

SPP Aktiefond Global is an equity fund that aims to track developments in the global equity market, in both developed countries and emerging markets. The fund is managed as an index-tracking fund and does not adopt any active positions versus the market. We usually invest in approximately 1 800 to 2 300 companies, spread across many different industries and countries. The fund follows our criteria for sustainable investments. This means that we do not invest in companies that contribute to the violation of human rights, corruption, harming the climate and environment, the production of landmines, cluster munitions, or nuclear weapons. In addition, the Fund also refrains from investing in companies whose turnover is more than 5 percent from production/distribution from: fossil fuels, weapons/arms, tobacco, alcohol, gambling, pornography, cannabis and companies with large fossil reserves.
