Quick Facts

Fund Manager/ Management Company:	Invesco Management S.A.	
Investment Manager(s):	Invesco Asset Management Deutschland GmbH, located in Germany. (Internal delegation)	
Base Currency:	US Dollar	
Custodian (Depository):	The Bank of New York Mellon SA/NV, Luxembourg Branch	
Dealing Frequency :	Daily	
Financial Year End:	The last day of February	
Ongoing charges over a year:	Class A (EUR hedged) accumulation - EUR	1.30%*
	Class A annual distribution - USD	1.30%*
	Class A monthly distribution-1 - USD	1.30%*
	Class C (EUR hedged) accumulation - EUR	0.90%*
	Class C (GBP hedged) accumulation - GBP	0.90%*
	Class C annual distribution - USD	0.90%*

* The ongoing charges figure is calculated based on annualised expenses for the period ending 31 August 2020 divided by the average net assets over the same period. This figure may vary from year to year. It excludes portfolio transaction costs.

Dividend Policy: Net Income distribution (Dividends, if any, will be paid to investors)
Accumulation (Dividends, if any, will be re-invested into the Fund)
Monthly Distribution-1 (Dividends, if any, will be paid to investors monthly. The SICAV may, at its discretion, pay (a) a portion of dividends out of gross income, (b) a portion of dividends out of capital, and (c) with respect to hedged Monthly Distribution-1 Share classes (if applicable), the interest rate differential between the currency in which the share class is denominated and the base currency of the Fund. The Fund may pay dividends out of capital and/or effectively out of capital and may reduce the net asset value per share of this share class immediately after the monthly distribution date)

Minimum Investment/ Minimum Subscription Amount:

Share class	A	C
Initial (in any of the dealing currencies listed in the Application Form)	USD1,500	USD1,000,000
	EUR1,000	EUR800,000
	GBP1,000	GBP600,000
	HKD10,000	HKD8,000,000
	JPY120,000	JPY80,000,000
	AUD1,500	AUD1,000,000
	CAD1,500	CAD1,000,000
	NZD2,000	NZD1,200,000

What is this product?

Invesco Sustainable Global Structured Equity Fund (the "Fund") is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is the CSSF, Luxembourg supervisory authority.

Objectives and Investment Strategy

The Fund aims to achieve long-term capital growth.

The Fund seeks to achieve its objective by investing primarily (at least 70% of its net asset value) in a diversified portfolio of equities or equity-related securities of companies worldwide which meet the Fund's environmental, social and governance (ESG) criteria with a particular focus on environmental issues.

The stock selection follows a highly structured and clearly defined investment process. Quantitative indicators that are available for each stock in the investment universe are analysed and used by the Investment Manager to evaluate the relative attractiveness of each stock. The portfolio is constructed using an optimisation process that takes into account the calculated expected returns of each stock as well as risk control parameters.

The Fund's ESG criteria will be based on a set of screening thresholds (as outlined below and more fully described in the Fund's ESG policy) determined by the Investment Manager from time to time. These criteria will be reviewed and applied on an ongoing basis and integrated as part of the quantitative investment process for stock selection and portfolio construction.

The Investment Manager will also use positive screening based on an integrated-best-in-class approach to identify issuers, which in the view of the Investment Manager meet sufficient practice and standards in terms of transition to a lower carbon economy for inclusion in the Fund's universe, as measured by their ratings relative to their peers using a third party score (as more fully described in the Fund's ESG policy).

Screening will also be employed to exclude securities issued by issuers which derive or generate a pre-determined level of revenue or turnover from activities such as (but not limited to) fossil fuel industries, activities related to coal or nuclear power, extraction of tar sands and oil shale, fracking or arctic drilling activities, production of restricted chemicals, activities endangering biodiversity, activities generating pollution, manufacturing or sale of conventional weapons or production and distribution of tobacco. All issuers considered for investment will be screened for compliance with, and excluded if they do not meet, UN global compact principles. The current exclusion criteria may be updated from time to time.

As a result of all of the above ESG criteria for screening, it is expected that the size of the investment universe of the Fund will be reduced by about 30% to 50% in terms of number of issuers.

Up to 30% of the net asset value of the Fund may be invested in aggregate in cash and cash equivalents, money market instruments and other transferable securities, which will also meet the Fund's ESG criteria. For the avoidance of doubt, less than 30% of the net asset value of the Fund may be invested in debt securities (including convertible bonds), which will also meet the Fund's ESG criteria.

For more information on the Fund's ESG policy, criteria and potential investments in sustainable activities, please refer to the website of the Management Company.

The Fund may use derivatives (including but not limited to futures, forwards, non-deliverable forwards, swaps and complex options structures) for hedging and efficient portfolio management purposes. Such derivatives may also incorporate derivatives on derivatives (i.e. forward dated swaps, swap options). However, financial derivative instruments will not be extensively used for investment purposes (i.e. entering into financial derivative instruments to achieve the investment objectives).

The financial derivative instruments used for purposes other than hedging will also meet the Fund's ESG criteria.

The Fund may engage in securities lending. The expected proportion of the net asset value of the Fund subject to securities lending is 20%. Under normal circumstances, the maximum proportion of the net asset value of the Fund subject to securities lending is 29%.

Use of derivatives / investment in derivatives

The Fund's net derivative exposure¹ may be up to 50% of the Fund's net asset value.

What are the key risks?

Investment involves risks. Please refer to the Prospectus for details including the risks factors.

¹ Please refer to the offering document for details regarding the calculation methodology of net derivative exposure.

Invesco Sustainable Global Structured Equity Fund

- **General investment risk** - There can be no assurance that the Fund will achieve its investment objective. The instruments invested by the Fund may fall in value due to any of the key risk factors below and therefore your investment in the Fund may suffer losses. There is no guarantee of the repayment of principal.
- **ESG investment risk**
 - Currently, there is no universally accepted framework or list of factors to consider to ensure that investments are sustainable. The lack of common standards may result in different approaches to setting and achieving ESG objectives.
 - ESG factors may vary depending on investment themes, asset classes, investment philosophy and subjective use of different ESG indicators governing portfolio construction. The selection and weightings applied may to a certain extent be subjective or based on metrics that may share the same name but have different underlying meanings. ESG information, whether from an external and/or internal source, is, by nature and in many instances, based on a qualitative and judgemental assessment, especially in the absence of well-defined market standards and due to the existence of multiple approaches to sustainable investment. An element of subjectivity and discretion is therefore inherent to the interpretation and use of ESG data. It may consequently be difficult to compare strategies integrating ESG criteria. The subjective value which investors may or may not assign to certain types of ESG criteria may differ substantially from that of the Fund.
 - The lack of harmonised definitions may also potentially result in certain investments not benefitting from preferential tax treatments or credits because ESG criteria are assessed differently than initially thought.
 - Applying ESG criteria to the investment process may exclude securities of certain issuers for non-financial reasons and, therefore, may forgo some market opportunities available to funds that do not use ESG or sustainability criteria.
 - The securities held by a Fund may be subject to style drift which no longer meet the Fund's ESG criteria after its investments. The Investment Manager may need to dispose of such securities when it might be disadvantageous to do so. This may lead to a fall in the value of the Fund.
 - The use of ESG criteria may also result in the Fund being concentrated in companies with ESG focus and its value may be more volatile than that of a fund having a more diverse portfolio of investments.
 - ESG information from third-party data providers may be incomplete, inaccurate or unavailable. As a result, there exists a risk of incorrectly assessing a security or issuer, resulting in the incorrect inclusion or exclusion of a security. ESG data providers are private undertakings providing ESG data for a variety of issuers. The ESG data providers may change the evaluation of issuers or instruments, at their discretion and from time to time, due to ESG or other factors.
- **Currency exchange risk**
 - The Fund's assets may be invested in securities denominated in currencies other than the base currency of the Fund. Also, a class of shares may be designated in a currency other than the base currency of the Fund. The net asset value of the Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.
 - For the hedged share classes, there is no guarantee that the exposure of the currency in which the shares are denominated can be fully hedged at all times against the base currency of the Fund or the currency or currencies in which the assets of the Fund are denominated. Investors should also note that the successful implementation of the strategy may substantially reduce the benefit to shareholders in the relevant class of shares as a result of decreases in the value of the share class currency against the base currency of the Fund. In the event that investors request payment of redemption proceeds in a currency other than the currency in which the shares are denominated, the exposure of that currency to the currency in which the shares are denominated will not be hedged.
- **Volatility risk** - Investors should note that volatility in the Fund's investment portfolio may result in large fluctuations in the net asset value of the Fund which may adversely affect the net asset value per share of the Fund and investors may as a result suffer losses.
- **Equities risk** - The value of, and income derived from, equity securities held may fall as well as rise and the Fund may not recoup the original amount invested in such securities. The prices of and the income generated by equity securities may decline in response to certain events, including the activities and results of the issuer, general political, economic and market conditions, regional or global economic instability and currency and interest rate fluctuations. Thus, this may adversely impact the Fund and/or the interests of investors.
- **Risk of investing in financial derivative instruments ("FDI") for efficient portfolio management and hedging purposes** - Investments of the Fund may be composed of FDI used for efficient portfolio management or to attempt

Invesco Sustainable Global Structured Equity Fund

to hedge or reduce the overall risk of its investments. Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a FDI can result in a loss significantly greater than the amount invested in the FDI by the Fund. Exposure to FDI may lead to a high risk of significant loss by the Fund.

- **Risks associated with payment of dividends and/or fees and expenses out of capital** - Payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the net asset value per share in respect of such share class after the monthly distribution date.

How has the Fund performed?

■ The performance shown in the chart above was based on an investment objective and policy that no longer applies, with certain changes being made to the Fund on 8 April 2021.

- The Fund Manager views Class A annual distribution - USD (the "Share Class"), being the focus share class of the Fund available to the public of Hong Kong, as the most appropriate representative share class.
- Fund launch date: 11 December 2006.
- Share Class launch date: 11 December 2006.
- The base currency of the Fund is USD.
- Past performance of the Share Class is calculated in USD.
- Performance is calculated after deduction of ongoing charges and is inclusive of gross income reinvested. Any entry/exit charges shown are excluded from the calculation.
- Past performance is not a guide to future performance.
- Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the Share Class increased or decreased in value during the calendar year being shown.

Is there any guarantee?

The Fund does not have any guarantees. You may not get back the full amount of money you invest.

What are the fees and charges?

Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the Fund.

Fee	What you pay
Subscription fee/ Initial charge	Class A: Not exceeding 5.00% of the gross investment amount. Class C: Not exceeding 5.00% of the gross investment amount.
Switching fee	Up to 1.00% of the value of the shares being switched.

Distribution fee	Class A: N/A Class C: N/A
Service agents fee	Class A: Up to 0.40% Class C: Up to 0.30%

*The fees can be increased subject to the prior approval of the Securities and Futures Commission ("SFC") and by giving not less than three months' prior notice to the investors.

Other fees

You may have to pay other fees when dealing in the shares of the Fund.

Additional Information

- The compositions of the dividends (i.e. the relative amounts paid out of (i) net distributable income and (ii) capital) for the last 12 months are available from the Hong Kong Sub-Distributor and Representative on request and at www.invesco.com/hk. This website has not been reviewed by the SFC.
- You generally buy and redeem shares at the Fund's next-determined net asset value after the Hong Kong Sub-Distributor and Representative receives your request in good order on or before 5:00pm, Hong Kong time, being the Fund's dealing cut-off time. Before placing your subscription or redemption orders, please check with your distributor for the distributor's internal cut-off time (which may be earlier than the Fund's dealing cut-off time).
- The net asset value of the Fund is calculated each "Business Day" as defined in the Prospectus and the price of shares is published each Hong Kong business day (i.e. a day on which banks in Hong Kong are open for normal banking business) at www.invesco.com/hk. This website has not been reviewed by the SFC.
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors at www.invesco.com/hk. This website has not been reviewed by the SFC.
- Investors may obtain other information of this product at www.invesco.com/hk. This website has not been reviewed by the SFC.
