## WCM Global Emerging Markets Equity Fund (R/A (USD) ISIN: LU2045819591), a sub-fund of Natixis International Funds (Lux) I SICAV

Management Company and Promoter: Natixis Investment Managers S.A., part of the Natixis group of companies  
Investment Manager: WCM Investment Management, LLC, part of the Natixis group of companies

### Objectives and Investment Policy

#### Investment objective:

The investment objective of WCM Global Emerging Markets Equity Fund (the "Fund") is long-term growth of capital.

#### Investment policy:

The Fund invests primarily in equity securities of emerging market companies.

The Fund invests at least two-thirds of its total assets in equity securities of companies in emerging or frontier countries or markets including, but not limited to, certain eligible A-Shares via the Shanghai-Hong Kong Stock Connect program and/or Shenzhen-Hong Kong Stock Connect program (collectively, the "Stock Connects"). These are companies domiciled or which exercise the preponderant part of their economic activities in emerging or frontier countries or markets as classified by the World Bank; which are those countries or markets with low- to middle-income economies. The Fund may invest up to one-third of its total assets in cash and cash equivalents or other types of securities than those described above, including but not limited to, equity securities of companies domiciled in countries other than those described above. This also includes fixed income securities, convertible securities, Regulation S securities and Rule 144A securities, all rated investment grade. Investment grade fixed income securities are securities rated at least BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Services, Inc.), an equivalent rating by Fitch Ratings or if unrated, determined by the Investment Manager to be equivalent.

The Fund may invest up to 10% of its net assets in undertakings for collective investment, including but not limited to, exchange traded funds that qualify as UCITS.

The Fund's equity investments may include common stocks, preferred stocks, depository receipts for any of those equity investments and participatory notes. Participatory notes, commonly known as P-Notes, are equity-linked certificates that allow foreign companies to indirectly invest in stocks: they obtain exposure to an equity investment (common stocks, warrants) in a local market where direct foreign ownership is not permitted or restricted.

The Fund is actively managed and seeks to hold a limited number of securities.

The Investment Manager uses a bottom-up approach that seeks to identify companies with attractive fundamentals, such as long-term historical growth in revenue and earnings, and/or a strong probability for superior future growth. The Investment Manager's investment process seeks companies that are industry leaders with strengthening competitive advantages; corporate cultures emphasizing strong, quality and experienced management; low or no debt; and attractive relative valuations. The Investment Manager also considers other factors including political risk, monetary policy risk, and regulatory risk in selecting securities.

On an ancillary basis, the Fund may use derivatives for hedging and investment purposes. The Fund may also enter into securities lending and borrowing transactions as well as repurchase agreements and reverse repurchase agreements.

The Reference Currency of the Fund is the US Dollar.

For indicative purposes only, the Fund's performance may be compared to the MSCI Emerging Markets Index. The Fund is unconstrained by the index and may therefore significantly deviate from it.

Shareholders may redeem Shares on demand on any business day in Luxembourg. Income derived from the Fund is distributed for distributing Shares and reinvested for accumulating Shares, as further detailed in this document. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

### Risk and Reward Profile

Lower Risk ← Higher Risk  
Typically Lower Rewards → Typically Higher Rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This ranking on the synthetic risk and reward indicator scale is due to the Fund's allocation to equity markets. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator:

**Stock Connect risk:** The Fund may invest in China "A" shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect programs which are subject to additional clearing and settlement constraints, potential regulatory changes as well as operational and counterparty risks.

**Emerging Markets risk:** Funds investing in emerging markets may be significantly affected by adverse political, economic, tax or regulatory developments. Investing in emerging markets may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. In addition, exchanges in emerging markets may be very fluctuating. Finally, funds may not be able to sell securities quickly and easily in emerging markets.

**Portfolio Concentration risk:** Funds investing in a limited number of securities may increase the fluctuation of such funds' investment performance. If such securities perform poorly, the fund could incur greater losses than if it had invested in a larger number of securities.

**Smaller Capitalization risk:** Funds investing in companies with small capitalizations may be particularly sensitive to wider price fluctuations, certain market movements and less able to sell securities quickly and easily.

Please refer to the section entitled "Specific Risks" of the Prospectus for additional details on risks.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### Charges by Share Class-Share Class R

#### One-Off charges taken before or after you invest

Entry Charge	4.00%
Exit Charge	None *

This is the maximum that might be taken out of your money before it is invested.
