

Unaudited Semi-Annual Report – 31 March 2024

JPMorgan Funds

Unit Trust Range

These reports do not constitute an offer of units in any funds forming the subject matter of this document. Subscriptions are only valid if made on the basis of the current explanatory memoranda (or equivalent), supplemented by the most recent financial reports, if available.

Notice to U.K. residents: This document is only directed to persons believed by JPMorgan Asset Management (U.K.) Limited to be investment professionals as defined in Article 19 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, high net worth companies, unincorporated associations and other persons as defined in Article 49 of that Order and to others to whom it can lawfully be distributed or given, inside the United Kingdom, without approval by an authorised person. Persons who do not have professional experience in matters relating to investments should not rely on it and any other person should not act on such information.

This document is issued in the U.K. by JPMorgan Asset Management (U.K.) Limited and has been approved solely for the purposes of section 21(2)(b) of the Financial Services and Markets Act 2000 by JPMorgan Asset Management (U.K.) Limited which is authorised and regulated in the U.K. by the Financial Conduct Authority. Registered in England No. 01161446. Registered address: 25 Bank Street, Canary Wharf, London, UK, E14 5JP.

Although JPMorgan Asset Management (Europe) S.à r.l., under certain administrative services agreements, provides services to the funds covered in this document, the funds are not subject to the laws of Luxembourg nor are they subject to supervision by any supervisory authority in Luxembourg.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan ASEAN Fund (the "Fund") was established under a Trust Deed dated 7 July 1983, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to enable investors to participate in a managed portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities with significant assets in, or significant earnings derived from one or more of the countries comprising the Association of South East Asian Nations.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Notes to the Financial Statements

1 The Fund

JPMorgan Asia Equity Dividend Fund (the "Fund") was established under a Trust Deed dated 6 May 2011, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to provide income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of companies in the Asia Pacific region (excluding Japan) that the Investment Manager expects to pay dividends.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Total distribution to holders of redeemable units

(22,931,612)

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Asia Equity High Income Fund (the "Fund") (formerly known as JPMorgan Australia Fund) was established under a Trust Deed dated 5 June 1981, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

With effect from 21 December 2023, the Fund has been renamed from JPMorgan Australia Fund to JPMorgan Asia Equity High Income Fund.

Prior to 21 December 2023, the investment objective of the Fund was "to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) of equity securities of companies listed on the Australian Securities Exchange".

With effect from 21 December 2023, the investment objective has been changed to "to aim to generate a high level of income while maintaining prospects for long-term capital appreciation by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of listed companies in Asia (excluding Japan), and using derivatives where appropriate. At the same time, the Fund is intended to offer a less volatile return stream than the broader market through the use of derivatives".

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Open option contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the premium amounts/contract prices are recognized in the Statement of Comprehensive Income.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

The notes on pages 52 to 56 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Asia Growth Fund (the "Fund") was established under a Trust Deed dated 11 May 2007, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation by investing at least 70% of its total net asset value in equity securities of companies whose predominant business will benefit from, or is related to, the growth in Asian economies.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Trustee's fee	77,945	85,603
Transaction costs	19,967	10,726
Interest expense	1,467	355
	<u> </u>	<u> </u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 2 December 1991 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Asian Smaller Companies Fund (the "Fund") was established under a Trust Deed dated 2 December 1991, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in the equity securities of small to medium sized companies in the Asia-Pacific region, excluding Japan and Australia except the Manager may, from time to time, invest in Japan and Australia when appropriate investment opportunities arise.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

Notes to the Financial Statements

1 The Fund

JPMorgan Asian Total Return Bond Fund (the "Fund") was established under a Trust Deed dated 30 November 2004, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve a competitive total return, consisting of capital growth and regular interest income, through an actively managed portfolio investing primarily (i.e. at least 70% of its total net asset value) in Asian bonds and other debt securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivative based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures and swap contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

The notes on pages 104 to 107 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan China A-Share Opportunities Fund (the "Fund") was established under a Trust Deed dated 2 July 2014, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities issued in the PRC including but not limited to China A-shares listed on the PRC stock exchanges (e.g. Shanghai Stock Exchange, Shenzhen Stock Exchange and Beijing Stock Exchange).

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted Renminbi as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

Notes to the Financial Statements

1 The Fund

JPMorgan China Income Fund (the "Fund") was established under a Trust Deed dated 21 May 2009, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in (a) equity securities of companies which are based in, listed on any stock exchange of, or operate principally in the PRC and that the Investment Manager expects to pay dividends and (b) Chinese debt securities issued and/or distributed in or outside the PRC.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 14 June 2006 to 30 September 2010.

The notes on pages 132 to 134 form part of these financial statements.

Notes to the Financial Statements**1 The Fund**

JPMorgan China Pioneer A-Share Fund (the "Fund") was established under a Trust Deed dated 14 June 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in PRC equity securities, including but not limited to China A-Shares listed on the PRC stock exchanges (e.g. Shanghai Stock Exchange, Shenzhen Stock Exchange and Beijing Stock Exchange).

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies**(a) Accounting policies of interim financial statements**

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

Notes to the Financial Statements

1 The Fund

JPMorgan Europe High Yield Bond Fund (the "Fund") was established under a Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve a return in excess of European bond markets by investing at least 70% of its total net asset value in European and non-European below investment grade debt securities denominated in European currencies.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the

investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted Euro as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Notes to the Financial Statements

1 The Fund

JPMorgan Europe Strategic Dividend Fund (the "Fund") was established under a Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to provide income and long-term capital growth by investing at least 70% of its total net asset value in equity securities of companies which are based in, listed on stock exchange of or operate principally in Europe and are expected to pay dividends.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the period ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Open futures are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value.

Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted Euro as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Notes to the Financial Statements

1 The Fund

JPMorgan Evergreen Fund (the "Fund") was established under a Trust Deed dated 19 January 2004, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to seek to produce a competitive total return in different market conditions. The Fund seeks to achieve this by investing primarily (at least 90% of its total net asset value) in a professionally managed portfolio of interests in collective investment schemes (including exchange-traded funds) managed by the Manager, its connected parties or external parties. By investing in developed and emerging markets across a range of collective investment schemes, which may embrace the full spectrum of the risk return trade off from low to high risk, the Fund seeks to allocate across equity, fixed income and money market instruments depending on market conditions and opportunities, with no prescribed limits.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

	1.10.2023 to 31.3.2024 Units	1.10.2022 to 31.3.2023 Units

Notes to the Financial Statements

1 The Fund

JPMorgan Future Transition Multi-Asset Fund (the "Fund") was established under a Trust Deed dated 21 June 2021, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

Prior to 31 July 2023, the investment objective of the Fund is to provide medium to long-term moderate capital growth by investing in a diversified portfolio of securities globally, including but not limited to, debt and equity securities whose issuers may benefit from, or contribute to, the transition towards the future world.

With effect from 31 July 2023, the investment objective of the Fund is to provide medium to long-term moderate capital growth by investing in a diversified portfolio of securities globally, including but not limited to, debt and equity securities whose issuers are well positioned to promote or contribute to, the world's transition towards a sustainable future.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Formation costs

Formation costs are recognized as an expense in the period in which they are incurred.

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

Fair value adjustment of units of the Fund

As stated in Note 2(e), units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to the holders of redeemable units and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund. The redemption amount is determined based on the net assets attributable to holders of redeemable units calculated in accordance with the provisions of the Trust Deed ("Trust Deed NAV").

	31.3.2024	30.9.2023
	USD	USD
Net assets attributable to holders of redeemable units (In accordance with HKFRS)	60,664,673	57,164,363
Fair value adjustment of units of the Fund:		
Unamortized formation costs as at the end of the period [Note 3(a)]	5,013	10,708
	<hr/>	<hr/>
Net assets attributable to holders of redeemable units (In accordance with the Trust Deed)	<u>60,669,686</u>	<u>57,175,071</u>

Note:

(a) In accordance with the provisions of the Trust Deed, the formation costs (including legal, accounting, and other professional fees and expenses) or costs incidental to the establishment of the Fund will be paid out of the assets of the Fund and amortized over the first three financial years. However, as stated in Note 2(d), the accounting policy of the Fund for the purpose of compliance with HKAS 38 "Intangible Assets" and for reporting purposes is to expense the expenditure incurred in the formation of the Fund in the period in which they arose.

Notes to the Financial Statements

1 The Fund

JPMorgan Global Bond Fund (the "Fund") was established under a Trust Deed dated 30 April 1979, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve a return in excess of global bond markets by investing primarily (i.e. at least 80% of its total net asset value) in global investment grade debt securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures and swap contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

The notes on pages 222 to 225 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Global Investment Grade Bond Fund (the "Fund") was established under a Trust Deed dated 1 February 2023, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve a return in excess of global bond markets by investing primarily (i.e. at least 90% of its total net asset value) in investment grade debt securities globally across different sectors, including but not limited to government, government related, corporate, emerging markets and securitized debts.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policy of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

	USD Class (acc) Units	USD Class C (acc) Units	USD Class C (mth) Units

Total distribution to holders of redeemable units					(513,599)

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption, or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 23 November 1989 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan India Fund (the "Fund") was established under a Trust Deed dated 23 November 1989, as amended (the "Trust Deed") and is governed by the laws of the Republic of Mauritius. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities linked to the Indian economy. These include, but are not restricted to, securities traded on the stock exchanges of India and the rest of the Indian sub-continent including Pakistan, Bangladesh and Sri Lanka.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed, and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

	USD Class (acc) Units

The notes on pages 238 to 241 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan India Smaller Companies Fund (the "Fund") was established under a Trust Deed dated 13 April 2006, as amended (the "Trust Deed") and is governed by the laws of the Republic of Mauritius. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of small to medium-sized companies in India.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

	<u>5,343,020</u>	<u>(8,120,301)</u>

5 Transactions with the Trustee, the Manager and their Connected Persons

- (a) During the periods ended 31 March 2024 and 2023, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Management fee	360,205	834,028
Registrar's fee	10,116	8,771
Valuation fee	8,050	8,120
Safe custody and bank charges	2,066	1,955
Transaction costs	1,471	1,378
	<u>382,913</u>	<u>864,252</u>

- (b) During the periods ended 31 March 2024 and 2023, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Mauritius) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Safe custody and bank charges	18,184	29,859
Transaction costs	14,739	23,133
Trustee's fee	13,431	6,749
Interest expense	-	575
	<u>46,354</u>	<u>60,316</u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 19 September 2006 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Indonesia Fund (the "Fund") was established under a Trust Deed dated 19 September 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities linked to the Indonesian economy. These include, but are not restricted to, securities traded on the stock exchanges of Indonesia.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Transaction costs	3,290	7,070
Interest expense	92	-
	<u> </u>	<u> </u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

	268,063	557,919

Notes to the Financial Statements

1 The Fund

JPMorgan Japan (Yen) Fund (the "Fund") was established under a Trust Deed dated 1 August 1969, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through investment primarily (i.e. at least 70% of its total net asset value) in Japanese equity securities and other equity securities whose performance is linked to that of the Japanese economy.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted Japanese Yen as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

Transaction costs	311	134
	<u> </u>	<u> </u>

(b) During the periods ended 31 March 2024 and 2023, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 JPY'000	1.10.2022 to 31.3.2023 JPY'000
Trustee's fee	7,541	6,310
Safe custody and bank charges	5,143	4,241
Interest expense	464	-
Transaction costs	325	-
	<u> </u>	<u> </u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 11 December 1991 to 30 September 2010.

The notes on pages 267 to 270 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Korea Fund (the "Fund") was established under a Trust Deed dated 11 December 1991, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through investment primarily (i.e. at least 70% of its total net asset value) in companies whose shares are listed on the Korea Stock Exchange or traded on the Korean over-the-counter market.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

(b) During the periods ended 31 March 2024 and 2023, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Trustee's fee	32,331	31,035
Safe custody and bank charges	27,212	25,143
Transaction costs	19,795	12,799
Interest expense	-	404
	<u> </u>	<u> </u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 12 December 1989 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Malaysia Fund (the "Fund") was established under a Trust Deed dated 12 December 1989, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities linked to the Malaysian economy. These include, but are not restricted to, securities listed on the Kuala Lumpur Stock Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value.

Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Notes to the Financial Statements

1 The Fund

JPMorgan Money Fund (the "Fund") was established under a Trust Deed dated 13 June 1983, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The Fund currently comprises the HK\$ portfolio ("Portfolio").

The investment objective of the Portfolio is to provide an efficient vehicle for holding liquid assets currently denominated in the currency of Hong Kong by investing in short-term deposits and high quality money market instruments. The Manager will aim to secure long-term capital growth.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments

Classification

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments are accounted for on the trade date basis. Investments are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments are recognized in the Statement of Comprehensive Income. Investments are derecognized when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted Hong Kong dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Net assets attributable to holders of redeemable units and number of units in issue

Fair value adjustment of units of the Fund

As at 31 March 2024, the Fund had HKD1,637,893,855 (30 September 2023: HKD1,814,251,106) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity. The redemption amount is determined based on the net assets attributable to holders of redeemable units calculated in accordance with the provisions of the Trust Deed ("Trust Deed NAV").

	31.3.2024 HKD	30.9.2023 HKD
Net assets attributable to holders of redeemable units (In accordance with HKFRS)	1,637,893,855	1,814,251,106
Fair value adjustment of units of the Fund:		
Difference in valuation of investments [Note 3(a)]	(92,061)	252,654
Net assets attributable to holders of redeemable units (In accordance with the Trust Deed)	<u>1,637,801,794</u>	<u>1,814,503,760</u>

Note:

- (a) In accordance with the Trust Deed, amortized cost method may be used in respect of certain debt instruments specified in the Explanatory Memorandum. In accordance with the Explanatory Memorandum, debt investments of the Fund with a residual maturity exceeding 90 days will be valued at their latest market quoted price on the relevant dealing day. Debt investments of the Fund with a residual maturity of 90 days or less at the time of purchase will be valued using the amortized cost method, whereby the investments are valued at cost and adjusted to account for the amortization of premiums or discounts over the remaining life of such debt investments. For debt investments being held by the Fund and turning to have a residual maturity of 90 days, such debt investments will begin to be valued using the amortized cost method, whereby their closing price on the dealing day immediately before the investments turned 90 days to maturity will be used as the basis and adjusted for the amortization of premiums or discounts over the investments' remaining life. However, as stated in Note 2(b), the accounting policy of the Fund for the purpose of compliance with HKFRS 9 "Financial Instruments" and for reporting purposes is to fair value debt securities and money market based on quoted prices inclusive of accrued interest.

Notes to the Financial Statements

1 The Fund

JPMorgan Multi Balanced Fund (the "Fund") was established under a Trust Deed dated 23 February 2017, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide regular income by investing primarily in a conservatively constructed portfolio of income generating securities globally, including but not limited to, equities (including preferred shares), senior secured bonds, high yield bonds, investment grade bonds, below investment grade bonds, emerging market bonds, convertible bonds, asset backed securities (including asset backed commercial papers) and mortgage backed securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Notes to the Financial Statements

1 The Fund

JPMorgan Multi Income Fund (the "Fund") was established under a Trust Deed dated 24 June 2011, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to maximize the income return primarily through investing in a diversified portfolio of income producing equities, bonds and other securities. In addition, the Fund aims to provide medium to long-term moderate capital growth. The Manager will seek to achieve these objectives by active asset allocation to, and within, different asset classes and geographies. The asset classes include but are not limited to investment grade bonds, below investment grade bonds, high yield bonds, emerging market bonds, convertible bonds, asset backed securities (including asset backed commercial papers), mortgage backed securities, real estate investment trusts ("REITs") and equities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Pacific Securities Fund (the "Fund") was established under a Trust Deed dated 7 April 1978, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in the securities of companies in the Asia-Pacific region, including Japan, Australia and New Zealand.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Transaction costs	10,786	4,720
Interest expense	1,800	4,265
	<u>147,927</u>	<u>154,486</u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 14 August 1997 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Pacific Technology Fund (the "Fund") was established under a Trust Deed dated 14 August 1997, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of securities of technology companies (including but not limited to companies related to technology, media and communication services) in the Pacific region, including Japan.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(b) During the periods ended 31 March 2024 and 2023, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Trustee's fee	98,743	105,287
Safe custody and bank charges	88,087	167,651
Interest expense	22,797	10,644
Transaction costs	17,716	18,422
	<u> </u>	<u> </u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 30 June 1987 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Philippine Fund (the "Fund") was established under a Trust Deed dated 29 July 1974, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through investment primarily (i.e. at least 70% of its total net asset value) in the equity securities of companies based or operating in the Philippines.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the period	351,677.516	4,083.000
Total allotments	22,546.865	-
Total redemptions	(62,763.575)	-
At the end of the period	<u>311,460.806</u>	<u>4,083.000</u>

1.10.2022 to 31.3.2023

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the period	363,719.662	4,083.000
Total allotments	25,744.315	-
Total redemptions	(25,737.932)	-
At the end of the period	<u>363,726.045</u>	<u>4,083.000</u>

31.3.2024

	USD Class (acc) USD	USD Class C (acc) USD
Net assets attributable to holders of redeemable units	<u>34,620,829</u>	<u>47,038</u>
Net assets attributable to holders of redeemable units (per unit)	<u>111.16</u>	<u>11.52</u>

30.9.2023

	USD Class (acc) USD	USD Class C (acc) USD
Net assets attributable to holders of redeemable units	<u>34,796,961</u>	<u>41,717</u>
Net assets attributable to holders of redeemable units (per unit)	<u>98.95</u>	<u>10.22</u>

4 Net gains on investments and derivatives

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Change in unrealized gains/losses in value of investments and derivatives	3,705,110	7,717,059
Realized gains/(losses) on sale of investments and derivatives	220,454	(393,981)
	<u>3,925,564</u>	<u>7,323,078</u>

5 Transactions with the Trustee, the Manager and their Connected Persons

(a) During the periods ended 31 March 2024 and 2023, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Management fee	256,285	277,488
Registrar's fee	15,250	15,813
Valuation fee	8,050	8,190
Safe custody and bank charges	1,527	1,655
Transaction costs	413	398
	<u> </u>	<u> </u>

(b) During the periods ended 31 March 2024 and 2023, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Safe custody and bank charges	11,722	12,227
Trustee's fee	10,264	11,098
Transaction costs	2,430	2,825
	<u> </u>	<u> </u>

6 Distribution

No distribution was made during the period (31 March 2023: nil).

Notes to the Financial Statements

1 The Fund

JPMorgan Sustainable Infrastructure Fund (the "Fund") was established under a Trust Deed dated 6 July 2005, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve a return by investing primarily (i.e. at least 70% of its total net asset value) in equity securities globally (including listed real estate investment trusts) that are well positioned to promote the development of the infrastructure required to facilitate a sustainable and inclusive economy, whilst not significantly harming any environmental or social objectives and following good governance practices.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore, it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption, or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 11 December 1991 to 30 September 2010.

The notes on pages 441 to 444 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Thailand Fund (the "Fund") was established under a Trust Deed dated 20 July 1989, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities of companies based or operating principally in Thailand.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)1.10.2023 to 31.3.2024

Notes to the Financial Statements

1 The Fund

JPMorgan Vietnam Opportunities Fund (the "Fund") was established under a Trust Deed dated 15 August 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of companies either (i) domiciled or listed on a stock exchange in Vietnam, or (ii) with actual or prospective operations, assets or investments, direct or indirect, in Vietnam in an aggregate amount of not less than either USD50 million or 10 per cent. of the gross assets of the investing company (albeit such operations, assets or investments may at the time of investment be immaterial to the financial results of such company).

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

(a) Accounting policy of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2023.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(e) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

1.10.2023 to 31.3.2024

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the period	12,604,408.985	1,088,742.505
Total allotments	230,076.395	18,100.077
Total redemptions	(2,036,832.340)	(55,540.209)
At the end of the period	<u>10,797,653.040</u>	<u>1,051,302.373</u>

1.10.2022 to 31.3.2023

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the period	12,784,851.835	1,167,166.782
Total allotments	1,120,645.834	11,620.305
Total redemptions	<u>(1,025,352.151)</u>	<u>(183,617.512)</u>
At the end of the period	<u>12,880,145.518</u>	<u>995,169.575</u>

31.03.2024

	USD Class (acc) USD	USD Class C (acc) USD
Net assets attributable to holders of redeemable units	<u>231,299,345</u>	<u>14,633,512</u>
Net assets attributable to holders of redeemable units (per unit)	<u>21.42</u>	<u>13.92</u>

30.09.2023

	USD Class (acc) USD	USD Class C (acc) USD
Net assets attributable to holders of redeemable units	<u>250,479,927</u>	<u>14,006,658</u>
Net assets attributable to holders of redeemable units (per unit)	<u>19.87</u>	<u>12.86</u>

4 Net gains/(losses) on investments and derivatives

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Change in unrealized gains/losses in value of investments and derivatives	20,440,818	3,072,318
Realized losses on sale of investments and derivatives	<u>(1,122,492)</u>	<u>(15,571,038)</u>
	<u>19,318,326</u>	<u>(12,498,720)</u>

5 Transactions with the Trustee, the Manager and their Connected Persons

- (a) During the periods ended 31 March 2024 and 2023 respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2023 to 31.3.2024 USD	1.10.2022 to 31.3.2023 USD
Management fee	1,777,678	1,740,736
Registrar's fee	8,815	8,949
Valuation fee	8,330	8,470

Notes to the Financial Statements

1 The Fund

JPMorgan ASEAN Fund (the "Fund") was established under a Trust Deed dated 7 July 1983, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to enable investors to participate in a managed portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities with significant assets in, or significant earnings derived from one or more of the countries comprising the Association of South East Asian Nations.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- Singapore	395,733,137	33.8	377,342,250	32.3
- Indonesia	276,936,953	23.6	280,440,209	24.0
- Thailand	249,533,233	21.3	249,198,989	21.3

Total Investments	<u>1,137,072,496</u>	<u>97.1</u>	<u>1,133,558,885</u>	<u>96.9</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>1,171,462,015</u>	MSCI AC ASEAN 10/40 Net	0.99	+6.2	<u>71,904,338</u>
As at 30 September 2022	<u>1,170,150,124</u>	MSCI AC ASEAN 10/40 Net	1.03	-11.8	<u>(142,220,046)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- ** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- *** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- **** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	39,796,281	35,841,837
Total interest sensitivity gap	<u>39,796,281</u>	<u>35,841,837</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	16,195,258	+0.4	64,781
Chinese Yuan (Offshore)	6,482,923	-2.1	(136,141)
Hong Kong Dollar	425,141	+0.2	850
Indonesian Rupiah	276,827,271	-1.5	(4,152,409)
Malaysian Ringgit	105,614,654	-1.2	(1,267,376)
Philippine Peso	78,919,867	+3.6	2,841,115
Singapore Dollar	343,133,199	+5.1	17,499,793
Thai Baht	252,791,674	+3.6	9,100,500
Vietnamese Dong	30,526,995	-1.8	(549,486)
	<u>1,110,916,982</u>		<u>23,401,627</u>
<u>2022</u>			
Australian Dollar	14,173,771	-11.0	(1,559,115)
Chinese Yuan (Offshore)	5,102,258	-9.5	(484,715)
Hong Kong Dollar	632,713	-0.8	(5,062)
Indonesian Rupiah	280,440,209	-6.0	(16,826,413)
Malaysian Ringgit	130,177,794	-9.7	(12,627,246)
Philippine Peso	72,756,049	-13.0	(9,458,286)
Singapore Dollar	329,087,435	-5.4	(17,770,721)
Thai Baht	246,558,965	-10.3	(25,395,573)
Vietnamese Dong	30,388,060	-4.6	(1,397,851)
	<u>1,109,317,254</u>		<u>(85,524,982)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	9,720,578	4,369,227
S&P(A)/Moody's(A)/FITCH(A)	30,075,703	31,472,610
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	207,718	104,332
S&P(A)/Moody's(A)/FITCH(A)	2,424	32,704
Investment and derivative balances with custodian		
S&P(AA)/Moody's(Aa)/FITCH(AA)	<u>1,136,866,109</u>	<u>1,134,330,365</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts due to brokers	9,337,316	-	7,689,110	-
Amounts payable on redemption	2,154,729	-	2,955,027	-
Derivatives	3,217	538	908,516	-
Other accounts payable	1,668,181	-	1,781,636	-
Net assets attributable to holders of redeemable units	<u>1,171,462,015</u>	<u>-</u>	<u>1,170,150,124</u>	<u>-</u>
Total financial liabilities	<u>1,184,625,458</u>	<u>538</u>	<u>1,183,484,413</u>	<u>-</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD

Financial liabilities at fair value through profit and loss	908,516	(47,422)	-	861,094

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	1,136,866,109	-	-	1,136,866,109

Derivatives	-	259,220	-	259,220
Total financial assets at fair value through profit and loss	<u>1,134,208,181</u>	<u>259,220</u>	<u>-</u>	<u>1,134,467,401</u>
<u>Liabilities</u>				
Derivatives	-	908,516	-	908,516
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>908,516</u>	<u>-</u>	<u>908,516</u>
Unlisted/Unquoted Investments				
<u>2022</u>				
<u>Assets</u>				
Equities	-	-	-	-
Total financial assets at fair value through profit and loss	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	42,729,531	(219,647,737)
Realized (losses)/gains on sale of investments and derivatives	(3,041,366)	47,106,452
	<u>39,688,165</u>	<u>(172,541,285)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities (Asia Pacific) Limited	147,701,040	9.92	86,443	7.51	0.06
<u>2022</u>					
J.P. Morgan Securities (Asia Pacific) Limited	136,144,102	7.49	90,573	7.15	0.07

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	9,720,578	4,369,227
Amounts receivable	742,734	1,964,505
Amounts payable	(1,595,064)	(1,698,422)

As at 30 September 2023, the Fund's investment and derivative balance of USD1,136,866,109 (2022: USD1,134,330,365) represents the investments and derivatives held by the custodian, JPMorgan Chase Bank, N.A., a Connected Person of the Manager.

- (c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD4,858 (2022: USD7,290).
- (d) Management fee for USD Class C (acc) of 0.75% per annum and all other share classes of 1.5% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.
- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain of its Directors and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction USD
<u>2023</u>							
<u>Directors of the Manager</u>

<u>JPMorgan Funds (Asia) Limited</u>							
- USD Class (acc)	-	N/A	-	-	N/A	-	-

- (f) Trustee's fee of 0.018% per annum of the net asset value of the Fund is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	34,684	1,594
Other income	5,796	185
Transaction costs	(143,514)	(153,372)
Safe custody and bank charges	(439,699)	(514,610)

8 Borrowings

The Fund has no bank borrowing during the year ended 30 September 2023. During the year ended 30 September 2022, the Fund has unsecured short-term bank borrowings with a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD1,484,827,640 (2022: USD1,561,152,343). Commission which amounted to USD91,662 (2022: USD156,702) is paid from the Fund on these transactions.

Independent Auditor's Report

To the Unitholders of JPMorgan ASEAN Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan ASEAN Fund, which are set out on pages 4 to 22, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 7 July 1983, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor’s Report (Continued)

To the Unitholders of JPMorgan ASEAN Fund (the "Fund")

**Auditor’s Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund is managed by the Manager in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto; and
- report to the unitholders for each annual accounting period on the conduct of the Manager in the management of the Fund.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 7 July 1983, as amended, for the year ended 30 September 2023.

Bank of East Asia (Trustees) Limited, Trustee

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

The notes on pages 32 to 66 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Asia Equity Dividend Fund (the "Fund") was established under a Trust Deed dated 6 May 2011, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to provide income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of companies in the Asia Pacific region (excluding Japan) that the Investment Manager expects to pay dividends.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(i) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(j) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- China	283,649,034	26.1	216,672,538	18.2
- Australia	166,254,321	15.3	263,484,792	22.1
- Taiwan	163,828,463	15.1	147,018,650	12.3
- Korea	151,261,676	13.9	122,925,602	10.3
- Hong Kong	80,955,892	7.5	187,107,881	15.7
- Singapore	64,958,129	6.0	111,544,024	9.4
- Indonesia	59,049,227	5.5	70,836,761	5.9
- Others	112,502,396	10.4	76,091,962	6.4
	<u>1,082,459,138</u>	<u>99.8</u>	<u>1,195,682,210</u>	<u>100.3</u>
Derivatives				
- Forward foreign exchange contracts	3,200,060	0.3	1,604,195	0.1
	<u>1,085,659,198</u>	<u>100.1</u>	<u>1,197,286,405</u>	<u>100.4</u>
Liabilities				
Derivatives				
- Forward foreign exchange contracts	(1,721,638)	(0.2)	(16,987,221)	(1.4)
	<u>1,083,937,560</u>	<u>99.9</u>	<u>1,180,299,184</u>	<u>99.0</u>

Also, refer to Note 11 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>1,085,023,048</u>	MSCI AC Asia Pacific ex Japan Net	0.90	+11.6	<u>113,276,406</u>
As at 30 September 2022	<u>1,192,541,458</u>	MSCI AC Asia Pacific ex Japan Net	0.91	-27.0	<u>(293,007,436)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	5,886,918	25,815,350
Short-term bank loans - unsecured	(3,200,000)	-
Total interest sensitivity gap	<u>2,686,918</u>	<u>25,815,350</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 11 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD

	<u>1,625,668,090</u>		<u>(145,739,423)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	2,426,958	2,607,831
S&P(A)/Moody's(A)/FITCH(A)	3,459,960	23,207,519
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	3,085,272	936,404
S&P(A)/Moody's(A)/FITCH(A)	114,788	667,791
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>1,082,459,138</u>	<u>1,195,682,210</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Short-term bank loans - unsecured	3,200,000	-	-	-
Amounts due to brokers	-	-	3,631,468	-
Amounts payable on redemption	4,682,883	-	8,622,901	-
Distribution payable	4,084,324	-	5,610,708	-
Derivatives	1,721,610	28	16,987,162	59
Other accounts payable	1,402,251	-	1,694,762	-
Net assets attributable to holders of redeemable units	<u>1,085,023,048</u>	<u>-</u>	<u>1,192,541,458</u>	<u>-</u>
Total financial liabilities	<u>1,100,114,116</u>	<u>28</u>	<u>1,229,088,459</u>	<u>59</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD
		Financial Instruments USD	Collateral and margin deposits USD	
<u>2023</u>				
<u>Assets</u>

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD
		Financial Instruments USD	Collateral and margin deposits USD	
<u>Liabilities</u>				
Derivatives	16,987,221	(1,206,777)	-	15,780,444
Financial liabilities at fair value through profit and loss	<u>16,987,221</u>	<u>(1,206,777)</u>	<u>-</u>	<u>15,780,444</u>

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	1,082,459,138	-	-	1,082,459,138
Derivatives	-	3,200,060	-	3,200,060
Total financial assets at fair value through profit and loss	<u>1,082,459,138</u>	<u>3,200,060</u>	<u>-</u>	<u>1,085,659,198</u>
<u>Liabilities</u>				
Derivatives	-	1,721,638	-	1,721,638
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>1,721,638</u>	<u>-</u>	<u>1,721,638</u>
<u>2022</u>				
<u>Assets</u>				
Equities	1,195,682,210	-	-	1,195,682,210
Derivatives	-	1,604,195	-	1,604,195
Total financial assets at fair value through profit and loss	<u>1,195,682,210</u>	<u>1,604,195</u>	<u>-</u>	<u>1,197,286,405</u>
<u>Liabilities</u>				
Derivatives	-	16,987,221	-	16,987,221
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>16,987,221</u>	<u>-</u>	<u>16,987,221</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	163,673,593	(344,940,585)
Realized losses on sale of investments and derivatives	(35,683,855)	(44,475,059)
	127,989,738	(389,415,644)

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

7 Taxation

Australia Taxation

The Fund invests in securities listed on the stock exchange in Australia. Gains generated from disposals of Australian investments may be exposed to Australian tax at the rate of 30%. In September 2012, the Australian Government introduced legislation exempting gains realized by a foreign fund on or before 30 June 2011, provided that certain ownership conditions and other criteria are met. In June 2015, the Australian Government further introduced legislation ("Legislation") which exempts gains realized by a foreign managed fund on or after 1 July 2011 provided that certain ownership conditions and other criteria can be met.

The Manager considers that the charge for capital gains tax on Australian investments invested by the Fund as at 30 September 2023 is unlikely as at the date of approval of these financial statements. The Manager is of the view that the Fund should meet the criteria under the Legislation and should be eligible for the exemption of tax. As at 30 September 2023 and 2022, no provision for such tax was made accordingly. This assessment represents the best estimate of the Manager.

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via the China Connect and are temporarily exempt from PRC corporate income tax. The capital gains derived through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received and interest income received during the years ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities Plc	510,936	0.05	128	0.03	0.03
J.P. Morgan Securities Australia Limited	19,453,757	1.96	11,087	2.29	0.06
J.P. Morgan Securities (Asia Pacific) Limited	52,261,058	5.26	53,214	11.00	0.10
The Hongkong and Shanghai Banking Corporation Limited	20,662,496	2.08	12,230	2.53	0.06
<u>2022</u>					
J.P. Morgan India Private Limited	1,525,826	0.09	610	0.07	0.04
J.P. Morgan Securities Australia Limited	37,013,888	2.17	16,975	1.88	0.05
J.P. Morgan Securities (Asia Pacific) Limited	88,069,315	5.17	56,971	6.29	0.06
The Hongkong and Shanghai Banking Corporation Limited	26,807,210	1.57	18,969	2.10	0.07
The Hongkong and Shanghai Banking Corporation Limited, Seoul	165,102	0.01	165	0.02	0.10

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	2,426,958	2,607,831
Amounts receivable	288,913	793,411
Amounts payable	(1,331,062)	(1,590,113)

- (c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to USD11,353,210 (2022: realized gains amounting to USD5,224,086).
- (d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD15,528. (2022: USD2,908).
- (e) Management fee for USD Class C (div) and USD Class C (mth) of 0.75% per annum and all other share classes of 1.5% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	42,099.949	26,659.773	(9,800.088)	58,959.634	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	13,686.096	-	(9,915.613)	3,770.483	-
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	40,744.830	25,649.426	(24,294.307)	42,099.949	72,249
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	22,995.142	-	(9,309.046)	13,686.096	21,361

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	28,906	23,386
Safe custody and bank charges	(34,834)	(34,471)
Transaction costs	(64,429)	(74,556)
	<u> </u>	<u> </u>

- (j) During the years ended 30 September 2023 and 2022, in addition to the Trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	21,935	2,101
Transaction costs	(38,103)	(78,539)
Interest expense	(67,333)	(25,024)
Safe custody and bank charges	(328,748)	(415,751)

9 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

10 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD988,826,529 (2022: USD1,411,296,461). Commission which amounted to USD41,906 (2022: USD159,412) is paid from the Fund on these transactions.

11 Derivatives

Independent Auditor's Report

To the Unitholders of JPMorgan Asia Equity Dividend Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Asia Equity Dividend Fund, which are set out on pages 30 to 66, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 6 May 2011, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Asia Equity Dividend Fund
(the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 6 May 2011, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

Notes to the Financial Statements

1 The Fund

JPMorgan Asia Growth Fund (the "Fund") was established under a Trust Deed dated 11 May 2007, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation by investing at least 70% of its total net asset value in equity securities of companies whose predominant business will benefit from, or is related to, the growth in Asian economies.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
Listed/Quoted Investments	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Assets				
Equities				
- China	171,046,240	30.3	188,865,373	33.6
- India	101,932,577	18.1	95,397,775	17.0
- Taiwan	93,407,504	16.5	75,300,164	13.4
- Korea	70,720,728	12.5	50,424,011	9.0
- Hong Kong	41,305,036	7.3	52,576,269	9.3
- Indonesia	35,490,748	6.3	61,161,369	10.9
- Others	35,946,027	6.4	33,439,562	5.8
	<u>549,848,860</u>	<u>97.4</u>	<u>557,164,523</u>	<u>99.0</u>
Derivatives				
- Forward foreign exchange contracts	187,268	0.0	105,215	0.0
	<u>550,036,128</u>	<u>97.4</u>	<u>557,269,738</u>	<u>99.0</u>
Liabilities				
Derivatives				
- Forward foreign exchange contracts	(9,882)	(0.0)	(954,222)	(0.1)
	<u>550,026,246</u>	<u>97.4</u>	<u>556,315,516</u>	<u>98.9</u>
Total Listed/Quoted Investments	<u><u>550,026,246</u></u>	<u><u>97.4</u></u>	<u><u>556,315,516</u></u>	<u><u>98.9</u></u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>564,675,600</u>	MSCI AC Asia ex Japan Net	1.05	+10.9	<u>64,627,122</u>
As at 30 September 2022	<u>562,673,437</u>	MSCI AC Asia ex Japan Net	1.04	-28.7	<u>(167,946,767)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	20,208,188	5,663,888
Total interest sensitivity gap	<u>20,208,188</u>	<u>5,663,888</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Chinese Yuan (Offshore)	71,551,795	-2.1	(1,502,588)
Hong Kong Dollar	179,694,166	+0.2	359,388
Indian Rupee	95,214,119	-2.0	(1,904,282)
Indonesian Rupiah	35,490,748	-1.5	(532,361)
Korean Won	70,378,743	+6.0	4,222,725
Singapore Dollar	12,158,133	+5.1	620,065
Taiwan Dollar	93,649,874	-1.6	(1,498,398)
Vietnamese Dong	9,212,326	-1.8	(165,822)
	<u>567,349,904</u>		<u>(401,273)</u>

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2022</u>			
Chinese Yuan (Offshore)	79,400,632	-9.5	(7,543,060)
Hong Kong Dollar	197,655,268	-0.8	(1,581,242)
Indian Rupee	95,397,775	-8.8	(8,395,004)
Indonesian Rupiah	61,161,369	-6.0	(3,669,682)
Korean Won	50,424,011	-17.2	(8,672,930)
Singapore Dollar	14,708,913	-5.4	(794,281)
Taiwan Dollar	77,717,812	-12.2	(9,481,573)
Thai Baht	10,409,814	-10.3	(1,072,211)
Vietnamese Dong	4,813,581	-4.6	(221,425)
	591,689,175		(41,431,408)

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	1,255,829	1,069,529
S&P(A)/Moody's(A)/FITCH(A)	18,952,359	4,594,359
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	186,029	44,984
S&P(A)/Moody's(A)/FITCH(A)	1,239	60,231
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>549,848,860</u>	<u>557,164,523</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023		2022	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts due to brokers	12,388,299	-	88,344	-
Amounts payable on redemption	1,159,578	-	2,139,447	-
Derivatives	9,023	859	954,218	4
Other accounts payable	813,668	-	889,133	-
Net assets attributable to holders of redeemable units	<u>564,675,600</u>	<u>-</u>	<u>562,673,437</u>	<u>-</u>
Total financial liabilities	<u>579,046,168</u>	<u>859</u>	<u>566,744,579</u>	<u>4</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>2023</u>				
<u>Assets</u>				
Derivatives	187,268	(4,931)	-	182,337
Financial assets at fair value through profit and loss	187,268	(4,931)	-	182,337
	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>2022</u>				
<u>Assets</u>				
Derivatives	105,215	(59,587)	-	45,628
Financial assets at fair value through profit and loss	105,215	(59,587)	-	45,628
	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>Liabilities</u>				
Derivatives	954,222	(59,587)	-	894,635
Financial liabilities at fair value through profit and loss	954,222	(59,587)	-	894,635

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	549,848,860	-	-	549,848,860
Derivatives	-	187,268	-	187,268
Total financial assets at fair value through profit and loss	<u>549,848,860</u>	<u>187,268</u>	<u>-</u>	<u>550,036,128</u>
<u>Liabilities</u>				
Derivatives	-	9,882	-	9,882
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>9,882</u>	<u>-</u>	<u>9,882</u>
<u>2022</u>				
<u>Assets</u>				
Equities	557,164,523	-	-	557,164,523
Derivatives	-	105,215	-	105,215
Total financial assets at fair value through profit and loss	<u>557,164,523</u>	<u>105,215</u>	<u>-</u>	<u>557,269,738</u>
<u>Liabilities</u>				
Derivatives	-	954,222	-	954,222
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>954,222</u>	<u>-</u>	<u>954,222</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	81,769,565	(287,746,214)
Realized losses on sale of investments and derivatives	(45,084,580)	(22,742,545)
	<u>36,684,985</u>	<u>(310,488,759)</u>

6 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice. Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2023 and 2022.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via the China Connect are temporarily exempt from PRC corporate income tax. The capital gains derived through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Securities & Capital Markets (India) Private Limited	3,760,585	0.92	3,760	1.61	0.10
J.P. Morgan Securities (Asia Pacific) Limited	3,742,959	0.92	1,271	0.54	0.03
The Hongkong and Shanghai Banking Corporation Limited	9,979,505	2.44	9,598	4.11	0.10
<u>2022</u>					
HSBC Securities & Capital Markets (India) Private Limited	2,305,716	0.44	2,572	0.78	0.11
J.P. Morgan India Private Limited	3,060,480	0.58	1,224	0.37	0.04
J.P. Morgan Securities (Asia Pacific) Limited	4,884,139	0.93	2,736	0.83	0.06
The Hongkong and Shanghai Banking Corporation Limited	14,867,227	2.83	12,777	3.87	0.09

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	1,255,829	1,069,529
Amounts receivable	39	40
Amounts payable	(738,718)	(800,390)

(c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to USD2,371,735 (2022: realized losses amounting to USD1,588,568).

(d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD5,704 (2022: USD8,875).

(e) Management fee for USD Class C (acc) of 0.75% per annum and all other share classes of 1.5% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain of its Directors and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction USD
<u>2023</u>

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(e) and 7(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	19,868	14,799
Other income	-	855
Transaction costs	(1,271)	(3,960)
Safe custody and bank charges	(20,969)	(27,680)

- (j) During the years ended 30 September 2023 and 2022, in addition to the Trustee's fee as disclosed in Note 7(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	11,475	1,866
Interest expense	(356)	(842)
Transaction costs	(32,376)	(37,543)
Safe custody and bank charges	(222,223)	(265,912)

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD400,961,458 (2022: USD413,085,132). Commission which amounted to USD31,300 (2022: USD50,149) is paid from the Fund on these transactions.

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Asia Growth Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Asia Growth Fund, which are set out on pages 76 to 96, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 11 May 2007, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (continued)

To the Unitholders of JPMorgan Asia Growth Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 11 May 2007, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

Analysis of balances of cash and cash equivalents:		
Cash at banks	<u>4,547,380</u>	<u>5,389,907</u>

The notes on pages 105 to 115 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Asian Smaller Companies Fund (the "Fund") was established under a Trust Deed dated 2 December 1991, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in the equity securities of small to medium sized companies in the Asia-Pacific region, excluding Japan and Australia except the Manager may, from time to time, invest in Japan and Australia when appropriate investment opportunities arise.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

2023

	HKD Class (acc) Units	USD Class (acc) Units
Number of units in issue:		
At the beginning of the year	3,678,377.360	773,170.869
Total allotments	167,413.649	73,921.252
Total redemptions	<u>(1,078,507.618)</u>	<u>(89,600.880)</u>
At the end of the year	<u>2,767,283.391</u>	<u>757,491.241</u>
	HKD	USD
Net assets attributable to holders of redeemable units	<u>37,597,885</u>	<u>206,397,019</u>
Net assets attributable to holders of redeemable units (per unit)	<u>13.59</u>	<u>272.47</u>

2022

	HKD Class (acc) Units	USD Class (acc) Units
Number of units in issue:		
At the beginning of the year	3,936,576.647	772,375.981
Total allotments	411,988.481	136,527.899
Total redemptions	(670,187.768)	(135,733.011)
At the end of the year	<u>3,678,377.360</u>	<u>773,170.869</u>
	HKD	USD
Net assets attributable to holders of redeemable units	<u>45,581,333</u>	<u>191,689,396</u>
Net assets attributable to holders of redeemable units (per unit)	<u>12.39</u>	<u>247.93</u>

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- India	56,949,106	27.0	48,455,456	24.5
- Taiwan	53,521,175	25.3	37,421,940	19.0
- Korea	28,610,504	13.5	25,934,567	13.1
- China	23,805,655	11.3	19,103,243	9.7
- Thailand	9,052,236	4.3	11,689,425	5.9
- Philippines	6,853,415	3.2	10,143,665	5.1
- Hong Kong	3,960,542	1.9	15,809,785	8.0
- Others	25,949,067	12.3	24,624,006	12.5
Total Listed/Quoted Investments	<u>208,701,700</u>	<u>98.8</u>	<u>193,182,087</u>	<u>97.8</u>

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>211,197,658</u>	MSCI AC Asia ex Japan Small Cap Net	0.90	+20.9	<u>39,726,279</u>
As at 30 September 2022	<u>197,496,009</u>	MSCI AC Asia ex Japan Small Cap Net	0.88	-24.8	<u>(43,101,529)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- ** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- *** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- **** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	<u>4,547,380</u>	<u>5,389,907</u>
Total interest sensitivity gap	<u>4,547,380</u>	<u>5,389,907</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Chinese Yuan (Offshore)	13,219,287	-2.1	(277,605)
Hong Kong Dollar	19,190,169	+0.2	38,380
Indian Rupee	54,967,228	-2.0	(1,099,345)
Indonesian Rupiah	5,177,078	-1.5	(77,656)
Korean Won	28,610,504	+6.0	1,716,630
Malaysian Ringgit	6,082,991	-1.2	(72,996)
Philippine Peso	6,563,892	+3.6	236,300
Singapore Dollar	4,249,384	+5.1	216,719
Taiwan Dollar	53,792,715	-1.6	(860,683)
Thai Baht	9,052,236	+3.6	325,880
Vietnamese Dong	5,996,791	-1.8	(107,942)
	<u>206,902,275</u>		<u>37,682</u>
<u>2022</u>			
Chinese Yuan (Offshore)	17,884,875	-9.5	(1,699,063)
Hong Kong Dollar	21,069,073	-0.8	(168,553)
Indian Rupee	48,484,725	-8.8	(4,266,656)
Indonesian Rupiah	5,085,588	-6.0	(305,135)
Korean Won	25,934,567	-17.2	(4,460,746)
Malaysian Ringgit	6,337,218	-9.7	(614,710)
Philippine Peso	10,143,665	-13.0	(1,318,676)
Singapore Dollar	4,025,761	-5.4	(217,391)
Taiwan Dollar	37,602,796	-12.2	(4,587,541)
Thai Baht	11,689,425	-10.3	(1,204,011)
Vietnamese Dong	5,126,778	-4.6	(235,832)
	<u>193,384,471</u>		<u>(19,078,314)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	410,964	217,849
S&P(A)/Moody's(A)/FITCH(A)	4,136,416	5,172,058
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>208,701,700</u>	<u>193,182,087</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	1,288,480	66,026
Amounts payable on redemption	85,515	370,047
Other accounts payable	317,830	337,348
Net assets attributable to holders of redeemable units	211,197,658	197,496,009
Total financial liabilities	<u>212,889,483</u>	<u>198,269,430</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	208,701,700	-	-	208,701,700
Total financial assets at fair value through profit and loss	<u>208,701,700</u>	<u>-</u>	<u>-</u>	<u>208,701,700</u>
<u>2022</u>				
<u>Assets</u>				
Equities	193,182,087	-	-	193,182,087
Total financial assets at fair value through profit and loss	<u>193,182,087</u>	<u>-</u>	<u>-</u>	<u>193,182,087</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	31,091,070	(99,804,573)
Realized (losses)/gains on sale of investments and derivatives	(10,967,084)	8,201,520
	<u>20,123,986</u>	<u>(91,603,053)</u>

6 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via the China Connect are temporarily exempt from PRC corporate income tax. The capital gains derived through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan India Private Limited	3,100,014	1.37	1,076	0.69	0.03
J.P. Morgan Securities (Asia Pacific) Limited	17,483,656	7.75	13,330	8.52	0.08
The Hongkong and Shanghai Banking Corporation Limited	5,287,959	2.34	12,837	8.20	0.24
<u>2022</u>

	2023 USD	2022 USD
Cash at banks	410,964	217,849
Amounts payable	(280,606)	(300,411)

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD2,120 (2022: USD3,239).

(d) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	14,525	864
Transaction costs	(33,120)	(25,331)
Safe custody and bank charges	(97,163)	(133,230)
	<u> </u>	<u> </u>

8 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD220,593,858 (2022:USD154,377,119). Commission which amounted to USD12,311 (2022:USD18,110) is paid from the Fund on these transactions.

9 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Asian Smaller Companies Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Asian Smaller Companies Fund, which are set out on pages 103 to 115, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 2 December 1991, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Asian Smaller Companies Fund (the "Fund")

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Matters under the Relevant Disclosure Provisions of the Trust Deed and Appendix E of the SFC Code

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 2 December 1991, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 2 December 1991 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Asian Total Return Bond Fund (the "Fund") was established under a Trust Deed dated 30 November 2004, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve a competitive total return, consisting of capital growth and regular interest income, through an actively managed portfolio investing primarily (i.e. at least 70% of its total net asset value) in Asian bonds and other debt securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Cash collateral and margin deposits

Cash collateral received by the Fund is identified in the Statement of Financial Position as cash collateral and is not included as a component of cash and cash equivalents.

Cash collateral provided by the Fund is identified in the Statement of Financial Position as margin deposit and is not included as a component of cash and cash equivalents.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(k) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The Fund's holding in the collective investment schemes, as a percentage of the collective investment schemes' total net asset value, will vary from time to time dependent on the volume of allotments and redemptions at the collective investment schemes level. It is possible that the Fund may, at any point in time, hold a majority of the collective investment schemes' total units in issue. The Fund's maximum exposure to loss from its interests in Investee Funds is equal to the total fair value of its investment in collective investment schemes. Total purchase in collective investment schemes during the year ended 30 September 2023 was USD\$13,000,000 (2022: nil). During the year ended 30 September 2023, total net gain/(loss) incurred on the investment in collective investment schemes was nil (2022: nil).

(a) Market risk

(i) Market price risk

The Fund primarily invests in debt securities which are subject to interest rate risk. Refer to Note 4(l)(a)(ii) for interest rate risk.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 year USD	1-5 years USD	Over 5 years USD	No stated maturity USD	Total USD
<u>2023</u>

Also, refer to Note 11 for the exposures on derivatives.

The Investment Manager monitors the Fund's interest rate risk sensitivity primarily through the modified duration of the Fund on a regular basis. The modified duration measures the sensitivity of the price of a bond relative to the change in interest rate. As at 30 September 2023, the Investment Manager estimates that the Fund has a modified duration of 4.83 (2022: 4.41). For the purpose of disclosing relevant sensitivities, the percentage of reasonable possible change in interest rate adopted is 25 basis points, and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in net asset value of the Fund by approximately USD16,715,441 (2022: USD15,010,917). If the interest rates were to fall by 25 basis points, this would result in an increase in the net asset value of the Fund by the same amount.

Any cash and cash equivalents and margin deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 11(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD Equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD

	<u>666,476,010</u>		<u>(61,915,282)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.
- ** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts due from brokers, amounts receivable on allotment or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The Fund's investments are predominantly in debt securities and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities is managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities by credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	5.4	1.5
S&P(AA)/Moody's(Aa)/FITCH(AA)	9.4	3.4
S&P(A)/Moody's(A)/FITCH(A)	26.7	17.4
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	28.1	48.2
S&P(BB)/Moody's(Ba)/FITCH(BB)	8.4	12.7
S&P(B)/Moody's(B)/FITCH(B)	8.7	2.7
S&P(CCC)/Moody's(Caa)/FITCH(CCC)	0.2	-
Unrated	6.2	7.4
	93.1	93.3

The table below summarizes the unrated debt securities as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AA)/Moody's(Aa)/FITCH(AA)	1.4	-
S&P(A)/Moody's(A)/FITCH(A)	0.5	0.6
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	2.0	1.0
Unrated	2.3	5.8
	6.2	7.4

In order to monitor the credit quality of the unrated debt securities, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities in order to calculate the implied ratings for each of the debt securities.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	2,408,109	2,678,977
S&P(A)/Moody's(A)/FITCH(A)	22,327,431	107,690,148
Cash collateral with custodian		
S&P(A)/Moody's(A)/FITCH(A)	485,000	4,447,035
Margin deposits with brokers and derivatives held with/issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	5,156,271	1,325,706

Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>1,375,968,393</u>	<u>1,270,376,289</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023		2022	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts due to brokers	12,505,661	-	4,447,035	-
Amounts payable on redemption	7,943,307	-	14,152,564	-
Distribution payable	5,768,606	-	6,315,937	-
Other accounts payable	1,610,737	-	1,657,842	-
Derivatives	1,215,371	3,858,388	18,220,849	8,849,838
Net assets attributable to holders of redeemable units	<u>1,384,301,568</u>	-	<u>1,361,534,429</u>	-
Total financial liabilities	<u>1,413,345,250</u>	<u>3,858,388</u>	<u>1,406,328,656</u>	<u>8,849,838</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD
		Financial Instruments USD	Collateral and margin deposits USD	
<u>2023</u>				
<u>Assets</u>				
Cash collateral	485,000	-	(485,000)	-

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Debt Securities	-	1,291,111,873	-	1,291,111,873
Collective Investment Schemes	84,856,520	-	-	84,856,520
Derivatives	27,906	6,746,860	-	6,774,766
Total financial assets at fair value through profit and loss	<u>84,884,426</u>	<u>1,297,858,733</u>	<u>-</u>	<u>1,382,743,159</u>
<u>Liabilities</u>				
Derivatives	<u>1,431,766</u>	<u>3,641,993</u>	<u>-</u>	<u>5,073,759</u>
Total financial liabilities at fair value through profit and loss	<u>1,431,766</u>	<u>3,641,993</u>	<u>-</u>	<u>5,073,759</u>

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2022</u>				
<u>Assets</u>				
Debt Securities	-	1,270,376,289	-	1,270,376,289
Derivatives	2,581,725	4,449,682	-	7,031,407
Total financial assets at fair value through profit and loss	<u>2,581,725</u>	<u>1,274,825,971</u>	<u>-</u>	<u>1,277,407,696</u>
<u>Liabilities</u>				
Derivatives	3,339,984	23,730,703	-	27,070,687
Total financial liabilities at fair value through profit and loss	<u>3,339,984</u>	<u>23,730,703</u>	<u>-</u>	<u>27,070,687</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, collective investment schemes and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	132,652,958	(214,799,717)
Realized losses on sale of investments and derivatives	(122,816,938)	(220,832,393)
	<u>9,836,020</u>	<u>(435,632,110)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

7 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

In addition, the non-PRC residents with interest income derived from the debt securities will be subject to 10% WIT. Pursuant to the PRC CIT Law, debt securities issuers in the PRC are obligated to withhold the 10% PRC WIT on interest income for those foreign debt securities holders. However, interest income derived from government bonds issued by the State Council's finance departments and/or local government bonds approved by the State Council is exempt from PRC WIT under the PRC CIT Law. In addition, bank deposit interest income and interest received from government bonds and local government bonds are also exempt from Value-Added Tax ("VAT").

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), VAT at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

During the years ended 30 September 2023 and 2022, the Fund invests in PRC debt securities in PRC through Bond Connect. The Manager considers that the enforcement of PRC tax on gains derived from the PRC debt securities is uncertain as at the date of approval of these financial statements and has exercised its judgment when assessing whether the Fund may be liable for PRC taxation on its gains, the amount of potential liability and the probability of such tax being levied up to the reporting date. However, significant uncertainties exist and estimation of the Manager may substantially differ from the actual events.

Based on the current verbal interpretation of the STA and the local PRC tax authorities, the authorities are of the view that capital gains derived by foreign investors from investment in PRC debt securities would not be treated as PRC-sourced income and thus would not be subject to PRC WIT. However, there are no written tax regulations issued by the PRC tax authorities to confirm this interpretation. As a matter of practice, such 10% PRC WIT on capital gains realized by non-PRC tax resident enterprises from the trading of these PRC debt securities has not been strictly enforced by the PRC tax authorities. The Manager has considered the applicability of the arrangement between the Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion to the Fund and assessed that the probability of such tax being levied up to the approval date of the financial statements of the Fund is reasonably low. Based on all the aforementioned factors, the Manager has reassessed the provisioning approach and has continued not making PRC WIT provision on gains derived from the PRC debt securities of the Fund.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain interest income received and capital gains derived during the years ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

- (a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

The Fund invests in various funds ("underlying funds") which are managed by Connected Persons of the Manager. All fees on allotments and redemptions in the underlying funds payable by the Fund are waived by the managers of underlying funds which are managed by Connected Persons of the Manager.

During the year ended 30 September 2023, dividend income amounted to USD306,520 (2022: nil) in the Statement of Comprehensive Income which represents the distributions from investments in collective investment schemes issued and managed by Connected Persons of the Manager.

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Securities & Capital Markets (India) Private Limited	40,965,162	0.42	-	-	-
JPMorgan Chase Bank, N.A.	541,450,000	5.50	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	514,317,344	5.23	-	-	-
The Hongkong and Shanghai Banking Corporation Limited, Seoul	74,454,529	0.76	-	-	-
<u>2022</u>					
HSBC Bank (China) Company Ltd	63,768,122	0.82	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	192,935,610	2.47	-	-	-

- (b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	2,408,109	2,678,977
Amounts payable	(1,186,914)	(1,244,130)

As at 30 September 2023, the Fund's investment balance of USD84,856,520 (2022: nil) represents the investments in the collective investment schemes issued and managed by Connected Persons of the Manager.

- (c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee with realized losses amounting to USD34,231,710 (2022: realized losses amounting to USD7,404,412).
- (d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD251 (2022: USD862).
- (e) Management fee of 1% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears. If the Fund invests in the collective investment scheme managed by the Manager or its Connected Persons, the management fee of the Manager will be reduced to take account of the management fee levied in respect of such collective investment scheme to the extent attributable to that Fund's interest in such collective investment scheme.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	24,737.714	7,248.733	(12,697.743)	19,288.704	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	111.846	-	(111.846)	-	-
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	34,940.962	8,569.255	(18,772.503)	24,737.714	6,851
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	223.693	-	(111.847)	111.846	-

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	45,839	14,134
Safe custody and bank charges	(31,284)	(41,701)

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	178,305	13,016
Interest expense	(454)	(119)
Transaction costs	(24,126)	(15,181)
Safe custody and bank charges	(279,155)	(343,254)

9 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

10 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

Independent Auditor's Report

To the Unitholders of JPMorgan Asian Total Return Bond Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Asian Total Return Bond Fund, which are set out on pages 130 to 163, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 30 November 2004, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Asian Total Return Bond Fund
(the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 30 November 2004, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee
24 January 2024

The notes on pages 174 to 185 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Australia Fund (the "Fund") was established under a Trust Deed dated 5 June 1981, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) of equity securities of companies listed on the Australian Securities Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)2023

	AUD Class (acc) Units	USD Class (acc) Units

4 Financial risk management**(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk**(i) Market price risk**

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
Listed/Quoted Investments	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Assets				
Equities				
- Metals & Mining	2,668,057	14.9	2,756,395	17.3
- Real Estate Management & Development	1,756,016	9.8	1,579,671	9.9
- Oil & Gas	1,503,406	8.4	1,227,868	7.7
- Commercial Services & Supplies	1,198,490	6.7	1,104,523	6.9
- Diversified Financials	1,159,942	6.5	1,206,526	7.6
- Banks	938,734	5.2	824,406	5.2
- Others	8,465,634	47.2	7,109,339	44.5
	<u>17,690,279</u>	<u>98.7</u>	<u>15,808,728</u>	<u>99.1</u>
Derivatives				
- Warrants	-	-	295	0.0
- Rights	-	-	-	-
Total Listed/Quoted Investments	<u>17,690,279</u>	<u>98.7</u>	<u>15,809,023</u>	<u>99.1</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>17,930,442</u>	S&P / ASX 300 Index Total	1.01	+13.4	<u>2,426,706</u>
As at 30 September 2022	<u>15,953,484</u>	S&P / ASX 300 Index Total	1.04	-18.1	<u>(3,003,084)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	249,032	132,976
Total interest sensitivity gap	<u>249,032</u>	<u>132,976</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	17,924,683	+0.4	71,699
Hong Kong Dollar	4,542	+0.2	9
	<u>17,929,225</u>		<u>71,708</u>
<u>2022</u>			
Australian Dollar	15,934,498	-11.0	(1,752,795)
Hong Kong Dollar	3,226	-0.8	(26)
	<u>15,937,724</u>		<u>(1,752,821)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	35,488	30,782
S&P(A)/Moody's(A)/FITCH(A)	213,544	102,194
Investment and derivative balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>17,690,279</u>	<u>15,809,023</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts payable on redemption	57,993	14,676
Other accounts payable	38,338	42,285
Net assets attributable to holders of redeemable units	<u>17,930,442</u>	<u>15,953,484</u>
Total financial liabilities	<u>18,026,773</u>	<u>16,010,445</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	17,690,279	-	-	17,690,279
Total financial assets at fair value through profit and loss	<u>17,690,279</u>	<u>-</u>	<u>-</u>	<u>17,690,279</u>
<u>2022</u>				
<u>Assets</u>				
Equities	15,808,728	-	-	15,808,728
Derivatives	-	295	-	295
Total financial assets at fair value through profit and loss	<u>15,808,728</u>	<u>295</u>	<u>-</u>	<u>15,809,023</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	1,732,855	(4,988,570)
Realized gains on sale of investments and derivatives	218,636	491,297
	<u>1,951,491</u>	<u>(4,497,273)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

Australia Taxation

The Fund invests in securities listed on the stock exchange in Australia. Gains generated from disposals of Australian investments may be exposed to Australian tax at the rate of 30%. In September 2012, the Australian Government introduced legislation exempting gains realized by a foreign fund on or before 30 June 2011, provided that certain ownership conditions and other criteria are met. In June 2015, the Australian Government further introduced legislation ("Legislation") which exempts gains realized by a foreign managed fund on or after 1 July 2011 provided that certain ownership conditions and other criteria can be met.

The Manager considers that the charge for capital gains tax on Australian investments invested by the Fund as at 30 September 2023 is unlikely as at the date of approval of these financial statements. The Manager is of the view that the Fund should meet the criteria under the Legislation and should be eligible for the exemption of tax. As at 30 September 2023 and 2022, no provision for such tax was made accordingly. This assessment represents the best estimate of the Manager.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
-----------------	--	---	---------------------------	---	------------------------------------

2023

Nil

2022

The Hongkong and Shanghai Banking Corporation Limited	12,404	0.14	4	0.14	0.03
---	--------	------	---	------	------

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	35,488	30,782
Amounts payable	<u>(19,912)</u>	<u>(20,024)</u>

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD261 (2022: USD484).

- (d) Management fee of 0.75% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (e) The Fund has a securities lender's agreement with J.P. Morgan Securities plc, a Connected Person of the Manager. However, the Fund does not intend to carry out any securities lending transactions. The arrangement is mainly intended to allow the Fund to carry out securities borrowing transactions.
- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management</u>					
<u>Real Assets (Asia) Limited</u>					
- USD Class (acc)	-	-	-	-	-

<u>JPMorgan Asset Management</u>					
<u>(Asia Pacific) Limited</u>					
- USD Class (acc)	-	825.551	-	825.551	-

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	445	25
Transaction costs	-	(8,428)
Safe custody and bank charges	(6,457)	(7,040)
	<u> </u>	<u> </u>

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	921	63
Interest expense	(213)	(110)
Transaction costs	(3,850)	(4)
Safe custody and bank charges	(44,053)	(10,303)
	<u>(44,053)</u>	<u>(10,303)</u>

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

10 Derivatives

- (a) Details of rights as at 30 September were as follows:

11 Distribution

No distribution was made during the year (2022: nil).

12 Subsequent events

Prior to 21 December 2023, the Fund's name is JPMorgan Australia Fund and the investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) of equity securities of companies listed on the Australian Securities Exchange.

With effect from 21 December 2023, the Fund's name will be changed to JPMorgan Asia Equity High Income Fund and the investment objective will be amended to aiming to generate a high level of income while maintaining prospects for long-term capital appreciation by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of listed companies in Asia (excluding Japan), and using derivatives where appropriate. At the same time, the Fund is intended to offer a less volatile return stream than the broader market through the use of derivatives.

Independent Auditor's Report

To the Unitholders of JPMorgan Australia Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Australia Fund, which are set out on pages 172 to 185, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 5 June 1981, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Australia Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 5 June 1981, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee
24 January 2024

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore, it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

	2,872,922	3,062,920

The notes on pages 197 to 211 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan China A-Share Opportunities Fund (the "Fund") was established under a Trust Deed dated 2 July 2014, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities issued in the PRC including but not limited to China A-shares listed on the PRC stock exchanges (e.g. Shanghai Stock Exchange, Shenzhen Stock Exchange and Beijing Stock Exchange).

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted Renminbi as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(i) **Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

2023

	HKD Class (acc) Units	RMB Class (acc) Units	USD Class (acc) Units
Number of units in issue:

4 Financial risk management

(I) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments CNY	% of net assets	Fair value of investments CNY	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- Beverages - Distillers & Wineries	160,232,695	10.6	-	-
- Banks	113,346,484	7.5	128,317,987	7.1
- Industrial Machinery & Equipment	94,040,281	6.2	82,597,674	4.6
- Insurance - Life & Health	88,225,508	5.8	-	-
- Semiconductors & Semiconductor Equipment	29,032,945	1.9	109,144,088	6.0
- Food Products	59,856,124	3.9	182,079,289	10.1
- Software	48,918,592	3.2	144,650,153	8.0
- Others	828,471,183	54.6	1,012,688,575	56.1
	<u>1,422,123,812</u>	<u>93.7</u>	<u>1,659,477,766</u>	<u>91.9</u>
Derivatives				
- Participation notes	86,914,511	5.7	105,362,336	5.8
- Warrants	8,580,107	0.6	49,039,439	2.7
	<u>95,494,618</u>	<u>6.3</u>	<u>154,401,775</u>	<u>8.5</u>
Total Listed/Quoted Investments	<u>1,517,618,430</u>	<u>100.0</u>	<u>1,813,879,541</u>	<u>100.4</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value CNY	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) CNY
As at 30 September 2023	<u>1,516,958,779</u>	CSI 300 Net	1.03	-0.8	<u>(12,499,740)</u>
As at 30 September 2022	<u>1,806,643,446</u>	CSI 300 Net	1.06	-20.3	<u>(388,753,537)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- ** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- *** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- **** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month CNY	2022 Less than 1 month CNY
Cash at banks	8,972,922	26,312,419
Short-term bank loans – unsecured	(6,100,000)	(23,249,499)
Total interest sensitivity gap	2,872,922	3,062,920

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	CNY equivalent	% of reasonable possible change against CNY (Note**)	Estimated impact on net asset value CNY
2023			
Hong Kong Dollar	149,358,217	+2.4	3,584,597
United States Dollar	95,057,062	+2.2	2,091,255
Euro	224	+10.4	23
	244,415,503		5,675,875

	CNY equivalent	% of reasonable possible change against CNY (Note**)	Estimated impact on net asset value CNY
Net currency exposures (Note*)			
<u>2022</u>			
Hong Kong Dollar	86,365,561	+9.5	8,204,728
United States Dollar	153,863,665	+10.5	16,155,685
	<u>240,229,226</u>		<u>24,360,413</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodians which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties CNY	2022 Exposure to Counterparties CNY
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	360,392	998,015
S&P(A)/Moody's(A)/FITCH(A)	8,612,530	25,314,404
Investment and derivative balances with custodians		
S&P(A)/Moody's(A)/FITCH(A)	<u>1,517,618,430</u>	<u>1,813,879,541</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month CNY	2022 Less than 1 month CNY
Short-term bank loans – unsecured	6,100,000	23,249,499
Amounts due to brokers	630,366	2,087,125
Amounts payable on redemption	1,091,561	5,964,004
Other accounts payable	2,504,481	3,222,488
Net assets attributable to holders of redeemable units	<u>1,516,958,779</u>	<u>1,806,643,446</u>
Total financial liabilities	<u>1,527,285,187</u>	<u>1,841,166,562</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 CNY	Level 2 CNY	Level 3 CNY	Total CNY
<u>2023</u>				
<u>Assets</u>				
Equities	1,422,123,812	-	-	1,422,123,812
Derivatives	-	95,494,618	-	95,494,618
Total financial assets at fair value through profit and loss	<u>1,422,123,812</u>	<u>95,494,618</u>	<u>-</u>	<u>1,517,618,430</u>
<u>2022</u>				
<u>Assets</u>				
Equities	1,659,477,766	-	-	1,659,477,766
Derivatives	-	154,401,775	-	154,401,775
Total financial assets at fair value through profit and loss	<u>1,659,477,766</u>	<u>154,401,775</u>	<u>-</u>	<u>1,813,879,541</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Level 3 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net losses on investments and derivatives

	2023 CNY	2022 CNY
Change in unrealized gains/losses in value of investments and derivatives	15,756,952	(589,640,158)
Realized (losses)/gains on sale of investments and derivatives	(178,973,190)	3,668,623
	<u>(163,216,238)</u>	<u>(585,971,535)</u>

6 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the QFI status of the Investment Manager and Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 79, QFI without permanent establishment in the Mainland China are temporarily exempt from PRC corporate income tax on capital gains derived from trading PRC equity investments (including A-shares) effective from 17th November 2014. According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via China Connect are temporarily exempt from PRC corporate income tax. The capital gains derived by QFI and through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments CNY	% of the Fund's total aggregate value of transactions	Commission paid CNY	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities plc	267,566,925	9.50	-	-	-
J.P. Morgan Securities (Asia Pacific) Limited The Hongkong and Shanghai Banking Corporation Limited	96,990,934	3.44	105,311	4.73	0.11
	189,549,578	6.73	206,488	9.28	0.11
<u>2022</u>					
J.P. Morgan Securities plc	228,562,888	8.41	-	-	-
J.P. Morgan Securities (Asia Pacific) Limited The Hongkong and Shanghai Banking Corporation Limited	165,792,878	6.10	175,832	6.99	0.11
	246,189,681	9.06	213,459	8.49	0.09

As at 30 September 2023, the Fund had an investment of CNY64,998,618 (2022: CNY85,722,218) in participation notes issued by J.P. Morgan Structured Products B.V., a Connected Person of the Manager.

During the year ended 30 September 2023, the Fund received dividend income of CNY526,424 (2022: CNY710,380) from its investments in participation notes issued by J.P. Morgan Structured Products B.V.. The aggregate value of purchases and sales of investments in participation notes issued by J.P. Morgan Structured Products B.V. were CNY267,566,925 (2022: CNY228,562,888).

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 CNY	2022 CNY
Cash at banks	360,392	998,015
Amounts receivable	4	24
Amounts payable	(2,036,198)	(2,864,876)
	<u>360,392</u>	<u>998,015</u>

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to CNY7,657 (2022: CNY35,619).

(d) Management fee of 1.75% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of US\$40 per valuation if the Fund's net asset value is larger than US\$5 million but smaller than US\$20 million, or US\$70 per valuation if the Fund's net asset value is larger than US\$20 million.

- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain Directors of the Manager and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction CNY
2023							
<u>Directors of the Manager</u>

- (f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first CNY270 million, 0.04% per annum for the balance from CNY270 million to CNY470 million, and 0.025% per annum for the balance in excess of CNY470 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears

- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 CNY	2022 CNY
Interest on deposits	25,275	3,644
Safe custody and bank charges	(26,051)	(30,213)
Transaction costs	(105,311)	(175,832)
	<u> </u>	<u> </u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 CNY	2022 CNY
Interest on deposits	32,106	5,384
Interest expense	(252,951)	(139,088)
Transaction costs	(444,776)	(409,887)
Safe custody and bank charges	(718,641)	(840,602)
	<u> </u>	<u> </u>

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to CNY433,911,854 (2022: CNY733,959,483). Commission which amounted to CNY2,470 (2022: CNY11,100) is paid from the Fund on these transactions.

Independent Auditor's Report

To the Unitholders of JPMorgan China A-Share Opportunities Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan China A-Share Opportunities Fund, which are set out on pages 195 to 211, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 2 July 2014, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan China A-Share Opportunities Fund (The "Fund")

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Matters under the Relevant Disclosure Provisions of the Trust Deed and Appendix E of the SFC Code

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 2 July 2014, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

**Details of Financial Derivative Instruments
As at 30 September 2023 (Unaudited)**

(a) Forward foreign exchange contracts

As at 30 September 2023, the Fund held outstanding forward foreign exchange contracts with details as shown in Note 11.

(b) Futures

As at 30 September 2023, the Fund held futures contracts with details as shown in Note 11.

**Information on Exposure Arising from Financial
Derivative Instruments
For the year ended 30 September 2023 (Unaudited)**

The lowest, highest and average gross exposure arising from the use of financial derivative instruments in the Fund for any purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest gross exposure	5.6
Highest gross exposure	41.9
Average gross exposure	16.5

The lowest, highest and average net exposure arising from the use of financial derivative instruments in the Fund for non-hedging purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest net exposure	2.0
Highest net exposure	11.5
Average net exposure	6.8

[#] There are some share classes with currency hedging features. For the avoidance of doubt, their exposures are not included in the calculation of the gross exposure of the Fund portfolio.

Cash at banks	6,591,658	20,563,289

The notes on pages 226 to 246 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan China Income Fund (the "Fund") was established under a Trust Deed dated 21 May 2009, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in (a) equity securities of companies which are based in, listed on any stock exchange of, or operate principally in the PRC and that the Investment Manager expects to pay dividends and (b) Chinese debt securities issued and/or distributed in or outside the PRC.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Margin deposits

Cash collateral provided by the Fund is identified in the Statement of Financial Position as margin deposits and is not included as a component of cash and cash equivalents.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(k) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

4 Financial risk management

(i) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The Fund's holding in the collective investment schemes, as a percentage of the collective investment schemes' total asset value, will vary from time to time dependent on the volume of allotments and redemptions at the collective investment schemes level. It is possible that the Fund may, at any point in time, hold a majority of the collective investment schemes' total units in issue. The Fund's maximum exposure to loss from its interests in Investee Funds is equal to the total fair value of its investment in collective investment schemes. Total purchase in collective investment schemes during the year ended 30 September 2023 was USD47,078,550 (2022: nil). During the year ended 30 September 2023 there was no net gain/loss earned/incurred on the investment in collective investment schemes (2022: nil).

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- Banks	18,036,944	5.5	25,020,716	6.4

Also, refer to Note 11 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>327,142,581</u>	30% CSI 300 Net / 30% MSCI China Net / 20% JACI China Total / 20% FTSE Dim Sum Bond Index Total	0.80	+2.2	<u>5,757,709</u>
As at 30 September 2022	<u>391,632,731</u>	30% CSI 300 Net / 30% MSCI China Net / 20% JACI China Total / 20% FTSE Dim Sum Bond Index Total	0.81	-23.8	<u>(75,498,958)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 year USD	1-5 years USD	Over 5 years USD	Total USD
<u>2023</u>				
Cash at banks	6,591,658	-	-	6,591,658
Margin deposits	173,880	-	-	173,880
Derivatives	91,875	-	-	91,875
Investments (Note*)	<u>12,320,974</u>	<u>48,357,583</u>	<u>51,379,128</u>	<u>112,057,685</u>
Total interest sensitivity gap	<u>19,178,387</u>	<u>48,357,583</u>	<u>51,379,128</u>	<u>118,915,098</u>

	Less than 1 year USD	1-5 years USD	Over 5 years USD	Total USD
<u>2022</u>				
Cash at banks	20,563,289	-	-	20,563,289
Margin deposits	1,525	-	-	1,525
Investments (Note*)	20,008,926	74,733,839	84,104,479	178,847,244
Total interest sensitivity gap	<u>40,573,740</u>	<u>74,733,839</u>	<u>84,104,479</u>	<u>199,412,058</u>

Note:

* The coupon rate of the investments ranged between 1.00% p.a. - 8.25% p.a. (2022: 1.62% p.a. - 8.25% p.a.).

The Fund held 34.3% (2022: 45.7%) of net asset value in debt securities with an average duration of 1.23 (2022: 1.61). If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in the fair value of debt securities by approximately USD344,577 (2022: USD719,860). Conversely, if the interest rates were to fall by 25 basis points, this would result in an increase in the fair value of debt securities by the same amount.

Any cash and cash equivalents, collateral deposits and margin deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 11(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	22,703,311	+0.4	90,813
Chinese Yuan (Offshore)	148,064,928	-2.1	(3,109,363)
Chinese Yuan (Onshore)	22,631,873	-2.9	(656,324)
Euro	934	+8.1	76
Hong Kong Dollar	107,072,299	+0.2	214,145
	<u>300,473,345</u>		<u>(3,460,653)</u>
<u>2022</u>			
Australian Dollar	21,076,495	-11.0	(2,318,414)
Chinese Yuan (Offshore)	143,451,277	-9.5	(13,627,871)
Chinese Yuan (Onshore)	47,541,499	-8.9	(4,231,193)
Euro	213	-15.5	(33)
Hong Kong Dollar	105,234,008	-0.8	(841,872)
Taiwan Dollar	2,869,857	-12.2	(350,123)
	<u>320,173,349</u>		<u>(21,369,506)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

As at 30 September 2023, the Fund held 34.3% (2022: 45.7%) of net asset value in debt securities and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities is managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities by credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	2.3	-
S&P(AA)/Moody's(Aa)/FITCH(AA)	1.7	0.7
S&P(A)/Moody's(A)/FITCH(A)	13.5	15.4
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	8.1	14.6
S&P(BB)/Moody's(Ba)/FITCH(BB)	2.9	4.1
S&P(B)/Moody's(B)/FITCH(B)	0.7	0.8
Unrated	5.1	10.1
	<u>34.3</u>	<u>45.7</u>

The table below summarizes the unrated debt securities as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(A)/Moody's(A)/FITCH(A)	4.5	6.8
Unrated	0.6	3.3
	<u>5.1</u>	<u>10.1</u>

In order to monitor the credit quality of the unrated debt securities, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities in order to calculate the implied ratings for each of the debt securities.

The table below summarizes the credit rating of the banks/brokers/custodians which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	133,684	981,837
S&P(A)/Moody's(A)/FITCH(A)	6,457,974	19,581,452
Margin deposits with brokers and derivatives held with/issued by brokers
