GF Industry Leaders Mixed Assets Fund

As of 30 November 2020

NAV per Unit: Class H - RMB 1.104

Fund Size: RMB 1,271 Million (30 September 2020)

IMPORTANT NOTES

- GF Industry Leaders Mixed Assets Fund (the "Fund") invests primarily in securities related to the Mainland China market and may be subject to additional concentration risk. Investment in the Mainland China market is exposed to various risks including political, policy, tax, economic, foreign exchange, legal, regulatory and liquidity risks.
- The Fund is authorised by the Securities and Futures Commission ("SFC") pursuant to the Mainland-Hong Kong Mutual Recognition of Funds ("MRF") regime, and subject to an overall quota restriction. Subscription may be suspended if such quota is used up. If the Fund ceases to meet the eligibility requirements under MRF, the Fund may not accept new subscriptions and its authorization status may be withdrawn. There is no assurance that the Fund can satisfy these requirements on a continuous basis.
- The fund is an investment fund. There is no guarantee of the repayment of principal or payment of dividend or distribution in the holding period. In the worse scenario, the investors may lose entire amount originally invested.
- Currently, certain tax concessions and exemptions are available to the Fund and/or its corporate and individual investors under the MRF regime. There is no assurance that such concessions and exemptions or Mainland China tax laws and regulations will not change. Any changes may adversely affect the Fund and/or its investors and they may suffer substantial losses as a result.
- Market practices in the Mainland China and Hong Kong may be different. Investors should understand the differences and the implications.
- Investors of the Fund may be subject to RMB currency and conversion risks.
- In addition to general market risks, the investments in Mainland equities may adversely be affected by high market volatility and valuation, low liquidity, potential settlement difficulties, and policies that may affect the Mainland equities.
- The Mainland China debt securities are subject to higher volatility, lower liquidity compared to more developed markets, and involve credit/default risk. The downgrade of the credit rating of the debt instrument or its issuer may adversely affect the value of the fund. The credit appraisal system and the rating methodologies in Mainland China may be different from other markets, therefore the rating may not be directly comparable with other international rating agencies.
- The Fund may invest in urban investment bonds which may be adversely affected by any issuer's default; and may invest in asset-backed securities and debt securities which are rated BB+ or below by a Mainland China credit rating agency or unrated, such securities are generally subject to higher credit, liquidity and interest rate risk.
- The Fund may at its discretion pay dividend out of the capital of the Fund, means withdrawal of part of a unitholder's original investment or from any capital gains attributable to that original investment, such payment will result in an immediate decrease in the Net Asset Value per unit.

* SFC authorization is not a recommendation or endorsement of the Fund nor does it guarantee the commercial merits of the Fund or its performance. It does not mean the Fund is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.
