Subtotals of long, short, and/or net exposure percentages and MTD and YTD P&L percentages may not visually match the corresponding subtotal in another section of the report due to rounding.

¹⁴ Gross P&L attribution does not reflect the deduction of management fees, incentive allocations and any expenses which may be incurred in the management of the fund. An investor’s actual return will be reduced by such fees and expenses. See Part 2A of the Adviser’s Form ADV for a description of the management fees and incentive allocations customarily charged by Adviser.

- ¹⁵ From Fund inception through December 31, 2019, each Fund's historical performance has been calculated using the actual management fees, incentive allocations, and expenses paid by the Fund. The actual management fees and incentive allocations paid by the Fund reflect a blended rate of management fees and incentive allocations based on the weighted average of amounts invested in different share classes subject to different management fee and/or incentive allocation terms. Such management fee rates have ranged over time from 1% to 3% (in addition to leverage factor multiple, if applicable) per annum. The amount of incentive allocations applicable to any one investor in the Fund will vary materially depending on numerous factors, including without limitation: the specific terms, the date of initial investment, the duration of investment, the date of withdrawal, and market conditions. As such, the net performance shown for the Fund from inception through December 31, 2019 is not an estimate of any specific investor's actual performance. During this period, had the highest management fee and incentive allocation been applied solely, performance results would likely be lower. For the period beginning January 1, 2020, each Fund's historical performance shows indicative performance for a new issues eligible investor in the highest management fee (2% per annum), in addition to leverage factor multiple, if applicable, and incentive allocation rate (20%) class of the Fund, who has participated in all side pocket private investments (as applicable) from March 1, 2021 onward. Net performance reflects the deduction of operating expenses paid by the Fund during the period, and, unless otherwise noted, is inclusive of legacy private investments. An individual investor's performance may vary based on timing of capital transactions. The inception date for Third Point Offshore Fund, Ltd. is December 1, 1996, Third Point Partners L.P. is June 1, 1995, Third Point Partners Qualified L.P. is January 1, 2005, Third Point Ultra Ltd. is May 1, 1997, and Third Point Ultra Onshore LP is January 2019.
- ¹⁶ Includes constructivism, activism and post-activism positions. "Constructivism" is defined as communications with an issuer regarding Third Point ideas to increase shareholder value that conclude without activism. "Activism" is defined as an active campaign currently ongoing.
- ¹⁷ Includes broad-based market and equity-based hedges.
- ¹⁸ Includes currency hedges and macro investments. Interest rate swaptions, rates and FX related investments are excluded from exposure figures. MTD and YTD P&L of Other includes net attribution of macro investments and certain P&L components not directly attributed to individual sub-asset classes such as gains and losses attributable to unhedged currency movements relative to USD, interest income and expense on cash balances, financing income and expense, etc.
- ¹⁹ Market capitalization reflects only those holdings that are exchange-listed equity or any synthetic equity with an underlying reference instrument market capitalization.
- ²⁰ Beta-adjusted exposures are calculated relative to the S&P based on one-year of historical daily returns for USD denominated assets and weekly returns for foreign denominated assets. Dollar-adjusted exposures are calculated with option positions shown at current market value in lieu of delta-adjusted exposure.
- ²¹ Equity positions do not include SPAC holdings and related transactions that have not yet announced a business combination agreement.
- ²² Includes broad-based market hedges and interest rate/spread hedges. Interest rate/spread hedges are excluded from exposure figures.
- ²³ Includes broad-based market hedges.
- ²⁴ Other includes non-tranched ABS, CDS, and direct asset investments.
- ²⁵ ASC levels provided are inclusive of legacy private investments and are as of 31 December, 2023.
- ²⁶ Participation Notes represent an investor's pro rata share of the Master Fund's indirect Legacy Private Investments as of June 30, 2023, and a small cash reserve. "Legacy Private Investments" is defined as Private Investments (investments indirectly held by the Master Fund that are traditionally considered venture capital or private equity) other than those with ongoing capital contributions. Third Point Investors Limited's Participation Notes were distributed by a subsidiary of the Master Fund in connection with redemptions made in current and/or prior periods.

As such, the net performance shown for the Fund from inception through December 31, 2019 is not an estimate of any specific investor’s actual performance. During this period, had the highest management fee and incentive allocation been applied solely, performance results would likely be lower. For the period beginning January 1, 2020, the Fund’s historical performance shows indicative performance for a new issues eligible investor in the highest management fee (2% per annum) and incentive allocation rate (20%) class of the Fund, who has participated in all side pocket private investments (as applicable) from March 1, 2021 onward. Net performance reflects the deduction of operating expenses paid by the Fund during the period. An individual investor’s performance may vary based on timing of capital transactions. The inception date for Third Point Offshore Fund, Ltd. is December 1, 1996. All performance results are estimates and past performance is not necessarily indicative of future results. The Funds’ performance information shown within includes net gains and losses from “new issues.” The market price for new issues is often subject to significant fluctuation, and investors who are eligible to participate in new issues may experience significant gains or losses. An investor who invests in a class of Interests that does not participate in new issues may experience performance that is different, perhaps materially, from the performance reflected above. All performance results are estimates and should not be regarded as final until audited financial statements are issued.

While the performance of the Fund has been compared here with the performance of well-known and widely recognized indices, whose performance reflects the reinvestment of dividends, the indices have not been selected to represent an appropriate benchmark for the Fund whose holdings, performance and volatility may differ significantly from the securities that comprise the indices.
