FACT SHEET | February 28, 2021

JPMorgan Funds - US Technology Fund

- The Fund invests primarily in technologies (including but not limited to technology, media and communication services) related US companies.
- The Fund is therefore exposed to risks related to equity, concentration, smaller companies, technology related companies, currency, liquidity, derivative, hedging and class currency.
- The Fund may at its discretion pay dividends out of capital. The Fund may also at its discretion pay dividends out of gross income while charging all or part of the Fund's fees and expenses to the capital of the Fund, resulting in an increase in distributable amount for the payment of dividends and therefore, effectively paying dividends out of realised, unrealised capital gains or capital. Investors should note that, share classes of the Fund which pay dividends may distribute not only investment income, but also realised and unrealised capital gains or capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any dividend payments, irrespective of whether such payment is made up or effectively made up out of income, realised and unrealised capital gains or capital, may result in an immediate reduction of the net asset value per share.
- Investors may be subject to substantial losses.
- Investors should not solely rely on this document to make any investment decision.

INVESTMENT OBJECTIVE

To provide long-term capital growth by investing primarily in technologies (including but not limited to technology, media and communication services) related US companies.

JPMorgan Funds - US Technology Fund

OBJECTIVE AND INVESTMENT STRATEGY

To provide long-term capital growth by investing primarily in technologies (including but not limited to technology, media and communication services) related US companies.

At least 67% of the Fund's assets (excluding cash and cash equivalents) will be invested in equity securities of companies related to technologies (including but not limited to technology, media and communication services) that are domiciled in, or carrying out the main part of their economic activity in, the US. The Fund may invest in small capitalisation companies but it is not subject to any limitation on the market capitalisation of the companies in which it may invest.

The Fund may use financial derivative instruments for the purposes of hedging and efficient portfolio management.

The Investment Manager seeks to achieve the stated objectives. There can be no guarantee the objectives will be met. Investment involves risk. Past performance is not indicative of future performance. The above contains only partial information of the Fund's objective and investment strategy. Please refer to the offering document(s) for details, including the risk factors.
