

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Quilter Investors Global Dynamic Equity Fund R (GBP) Accumulation Shares (GB00B6SF6S87)

A sub-fund of Quilter Investors Series I. Managed by Quilter Investors Limited

Objectives and Investment Policy

Objective: total return from capital growth and income. The Fund aims to outperform the MSCI All Countries World Index, net of charges, over rolling five-year periods.

Policy: the Fund invests at least 80% of the value of its property in shares of companies in developed and emerging markets anywhere in the world. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the Manager expects that the Fund will typically hold investments directly.

The Fund may invest in companies of any size, including smaller companies.

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) (i) for investment purposes; and/or (ii) with the aim of reducing the overall costs and/or risks of the Fund and/or generating additional income or growth (often referred to as 'Efficient Portfolio Management').

The Fund is managed by an investment adviser selected by the Manager for its expected ability to manage the Fund according to the investment objective and policy.

The Manager continuously monitors and may periodically make changes to this appointment.

Target benchmark: the target benchmark for the Fund is the MSCI All Countries World Index. The Fund is actively managed. The Fund investments may differ from those included in this benchmark provided they are allowable in the Investment Policy.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years.

Treatment of income: as shares in this class are accumulation shares, income from investments will be reinvested into the Fund and reflected in the value of the shares.

Dealing: you can generally buy and sell shares on any day on which the London Stock Exchange is open for normal business – please refer to the Prospectus for exceptions.

Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

Funds in category 5 have in the past shown moderately high volatility. With a fund of category 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

Investment risk - there is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.

Company shares (i.e. equities) risk - the value of company shares may rise and fall due to the performance of individual companies or because of general market and economic conditions.

Liquidity risk - some investments may become hard to value or sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.

Currency risk - the Fund is denominated in British Pounds but holds assets denominated in other currencies. The value of your shares may rise and fall as a result of exchange rate movements.

Derivative risk - the Fund may use derivatives to generate returns as well as to reduce costs and/or the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet their contractual obligations.

Capital erosion risk - the Fund takes its charges from the income of the Fund in the first instance. The impact of Fund charges may be material on the value of any income you receive from your investment. There is potential for capital erosion if insufficient income is generated by the Fund to cover these charges. Capital erosion may have the effect of reducing the level of income generated.

For a more detailed explanation of risks, please refer to the "Risks" section of the prospectus.

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.65%
----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	None
-----------------	------

The ongoing charge figure shown is an estimate. Changes to the Fund's investment management arrangements mean that the expenses for the preceding 12 months are no longer representative. The ongoing charge figure includes fixed operating costs known as the flat expense rate and charges for investing in closed-ended funds such as investment trusts. The ongoing charge figure excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares in another collective investment undertaking and may vary from year to year. The Company's annual report for each financial year will include detail on the exact charges made.

You can find out more details about the charges applicable to this Fund by looking at Appendix I of the prospectus and the Charges and Expenses disclosure at www.quilter.com/charges-and-expenses.

Past Performance

Past performance is not a guide to future performance.

The past performance shown does not take into account any entry or exit charges but does take into account the ongoing charge, as shown in the Charges section.

The value of the class is calculated in British Pounds. The Index is in British Pounds. The Fund launched on 27 March 2009. This class started to issue shares on 22 February 2013.

Practical Information

The Depositary is Citibank UK Limited.

Quilter Investors Global Dynamic Equity Fund is a sub-fund of Quilter Investors Series I (the "Company"). The assets and liabilities of each sub-fund are segregated from other sub-funds although it is not yet known whether a foreign court would give effect to segregated liability under a foreign law contract and so this is not certain in every circumstance.

Further information about the Company, copies of its prospectus, annual and half-yearly reports may be obtained, for the entire Company, free of charge in English from the registrar, SS&C, P.O. Box 10278 Chelmsford, CM99 2AR or visit www.quilter.com/documents.
