

Important information

- The Fund invests in a small number of sectors (i.e. energy) and smaller companies which may be subject to greater volatility than more broadly diversified portfolios and less liquid than shares of larger companies respectively. The Fund offers exposure to commodities and may include additional risks, such as political risk, natural events or terrorism. Equity investments could be volatile and subject to high risk of loss.
- The Fund may use derivatives for hedging and/or efficient portfolio management purposes and may be exposed to significant risk of loss when the use becomes ineffective.
- In adverse situations, the Fund may suffer significant losses. It is possible that the original amount you invested could be lost.
- Investors should not solely rely on this document to make investment decisions.

Global Energy Fund

Key facts

Fund manager: Tom Nelson, Graeme Baker
 Fund size: USD 376.9m

'A' Shares, USD - As at end April 2021

Investment objective and strategy

The Fund aims to achieve capital growth by investing in the equity instruments of internationally quoted companies throughout the world involved in the exploration, production or distribution of oil, gas and other energy sources. In addition, investments may also be made in companies which service the energy industry.
