principles of the Code in all material aspects throughout the financial year ended 31 December 2020. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Proxy Voting Policy

The Board delegates responsibility for proxy voting to the Management Company. The Management Company manages the voting rights of the shares entrusted in a prudent and diligent manner, based exclusively on the reasonable judgement of what will best serve the financial interests of clients. So far as is practicable, the Management Company will vote at all of the meetings called by companies in which they are invested.

A copy of the proxy voting policy is available from the Fund's registered office upon request or on the website:

https://am.jpmorgan.com/uk/institutional/corporate-governance

Environmental Social Governance ("ESG")

 $Certain \, Sub-Funds \, of \, JPMorgan \, Investment \, Funds \, have \, included \, ESG \, as \, part \, of \, their \, investment \, policy. \, Details \, of \, these \, are \, included \, within \, the \, prospectus.$

Directors and Officers Indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. To protect shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part.

Independent Auditor

PricewaterhouseCoopers, Société coopérative, has been the Fund's Auditor since December 1994. The provision of audit services was last put to competitive tender in 2016. The Board reviewed the services of PwC in 2016 and decided that, subject to any other influencing factor, they should continue to be proposed to the Shareholders to be appointed as Auditor.

Board of Directors' Report (continued)

Annual General Meetings

The next Annual General Meeting of the Fund will be held on 23 April 2021 at the Registered Office of the Fund to consider matters relating to the year ending on 31 December 2020. At this meeting shareholders will be requested to consider the usual matters at such meetings including:

- 1. The adoption of the financial statements and approval of the allocation of the results;
- 2. The approval of Directors' fees;
- 3. The election of certain Directors:
- 4. The election of the Auditor; and
- 5. The discharge of Directors duties.

No special business is being proposed by the Board.

Discharge of Directors

One of the resolutions in the AGM is, as required under Luxembourg Law, for shareholders to vote on the discharge the directors of their duties for the fiscal year in question. This discharge is only valid where the annual accounts contain no omission or false information concealing the real financial situation of the Fund.

Privacy Policy

The Management Company complies with a privacy policy that has been issued by J.P. Morgan Asset Management which can be accessed at www.jpmorgan.com/emea-privacy-policy. This policy was updated during the year to comply with the General Data Protection Regulation.

Significant Events during the Year

The Board agreed the following corporate actions relating to Sub-Funds which were notified to clients as appropriate:

Prospectus Updates

With effect from July 2020 the Prospectus was updated to include the following:

The P Share Class was removed following their liquidation or merger as follows:

• JPMorgan Investment Funds - Global High Yield Bond Fund - Shareholders were informed of this merger on 11 May 2020.

With effect from October 2020 the Prospectus was updated to include the following:

The (pct) Share Class was re-purposed to the (icdiv) Share Class into an annual fixed rate monthly paying Share Class.

a) Covid-19

From January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of Covid-19. The outbreak of Covid-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. There has been a significant correction in the financial markets over the months from February 2020 to May 2020. The effects of Covid-19 have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the market.

b) Swing pricing adjustment

Further to the release by the CSSF on 20 March 2020 of an update to its Swing Pricing FAQ setting the conditions under which a UCI could increase the applied swing factor beyond the maximum level laid down in the fund prospectus, the Board of Directors of the Fund resolved, due to the exceptional market circumstances caused by the Covid-19 outbreak, to allow an increase of the maximum swing factor applied to sub-funds from 2% (as currently stated in the prospectuses) up to a maximum of 5% if necessary.

Board of Directors Luxembourg, 30 March 2021

Investment Managers' Report

JPMorgan Investment Funds Investment Managers' report, 12 months to 31 December 2020

Global markets had a turbulent year. The outbreak of Covid-19 escalated from a regional epidemic at the start of 2020 to a pandemic by the end of the first quarter. Equities saw one of the deepest and fastest corrections since the Great Depression. Additionally, crude oil prices plunged to levels last seen in 2002, as OPEC and Russia failed to reach an agreement on reducing oil supply even as demand fell sharply. Toward the end of March, financial markets recovered somewhat as the countries rushed to approve record amounts of fiscal and monetary stimulus, which precipitated a similarly unprecedented recovery in stock markets, as the growth in infection rates in several regions started to fall and government stimulus measures came into effect.

European and Global Equity

In the first half of the year, equity markets experienced elevated volatility as infection levels fluctuated, then investors seeking growth drove the S&P 500 index to record highs during August, led by technology stocks that were viewed as potential winners of the rapidly changing economic and social environment brought about by national lockdowns that forced people and businesses to look for new ways of operating. In November, global equities rallied as the approval of the first vaccines led to investor hopes that the end of pandemic was in sight. Joe Biden's victory in the U.S. presidential election, a second round of fiscal stimulus from the U.S. government and a final agreement over Brexit also lifted investor sentiment in the final months of 2020. While growth stocks generally had one of their best years in terms of returns, the rally at the end of the year provided the first sustained period of value outperformance over growth.

Against this backdrop, the JPMorgan Investment Funds - Europe Select Equity Fund outperformed their respective benchmark indexes for the year. However, the JPMorgan Investment Funds - Global Dividend Fund underperformed their benchmarks.

High Yield

It was a historic year across assets classes and high yield was no exception. There was a dramatic sell-off in the first quarter, a substantial recovery through the summer months, a few sideways months during the fall before another significant rally to finish the year. During March the market was historically dislocated, with extreme bid-ask spreads and unprecedented illiquidity. With the Fed's announcement on April 9th, stating that high yield ETFs and select BB fallen angels were eligible for secondary market purchases, the market began to rally significantly and the new issuance market reopened to most high yield issuers, alleviating defaults compared to previous downturns. High yield bonds finished the year with estimated mutual fund inflows of USD44 billion and gross issuance of USD450 billion, both record highs. The default rate ended 2020 at 6.2%, below consensus estimates during the spring but above the long term average of 3.5%.

The JPMorgan Investment Funds - Global High Yield Bond Fund returned 4.45%, underperforming its benchmark index. At the end of December, the Sub-Fund's yield-to-worst was 3.37% compared with the benchmark's 4.21%. The average credit quality rating of the Sub-Fund was one notch higher at BB-, compared with the benchmark at B+.

Outlook

We continue to focus on the fundamentals of the economy and company earnings. Our core analysts' estimates for S&P 500 earnings currently project +23% growth for 2021. While subject to revision, this forecast reflects our expectations for a very weak year yet ultimate recovery in the underlying economy and includes our best analysis of earnings expectations. Unemployment and other uncertainties, such as fiscal stimulus and Covid-19 vaccine distribution will be integral to investor sentiment moving forward, which should continue to be supportive on the back of expectations of an economic recovery.

While we believe the economy will recover, it will first need time to heal, and hence we remain balanced and continue to monitor incremental risks that could represent headwinds for markets. In equities, we continue to increase our exposure to quality, focus on high conviction stocks, and take advantage of market dislocations for compelling stock selection opportunities.

We believe corporate earnings and cash flows will continue their path to recovery through 2021 as the global population is vaccinated. In bonds, default rates will likely continue to decline from second half 2020 highs by the end of 2021. We expect support from central banks and improving investor sentiment to provide investors with reasonable value going forward.

Audit Report

To the Shareholders of

JPMorgan Investment Funds

Our opinion

In our opinion, the accompanying Summary Financial Statements of JPMorgan Investment Funds (the "Fund") are consistent, in all material respects, with the audited financial statements in accordance with the basis of preparation as disclosed in note 21 to the Summary Financial Statements.

The Summary Financial Statements

The Summary Financial Statements for the authorised sub-funds in Hong Kong derived from the audited financial statements for the year ended 31 December 2020 comprise:

- the Combined Statement of Net Assets as at 31 December 2020,
- the Schedule of Investments as at 31 December 2020,
- the Combined Statement of Operations and Changes in Net Assets for the year then ended,
- · and the Notes to the Summary Financial Statements which include a summary of significant accounting policies.

The Summary Financial Statements do not contain all the disclosures required by Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements. Reading the Summary Financial Statements and the auditor's report thereon, therefore, is not a substitute for reading the audited financial statements of the Fund and the auditor's report thereon. The Summary Financial Statements and the audited financial statements do not reflect the effects of events that occurred subsequent to the date of our report on the audited financial statements.

The audited financial statements and our report thereon

We expressed an unmodified audit opinion on the audited financial statements in our report dated 30 March 2021.

Responsibility of the Board of Directors of the Fund for the Summary Financial Statements

The Board of Directors of the Fund is responsible for the preparation of the Summary Financial Statements in accordance with the basis of preparation as disclosed in note 21 to the Summary Financial Statements.

Responsibility of the "Réviseur d'entreprises agréé"

Our responsibility is to express an opinion on whether the Summary Financial Statements are a fair summary of the audited financial statements based on our procedures, which were conducted in accordance with International Standards on Auditing (ISA) 810, Engagements to report on summary financial statements, as adopted for Luxembourg by the "Institut des Réviseurs d'Entreprises".

PricewaterhouseCoopers, Société coopérative Represented by Luxembourg, 27 April 2021

Régis Malcourant

Certain of the Sub-Funds of the Fund are not authorised for offer or distribution in or from Hong Kong. Accordingly, no reference is made to these Sub-Funds in this audited annual report. The attention of the investors is drawn to the fact that certain figures in this audited annual report are expressed on a consolidated basis and, thus, include the assets of those Sub-Funds which are not registered in Hong Kong.

[#] Share Class closed as at the end of the year.

Notes to the Financial Statements As at 31 December 2020

1. Organisation

JPMorgan Investment Funds (the "Fund" or the "SICAV") is an investment company incorporated on 22 December 1994 under the name J.P. Morgan Investment Funds. The name of the SICAV was changed to JPMorgan Fleming Investment Funds on 19 November 2001 and then to JPMorgan Investment Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a Société d'Investissement à Capital Variable (SICAV). As at 31 December 2020, it comprises 18 Sub-Funds each relating to a separate investment portfolio consisting of securities, cash and other instruments.

On 12 September 2005, JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company. From 1 July 2011, JPMorgan Asset Management (Europe) S.à r.l. is acting as a Chapter 15 Management Company under the Luxembourg Law of 17 December 2010, as amended, and complies with UCITS regulations.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 49 663.

Each Sub-Fund may contain A, C, C2, D, F, I, I2,S2, T, V and X Share Classes. These Share Classes may differ in the minimum subscription amount, minimum holding amount, currency and/or eligibility requirements, the fees and expenses, and the dividend policy applicable to them. Certain Share Classes may charge a Performance Fee and are redenominated by the inclusion of "(perf)" in the name of the Share Class.

Within each Sub-Fund, individual Share Classes may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Share Class is indicated by a suffix in the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investments.

a) Investment Valuation

Transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors. As at year end, securities which were fair valued are identified with an asterisk (*) in the Schedule of Investments.

 $Shares\ or\ Units\ in\ UCITS\ or\ other\ UCIs\ are\ valued\ at\ the\ latest\ available\ price\ or\ net\ asset\ value,\ as\ reported\ or\ provided\ by\ such\ undertakings\ or\ their\ agents.$

Liquid assets and money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis.

The Financial Statements are presented on the basis of the net asset values of the Sub-Funds calculated on 31 December 2020 except for JPMorgan Investment Funds - Europe Select Equity Fund which was calculated on 30 December 2020. In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

In managing the daily priced funds, the Board's principle is to ensure that portfolios are appropriately valued to give equal treatment to Shareholders and in this context the Management Company has implemented a Fair Value Committee to address any potential valuation concerns. In line with this, no adjustments were made on 31 December 2020 as the portfolio value at the valuation point represents the same value since closure of the portfolios' relevant underlying markets.

b) Swing Pricing Adjustment

To protect the interests of Shareholders, a Sub-Fund's NAV may be adjusted to compensate for dilutions that can arise in connection with large flows of cash into or out of a Sub-Fund.

These adjustments are normally applied on any Valuation Day when the net volume of trading in a Sub-Fund's Shares (meaning both subscriptions and redemptions) exceeds a certain threshold. The adjustments will seek to reflect the anticipated prices at which the Sub-Fund will be buying or selling assets, as well as estimated transaction costs. The NAV will be adjusted upward when there are large cash net inflows into the Sub-Fund and downward when there are net large outflows. In normal market conditions, for any given Valuation Day, the adjustment will never be larger than 2% of what the NAV would otherwise be. On 25 March 2020, the SICAV Board has delegated to JPMAME all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances caused by the Covid-19 outbreak. JPMAME will promptly notify the JPMAME Board and the CSSF in the event where swing factors increase beyond 2% (See Note 19b). The swing factors typically include the estimated dealing costs, stamp duty and other taxes and market bid/offer spreads. The price adjustment applicable to a specific Sub-Fund is available on request from the Management Company at its registered office.

The Management Company makes, and periodically reviews, the operational decisions about swing pricing, including the thresholds that trigger it, the extent of the adjustment in each case, and which Sub-Funds will and will not be subject to swing pricing at any given time.

The official Net Asset Value per Share as at year end, disclosed in the Statistical Information section of this report may therefore include a swing pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets

During the year, the swing pricing mechanism was applied across all Sub-Funds.

As at year end, Swing Pricing adjustments have not been applied to the Sub-Funds.

Similarly, in order to protect the interests of Shareholders in a Sub-Fund that is being merged, the Management Company may adjust the final Net Asset Value per Share of the merging Sub-Fund, or make other appropriate adjustments in order to neutralise for the Sub-Fund being merged, the impact of any pricing adjustment made through the swing pricing mechanism in the absorbing Sub-Fund as a result of cash inflows or outflows in the absorbing Sub-Fund on the merger date.

The Management Company may consider it appropriate not to apply the swing pricing adjustment to the Net Asset Value per Share of a Sub-Fund where it is seeking to attract inflows so that the Sub-Fund reaches a certain size. If a decision is taken in relation to a Sub-Fund the Management Company will pay the dealing and other costs resulting from securities trades to avoid the Sub-Fund suffering dilution of the net asset value. Where this happens Shareholders will subscribe or redeem at a net asset value that will not have been adjusted upwards as would have been the case if the swing pricing mechanism had been applied. The Management Company is currently not bearing the swing pricing on subscriptions for any Sub-Funds.

Notes to the Financial Statements (continued) As at 31 December 2020

c) Realised and Unrealised Gains or Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains or losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains or losses on investments. Unrealised gains or losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains or losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply.

The securities lending income is accounted for on a cash basis on the 16th day of each month following the month that the revenue was generated, net of lending fees paid to the lending agent. An element of the securities lending income will include the proceeds related to the re-investment of cash collateral, if any.

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains or losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains or losses between trade date and settlement date on securities transactions and forward currency exchange contracts; and (iii) gains or losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received. The resulting gains or losses on translation are included in "Net realised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Operations and Changes in Net Assets.

f) Forward Currency Exchange Contracts

Unrealised gains or losses on outstanding forward currency exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on forward currency exchange contracts". When a contract is closed, the realised gain/(loss) is recorded under "Net realised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Net unrealised appreciation/(depreciation) on forward currency exchange contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net realised gain/(loss) on financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Net unrealised appreciation/(depreciation) on financial futures contracts" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net change in unrealised appreciation/(depreciation) on financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Options purchased are recorded as investments; options written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying futures contract.

The market values are recorded under "Options purchased/written contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are recorded under "Net change in unrealised appreciation/(depreciation) on options contracts" in the Combined Statement of Operations and Changes in Net Assets. When a contract is closed, the realised gain/(loss) is recorded under "Net realised gain/(loss) on options contracts" in the Combined Statement of Operations and Changes in Net Assets.

i) To Be Announced Securities ("TBA")

TBAs are related to mortgage backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

Certain Sub-Funds may enter into Dollar Rolls, principally using TBAs, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

Notes to the Financial Statements (continued)

As at 31 December 2020

The Sub-Funds had TBA Dollar Rolls outstanding as at 31 December 2020, which are included in "Investment in to be announced contracts at market value", "Open short positions on to be announced contracts at market value", "Receivables on sale of to be announced contracts" and "Payables on purchase of to be announced contracts" in the Combined Statement of Net Assets.

The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on To be announced contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on To be announced contracts" in the Combined Statement of Operations and Changes in Net Assets.

i) Credit Default Swaps

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment restrictions applicable to individual issuers.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on swap contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on swap contracts" in the Combined Statement of Operations and Changes in Net Assets.

3. Exchange Rates

The reference currency of the SICAV as reflected in the combined statements is USD.

The principal exchange rates applied for the year ended 31 December 2020 are the latest exchange rates known at the time of the NAV calculation:

1 USD =	1.2935 AUD;	1 USD =	0.8150 EUR;	1 USD =	8.5326 NOK;
1 USD =	1.2724 CAD;	1 USD =	0.7321 GBP;	1 USD =	1.3833 NZD;
1 USD =	0.8805 CHF;	1 USD =	7.7539 HKD;	1 USD =	3.7170 PLN;
1 USD =	6.5014 CNH;	1 USD =	296.4000 HUF;	1 USD =	8.1671 SEK;
1 USD =	21.3838 CZK;	1 USD =	103.0485 JPY;	1 USD =	1.3207 SGD.

4. Fees and Expenses

a) Charging Structures and Capped Expense Ratio

The maximum total fees and expenses to be borne by Shareholders on the Share Class of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Share Class. These capped fees and expenses comprise Management and Advisory Fees, Distribution Fees and other Operating and Administrative Expenses: it does not cover performance fees, if any.

No other costs are charged to these Share Classes and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Share Classes and the capped percentage.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio as shown in the Appendix 1. The actual fees and expenses charged to each share class are detailed in Appendix 1 to this report.

b) Management and Advisory Fees

The SICAV pays to the Management Company a management fee calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class under its management ("Management and Advisory Fees"). The Management and Advisory Fees are accrued daily and payable monthly in arrears at a maximum rate as specified in the Prospectus. The Management Company may at its absolute discretion and from time to time (which in certain circumstances may be daily), decide to vary such rate between the maximum and 0.0%.

Sub-Funds may invest in UCITS, other UCIs and closed ended investment undertakings qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) (the "Undertakings") managed by any affiliate of JPMorgan Chase & Co., double-charging of management fees will either be avoided or rebated. However, if the underlying investment charges a higher management fee, the difference may be charged to the investing Sub-Fund. If the underlying affiliate undertaking combines management and other fees and charges into a single total expense ratio, such as in exchange traded funds, the whole total expense ratio will be waived. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Management Company can vary this fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum. For X Share Classes, this fee is not charged at the Share Class level; instead, the applicable JPMorgan Chase & Co. entity collects a fee for these services directly from the Shareholder.

For P Share Classes, the actual fee charged may be lower than that stated in the Prospectus as J.P. Morgan Bank Luxembourg S.A., London Branch charges their clients a separate and additional fee.

c) Distribution Fees

The Management Company typically uses some or all of this fee to compensate Distributors for their services in connection with marketing and distributing the D and T Share Classes. The Management Company can vary this fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum.

d) Operating and Administrative Expenses

The SICAV bears all its ordinary operating and administrative expenses at the rates set out in the Prospectus ("Operating and Administrative Expenses") to meet all fixed and variable costs, charges, fees, and other expenses incurred in the operation and administration of the SICAV from time to time. The Operating and Administrative Expenses are capped for each Share Class at the maximum rate set out in the Prospectus. The Management Company will bear any Operating and Administrative Expenses which exceed the maximum rate specified in the Prospectus. At its discretion, the Management Company may on a temporary basis meet the Direct and/or Indirect Fund Expenses on a Sub-Fund's behalf and/or waive all or part of the Fund Servicing Fee.

Where a Sub-Fund invests primarily in UCITS and other UCIs managed by any affiliate of JPMorgan Chase & Co. and where specifically stated for a Sub-Fund in Sub-Fund Descriptions section of the Prospectus, double-charging of operating and administrative expenses will be avoided by a rebate to the Sub-Fund of the operating and administrative expenses (or equivalent) charged to the underlying UCITS or other UCIs. Where a Sub-Fund invests in undertakings not

Notes to the Financial Statements (continued)

As at 31 December 2020

affiliated with JPMorgan Chase &Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Operating and Administrative Expenses cover:

- (i) A "Fund Servicing Fee" paid to the Management Company for the services that the Management Company provides to the SICAV. The Fund Servicing Fee will be reviewed annually and will not exceed 0.15% per annum.
- (ii) Expenses directly contracted by the SICAV ("Direct Fund Expenses") and expenses directly contracted by the Management Company on behalf of the SICAV ("Indirect Fund Expenses") as detailed in the Prospectus.

e) Performance Fees

Pursuant to the Investment Management Agreement, as set out in the Prospectus, the Investment Manager is entitled to receive from the net assets of certain Sub-Funds or Share Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a High Water Mark Method as defined in the Prospectus and as specified in the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the performance fee accrual, if any, becomes payable to the Management Company on the last Dealing Day of the Financial Year, or under any of the following circumstances: on very significant orders for switching or redemption (applies to those Shares only) and when a Sub-Fund is merged or liquidated. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the performance Fee from the Management Company.

On each Valuation Day, the net asset value of each Share Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Management and Advisory Fee, and the Operating and Administrative Expenses to be borne by the relevant Share Class at the rate set out in the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Share Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Share Class.

Sub-Funds may invest in UCITS and other UCIs managed by any affiliate of JPMorgan Chase & Co. which may charge performance fees. Such fees will be reflected in the NAV of the relevant Sub-Fund.

High Water Mark Method

If the Share Class Return exceeds the Benchmark Return and the cumulative Share Class Return exceeds the High Water Mark Return (as set out in the Prospectus), the Performance Fee accrual is increased by the Performance Fee Rate multiplied by the Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. If the Share Class Return does not exceed the Benchmark Return, the Performance Fee accrual is reduced (but not below zero) by the Performance Fee Rate multiplied by the negative Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. Following a period of negative Excess Return whereby the Performance Fee accrual has been reduced to zero, no new Performance Fee is accrued until such time as the cumulative Share Class Return exceeds the greater of the High Water Mark Return and the cumulative Benchmark Return since the beginning of the SICAV accounting year. The Performance Fee accrued on any Valuation Day is reflected in the Net Asset Value per Share on the basis of which subscriptions and redemptions may be accepted.

Please refer to the "Combined Statement of Operations and Changes in Net Assets" for the Performance fees charged for the year.

5. Dividend Policy

Share Classes suffixed "(acc)"

Share Classes with the suffix "(acc)" are accumulation Share Classes and will not normally pay dividends.

Share Classes suffixed "(dist)"

It is intended that all those Share Classes with the suffix "(dist)" will, if appropriate, pay reportable income annually and will have "UK Reporting Fund Status".

Share Classes suffixed "(div)"

Share Classes with the suffix "(div)" will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield.

Investors should be aware that "(div)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix "(div)" in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed "(mth)"

Share Classes with the suffix "(mth)" will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix "(mth)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield. Investors should be aware that "(mth)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month and will be paid in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the SICAV. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The net asset value of "(mth)" Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed "(fix)"

Share Classes with the suffix "(fix)" will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus.

Share Classes with the suffix "(fix)" may be closed to further subscriptions, liquidated, not pay a dividend or reduce the dividend amount payable if the payment of the dividend is believed not to be in the best interests of all Shareholders collectively in the Share Class.

Notes to the Financial Statements (continued)
As at 31 December 2020

Share Classes suffixed "(irc)"

Share Classes with the suffix "(irc)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund's portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

Share Classes suffixed "(icdiv)"

Share Classes with the suffix "(icdiv)" will pay a dividend that is expected to include a distribution from capital as well as the gains of the Share Class. It sets a predetermined annual percentage of NAV per Share to be paid as a monthly dividend that is not linked to income or capital gains. Payments are expected to exceed the increase in the NAV per share from the net income and realised and/or unrealised capital gains of the Share Class resulting in erosion of the amount invested. The annual percentage is based on prevailing investor demand in the region where the share class is distributed and Sub-Fund level considerations. The percentage may be changed at the discretion of the Management Company. The latest dividend yield of the share class can be found on the website (www.jpmorganassetmanagement.lu).

This Share Class is available only to investors purchasing and holding Shares through specific Asian distribution networks, and to other investors at the discretion of the Management Company. Shareholders should be aware that, during periods of negative performance, the dividend will normally continue to be paid and the value of the investment may fall more rapidly. It may not be possible to maintain the initial / prevailing dividend payment indefinitely and it may be reduced. If the value of the NAV falls to 1.00 in the Sub-Fund's Base Currency, the share class will be fully redeemed by the Management Company at the next practicable opportunity. Investors in these Share Classes may have to pay tax on payments out of capital which may be tax inefficient. Investors should consult with their tax advisors.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for Shareholders in certain countries. Shareholders should consult their local tax adviser about their own position. Share Classes with the suffix "(div)", "(fix)" and "(mth)" do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds.

Details of dividends distributed during the year ended 31 December 2020 are available at https://am.jpmorgan.com/lu/en/asset-management/adv/products/fund-explorer/sicavs.

6. Taxation

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains. The SICAV is not subject to net wealth tax in Luxembourg. The only tax to which the SICAV in Luxembourg is subject is the subscription tax ("taxe d'abonnement") up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in the Appendix. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the taxe d'abonnement.

No stamp duty, capital duty or other tax is payable in Luxembourg upon the issue of the Shares of the SICAV. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV's realised capital gains, whether short or long-term, are not expected to become taxable in another country, the Shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

Following case law precedent within Europe, the SICAV has instigated proceedings to reclaim tax withheld by certain Member States of the European Union on dividend payments it has received. The decision to initiate proceedings against any particular Member State is the result of an analysis of the likely costs and potential benefits of doing so and the likelihood of successfully reclaiming such amounts together with the estimated time to complete proceedings varies across Member States. Any costs associated with this decision have been charged to the relevant Sub-Funds and have been included within total costs for the purposes of determining the relevant expense cap or TER and no amount has been recorded in the SICAV for any possible amounts to be received under this action.

7. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund's portfolio is available to Shareholders at the registered office of the SICAV.

8. Value of Financial Instruments and Associated Risks

The SICAV entered into forward currency exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV's participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments. Other market and credit risks include the possibility that there may be an illiquid market for the contracts, that a change in the value of the contracts may not directly correlate with changes in the value of the underlying currencies, indices, or securities, or that the counterparty to a contract defaults on its obligation to perform under the terms of the contract.

9. Collateral received with respect to Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities and OTC derivative transactions other than currency forwards constitute collateral.

The SICAV will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund's portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a "haircut") which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in the Prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold, reinvested or pledged.

Notes to the Financial Statements (continued)

As at 31 December 2020

Collateral received with respect to financial derivative instruments are shown in the Appendices.

10. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs or risk, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSSF Circular 08/356 relating to the rules applicable to undertakings for collective investments when they use certain techniques and instruments relating to transferable securities and money market instruments ("CSSF Circular 08/356") and (iii) any other applicable laws, regulations, circulars or CSSF positions.

Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. 90% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, whilst the remaining 10% income is paid to J.P. Morgan Bank Luxembourg S.A. (see Note 19c) for its role as securities lending agent for the SICAV. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

As at 31 December 2020, the SICAV valuation of securities on loan is USD 794,653,121 as detailed below and received collateral with a market value of USD 835,240,310.

	Market Value of Securities on Loan	Cash Collateral**	Non Cash Collateral*	Base Currency	Lending Income (Gross)	Lending Agent Fee	Lending Income (Net)

^{*} The securities received as collateral are in the form of government securities (US, UK, Eurozone and other government securities). These securities are issued and guaranteed as to principal and interest by the governments of the relevant countries.

11. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward foreign exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Global Distributor and Domiciliary Agent, Investment Managers, Depositary, Corporate, Administrative and Listing Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition, Elvinger Hoss Prussen, société anonyme (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) is compensated for legal services to the SICAV.

The following is a summary of transactions entered into during the year between the SICAV and the Manager and its Connected Persons. Connected Persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong. All such transactions were entered into in the ordinary course of business and on normal commercial terms.

	EUR	213,828,212	6.75

^{*} This Sub-Fund is not approved for offer in Hong Kong.

13. Commission Sharing Arrangements

The Investment Managers may enter into commission sharing arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the SICAV, and where the Investment Managers are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the SICAV and the Shareholders. Any such arrangements must be made by the Investment Manager on terms commensurate with best market practice. Depending on local regulation, an Investment Manager can pay for research or execution services using soft commissions or other similar arrangements.

^{**}Cash collateral may be reinvested into Reverse Repurchase Transactions with high quality government bonds as collateral. Income earned is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

14. Information for German Registered Shareholders

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV and at the office of the German paying and information agent, JPMorgan Asset Management (Europe) S.à r.l., Frankfurt Branch, Taunustor 1, D-60310, Frankfurt am Main, Germany. Additional information on investments within each Sub-Fund's portfolio is available to Shareholders at the registered office of the SICAV and at the office of the German paying and information agent.

15. Information for Investors in Switzerland

Representative in Switzerland: JPMorgan Asset Management (Switzerland) LLC, Dreikönigstrasse 37, 8002 Zürich.

Paying Agent in Switzerland: J.P. Morgan (Suisse) SA, 8 Rue de la Confédération, 1204 Geneva.

The Prospectus, the Key Investor Information Documents, the articles of incorporation, the annual and semi-annual financial report as well as a list of the purchases and sales which the SICAV has undertaken during the financial year may be obtained free of charge from the representative.

16. Authorisation of Sub-Funds in Hong Kong

Certain Share Classes of the following Sub-Funds are authorised in Hong Kong and are available to Hong Kong residents:

- JPMorgan Investment Funds Europe Select Equity Fund;
- JPMorgan Investment Funds Global Dividend Fund;
- JPMorgan Investment Funds Global High Yield Bond Fund.

17. Directors' Fees

The only remuneration paid to Directors is an annual fee. This is waived by Mr Daniel Watkins and Mr Massimo Greco. The total Directors' fees for the year amounted to USD 352,132 of which USD 69,936 was due to the Chairman.

18. Transaction Costs

For the year ended 31 December 2020 the SICAV incurred transaction costs which have been defined as brokerage fees relating to purchase or sale of transferable securities, derivatives (except OTC derivatives) or other eligible assets. The SICAV also incurred transaction costs charged by the custodian agent and relating to purchase and sale of transferable securities as follows:

Sub-Fund	Base Currency	and Brokerage Fees (in Base Currency)
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	4,065,397
JPMorgan Investment Funds - Global Dividend Fund	USD	401,731
JPMorgan Investment Funds - Global High Yield Bond Fund	USD	47,148

For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

19. Significant Events during the year

a) Covid-19

From January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of Covid-19. The outbreak of Covid-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. There has been a significant correction in the financial markets over the months from February 2020 to May 2020. The effects of Covid-19 have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the market.

b) Swing pricing mechanism

On 25 March 2020, the SICAV Board has delegated to JPMAME all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances caused by the Covid-19 outbreak. JPMAME will promptly notify the JPMAME Board and the CSSF in the event where swing factors increase beyond 2%. The Shareholders are informed of the above change via a website notification, as permitted by the Prospectus. As of date of this report, no Sub-Fund has applied a swing factor exceeding 2%.

c) Securities Lending Agreement

A securities lending agreement was signed on 2 October 2020 between the SICAV and the new securities lending agent, J.P.Morgan Bank Luxembourg S.A.. The former securities lending agent was JPMorgan Chase Bank N.A..

f) Prospectus updates

With effect from 14 July 2020, for Sub-Funds which are expected to invest in mortgage-backed securities ("MBS") and/or asset-backed securities ("ABS"), the investment policies have been updated to indicate a percentage of assets which may be invested in these securities. In addition, for those Sub-Funds which are expected to invest 20% or more of their assets in MBS/ABS, the investment policies have been enhanced to include a description of MBS/ABS, underlying assets and any applicable credit quality restrictions. Certain other clarifications of investments in MBS/ABS and covered bonds have been also made for clarity and consistency purposes.

With effect from 17 January 2020 prospectuses have been updated to include enhanced disclosures on the Benchmark Uses for each Sub-Fund. These enhancements are in response to the revised Q&A released by the European Securities and Markets Authority in March 2019 on the application of the UCITS Directive, which clarifies benchmark and past performance disclosure obligations for UCITS. They reflect how the Sub-Funds are currently being managed and are designed to provide further detail on the degree to which each Sub-Fund may resemble its benchmark.

There have been no other significant events during the year.

20. Subsequent events after the year-end

There have been no other significant events after the year-end.

Notes to the Financial Statements (continued) As at 31 December 2020

21. Criteria for preparation of the financial statements

Certain of the Sub-Funds of the Fund are not authorised for offer or distribution in or from Hong Kong. Accordingly, no reference is made to these Sub-Funds in this audited annual report. The attention of the investors is drawn to the fact that certain figures in this audited annual report are expressed on a consolidated basis and, thus, include the assets of those Sub-Funds which are not registered in Hong Kong.

The capped expense ratios and total expense ratios for some Share Classes may have changed over the previous two years. All details concerning these changes have been disclosed in previous years' Financial Statements. All TER figures are annualised.

⁺ Expense ratios are calculated in accordance with the guidelines dated 16 May 2008 (as amended 20 April 2015) issued by the Swiss Funds & Asset Management Association (SFAMA). On 25 September 2020, SFAMA and the Asset Management Platform (AMP) Switzerland merged to form the Asset Management Association Switzerland (AMAS). The Total Expense Ratio ("TER") represents the total operating costs as a percentage of the Fund's average daily net assets. The total operating cost comprises investment management and advisory fees, custodian/depositary fees, taxe d'abonnement and other expenses, as summarised in the Combined Statement of Operations and Changes in Net Assets. Overdraft interest and Performance Fees are excluded from the calculation.

⁽a) These figures include Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses, where applicable.

⁽b) These figures include Performance Fees, where applicable.
(c) These figures include i) Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses and ii) Performance Fees, where applicable.

The capped expense ratios and total expense ratios for some Share Classes may have changed over the previous two years. All details concerning these changes have been disclosed in previous years' Financial Statements. All TER figures are annualised.

[#] Share Class closed as at the end of the year.

⁺ Expense ratios are calculated in accordance with the guidelines dated 16 May 2008 (as amended 20 April 2015) issued by the Swiss Funds & Asset Management Association (SFAMA). On 25 September 2020, SFAMA and the Asset Management Platform (AMP) Switzerland merged to form the Asset Management Association Switzerland (AMAS). The Total Expense Ratio ("TER") represents the total operating costs as a percentage of the Fund's average daily net assets. The total operating cost comprises investment management and advisory fees, custodian/depositary fees, taxe d'abonnement and other expenses, as summarised in the Combined Statement of Operations and Changes in Net Assets. Overdraft interest and Performance Fees are excluded from the calculation.

⁽a) These figures include Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses, where applicable.

⁽b) These figures include Performance Fees, where applicable.
(c) These figures include i) Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses and ii) Performance Fees, where applicable.

Appendix - Unaudited Additional Disclosures (continued)

3. Performance and Volatility

Performance

Returns for periods greater than one year are annualised. SICAV performance includes reinvestment of income and is net of all expenses.

Past performance is no indication of current or future performance.

The performance data does not take into account the commissions and costs incurred on the issue and redemption of units.

Volatility

The standard deviation (D) of the price is calculated on a daily basis throughout each SICAV's financial year.

The details below relate to the year from 1 January 2020 to 31 December 2020.

- If D is equal to or less than 0.1 then volatility will be Low.
- If D is greater than 0.1 but less than or equal to 1.0 then volatility will be Medium.
- If D is greater than 1.0 but less than or equal to 2.4 then volatility will be High.
- If D is greater than 2.4 then volatility will be Very High.

10. UCITS Remuneration Disclosures

JPMorgan Asset Management (Europe) S.àr.l. (the "Management Company") is the authorised manager of JPMorgan Investment Funds (the "Company") and is part of the J.P. Morgan Chase & Co. group of companies. In this section, the terms "J.P. Morgan" or "Firm" refer to that group, and each of the entities in that group globally, unless otherwise specified.

This section of the annual report has been prepared in accordance with the Undertakings for Collective Investment in Transferable Securities (the "UCITS Directive") and the 'Guidelines on sound remuneration policies' issued by the European Securities and Markets Authority under the UCITS Directive. The information in this section is in respect of the most recent complete remuneration period ("Performance Year") as at the reporting date.

Remuneration Policy

A summary of the Remuneration Policy applying to the Management Company (the "Remuneration Policy") can be found at https://am.jpmorgan.com/lu/en/asset-management/adv/funds/policies/ (the "Remuneration Policy Statement"). This Remuneration Policy Statement includes details of how remuneration and benefits are calculated, including the financial and non-financial criteria used to evaluate performance, the responsibilities and composition of the Firm's Compensation and Management Development Committee, and the measures adopted to avoid or manage conflicts of interest. A copy of this policy can be requested free of charge from the Management Company.

The Remuneration Policy applies to all employees of the Management Company, including individuals whose professional activities may have a material impact on the risk profile of the Management Company or the UCITS Funds it manages ("UCITS Identified Staff"). The UCITS Identified Staff include members of the Board of the Management Company (the "Board"), senior management, the heads of relevant Control Functions, and holders of other key functions. Individuals are notified of their identification and the implications of this status on at least an annual basis.

The Board reviews and adopts the Remuneration Policy on an annual basis, and oversees its implementation, including the classification of UCITS Identified Staff. The Board last reviewed and adopted the Remuneration Policy that applied to the 2020 Performance Year in June 2020 with no material changes and was satisfied with its implementation.

Quantitative Disclosures

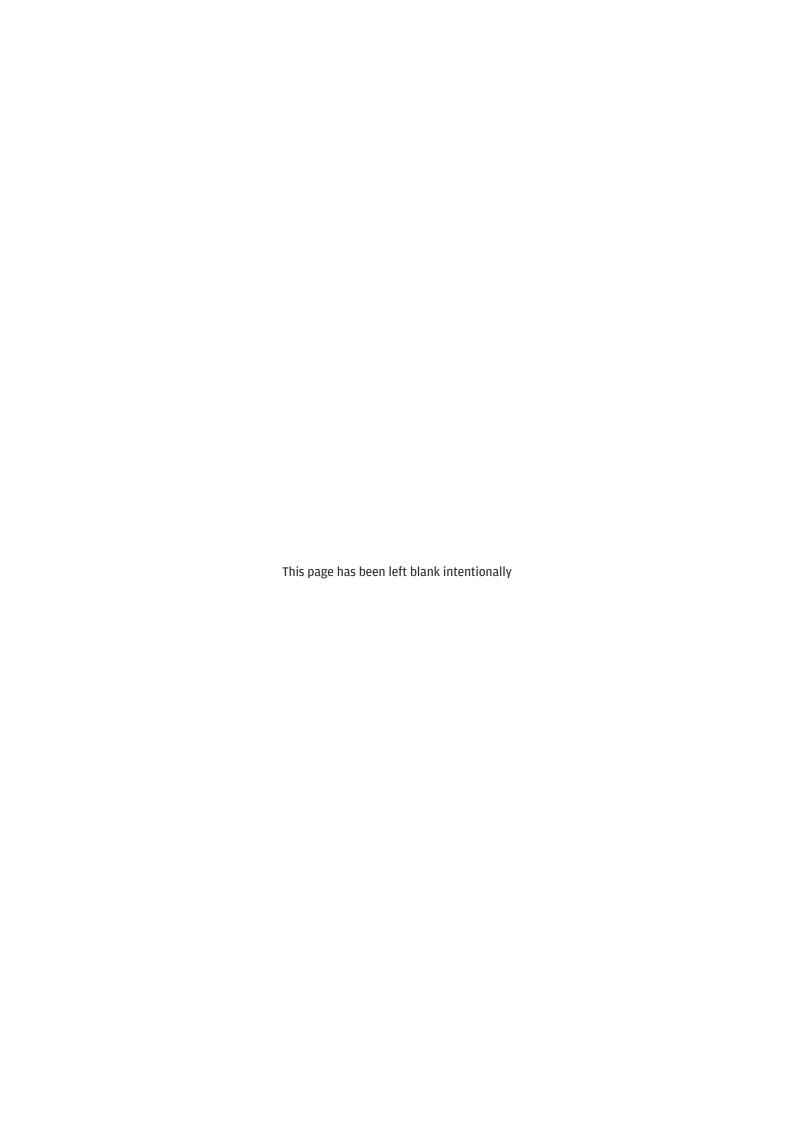

The table below provides an overview of the aggregate total remuneration paid to staff of the Management Company in respect of the 2020 Performance Year and the number of beneficiaries.

Due to the Firm's structure, the information needed to provide a further breakdown of remuneration attributable to the Company is not readily available and would not be relevant or reliable. However, for context, the Management Company manages 21 Alternative Investment Funds (with 25 Sub-Funds) and 6 UCITS (with 165 Sub-Funds) as at 31 December 2020, with a combined AUM as at that date of USD 5,856m and USD 425,863m respectively.

	Fixed remuneration	Variable remuneration	Total remuneration	Number of beneficiaries
All staff (USD '000s)	48,416	23,006	71,422	339

The aggregate total remuneration paid to UCITS Identified Staff in respect of the 2020 Performance Year was USD 117,890k, of which USD 8,180k relates to Senior Management and USD 109,710k relates to other UCITS Identified Staff (1).

⁽¹⁾ For 2020, the Identified Staff disclosures includes employees of companies to which portfolio management has been formally delegated, in line with the latest ESMA guidance.
