

# Aberdeen Standard SICAV I - Asian Local Currency Short Term Bond Fund

A Acc USD

Performance Data and Analytics to 31 March 2020

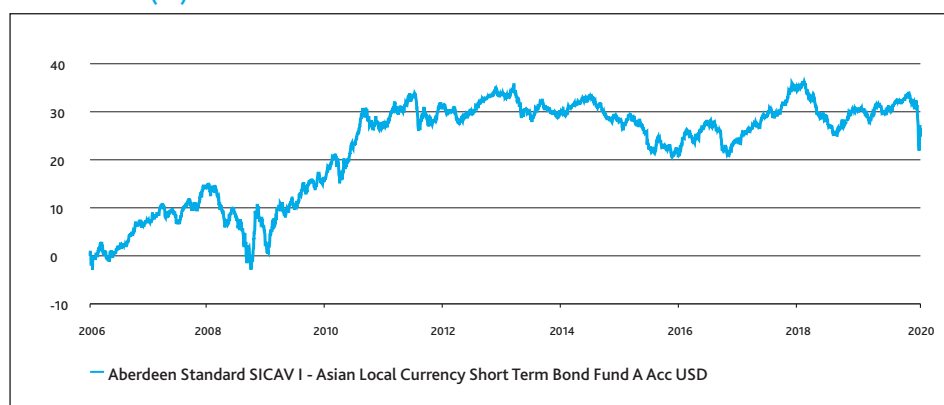

## Important Information

- The Fund invests in local Asian currency denominated Debt and Debt Related Securities having a maturity of up to five years issued by governments, supranational institutions or government-related bodies that are domiciled in Asian countries.
- The Fund invests in emerging markets which tend to be more volatile and is subject to higher political, regulatory, credit and liquidity risks.
- The Fund may invest in financial derivative instruments and enter into currency forward contracts for hedging and/or investment purposes. Trading in currency forward contracts is substantially unregulated.
- The currency exposure of the Fund may be altered, solely through the use of derivative contracts. Performance may be strongly influenced by movements in currency rates.
- The Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Credit risk reflects the ability of a bond issuer to meet its obligations.
- Investment in this fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the Investment could be lost.
- Investors are responsible for their investment decisions and should ensure that the intermediary has advised on fund's suitability and consistency with their investment objective. If in doubt, please seek independent financial and professional advice.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents (particularly the investment policies and risk factors) for more details before investing.

## Investment objective

To achieve long-term total return by investing at least two-thirds of the Fund's assets in local Asian currency denominated debt and debt-related securities having a maturity of up to five years issued by governments, supranational institutions or government-related bodies that are domiciled in Asian countries.

<b>Total</b>	<b>100.0</b>

Cash includes cash on call, cash used as margin, fixed deposits, unrealised profit/losses on derivative positions and forward currency contracts. Where bonds are split-rated between two or more of Moody's, S&P and Fitch, the data shown takes a conservative approach, splitting lower. This may not be consistent with the arrangement detailed in the prospectus, which may detail taking a higher rating where there is a split. In the absence of any agency ratings an Internal Fund Manager rating may be applied.

Figures may not always sum to 100 due to rounding.

\*Yield to Maturity (YTM) is the internal rate of return earned on the underlying bonds based on the current price if they are held to maturity, assuming that all interest payments and principal payments are made on schedule. The calculation of YTM makes into account the current market price, par value, coupon and time to maturity. YTM is an estimation of future return, as the rate at which coupon payments can be reinvested when received is unknown. Yield to Maturity does not represent the performance of the Fund.

<sup>^</sup>On 1 March 2011, the benchmark has been changed from iBoxx Pan-Asia (ex China) Index to iBoxx Asia ex Japan Sovereign 1-3 years Index.

## Important information

The above is strictly for information purposes only and should not be construed as advice or an offer or solicitation, to deal in any investment product. Any research or analysis used in the preparation of the above information, procured by Aberdeen Standard Investments (Hong Kong) Limited for its own use and purpose, is based upon sources believed to be reliable as of the date thereof, but no representation or warranty is given as to the accuracy or completeness of data sourced from third parties. Any projections or other forward-looking statements regarding future events or performance of countries, markets or companies are not necessarily indicative of, and may differ from, actual events or results. Opinions, estimates or forecasts may be changed at any time without prior warning.

Investment involves risk. Past performance is not a guide to future performance. Investment returns are denominated in the base currency of the fund. US / HK dollar based investors are therefore exposed to fluctuations in the US dollar / HK dollar / base currency exchange rate. Investors may not get back the amount they have invested. No liability whatsoever is accepted for any loss arising from any person acting on any information contained in this document.

This document is issued by Aberdeen Standard Investments (Hong Kong) Limited and has not been reviewed by the Securities and Futures Commission.
