AUGUST 2020 / FACTSHEET

1. The Trust invests primarily in equities and equity-related securities of companies incorporated in, or exercising the predominant part of their economic activity in Germany, or quoted or traded on the stock exchanges in Germany.
2. The Trust is subject to risks, such as investment, equities and equity-related securities, currency risks and the risks of investing in small and mid-capitalisation companies and convertible bonds. The Trust's investment may be concentrated in German markets and the value of the Trust may be more volatile.
3. The Trust may invest in derivatives for efficient portfolio management (including hedging) purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Trust.
4. Investors may suffer substantial loss of their investments in the Trust.

OBJECTIVE

The investment objective of the Trust is to achieve capital growth by investing in equities in Germany.

STRATEGY

The Trust has the flexibility to invest in companies across all market capitalizations, but is generally biased towards small and mid-cap companies as Barings believes they offer higher growth potential.
