Investment Objective

The investment objective of the Schroder Singapore Trust (the "Fund") is to achieve long-term capital growth primarily through investment in securities of companies listed on the Singapore Exchange Securities Trading Limited ("SGX-ST"). The portfolio of the Fund will be broadly diversified with no specific industry or sectoral emphasis.

The Fund may use or invest in derivatives.

The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.

Past performance and any forecasts are not necessarily indicative of the future or likely performance of the Fund. The value of units and the income from them may fall as well as rise. The Fund is subject to investment risks. Investors should read the prospectus, obtainable from Schroder Investment Management (Singapore) Ltd or its distributors, before investing. The above is for information only and without consideration given to the specific investment objective, financial situation and particular needs of any specific person. You may wish to seek advice from a financial advisor before purchasing units of the Fund. In the event that you choose not to seek advice from a financial advisor before investing in the Fund, you should consider whether the Fund selected is suitable for you.

The CPF interest rate for the CPF-OA is based on the 12-month fixed deposit and month-end savings rates of the major local banks. Under the CPF Act, the CPF Board pays a minimum interest rate of 2.5% per annum when this interest formula yields a lower rate. The interest rate for the Special and Medisave Accounts ("SMA") is pegged to the 12-month average yield of 10-year Singapore Government Securities (10YSGS) plus 1%, or 4% whichever is the higher, adjusted quarterly. The interest rate to be credited to the Retirement Account ("RA") is the weighted average interest rate of the entire portfolio of Special Singapore Government Securities (SSGS) the RA savings are invested in which earn a fixed coupon equal to the 12-month average yield of the 10YSGS plus 1% at the point of issuance, or 4% whichever is the higher, adjusted yearly. As announced in September 2014, the Singapore government will maintain the 4% p.a. minimum rate for interest earned on all SMA and RA monies until 31 December 2015. Thereafter, interest rates on all CPF account monies will be subject to a minimum rate of 2.5% p.a.. In addition, the CPF Board will pay an extra interest rate of 1% per annum on the first S\$60,000.00 of a CPF member's combined balances, including up to S\$20,000.00 in the CPF-OA. The first S\$20,000 in the CPF-OA and the first S\$40,000 in the CPF-SA are not allowed to be invested under the CPFIS. Investors should note that the applicable interest rates for each of the CPF accounts may be varied by the CPF Board from time to time.

Distributions of 4 cents per unit per annum will be declared half yearly on 15 July and 15 January. The distributions are not guaranteed and might be changed at the Manager's discretion in accordance with the Trust Deed. Ordinarily, they will be reviewed annually. In the event of the Schroder Singapore Trust's income and realised gains being less than 4 cents per unit per annum, distributions will be made from capital, subject to trustee approval. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment.
