

Important Information

The fund invests primarily in equity and equity related securities of Hong Kong companies.

- The fund invests in equity would subject to equity investment risk.
 - The fund invests in concentrated region and PRC and may be subject to political, social and economic risk, legal and regulatory risks, liquidity and volatility, etc. .
 - The fund invests in mainland China would subject to the risks related to investments via the Stock Connect. Stock Connect has quota limitations and its rules are subject to change with potential retrospective effect.
 - The fund may use China market access to gain exposure to China A-Share indirectly and involves additional risks including lack of a secondary market in such instruments, illiquidity of the underlying securities, difficulty in selling these instruments at times when the underlying markets are closed and counterparty default risk.
 - The fund may use derivatives to meet its investment objective. Derivatives exposure may involve higher counterparty, liquidity and valuation risks. In adverse situations, the fund may suffer significant losses from their derivative usage for hedging.
 - For share classes with a general dividend policy, expenses will be paid out of capital rather than out of gross income. The amount of distributable income therefore increases and the amount so increased may be considered to be dividend paid out of capital. Share classes with a fixed dividend policy may pay out both income and capital in distributions. Where distributions are paid out of capital, this amounts to a return or withdrawal of part of your original investment or capital gains attributable to that and may result in an immediate decrease in the net asset value of shares.
- You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

Investment Objectives

The fund aims to provide capital growth by investing in equity and equity related securities of Hong Kong SAR companies.

Schroder International Selection Fund Hong Kong Equity

A Accumulation HKD | Data as at 28.02.2021

Return of HKD 100,000

Past Performance is not a guide to future performance and may not be repeated.

The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated NAV to NAV (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.
