No subscriptions can be received on the basis of financial reports. Subscriptions are valid only if made on the basis of the current prospectus and KIID, accompanied by the last available audited annual report or unaudited semi-annual report if published thereafter.

Audited annual and unaudited semi-annual reports, the current prospectus, KIID and the Articles of Incorporation of Schroder International Selection Fund (the 'Company') are available, free of charge, at the Company's registered office, 5, rue Höhenhof, L-1736 Senningerberg, Grand Duchy of Luxembourg.

This material must not be issued in any jurisdiction where prohibited by law and must not be used in any way that would be contrary to local law or regulation.

Schroder ISF US Dollar Liquidity (This is not a money market fund in Hong Kong)*

Schroder ISF EURO Liquidity (This is not a money market fund in Hong Kong)*

Schroder ISF Asian Dividend Maximiser, Schroder ISF European Dividend Maximiser, Schroder ISF Global Dividend Maximiser**

* In Hong Kong, the fund is not authorized as money market fund under the SFC's Code of Unit Trusts and Mutual Funds. The remaining maturity of the instruments purchased by the fund and the weighted average maturity/life of the fund's portfolio do not meet the limits applicable to money market fund in Hong Kong. The fund may be more negatively impacted by changes in interest rates and subject to higher credit and liquidity risks.

* The fund also qualifies as a Standard Variable Net Asset Value Money Market Fund under the EU Money Market Funds Regulation. It may invest more than 5% and up to 100% of its assets in money market instruments issued or guaranteed separately or jointly by the EU and the member states of the EU or central banks of a member state of the OECD, Group of Twenty or Singapore and other relevant international financial institutions or organisations to which one or more EU Member States belong. The fund does not rely on external support for guaranteeing its liquidity or stabilising the NAV per share. The risk of loss of the principal is borne by investors.

** The name "Dividend Maximiser" refers to the investment objective of the fund to enhance the fund dividend by generating extra income from selling covered call options on the underlying equity portfolio and this may reduce the potential capital growth and future income of the fund. It does not suggest that the manager would aim at seeking highest possible dividends for the fund.

Directors' Report

The Company

Schroder International Selection Fund (the "Company") organised as a "société anonyme" is an open-ended 'umbrella' company incorporated under Luxembourg law, which enables investors to choose from 'Sub-Funds' (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A. (the "Management Company"); Sponsoring entity GIIN: 4RIMT7.00000.SP.442

As at 21 March 2019, all UCITS fund ranges are fully registered in the UK. As required by the Financial Conduct Authority (FCA), Schroders entered into Temporary Permissions Regime (TPR) which allows Schroders Funds to be distributed and marketed in the UK/ to UK investors.

Financial Statements

The Board of Directors (the 'Directors') of the Company submit their report and the audited financial statements for the year ended 31 December 2023. At the date of this report, 139 Sub-Funds were available for investment. Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

This report covers the period from 1 January 2023 to 31 December 2023. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 29 December 2023, the last working day of the period. Across the Financial Statement, names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha.

On 31 December 2023, the total net assets of the Company were EUR 107,027,009,961 compared to EUR 103,093,469,873 on 31 December 2022, representing an increase of 3.82%.

Director's Responsibilities

The responsibility of the Directors is governed by Luxembourg law. With respect to the financial statements of the Company, the Board of Directors of the Company are required to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Sub-Funds as at the financial year end and of the profit or loss of the Sub-Funds for the financial year.

The Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Sub-Funds will continue in business.

The Directors are responsible for ensuring the maintenance of adequate accounting records. They have responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds. In this regard, they have entrusted the assets of the Sub-Funds to J.P Morgan SE, Luxembourg Branch (the "Depositary") for safe-keeping. The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

Board Meetings

During the year to 31 December 2023, there were 11 board meetings held.

Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ("RCSL").
3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the "Management Company"), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors of the Company is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors of the Company has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ("CSSF") and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board of Directors of the Company meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

Sustainable Finance Disclosure Regulation

The information on the environmental and social characteristics for the sub-funds disclosing under article 8(1) of SFDR as required by article 50 (2) of SFDR RTS and the information on sustainable investments for the sub-fund disclosing under article 9(1), 9(2) and 9(3) of SFDR as required by article 58 of the SFDR RTS are disclosed in the unaudited appendix V.

Directors' Report (continued)

Activities during the year

1. New Sub-Funds

During the year under review, 5 new Sub-Funds were made available for investment within the Company:

Sub-Fund	Sub-Fund Base Currency	Launch Date

3. Sub-Fund liquidations

During the year under review 2 Sub-Funds were liquidated:

Sub-Fund	Sub-Fund Base Currency	Liquidation Date
Schroder ISF Digital Infrastructure	USD	10 October 2023
Schroder ISF Dynamic Indian Income Bond*	USD	23 February 2023

4. Sub-Fund mergers

There were 3 mergers during the year under review:

Merger Date	Sub Fund
19 April 2023	Schroder ISF European Large Cap merged into Schroder ISF European Sustainable Equity
27 September 2023	Schroder ISF Sustainable European Market Neutral merged into Schroder ISF European Alpha Absolute Return
8 November 2023	Schroder ISF European Sustainable Value merged into Schroder ISF Global Sustainable Value

* Schroder ISF Dynamic Indian Income Bond was fully redeemed on 23 February 2023, however due to late receipt of invoices, the Sub-Fund was unable to be fully liquidated within the 9 month deadline. The CSSF granted an extension for the full liquidation of the Sub-Fund. The outstanding amounts were settled and the Sub-Fund fully liquidated on 9 February 2024.

Directors' Report (continued)

5. Share class liquidations

In addition to the 65 share classes within the above liquidated Sub-Funds and Sub-Fund mergers, the following share classes were also liquidated during the year under review:

Sub-Fund and Share Class	Share Class Currency	Sub-Fund Base Currency	Liquidation Date

Significant Events During the Year

For the year ended 31 December 2023, the Independent Auditor of the Company was changed from PricewaterhouseCoopers Société cooperative to KPMG Audit S.à r.l.

For the year ended 31 December 2023, Ross Leach was appointed to the Board of Directors of the Company on 1 September 2023.

For the year ended 31 December 2023, Peter Nelson was appointed to the Board of Directors of the Company on 27 June 2023.

For the year ended 31 December 2023, Neil Walton resigned from the Board of Directors of the Company on 31 August 2023.

Ukraine/Russia sanctions

The invasion of Ukraine by Russia which began on 24 February 2022 has increased valuation, liquidity and market risk for securities issued by Ukraine, Belarus and Russia, and to a certain extent, most global markets. As of the date of this report the resolution of this event, and the potential impact on the funds, continues to be uncertain. The board are closely monitoring the situation with respect to all securities held in our funds.

Investment Manager's Report

Economic review

During the 12-month period investor, the focus was primarily on rising inflation and the policy response from major central banks. There were fears that rising interest rates could lead to recession, although economic growth generally remained resilient.

In Europe, the ongoing war in Ukraine contributed to higher inflation as the region had to import liquified natural gas from more distant producers. However, warmer winter weather helped limit the impact of higher gas prices.

China's decision to abandon its strict lockdown measures at the end of 2022 enabled mobility and economic activity to pick up. However, as 2023 progressed, Chinese data showed that the economic recovery was weaker than many had hoped, with the property sector coming under pressure.

Volatility was heightened in March 2023 as several regional US banks – including Silicon Valley Bank – collapsed due to lack of liquidity. In Europe, this was followed by the takeover of Credit Suisse by UBS.

Further uncertainty emerged amid concerns that the US would breach its debt ceiling. However, a deal to extend the debt ceiling was reached in early June 2023.

Towards the end of the period, inflation readings in major economies began to soften. The debate over the outlook for interest rates continued though, as resilient growth and strong US labour markets raised expectations that rates could remain elevated.

However, a change appeared to come in November with the release of softer-than-expected US and eurozone inflation data. This was followed in December by comments from the US Federal Reserve suggesting that rates may not only have peaked, but that cuts could be coming in 2024.

Equity market review

Global shares posted strong gains over the 12 months, shrugging off concerns about higher interest rates and risks to growth. The MSCI World index returned 23.8% (in US dollar terms).

US shares were among the strongest performers. Gains were led by some of the mega cap technology and consumer stocks. Companies thought to be winners from the AI revolution saw particularly strong share price gains around mid-year as markets embraced the potential of AI.

However, there was considerable volatility during the year, notably in March when concerns over rising interest rates contributed to the collapse of several US regional banks.

In local currency terms, Japanese shares registered substantial gains, hitting the highest levels since 1989. This was partly due to Japan's relatively late reopening post the pandemic, and China's even later reopening. Another trigger for the advance was the call by Tokyo Stock Exchange for companies to focus on achieving sustainable growth and enhancing corporate value.

Emerging markets underperformed their developed market counterparts. The MSCI EM Index returned 9.8% (in US dollar terms).

In terms of investment styles, growth significantly outperformed value. And amid another strong year for the US tech giants, smaller companies lagged the wider market.

Fixed income markets

For most of 2023, yields rose across all major government bond markets as investors discounted a succession of interest rate hikes from the major central banks to tackle above target inflation. Turbulence in the banking sector triggered an abrupt fall in bond yields during March, but yields resumed their upward trend over the spring and summer months.

From November, easing inflationary pressures convinced investors that interest rates had peaked and triggered a sharp rally in bond markets into the year end. Over the 12-month period, the 10-year US Treasury yield rose marginally from 3.83% to 3.86%.

Prior to the year-end rally, Japanese government bond yields rose to their highest level in a decade after the Bank of Japan relaxed its constraint on benchmark 10-year yield movements, signalling an end to ultra-loose monetary policy. The 10-year government bond yield increased from 0.50% to 0.62% over the calendar year.

Germany's 10-year Bund yield fell from 2.56% to 2.03% as weak eurozone economic indicators convinced investors interest rates had peaked. In contrast, the UK 10-year gilt yield rose from 3.47% to 3.54% as inflation remained stubbornly high. The Bank of England increased interest rates to 5.25% before pausing its series of hikes in September for the first time in nearly two years.

Credit spreads tightened over the 12-month period, with both the investment grade and high yield bond markets recovering from an indiscriminate sell off during March following the events surrounding Silicon Valley Bank and Credit Suisse. Spread tightening was most marked in the US and European high yield bond markets.

The US dollar weakened against the euro and sterling but strengthened against the yen as the differential between US and Japanese interest rates widened. Overall, the US dollar index declined, rebounding in Q3 prior to a sharp fall as the year ended.

Outlook

The global economy is set to trundle along at fairly sluggish rates of growth of about 2.2% over the next two years as it continues to disinflate. But while the headline figures may be uninspiring, less synchronised global activity means that the diverging fortunes of the world's major economies is likely to have important implications for policymaking and financial markets.

The US economy has continued to defy gravity as consumers keep spending against a backdrop of buoyant labour market conditions and excess household savings. The growth outlook in other parts of the world is not rosy.

Monetary policy in advanced economies is probably at peak restrictiveness, but divergence in economic fortunes is likely to determine whether interest rates really will remain "higher for longer". The case for keeping interest rates elevated in Europe is not obvious and the European Central Bank (ECB) could deliver a first rate cut fairly early in 2024. Deteriorating fundamentals also suggest that the Bank of England (BoE) may not be far behind. But despite early signs of softening, the Federal Reserve (Fed) may not start easing until later in 2024.

Elsewhere, the ongoing bust in China's housing market continues to hang over the economy. The authorities in China have been in loosening mode for some time and further easing is likely as Beijing attempts to manage the end of its housing-led economic model. And with US elections on the horizon, policymakers will be keen to ward-off any further threats from trade sanctions and the break-up of supply chains.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Schroder International Selection Fund and each of its sub-funds ("the Fund"), which comprise the Combined Statement of Net Assets and the Schedule of Investments as at December 31, 2023, and the Combined Statement of Operations and Changes in Net Assets for the year then ended, and Notes to the Financial Statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Schroder International Selection Fund and each of its sub-funds as at December 31, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the “réviseur d’entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund’s and each of its sub-funds’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-fund where a decision or an intention to close exists) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Luxembourg, 25 April 2024

KPMG Audit S.à r.l.
Cabinet de révision agréé

Ravi Beegun
Partner

Please note the audit report is only applicable for the version of the financials signed in the context of the legal audit and filed with the Luxembourgish regulator, that has been signed as of 25 April 2024.
