What is this product?

Invesco Energy Fund (the "Fund") is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is the CSSF, Luxembourg supervisory authority.

Objectives and Investment Strategy

The Fund aims to provide long-term capital growth by investing primarily (at least 70% of its net asset value) in a global portfolio of energy stocks, which include major oil companies, energy services, natural gas infrastructure companies and oil and gas exploration and production companies, as well as companies developing alternative energy

sources. The Fund focuses on reasonably priced companies with above-average production volume growth and earnings, cash flow and asset value growth.

Up to 30% of the net asset value of the Fund may be invested in aggregate in cash and cash equivalents, money market instruments, equity and equity related instruments issued by companies or other entities not meeting the above requirement or debt securities (including convertible debt) of issuers worldwide. For the avoidance of doubt, less than 30% of the net asset value of the Fund may be invested in debt securities (including convertible debt).

Not more than 10% of the net asset value of the Fund may be invested in securities issued by or guaranteed by a country which is unrated (debt securities which are not rated by any international rating agency such as Moody's, Standard & Poor's and Fitch) and/or whose credit rating is below investment grade (below investment grade is defined as credit rating that is below BBB- from Standard & Poor's and Fitch, or below Baa3 from Moody's or an equivalent rating from an internationally recognized rating agency).

The Fund may use derivatives (including but not limited to futures, forwards, non-deliverable forwards, swaps and complex options structures) for hedging and efficient portfolio management purposes. Such derivatives may also incorporate derivatives on derivatives (i.e. forward dated swaps, swap options). However, financial derivative instruments will not be extensively used for investment purposes (i.e. entering into financial derivative instruments to achieve the investment objectives).

Use of derivatives / investment in derivatives

The Fund's net derivative exposure¹ may be up to 50% of the Fund's net asset value.

What are the key risks?

Investment involves risks. Please refer to the Prospectus for details including the risks factors.

- **General investment risk** - There can be no assurance that the Fund will achieve its investment objective. The instruments invested by the Fund may fall in value due to any of the key risk factors below and therefore your investment in the Fund may suffer losses. There is no guarantee of the repayment of principal.
- **Currency exchange risk**
 - The Fund's assets may be invested in securities denominated in currencies other than the base currency of the Fund. Also, a class of shares may be designated in a currency other than the base currency of the Fund. The net asset value of the Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.
 - For the hedged share classes, there is no guarantee that the exposure of the currency in which the shares are denominated can be fully hedged at all times against the base currency of the Fund or the currency or currencies in which the assets of the Fund are denominated. Investors should also note that the successful implementation of the strategy may substantially reduce the benefit to shareholders in the relevant class of shares as a result of decreases in the value of the share class currency against the base currency of the Fund. In the event that investors request payment of redemption proceeds in a currency other than the currency in which the shares are denominated, the exposure of that currency to the currency in which the shares are denominated will not be hedged.
- **Volatility risk** - Investors should note that volatility in the Fund's investment portfolio may result in large fluctuations in the net asset value of the Fund which may adversely affect the net asset value per share of the Fund and investors may as a result suffer losses.
- **Equities risk** - The value of, and income derived from, equity securities held may fall as well as rise and the Fund may not recoup the original amount invested in such securities. The prices of and the income generated by equity securities may decline in response to certain events, including the activities and results of the issuer, general political, economic and market conditions, regional or global economic instability and currency and interest rate fluctuations. Thus, this may adversely impact the Fund and/or the interests of investors.
- **Concentration risk** - As the Fund will invest primarily in energy stocks, such concentration may exhibit a higher than usual degree of risk and the Fund may be subject to above average volatility. The diversification benefits that would ordinarily accrue from investment in a fund having a more diverse portfolio of investments, may not apply to this Fund.
- **Risk of investing in financial derivative instruments ("FDI") for efficient portfolio management and hedging purposes** - Investments of the Fund may be composed of FDI used for efficient portfolio management or to

¹ Please refer to the offering document for details regarding the calculation methodology of net derivative exposure.

attempt to hedge or reduce the overall risk of its investments. Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a FDI can result in a loss significantly greater than the amount invested in the FDI by the Fund. Exposure to FDI may lead to a high risk of significant loss by the Fund.

How has the Fund performed?

- The Fund Manager views Class A accumulation - USD (the "Share Class"), being the focus share class of the Fund available to the public of Hong Kong, as the most appropriate representative share class.
- Fund launch date: 01 February 2001.
- Share Class launch date: 01 February 2001.
- The base currency of the Fund is USD.
- Past performance of the Share Class is calculated in USD.
- Performance is calculated after deduction of ongoing charges and is inclusive of gross income reinvested. Any entry/exit charges shown are excluded from the calculation.
- Past performance is not a guide to future performance.
- Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the Share Class increased or decreased in value during the calendar year being shown.

Is there any guarantee?

The Fund does not have any guarantees. You may not get back the full amount of money you invest.

Distribution fee	Class A: N/A Class B: Up to 1.00%* Class C: N/A * The actual rate is set out in the latest audited annual report and accounts of the SICAV and on the website at www.invesco.com.hk where it deviates from the maximum rate. This website has not been reviewed by the SFC.
Service agents fee	Class A: Up to 0.40% Class B: Up to 0.30% Class C: Up to 0.30%

*The fees can be increased subject to the prior approval of the Securities and Futures Commission ("SFC") and by giving not less than three months' prior notice to the investors.

Other fees

You may have to pay other fees when dealing in the shares of the Fund.

Additional Information

- You generally buy and redeem shares at the Fund's next-determined net asset value after the Hong Kong Sub-Distributor and Representative receives your request in good order on or before 5:00pm, Hong Kong time, being the Fund's dealing cut-off time. Before placing your subscription or redemption orders, please check with your distributor for the distributor's internal cut-off time (which may be earlier than the Fund's dealing cut-off time).
- The net asset value of the Fund is calculated each "Business Day" as defined in the Prospectus and the price of shares is published each Hong Kong business day (i.e. a day on which banks in Hong Kong are open for normal banking business) at www.invesco.com.hk. This website has not been reviewed by the SFC.
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors at www.invesco.com.hk. This website has not been reviewed by the SFC.
- Investors may obtain other information of this product at www.invesco.com.hk. This website has not been reviewed by the SFC.
