What is this product?

Type:

This product is a UCITS fund.

Objectives:

The Fund seeks to generate high current income from investments in short duration high yield bonds that comply with the terms of the Sustainable Exclusion Policy, as detailed in the "Sustainable Investment Criteria" section in the prospectus.

The Fund invests primarily in short duration high yield bonds issued by:

- US corporations.
- Non-US corporations which conduct a majority of their activity in the US.
- The Fund may also invest in securities of companies and governments located in emerging (less developed) market countries.

High yield bonds have a lower credit rating because they carry a higher risk of not being paid back. High yield bonds typically offer a higher income to make them attractive to investors. Short duration high yield bonds have a shorter maturity (the date on which a bond is repaid to the investor) and a lower duration (how long it takes in years for the bond to be repaid); circa 2 years vs. 4 years for the broader high yield universe.

Under normal market conditions, the Sub-Investment Managers (or the Manager where applicable) anticipate that the Fund's weighted average maturity will be 3 years or less.

The Fund may not invest more than 10% of its Net Asset Value ("NAV") in equity securities.

The Fund promotes environmental and social characteristics pursuant to Article 8 of SFDR.

Income will be rolled up into the value of your investment.

Term:

The Fund has no fixed maturity date, however, it may be terminated in certain circumstances as described in the prospectus, including if the Net Asset Value of the Fund does not exceed or falls below US\$75,000,000 (or such other amount as may be approved by the directors of NBIF).

The shares may be exchanged for shares in another sub-fund in accordance with the terms of the Prospectus. Charges may apply.

Shares in the Fund can be bought or sold on any day defined as a Business Day in Prospectus.

NBIF is established as umbrella fund with segregated liability between sub-funds under Irish law.

Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") is appointed as the depositary of NBIF.

You can obtain copies of the Prospectus and the latest reports and accounts for NBIF free of charge in English, German, French, Italian and Spanish, along with the latest published prices of shares and other information on the Fund, free of charge from Brown Brother Harriman Fund Administration Services (Ireland) Limited (the "Administrator"), 30 Herbert Street, Dublin 2, Ireland.

Benchmark:

The Fund is actively managed and it is not managed by reference to any benchmark.

Intended retail investor:

This Fund may be compatible with the needs of investors seeking a fund to deliver income and/or capital growth with an investment horizon of 2 years or more, as part of a diversified portfolio of investments. This is a medium-low risk product and investors should consider this when deciding the mix of portfolio investments. Investors who are unsure that they have the knowledge and experience to make informed investment decisions about this Fund or to construct a diversified portfolio should seek professional investment advice. The Fund is unlikely to be compatible with the needs of those investors seeking a single investment, or to achieve a specified return by a particular date.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 2 years.

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of NBAMIL to pay you.

The Fund also carries market risk, operational risk, counterparty risk, and other risks. Please refer to the "Investment Risks" section of the Prospectus. The Fund does not include any protection from future market performance so you could lose some or all of your investment.

If we are unable to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances, however, markets could develop very differently in the future.

Recommended Holding Period: 2 years			
Example Investment: USD 10,000			
Scenarios Minimum: There is no minimum guaranteed return and it is possible to lose all invested capital.		If you exit after 1 year	If you exit after 2 years (recommended holding period)
Stress	What you might get back after costs Average return each year	5,410 USD -45.93%	7,220 USD -15.01%
Unfavourable¹	What you might get back after costs Average return each year	9,340 USD -6.56%	9,760 USD -1.22%
Moderate²	What you might get back after costs Average return each year	10,320 USD 3.18%	10,760 USD 3.73%
Favourable³	What you might get back after costs Average return each year	11,720 USD 17.24%	11,910 USD 9.12%

¹ This type of scenario occurred for an investment between February 2014 and February 2016.

² This type of scenario occurred for an investment between May 2013 and May 2015.

³ This type of scenario occurred for an investment between March 2020 and March 2022.

What happens if NBAMIL is unable to pay out?

Investors may face financial losses as a result of the default of the Fund, NBIF, NBAMIL or any of the service providers appointed to the Fund, including the sub-investment managers (or their affiliates), the Administrator, the Depositary, or a trading counterparty. Any such losses are not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the Fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 2 years
Total costs	47 USD	99 USD
Annual cost impact (*)	0.5%	0.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.2% before costs and 3.7% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when making your investment. This is the most you will pay, but you could pay less. This includes the costs of distribution of the Fund.	0 USD
Exit costs	We do not charge an exit fee for this Fund, but the person selling you the Fund may do so.	0 USD
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investments.	11 USD
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	36 USD
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	This Fund does not charge any performance fees.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 2 years

The Fund is designed to be held over the short term and we recommend that you hold this investment for at least 2 years. Shares in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in the Prospectus).

Further information on the Fund's disinvestment procedure is included in the "Subscription and Redemptions" section of the Prospectus.

How can I complain?

Complaints about the Fund, or the conduct of the Manufacturer or a person advising on, or selling the Fund should be sent to the Fund distributor or your adviser, with a copy to the Administrator.
