

SPP Europa Plus is a sustainable, index-oriented equity fund that invests in a wide range of shares in different sectors in the European stock markets. The fund's performance is compared with an index that reflects the European stock market. The fund also actively selects companies with a low Co2 footprint and companies with high sustainability ratings and solutions companies i.e., companies that are helping contribute to achieving the UN's global sustainable development goals. These companies are not necessarily in the fund's benchmark index. The fund follows our criteria for sustainable investments. This means that we do not invest in companies that contribute to the violation of human rights, corruption, harming the climate and environment, the production of landmines, cluster munitions, or nuclear weapons. In addition, the Fund also refrain from investing in companies whose turnover is more than 5 percent from production/distribution from: fossil fuels, weapons/arms, tobacco, alcohol, gambling, pornography, cannabis or companies with large fossil reserves.
