

Important information

- The Fund invests in a small number of sectors (i.e. commodities and natural resources sectors) and a concentrated portfolio which may be subject to greater volatility than more broadly diversified portfolios. The Fund offers exposure to commodities and may include additional risks, such as political risk, natural events or terrorism. Equity investments could be volatile and subject to high risk of loss. The Fund may be also subject to exchange rate fluctuation risk.
- The Fund may use derivatives for hedging and/or efficient portfolio management purposes and may be exposed to significant risk of loss when the use becomes ineffective.
- In adverse situations, the Fund may suffer significant losses. It is possible that the original amount you invested could be lost.
- Investors should not solely rely on this document to make investment decisions.

Global Natural Resources Fund

Key facts

Investment objective and strategy

The Fund aims to achieve long term capital growth primarily through investment in equities issued by companies around the globe that are expected to benefit from a long term increase in the prices of commodities and natural resources. At least two-thirds of the companies invested in will be involved in mining, extracting, producing, processing or transporting a natural resource or commodity or will be companies which provide services to such companies.
