Investment Objective

The Fund aims to maximise income on your investment consistent with maintaining capital and ensuring its underlying assets can easily be bought or sold in the market (in normal market conditions). Money invested in the Fund is not protected or guaranteed.

Investment Policy

The Fund invests in a broad range of fixed income securities (such as bonds) and MMIs (i.e. debt securities with short term maturities). It may also invest in deposits with credit institutions (e.g. banks).

Fund Specific Risk

Short Term Money Market Funds do not generally experience extreme price variations. Changes in interest rates will impact the Fund.

A Money Market Fund (MMF) is not a guaranteed investment vehicle. An investment in MMFs is different from an investment in deposits; the principal invested in an MMF is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. The MMF does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per share.

Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.

Accumulating Share Class Risk (Accumulating Share Classes): On any day where the net return (i.e. return less costs and expenses) of the Fund is negative an Accumulating Share Class of the fund will see a decrease in the NAV per Share.

Maturity Distribution (Days)

As per the European Money Market Fund reform regulations, the portfolio is able to bucket Government Debt up to 17.5% of the fund <190 days as 1 week liquidity allowance

Top 10 Country Allocation

A full breakdown of country and Maturity exposure can be found on the BlackRock Cash website:

www.blackrock.com/cash

The exposure is calculated based on the fund holdings, settled and unsettled, as at 30 November 2021 and may affect % Par and the WAL. It does not include cash, accrued income and/or payables/receivables. For traditional repo collateralised by government obligations, we look through to the underlying collateral for ultimate exposure. For ABCP issuers, we view exposure at the sponsor level of the conduit. Unless otherwise specified all data is internally sourced from BlackRock as of 30-Nov-2021

The NAV chart shows the share class level mark-to-market NAV for the period shown.

The figures shown relate to past performance. Past performance is not a reliable indicator of current or future results and should not be the sole factor of consideration when selecting a product or strategy.

All yield figures are annualised and quoted net of fees except benchmark yields which have no associated fees. The annualised yield is the income return on an investment, such as the interest or dividends of a money market fund.

The yield is expressed as a percentage of the period as at 30 November 2021 market value.

The return of your investment may increase or decrease as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation.

Performance is calculated after deduction of ongoing charges. Performance is expressed as a percentage change of the Fund's net asset value and is calculated net of annual fees.

*Annualised returns

The currency of returns is Euro

Risks Warnings:

Capital at Risk: The value of investments and the income from them can fall as well as rise and are not guaranteed. You may not get back the amount originally invested.

Past performance is not a reliable indicator of current or future results and should not be the sole factor of consideration when selecting a product or strategy.

Changes in the rates of exchange between currencies may cause the value of investments to diminish or increase. Fluctuation may be particularly marked in the case of a higher volatility fund and the value of an investment may fall suddenly and substantially. Levels and basis of taxation may change from time to time.

Important information:

Credit quality ratings on underlying securities of the fund are received from S&P, Moody's and Fitch and converted by BlackRock to the equivalent S&P major rating category. This breakdown is provided by BlackRock and takes the median rating of the three agencies when all three agencies rate a security, the lower of the two ratings if only two agencies rate a security and one rating if that is all that is provided. The values reported include cash, accrued income, and/or payables/receivables which may result in negative weightings may result from specific circumstances (including timing differences between trade and settle dates of securities purchased by the funds). Allocations are subject to change.
