(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts due to brokers	-	-	3,366,289	-
Amounts payable on redemption	526,734	-	2,827,935	-
Distribution payable	1,035,217	-	1,565,980	-
Derivatives	11,479	25,172	1,539,582	243,939
Other accounts payable	529,847	-	72,531	-
Net assets attributable to holders of redeemable units	<u>327,142,581</u>	-	<u>391,632,731</u>	-
Total financial liabilities	<u>329,245,858</u>	<u>25,172</u>	<u>401,005,048</u>	<u>243,939</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>2023</u>				
<u>Assets</u>

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	204,044,755	-	-	204,044,755
Debt Securities	-	112,057,685	-	112,057,685
Collective Investment Schemes	5,038,550	-	-	5,038,550
Derivatives	110,250	471,559	-	581,809
Total financial assets at fair value through profit and loss	<u>209,193,555</u>	<u>112,529,244</u>	<u>-</u>	<u>321,722,799</u>
<u>Liabilities</u>				
Derivatives	18,375	18,276	-	36,651
Total financial liabilities at fair value through profit and loss	<u>18,375</u>	<u>18,276</u>	<u>-</u>	<u>36,651</u>
<u>2022</u>				
<u>Assets</u>				
Equities	195,485,756	-	-	195,485,756
Debt Securities	-	178,847,244	-	178,847,244
Derivatives	338,484	138,048	-	476,532
Total financial assets at fair value through profit and loss	<u>195,824,240</u>	<u>178,985,292</u>	<u>-</u>	<u>374,809,532</u>
<u>Liabilities</u>				
Derivatives	-	1,783,521	-	1,783,521
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>1,783,521</u>	<u>-</u>	<u>1,783,521</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, collective investment schemes and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Level 3 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023	2022
	USD	USD
Change in unrealized gains/losses in value of investments and derivatives	38,144,660	(80,271,836)
Realized losses on sale of investments and derivatives	(36,278,910)	(24,543,796)
	<u>1,865,750</u>	<u>(104,815,632)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

7 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

In addition, the non-PRC residents with interest income derived from the debt securities will be subject to 10% WIT. Pursuant to the PRC CIT Law, debt securities issuers in the PRC are obligated to withhold the 10% PRC WIT on interest income for those foreign debt securities holders. However, interest income derived from government bonds issued by the State Council's finance departments and/or local government bonds approved by the State Council is exempt from PRC WIT under the PRC CIT Law. In addition, bank deposit interest income and interest received from government bonds and local government bonds are also exempt from Value-Added Tax ("VAT").

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), VAT at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Capital gains on PRC debt securities ("PRC debt securities")

During the years ended 30 September 2023 and 2022, the Fund invests in PRC debt securities in PRC through the QFI status of the Investment Manager and Bond Connect. The Manager considers that the enforcement of PRC tax on gains derived from the PRC debt securities is uncertain as at the date of approval of these financial statements and has exercised its judgment when assessing whether the Fund may be liable for PRC taxation on its gains, the amount of potential liability and the probability of such tax being levied up to the reporting date. However, significant uncertainties exist and estimation of the Manager may substantially differ from the actual events.

Based on the current verbal interpretation of the STA and the local PRC tax authorities, the authorities are of the view that capital gains derived by foreign investors from investment in PRC debt securities would not be treated as PRC-sourced income and thus would not be subject to PRC WIT. However, there are no written tax regulations issued by the PRC tax authorities to confirm this interpretation. As a matter of practice, such 10% PRC WIT on capital gains realized by non-PRC tax resident enterprises from the trading of these PRC debt securities has not been strictly enforced by the PRC tax authorities. The Manager has considered the applicability of the arrangement between the Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion to the Fund and assessed that the probability of such tax being levied up to the approval date of the financial statements of the Fund is reasonably low. Based on all the aforementioned factors, the Manager has reassessed the provisioning approach and has continued not making PRC WIT provision on gains derived from the PRC debt securities of the Fund.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the QFI status of the Investment Manager and Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 79, QFI without permanent establishment in the Mainland China are temporarily exempt from PRC corporate income tax on capital gains derived from trading PRC equity investments (including A-shares) effective from 17th November 2014. According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via China Connect are temporarily exempt from PRC corporate income tax. The capital gains derived by QFI and through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on B-shares

The Fund invests in B-shares listed in the PRC and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

The PRC taxation of gains on B-shares is presently unclear as to:

- (a) Whether the PRC tax authorities will enforce tax on capital gains on B-shares; and
- (b) If the PRC tax authorities were to enforce the tax, it is uncertain from which date the tax would be calculated and payable.

The Manager has exercised their own judgment on whether the Fund may be liable for taxation on its gains to date and the amount of the potential liability. However, uncertainties exist and the judgment of the Manager may prove incorrect, as actual events may differ substantially. The Manager considers that their judgments may be impacted by any future clarification by the PRC State Taxation Administration ("STA") which may be different from what they earlier envisioned.

Under general taxing provisions of the Corporate Income Tax Law ("CIT Law"), a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, the 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of B-shares.

The current VAT regulations is silent on VAT exemption on capital gains derived from trading of China B-shares. Having said that, the PRC tax authorities have not actively collected VAT from non-tax resident enterprises of the PRC on gains realized from China B-shares in practice.

The Manager considers that there is significant uncertainty in respect of whether the Fund has any liability and the extent of any such liability in respect of capital gains derived from the disposal of B-shares. The Manager has assessed the likelihood of such exposure and has not made provisions for capital gains tax on realized gains and unrealized gains derived from B-shares. The Manager continues to monitor the position and will make an appropriate adjustment if and when it is considered that there are sufficient grounds to do so.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Bank (China) Company Limited	17,641,840	2.14	-	-	-
J.P. Morgan Securities (Asia Pacific) Limited	15,119,184	1.83	8,835	5.35	0.06
JPMorgan Chase Bank, N.A.	89,040,000	10.79	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	38,178,673	4.63	6,406	3.88	0.02
<u>2022</u>					
HSBC Bank (China) Company Limited	12,658,596	1.85	-	-	-
J.P. Morgan Securities (Asia Pacific) Limited	30,305,711	4.43	18,062	9.42	0.06
The Hongkong and Shanghai Banking Corporation Limited	20,747,148	3.03	10,551	5.50	0.05

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	133,684	981,837
Amounts receivable	-	1
Amounts payable	(486,929)	(821,969)

As at 30 September 2023, the Fund's investment balance of USD5,038,550 (2022: nil) represents the investments in the collective investment schemes issued and managed by a Connected Person of the Manager.

- (c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to USD1,039,298 (2022: realized losses amounting to USD417,077).
- (d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD169 (2022: USD317).
- (e) Management fee of 1.75% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears. If the Fund invests in the collective investment scheme managed by the Manager or its Connected Persons, the management fee of the Manager will be reduced to take account of the management fee levied in respect of such collective investment scheme to the extent attributable to that Fund's interest in such collective investment scheme.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	18,520.662	4,597.415	(5,469.294)	17,648.783	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	748.933	0.011	(210.394)	538.550	-
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	12,030.221	8,482.166	(1,991.725)	18,520.662	6,028
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	420.788	538.539	(210.394)	748.933	241

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Fund (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	5,884	1,520
Other operating expenses	-	(5,692)
Transaction costs	(8,835)	(18,062)
Safe custody and bank charges	(12,087)	(16,084)

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023	2022
	USD	USD
Interest on deposits	23,011	7,082
Interest expense	(3,497)	(5,973)
Transaction costs	(33,018)	(30,568)
Safe custody and bank charges	(107,348)	(124,042)

9 Borrowings

During the years ended 30 September 2023 and 30 September 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

10 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD146,249,917 (2022: USD144,842,411). Commission which amounted to USD4,916 (2022: USD16,135) is paid from the Fund on these transactions.

Independent Auditor's Report

To the Unitholders of JPMorgan China Income Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan China Income Fund, which are set out on pages 224 to 246, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 21 May 2009, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan China Income Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 21 May 2009, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

The notes on pages 259 to 275 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan China Pioneer A-Share Fund (the "Fund") was established under a Trust Deed dated 14 June 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in PRC equity securities, including but not limited to China A-shares listed on the PRC stock exchanges (e.g. Shanghai Stock Exchange, Shenzhen Stock Exchange and Beijing Stock Exchange).

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(i) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)2023

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the year	18,388,700.347	47,938.639

Net assets attributable to holders of redeemable units	<u>960,363,812</u>	<u>333,283</u>
Net assets attributable to holders of redeemable units (per unit)	<u>52.23</u>	<u>6.95</u>

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- Beverages - Distillers & Wineries	82,910,791	10.5	-	-
- Banks	59,004,354	7.4	68,759,451	7.2
- Industrial Machinery & Equipment	47,381,646	6.0	49,565,312	5.2
- Insurance - Life & Health	45,408,642	5.8	19,307,993	2.0
- Electrical Components & Equipment	45,084,639	5.7	41,721,659	4.3
- Chemicals - Commodity	42,204,418	5.3	28,256,152	2.9
- Food Products	31,477,300	4.0	64,346,114	6.7
- Software	25,448,955	3.2	75,593,638	7.9
- Semiconductors & Semiconductor Equipment	15,348,444	1.9	60,979,874	6.3
- Others	343,876,619	43.4	472,202,337	49.2
	<u>738,145,808</u>	<u>93.2</u>	<u>880,732,530</u>	<u>91.7</u>
Derivatives				
- Participation notes	50,095,296	6.3	55,989,845	5.8
- Warrants	2,747,731	0.3	26,257,808	2.7
	<u>52,843,027</u>	<u>6.6</u>	<u>82,247,653</u>	<u>8.5</u>
Total Listed/Quoted Investments	<u>790,988,835</u>	<u>99.8</u>	<u>962,980,183</u>	<u>100.2</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>792,350,151</u>	CSI 300 Net	1.03	-3.7	<u>(30,196,464)</u>
As at 30 September 2022	<u>960,697,095</u>	CSI 300 Net	1.06	-27.4	<u>(279,024,864)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	8,227,849	12,797,566
Short-term bank loans - unsecured	(4,500,000)	(8,100,000)
Total interest sensitivity gap	<u>3,727,849</u>	<u>4,697,566</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
2023			
Chinese Yuan (Offshore)	460,366,430	-2.1	(9,667,695)
Chinese Yuan (Onshore)	202,165,362	-2.9	(5,862,795)
Hong Kong Dollar	83,442,304	+0.2	166,885
Euro	113	+8.1	9
	<u>745,974,209</u>		<u>(15,363,596)</u>
2022			
Chinese Yuan (Offshore)	454,121,739	-9.5	(43,141,565)
Chinese Yuan (Onshore)	373,754,448	-8.9	(33,264,146)
Hong Kong Dollar	64,459,136	-0.8	(515,673)
	<u>892,335,323</u>		<u>(76,921,384)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodians which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	133,767	123,697
S&P(A)/Moody's(A)/FITCH(A)	8,094,082	12,673,869
Investment and derivative balances with custodians		
S&P(A)/Moody's(A)/FITCH(A)	<u>790,988,835</u>	<u>962,980,183</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Short-term bank loans - unsecured	4,500,000	8,100,000
Amounts due to brokers	429,141	1,202,906
Amounts payable on redemption	1,367,041	5,480,507
Other accounts payable	1,188,082	1,580,105
Net assets attributable to holders of redeemable units	792,350,151	960,697,095
Total financial liabilities	<u>799,834,415</u>	<u>977,060,613</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	738,145,808	-	-	738,145,808
Derivatives	-	52,843,027	-	52,843,027
Total financial assets at fair value through profit and loss	<u>738,145,808</u>	<u>52,843,027</u>	-	<u>790,988,835</u>
<u>2022</u>				
<u>Assets</u>				
Equities	880,732,530	-	-	880,732,530
Derivatives	-	82,247,653	-	82,247,653
Total financial assets at fair value through profit and loss	<u>880,732,530</u>	<u>82,247,653</u>	-	<u>962,980,183</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Level 3 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net losses on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	(1,764,966)	(483,381,725)
Realized (losses)/gains on sale of investments and derivatives	(109,275,477)	39,824,295
	<u>(111,040,443)</u>	<u>(443,557,430)</u>

6 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the QFI status of the Investment Manager and Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 79, QFI without permanent establishment in the Mainland China are temporarily exempt from PRC corporate income tax on capital gains derived from trading PRC equity investments (including A-shares) effective from 17th November 2014. According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via China Connect are temporarily exempt from PRC corporate income tax. The capital gains derived by QFI and through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities (Asia Pacific) Limited	61,935,367	4.23	65,949	5.67	0.11
J.P. Morgan Securities plc	143,943,138	9.83	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	104,202,183	7.12	111,840	9.62	0.11
<u>2022</u>					
J.P. Morgan Securities (Asia Pacific) Limited	101,486,777	6.35	107,959	7.28	0.11
J.P. Morgan Securities plc	141,836,336	8.88	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	141,640,738	8.87	119,578	8.06	0.08

As at 30 September 2023, the Fund had an investment of USD35,913,531 (2022: USD45,455,780) in participation notes issued by J.P. Morgan Structured Products B.V., a Connected Person of the Manager.

During the year ended 30 September 2023, the Fund received dividend income of USD297,345 (2022: USD382,329) from its investments in participation notes issued by J.P. Morgan Structured Products B.V.. The aggregate value of purchases and sales of investments in participation notes issued by J.P. Morgan Structured Products B.V. were USD143,943,138 (2022: USD141,836,336).

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	133,767	123,697
Amounts payable	(1,123,623)	(1,508,605)

(c) During the year, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD1,206 (2022: USD3,067).

(d) Management fee for USD Class (acc) of 1.75% per annum and USD Class C (acc) of 0.9% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain of its Directors and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction USD
<u>2023</u>							
<u>Directors of the Manager</u>							
- USD Class (acc)	1,743.361	-	-	-	-	1,743.361	-
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>							
- USD Class (acc)	6,864.776	N/A	920.883	(1,958.993)	N/A	5,826.666	-
<u>JPMorgan Asset Management (S) Limited</u>							
- USD Class (acc)	423.550	N/A	4.820	(21.522)	N/A	406.848	-
<u>JPMorgan Funds (Asia) Limited</u>							
- USD Class (acc)	69.543	N/A	-	(69.543)	N/A	-	-
<u>2022</u>							
<u>Directors of the Manager</u>							
- USD Class (acc)	1,743.361	-	-	-	-	1,743.361	-
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>							
- USD Class (acc)	3,935.343	N/A	3,186.499	(257.066)	N/A	6,864.776	7,381
- USD Class C (acc)	100.000	N/A	-	(100.000)	N/A	-	-
<u>JPMorgan Asset Management (S) Limited</u>							
- USD Class (acc)	164.057	N/A	380.506	(121.013)	N/A	423.550	2,747
<u>JPMorgan Funds (Asia) Limited</u>							
- USD Class (acc)	302.321	N/A	-	(232.778)	N/A	69.543	7,779

(f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	2,800	125
Safe custody and bank charges	(7,634)	(9,719)
Transaction costs	(65,949)	(107,959)
	<u> </u>	<u> </u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	17,246	2,845
Transaction costs	(140,329)	(141,507)
Interest expense	(349,727)	(130,807)
Safe custody and bank charges	(358,042)	(454,148)
	<u> </u>	<u> </u>

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with different financial institutions, one of which is The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD1,108,977,339 (2022: USD1,174,804,426). Commission which amounted to USD260,130 (2022: USD228,171) is paid from the Fund on these transactions.

Independent Auditor's Report

To the Unitholders of JPMorgan China Pioneer A-Share Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan China Pioneer A-Share Fund, which are set out on pages 257 to 275, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 14 June 2006, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan China Pioneer A-Share Fund
(the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 14 June 2006, as amended, for the year ended 30 September 2023.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 14 June 2006 to 30 September 2010.

**Details of Financial Derivative Instruments
As at 30 September 2023 (Unaudited)**

As at 30 September 2023, the Fund held outstanding forward foreign exchange contracts with details as shown in Note 10.

**Information on Exposure Arising from Financial
Derivative Instruments
For the year ended 30 September 2023 (Unaudited)**

The lowest, highest and average gross exposure arising from the use of financial derivative instruments in the Fund for any purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest gross exposure	2.8
Highest gross exposure	11.6
Average gross exposure	4.1

The lowest, highest and average net exposure arising from the use of financial derivative instruments in the Fund for non-hedging purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest net exposure	-
Highest net exposure	0.1
Average net exposure	0.0

There are some share classes with currency hedging features. For the avoidance of doubt, their exposures are not included in the calculation of the gross exposure of the Fund portfolio.

The notes on pages 286 to 304 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Europe High Yield Bond Fund (the "Fund") was established under a Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve a return in excess of European bond markets by investing at least 70% of its total net asset value in European and non-European below investment grade debt securities denominated in European currencies.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted Euro as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(k) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

4 Financial risk management**(I) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk**(i) Market price risk**

The Fund primarily invests in debt securities which are subject to interest rate risk. Refer to Note 4(I)(a)(ii) for interest rate risk.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 year EUR	1-5 years EUR	Over 5 years EUR	Non-interest bearing EUR	Total EUR
<u>2023</u>					
Cash at banks	655,433	-	-	-	655,433
Investments (Note*)	32,044	7,370,974	2,945,241	47,477	10,395,736
Total interest sensitivity gap	<u>687,477</u>	<u>7,370,974</u>	<u>2,945,241</u>	<u>47,477</u>	<u>11,051,169</u>

	<u>10,554,593</u>	<u>98.4</u>	<u>14,265,555</u>	<u>94.6</u>
	=====	=====	=====	=====

Also, refer to Note 10 for the exposures on derivatives.

The Investment Manager monitors the Fund's interest rate risk sensitivity primarily through the modified duration of the Fund on a regular basis. The modified duration measures the sensitivity of the price of a bond relative to the change in interest rate. As at 30 September 2023, the Investment Manager estimates that the Fund has a modified duration of 3.08 (2022: 3.26). For the purpose of disclosing relevant sensitivities, the percentage of reasonable possible change in interest rate adopted is 25 basis points, and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in net asset value of the Fund by approximately EUR82,607 (2022: EUR122,949). If the interest rates were to fall by 25 basis points, this would result in an increase in the net asset value of the Fund by the same amount.

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-EUR currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	EUR equivalent	% of reasonable possible change against EUR (Note**)	Estimated impact on net asset value EUR
<u>2023</u>			
Australian Dollar	660,739	-7.1	(46,912)
Chinese Yuan (Offshore)	2,643,318	-9.5	(251,115)
Hong Kong Dollar	3,240,642	-7.3	(236,567)
Sterling	10,607	+1.2	127
United States Dollar	3,600,204	-7.5	(270,015)
	<u>10,155,510</u>		<u>(804,482)</u>
<u>2022</u>			
Australian Dollar	858,414	+5.3	45,496
Chinese Yuan (Offshore)	2,884,092	+7.1	204,771
Hong Kong Dollar	6,375,509	+17.3	1,102,963
Sterling	6,911	-2.1	(145)
United States Dollar	4,150,912	+18.3	759,617
	<u>14,275,838</u>		<u>2,112,702</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The Fund's investments are predominantly in debt securities and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities is managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities by credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	8.8	2.0
S&P(BB)/Moody's(Ba)/FITCH(BB)	53.9	25.8
S&P(B)/Moody's(B)/FITCH(B)	28.5	58.5
S&P(CCC)/Moody's(Caa)/FITCH(CCC)	4.3	2.6
Unrated	1.0	4.6
	<u>96.5</u>	<u>93.5</u>

The table below summarizes the unrated debt securities as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(B)/Moody's(B)/FITCH(B)	1.0	2.0
S&P(CCC)/Moody's(Caa)/FITCH(CCC)	-	1.4
Unrated	-	1.2
	<u>1.0</u>	<u>4.6</u>

In order to monitor the credit quality of the unrated debt securities, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities in order to calculate the implied ratings for each of the debt securities.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties EUR	2022 Exposure to counterparties EUR
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	13,702	14,657
S&P(A)/Moody's(A)/FITCH(A)	641,731	1,077,063
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	109,994	5,255
S&P(A)/Moody's(A)/FITCH(A)	53,606	173,378
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>10,395,736</u>	<u>14,164,590</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023		2022	
	Less than 1 month EUR	1 to 12 months EUR	Less than 1 month EUR	1 to 12 months EUR
Amounts due to brokers	100,000	-	-	-
Amounts payable on redemption	345,223	-	156,063	-
Distribution payable	45,778	-	82,579	-
Derivatives	4,722	21	77,559	109
Other accounts payable	31,688	-	34,223	-
Net assets attributable to holders of redeemable units	10,728,166	-	15,085,813	-
Total financial liabilities	11,255,577	21	15,436,237	109

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position EUR	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount EUR

<u>Liabilities</u>				
Derivatives	77,668	(47,770)	-	29,898
Financial liabilities at fair value through profit and loss	77,668	(47,770)	-	29,898

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 EUR	Level 2 EUR	Level 3 EUR	Total EUR
<u>2023</u>				
<u>Assets</u>				
Equities	47,477	-	-	47,477
Debt Securities	-	10,348,259	-	10,348,259
Derivatives	-	163,600	-	163,600
Total financial assets at fair value through profit and loss	<u>47,477</u>	<u>10,511,859</u>	<u>-</u>	<u>10,559,336</u>
<u>Liabilities</u>				
Derivatives	-	4,743	-	4,743
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>4,743</u>	<u>-</u>	<u>4,743</u>
<u>2022</u>				
<u>Assets</u>				
Equities	58,515	-	-	58,515
Debt Securities	-	14,106,075	-	14,106,075
Derivatives	-	178,633	-	178,633
Total financial assets at fair value through profit and loss	<u>58,515</u>	<u>14,284,708</u>	<u>-</u>	<u>14,343,223</u>
<u>Liabilities</u>				
Derivatives	-	77,668	-	77,668
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>77,668</u>	<u>-</u>	<u>77,668</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 EUR	2022 EUR
Change in unrealized gains/losses in value of investments and derivatives	2,082,116	(4,073,004)
Realized (losses)/gains on sale of investments and derivatives	(1,453,764)	3,960,142
	<u>628,352</u>	<u>(112,862)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

7 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments EUR	% of the Fund's total aggregate value of transactions	Commission paid EUR	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Bank Plc London	900,238	7.06	-	-	-
<u>2022</u>					
HSBC Bank Plc London	1,718,799	7.55	-	-	-

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 EUR	2022 EUR
Cash at banks	13,702	14,657
Amounts payable	(12,554)	(16,825)

(c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized gains amounting to EUR179,172 (2022: realized gains amounting to EUR286,820).

(d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to EUR378 (2022: EUR116).

(e) Management fee of 1% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

(g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first EUR35 million, 0.04% per annum for the balance from EUR35 million to EUR60 million, and 0.025% per annum for the balance in excess of EUR60 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia Limited, and its Connected Persons were as follows:

	2023	2022
	EUR	EUR
Interest on deposits	174	70
Safe custody and bank charges	(2,242)	(1,842)
	<u> </u>	<u> </u>

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023	2022
	EUR	EUR
Interest on deposits	1,609	62
Transaction costs	(2,204)	(3,152)
Safe custody and bank charges	(21,688)	(20,873)
	<u> </u>	<u> </u>

9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

Independent Auditor's Report

To the Unitholders of JPMorgan Europe High Yield Bond Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Europe High Yield Bond Fund, which are set out on pages 284 to 304, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Europe High Yield Bond Fund
(the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 10 March 2016, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

Notes to the Financial Statements

1 The Fund

JPMorgan Europe Strategic Dividend Fund (the "Fund") was established under a Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to provide income and long-term capital growth by investing at least 70% of its total net asset value in equity securities of companies which are based in, listed on stock exchange of or operate principally in Europe and are expected to pay dividends.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted Euro as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Margin deposits

Cash collateral provided by the Fund is identified in the Statement of Financial Position as margin deposits and is not included as a component of cash and cash equivalents.

(j) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(k) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(l) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

4 Financial risk management

(i) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
Listed/Quoted Investments	Fair value of investments EUR	% of net assets	Fair value of investments EUR	% of net assets
<u>Assets</u>				
<u>Equities</u>				
- United Kingdom	5,649,493	28.7	7,373,392	29.2

	<u>(52,196)</u>	<u>(0.3)</u>	<u>(549,591)</u>	<u>(2.2)</u>
	-----	-----	-----	-----
Total Listed/Quoted Investments	<u>19,222,260</u>	<u>97.5</u>	<u>23,612,558</u>	<u>94.1</u>
	-----	-----	-----	-----

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value EUR	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) EUR
As at 30 September 2023	<u>19,707,971</u>	MSCI Europe Net Hedged to USD	0.98	+22.9	<u>4,422,863</u>
As at 30 September 2022	<u>25,106,606</u>	MSCI Europe Net Hedged to USD	1.12	-10.0	<u>(2,811,940)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month EUR	2022 Less than 1 month EUR
Cash at banks	640,937	1,187,838
Margin deposits	40,126	208,200
Total interest sensitivity gap	<u>681,063</u>	<u>1,396,038</u>

Any cash and cash equivalents and margin deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-EUR currencies. Refer to Note 10(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	EUR equivalent	% of reasonable possible change against EUR (Note**)	Estimated impact on net asset value EUR
<u>2023</u>			
Australian Dollar	3,535,245	-7.1	(251,002)
Chinese Yuan (Offshore)	5,241,159	-9.5	(497,910)
Danish Krone	46,173	-0.3	(139)
Hong Kong Dollar	4,948,401	-7.3	(361,233)
Norwegian Krone	44,525	-5.2	(2,315)
Sterling	(54,492)	+1.2	(654)
Swedish Krona	95,927	-5.5	(5,276)
Swiss Franc	53,162	-0.4	(213)
United States Dollar	4,753,973	-7.5	(356,548)
	<u>18,664,073</u>		<u>(1,475,290)</u>
<u>2022</u>			
Australian Dollar	(382,775)	+5.3	(20,287)
Chinese Yuan (Offshore)	(91,331)	+7.1	(6,485)
Danish Krone	959,131	+0.0	0
Hong Kong Dollar	27,811	+17.3	4,811
Norwegian Krone	953,269	-5.2	(49,570)
Sterling	7,694,982	-2.1	(161,595)
Swedish Krona	1,029,166	-6.7	(68,954)
Swiss Franc	3,403,851	+12.1	411,866
United States Dollar	38,278	+18.3	7,005
	<u>13,632,382</u>		<u>116,791</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties EUR	2022 Exposure to counterparties EUR
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	16,986	18,040
S&P(A)/Moody's(A)/FITCH(A)	623,951	1,169,798
Margin deposits with brokers and derivatives held with/issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	239,534	30,585
S&P(A)/Moody's(A)/FITCH(A)	111,056	471,447
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>18,963,992</u>	<u>23,868,317</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023		2022	
	Less than 1 month EUR	1 to 12 months EUR	Less than 1 month EUR	1 to 12 months EUR
Amounts due to brokers	108,104	-	91,410	-
Amounts payable on redemption	9,234	-	203,321	-
Distribution payable	95,503	-	153,868	-
Derivatives	48,503	3,693	471,907	77,684
Other accounts payable	51,858	-	67,654	-
Net assets attributable to holders of redeemable units	<u>19,707,971</u>	<u>-</u>	<u>25,106,606</u>	<u>-</u>
Total financial liabilities	<u>20,021,173</u>	<u>3,693</u>	<u>26,094,766</u>	<u>77,684</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position EUR	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments EUR	Collateral and margin deposits EUR	Net amount EUR
<u>2023</u>				
<u>Assets</u>				
Margin deposits	40,126	-	(3,733)	36,393
Derivatives	309,797	(22,577)	-	287,220
Financial assets at fair value through profit and loss	<u>349,923</u>	<u>(22,577)</u>	<u>(3,733)</u>	<u>323,613</u>

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position EUR	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments EUR	Collateral and margin deposits EUR	Net amount EUR
<u>Liabilities</u>				
Derivatives	52,196	(22,577)	(3,733)	25,886
Financial liabilities at fair value through profit and loss	<u>52,196</u>	<u>(22,577)</u>	<u>(3,733)</u>	<u>25,886</u>

	Gross amounts of recognized financial assets presented in the Statement of Financial Position EUR	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments EUR	Collateral and margin deposits EUR	Net amount EUR
<u>2022</u>				
<u>Assets</u>

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position EUR	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments EUR	Collateral and margin deposits EUR	Net amount EUR
<u>Liabilities</u>				
Derivatives	549,591	(241,146)	(208,200)	100,245
Financial liabilities at fair value through profit and loss	<u>549,591</u>	<u>(241,146)</u>	<u>(208,200)</u>	<u>100,245</u>

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 EUR	Level 2 EUR	Level 3 EUR	Total EUR
2023				
Assets				
Equities	18,963,992	-	-	18,963,992
Derivatives	-	310,464	-	310,464
Total financial assets at fair value through profit and loss	18,963,992	310,464	-	19,274,456
Liabilities				
Derivatives	3,693	48,503	-	52,196
Total financial liabilities at fair value through profit and loss	3,693	48,503	-	52,196
2022				
Assets				
Equities	23,868,317	-	-	23,868,317
Derivatives	-	293,832	-	293,832
Total financial assets at fair value through profit and loss	23,868,317	293,832	-	24,162,149
Liabilities				
Derivatives	77,684	471,907	-	549,591
Total financial liabilities at fair value through profit and loss	77,684	471,907	-	549,591

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 EUR	2022 EUR
Change in unrealized gains/losses in value of investments and derivatives	3,198,488	(6,437,645)
Realized (losses)/gains on sale of investments and derivatives	(746,235)	6,371,348
	<u>2,452,253</u>	<u>(66,297)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

Total distribution to holders of redeemable units

(1,953,189)

7 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments EUR	% of the Fund's total aggregate value of transactions	Commission paid EUR	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Bank Plc London J.P. Morgan Securities plc	- 2,055,980	- 4.75	- 514	- 2.44	- 0.03
<u>2022</u>					
HSBC Bank Plc London J.P. Morgan Securities plc	749,595 1,437,064	0.87 1.66	1,124 438	4.73 1.84	0.15 0.03

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 EUR	2022 EUR
Cash at banks	16,986	18,040
Amounts receivable	45	4
Amounts payable	(29,696)	(39,660)

- (c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized gains amounting to EUR69,317 (2022: realized gains amounting to EUR335,024).
- (d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to EUR5,560 (2022: EUR390).
- (e) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain Directors of the Manager held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction EUR

- HKD Hedged Class (mth)	-	-	19,214.755	(19,214.755)	-	-	1,457

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first EUR35 million, 0.04% per annum for the balance from EUR35 million to EUR60 million, and 0.025% per annum for the balance in excess of EUR60 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 EUR	2022 EUR
Interest on deposits	366	-
Transaction costs	(514)	(438)
Safe custody and bank charges	(2,721)	(3,004)

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023	2022
	EUR	EUR
Interest on deposits	1,174	-
Safe custody and bank charges	(36,434)	(31,812)
Transaction costs	(58,908)	(76,839)

9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

Independent Auditor's Report

To the Unitholders of JPMorgan Europe Strategic Dividend Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Europe Strategic Dividend Fund, which are set out on pages 313 to 333, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Europe Strategic Dividend Fund (the "Fund")

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Matters under the Relevant Disclosure Provisions of the Trust Deed and Appendix E of the SFC Code

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 10 March 2016, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee
24 January 2024

Notes to the Financial Statements

1 The Fund

JPMorgan Evergreen Fund (the "Fund") was established under a Trust Deed dated 19 January 2004, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to seek to produce a competitive total return in different market conditions. The Fund seeks to achieve this by investing primarily (at least 90% of its total net asset value) in a professionally managed portfolio of interests in collective investment schemes (including exchange-traded funds) managed by the Manager, its connected parties or external parties. By investing in developed and emerging markets across a range of collective investment schemes, which may embrace the full spectrum of the risk return trade off from low to high risk, the Fund seeks to allocate across equity, fixed income and money market instruments depending on market conditions and opportunities, with no prescribed limits.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Margin deposits

Cash collateral provided by the Fund is identified in the Statement of Financial Position as margin deposits and is not included as a component of cash and cash equivalents.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

	2023 Units	2022 Units
Number of units in issue:		
At the beginning of the year	2,010,603.840	1,805,984.040
Total allotments	300,928.175	465,102.902
Total redemptions	(253,795.942)	(260,483.102)
At the end of the year	<u>2,057,736.073</u>	<u>2,010,603.840</u>
	USD	USD
Net assets attributable to holders of redeemable units	<u>54,912,140</u>	<u>49,194,879</u>
Net assets attributable to holders of redeemable units (per unit)	<u>26.69</u>	<u>24.47</u>

As at 30 September 2023, the Fund had USD54,912,140 (2022: USD49,194,879) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity.

The Fund's policies for managing its obligations for the holders of redeemable units of the Fund are included in Note 4(II) capital risk management.

4 Financial risk management**(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The Fund's holding in the collective investment schemes, as a percentage of the collective investment schemes' total net asset value, will vary from time to time dependent on the volume of allotments and redemptions at the collective investment schemes level. It is possible that the Fund may, at any point in time, hold a majority of the collective investment schemes' total units in issue. The Fund's maximum exposure to loss from its interest in investee Funds is equal to the total fair value of its investment in collective investment schemes. Total purchase in collective investment schemes during the year ended 30 September 2023 was USD26,934,863 (2022: USD38,719,214). During the year ended 30 September 2023, total net gain earned on the investment in collective investment schemes was USD5,502,479 (2022: total net loss of USD10,536,614).

(a) Market risk**(i) Market price risk**

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate collective investment schemes selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Fund's investments in Investee Funds are subject to the terms and conditions of the respective Investee Fund's offering document and are susceptible to market price risk arising from uncertainties about future values of those Investee Funds.

The right of the Fund to request redemption of its investments in Investee Funds is on a daily basis.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
Listed/Quoted Investments	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
<u>Assets</u>				
Collective Investment Schemes				
- International	24,304,034	44.3	20,603,893	41.9
- United States	18,729,308	34.1	17,766,034	36.1
- Europe	3,777,832	6.9	2,559,727	5.2
- Others	4,534,365	8.3	3,866,662	7.9
	<u>51,345,539</u>	<u>93.6</u>	<u>44,796,316</u>	<u>91.1</u>
Derivatives				
- Futures	91,535	0.1	88,543	0.2
	<u>51,437,074</u>	<u>93.7</u>	<u>44,884,859</u>	<u>91.3</u>
	-----	----	-----	----
<u>Liabilities</u>				
Derivatives				
- Futures	(120,113)	(0.2)	(40,797)	(0.1)
	<u>(120,113)</u>	<u>(0.2)</u>	<u>(40,797)</u>	<u>(0.1)</u>
Total Listed/Quoted Investments	<u>51,316,961</u>	<u>93.5</u>	<u>44,844,062</u>	<u>91.2</u>

Also, refer to Note 9 for the exposures on derivatives.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Fund's volatility, which helps to describe the likely range of the Fund's return, on a regular basis. In statistical terms, it is the standard deviation of the return distribution. Greater volatility of monthly fund returns means that there is a wider range of likely returns in the future, or greater uncertainty regarding the fund returns. Most investors would equate this greater uncertainty with greater risk.

The table below summarizes the volatility of the Fund expressed in annual terms and the estimated impact on the net asset value.

	2023	2022
Annual volatility (Note*)	10.79%	12.38%

If the above volatility were to be applied to the Fund's net asset value as at 30 September 2023 of USD54,912,140 (2022: USD49,194,879) and assuming that the Fund's returns are normally distributed with its mean return equals to nil and with one standard deviation away from the mean return (i.e. a probability of 68%), the estimated reasonable possible change in the Fund's net asset value would be between USD48,987,120 and USD60,837,160 or within +/- USD5,925,020 (2022: between USD43,104,553 and USD55,285,205; or within +/- USD6,090,326) over a twelve-month period based on the Fund's historical annual volatility percentage as a result of the market price fluctuation, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Volatility is calculated based on the monthly Fund's returns over the maximum of past 36 months or the number of months since portfolio inception. For funds launched within a period of less than 12 months, volatility is calculated based on the weekly Fund's returns since the Fund's launch. Volatility is expressed in annual volatility by applying the square root of time adjustment. Volatility may not cover stressed market events, nor represent the Investment Manager's forecast of the Fund's range of future returns.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 month USD	No stated maturity USD	Total USD
<u>2023</u>			
Cash at banks	3,691,506	-	3,691,506
Margin deposits	354,750	-	354,750
Investments	-	20,639,127	20,639,127
Total interest sensitivity gap	<u>4,046,256</u>	<u>20,639,127</u>	<u>24,685,383</u>
<u>2022</u>			
Cash at banks	3,490,759	-	3,490,759
Margin deposits	85,167	-	85,167
Investments	-	20,195,572	20,195,572
Total interest sensitivity gap	<u>3,575,926</u>	<u>20,195,572</u>	<u>23,771,498</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Euro	4,624,357	+8.1	374,573
Hong Kong Dollar	14,607	+0.2	29
Japanese Yen	87,579	-3.0	(2,627)
	<u>4,726,543</u>		<u>371,975</u>
<u>2022</u>			
Euro	2,560,217	-15.5	(396,834)
Hong Kong Dollar	35,230	-0.8	(282)
Japanese Yen	69	-22.9	(16)
	<u>2,595,516</u>		<u>(397,132)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/broker/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to Counterparties USD	2022 Exposure to Counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	140,027	123,407
S&P(A)/Moody's(A)/FITCH(A)	3,551,479	3,367,352
Margin deposits with broker and derivatives held with broker		
S&P(A)/Moody's(A)/FITCH(A)	446,285	173,710
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>51,345,539</u>	<u>44,796,316</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units. As at 30 September 2023 and 2022, the Fund invests in collective investment schemes which allow daily redemption. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts due to brokers	1,097,957	-	-	-
Amounts payable on redemption	15,390	-	115,873	-
Derivatives	-	120,113	-	40,797
Other accounts payable	46,405	-	45,825	-
Total financial liabilities	<u>1,159,752</u>	<u>120,113</u>	<u>161,698</u>	<u>40,797</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD
		Financial Instruments USD	Collateral and margin deposits USD	
<u>2023</u>

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD
		Financial Instruments USD	Collateral and margin deposits USD	
<u>Liabilities</u>				
Derivatives	40,797	-	(40,797)	-
Financial liabilities at fair value through profit and loss	<u>40,797</u>	<u>-</u>	<u>(40,797)</u>	<u>-</u>

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
Listed/Quoted Investments				
<u>2023</u>				
<u>Assets</u>				
Collective Investment Schemes	51,345,539	-	-	51,345,539
Derivatives	91,535	-	-	91,535
Total financial assets at fair value through profit and loss	<u>51,437,074</u>	<u>-</u>	<u>-</u>	<u>51,437,074</u>
<u>Liabilities</u>				
Derivatives	120,113	-	-	120,113
Total financial liabilities at fair value through profit and loss	<u>120,113</u>	<u>-</u>	<u>-</u>	<u>120,113</u>
<u>2022</u>				
<u>Assets</u>				
Collective Investment Schemes	44,796,316	-	-	44,796,316
Derivatives	88,543	-	-	88,543
Total financial assets at fair value through profit and loss	<u>44,884,859</u>	<u>-</u>	<u>-</u>	<u>44,884,859</u>
<u>Liabilities</u>				
Derivatives	40,797	-	-	40,797
Total financial liabilities at fair value through profit and loss	<u>40,797</u>	<u>-</u>	<u>-</u>	<u>40,797</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	5,706,178	(12,302,631)
Realized (losses)/gains on sale of investments and derivatives	(1,006,507)	1,968,640
	<u>4,699,671</u>	<u>(10,333,991)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with the Manager and its Connected Persons are set out below:

The Fund invests in various funds (“underlying funds”) which are managed by the Manager or its Connected Persons. All fees on allotments and redemptions in the underlying funds payable by the Fund are waived by the managers of underlying funds which are managed by the Manager and its Connected Persons.

During the year ended 30 September 2023, the dividend income amounted to USD3,742 (2022: USD4,068) in the Statement of Comprehensive Income which represents the distributions from investments in collective investment schemes issued and managed by the Manager or its Connected Persons.

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
JPMorgan Asset Management (Europe) S.à r.l.	39,288,570	28.39	-	-	-
JPMorgan Funds (Asia) Limited	13,534,412	9.78	-	-	-
<u>2022</u>					
JPMorgan Asset Management (Europe) S.à r.l.	51,186,408	60.65	-	-	-
JPMorgan Funds (Asia) Limited	23,851,092	28.26	-	-	-

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	140,027	123,407
Amounts receivable	698,792	737,406
Amounts payable	<u>(1,128,285)</u>	<u>(30,106)</u>

As at 30 September 2023, the Fund's investment balance of USD51,345,539 (2022: USD44,796,316) represents the investments in the collective investment schemes issued and managed by the Manager or its Connected Persons.

- (c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD204 (2022: USD823).
- (d) Management fee of 0.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears. In addition, the Fund will indirectly bear a pro rata portion of the fees paid by the underlying funds in which it invests to the managers or other services providers of such underlying funds.

The Fund invests in collective investment schemes managed by the Manager or its Connected Persons and the management fees of these collective investment schemes currently range between 0% and 2.0% per annum (2022: 0% and 2.0% per annum).

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (e) The Fund allows the Trustee, the Manager, and their Connected Persons to subscribe for, and redeem, units of the Fund.

The retirement schemes of the employees of the Manager and its Connected Persons may subscribe to the units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
JPMorgan Asset Management (Asia Pacific) Limited	12,604.529	3,674.508	(6,421.424)	9,857.613	-
JPMorgan Funds (Asia) Limited	515.094	-	-	515.094	-
<u>2022</u>					
JPMorgan Asset Management (Asia Pacific) Limited	10,845.861	6,562.658	(4,803.990)	12,604.529	30,290
JPMorgan Funds (Asia) Limited	-	515.094	-	515.094	-

- (f) Trustee's fee of 0.03% per annum of the net asset value of the Fund is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

For investment in underlying funds managed by the Manager or its Connected Persons, such connected underlying funds will be charged a trustee fee. Currently such trustee fees range between 0% and 0.5% per annum (2022: 0% and 0.5% per annum) and may not exceed 1% per annum of the net asset value of the underlying funds.

- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	2,539	161
Other income	319	318
Safe custody and bank charges	(5,348)	(5,521)
	<u> </u>	<u> </u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	4,709	273
Transaction costs	(1,120)	(2,335)
Safe custody and bank charges	(6,340)	(3,695)
	<u> </u>	<u> </u>

8 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

9 Derivatives

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Evergreen Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Evergreen Fund, which are set out on pages 341 to 355, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 19 January 2004, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Evergreen Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 19 January 2004, as amended, for the year ended 30 September 2023.

Notes to the Financial Statements

1 The Fund

JPMorgan Future Transition Multi-Asset Fund (the "Fund") was established under a Trust Deed dated 21 June 2021, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

Prior to 31 July 2023, the investment objective of the Fund is to provide medium to long-term moderate capital growth by investing in a diversified portfolio of securities globally, including but not limited to, debt and equity securities whose issuers may benefit from, or contribute to, the transition towards the future world.

With effect from 31 July 2023, the investment objective of the Fund is to provide medium to long-term moderate capital growth by investing in a diversified portfolio of securities globally, including but not limited to, debt and equity securities whose issuers are well positioned to promote or contribute to, the world's transition towards a sustainable future.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting year.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(i) Formation costs

Formation costs are recognized as an expense in the year in which they are incurred.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(k) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

Fair value adjustment of units of the Fund

As stated in Note 2(j), units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to the holders of redeemable units and is carried at the redemption amount that would be payable at the Statement of Financial Position date, if the holders of redeemable units exercised the right to redeem units of the Fund. The redemption amount is determined based on the net assets attributable to holders of redeemable units calculated in accordance with the provisions of the Trust Deed ("Trust Deed NAV").

	2023 USD	2022 USD
Net assets attributable to holders of redeemable units (In accordance with HKFRS)	57,164,363	61,614,872
Fair value adjustment of units of the Fund:		
Unamortized formation costs as at the end of the year/period [Note 3(a)]	10,708	22,066
Net assets attributable to holders of redeemable units (In accordance with the Trust Deed)	<u>57,175,071</u>	<u>61,636,938</u>

Note:

- (a) In accordance with the provisions of the Trust Deed, the formation costs (including legal, accounting, and other professional fees and expenses) or costs incidental to the establishment of the Fund will be paid out of the assets of the Fund and amortized over the first three financial years. However, as stated in Note 2(i), the accounting policy of the Fund for the purpose of compliance with HKAS 38 "Intangible Assets" and for reporting purposes is to expense the expenditure incurred in the formation of the Fund in the year in which they arose.

4 Financial risk management**(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The Fund's holding in the collective investment schemes, as a percentage of the collective investment schemes' total net asset value, will vary from time to time dependent on the volume of allotments and redemptions at the collective investment schemes level. It is possible that the Fund may, at any point in time, hold a majority of the collective investment schemes' total units in issue. The Fund's maximum exposure to loss from its interests in Investee Funds is equal to the total fair value of its investment in collective investment schemes. There were no purchases in collective investment schemes during the year ended 30 September 2023 (2022: USD24,635,301). During the year ended 30 September 2023, total net gain earned on the investment in collective investment schemes was USD866,351 (2022: total net loss of USD2,263,788).

(a) Market risk**(i) Market price risk**

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- United States	23,620,972	41.3	21,665,573	35.2

	<u>(598)</u>	<u>(0.0)</u>	<u>(80,393)</u>	<u>(0.1)</u>
Total Listed/Quoted Investments	<u>54,944,623</u>	<u>96.1</u>	<u>54,817,401</u>	<u>89.0</u>

Also, refer to Note 10 for the exposures on derivatives.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Fund's volatility, which helps to describe the likely range of the Fund's return, on a regular basis. In statistical terms, it is the standard deviation of the return distribution. Greater volatility of monthly fund returns means that there is a wider range of likely returns in the future, or greater uncertainty regarding the fund returns. Most investors would equate this greater uncertainty with greater risk.

The table below summarizes the volatility of the Fund expressed in annual terms and the estimated impact on the net asset value.

	2023	2022
Annual volatility (Note*)	14.90%	15.63%

If the above volatility were to be applied to the Fund's net asset value as at 30 September 2023 of USD57,164,363 (2022: USD61,614,872) and assuming that the Fund's returns are normally distributed with its mean return equals to nil and with one standard deviation away from the mean return (i.e. a probability of 68%), the estimated reasonable possible change in the Fund's net asset value would be between USD48,646,873 and USD65,681,853, or within +/- USD8,517,490 (2022: USD51,984,468 and USD71,245,276, or within +/- USD9,630,404) over a twelve-month period based on the Fund's historical annual volatility percentage as a result of the market price fluctuation, assuming that all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Volatility is calculated based on the monthly Fund's returns over the maximum of past 36 months or the number of months since portfolio inception. For funds launched within a period of less than 12 months, volatility is calculated based on the weekly Fund's returns since the Fund's launch. Volatility is expressed in annual volatility by applying the square root of time adjustment. Volatility may not cover stressed market events, nor represent the Investment Manager's forecast of the Fund's range of future returns.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	2,540,031	7,047,030
Total interest sensitivity gap	<u>2,540,031</u>	<u>7,047,030</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year/period end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Net currency exposures (Note*)			
Australian Dollar	1,320,035	+0.4	5,280
Chinese Yuan (Offshore)	2,405,611	-2.1	(50,518)
Euro	2,111,284	+8.1	171,014
Hong Kong Dollar	1,453,873	+0.2	2,908
Japanese Yen	1,715,594	-3.0	(51,468)
Sterling	2,261,839	+9.3	210,351
Swedish Krona	750,309	+2.1	15,756
Swiss Franc	1,215,697	+7.6	92,393
	<u>13,234,242</u>		<u>395,716</u>
<u>2022</u>			
Australian Dollar	689,298	-11.0	(75,823)
Chinese Yuan (Offshore)	3,250,489	-9.5	(308,796)
Euro	2,088,641	-15.5	(323,739)
Hong Kong Dollar	2,130,710	-0.8	(17,046)
Japanese Yen	2,085,726	-22.9	(477,631)
Norwegian Krone	114,724	-19.9	(22,830)
Sterling	2,470,168	-17.2	(424,869)
Swedish Krona	885,574	-21.2	(187,742)
Swiss Franc	1,258,209	-5.2	(65,427)
	<u>14,973,539</u>		<u>(1,903,903)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment or dividend and interest receivable, to be insignificant as the Fund has no default history on such receivables. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	197,764	396,383
S&P(A)/Moody's(A)/FITCH(A)	2,342,267	6,650,647
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	13,785	1,203
S&P(A)/Moody's(A)/FITCH(A)	-	4,729
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>54,931,436</u>	<u>54,891,862</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts payable on redemption	223,206	-	115,719	-
Distribution payable	53,184	-	81,968	-
Derivatives	560	38	80,387	6
Other accounts payable	95,566	-	108,931	-
Net assets attributable to holders of redeemable units	<u>57,164,363</u>	<u>-</u>	<u>61,614,872</u>	<u>-</u>
Total financial liabilities	<u>57,536,879</u>	<u>38</u>	<u>62,001,877</u>	<u>6</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD

<u>Liabilities</u>				
Derivatives	80,393	(2,075)	-	78,318
Financial liabilities at fair value through profit and loss	80,393	(2,075)	-	78,318

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	37,806,291	-	-	37,806,291
Collective Investment Schemes	17,125,145	-	-	17,125,145
Derivatives	-	13,785	-	13,785
Total financial assets at fair value through profit and loss	54,931,436	13,785	-	54,945,221
<u>Liabilities</u>				
Derivatives	-	598	-	598
Total financial liabilities at fair value through profit and loss	-	598	-	598
<u>2022</u>				
<u>Assets</u>				
Equities	37,127,090	-	-	37,127,090
Collective Investment Schemes	17,764,772	-	-	17,764,772
Derivatives	-	5,932	-	5,932
Total financial assets at fair value through profit and loss	54,891,862	5,932	-	54,897,794
<u>Liabilities</u>				
Derivatives	-	80,393	-	80,393
Total financial liabilities at fair value through profit and loss	-	80,393	-	80,393

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the year/period ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	21 June 2021 (Date of Trust Deed) to 30 September 2022 USD
Change in unrealized gains/losses in value of investments and derivatives	11,196,702	(22,728,804)
Realized losses on sale of investments and derivatives	(5,162,526)	(2,911,231)
	<u>6,034,176</u>	<u>(25,640,035)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year/period.

Distribution Class	Ex date	Pay date	Rate	Units	USD

7 Taxation

Australia Taxation

The Fund invests in securities listed on the stock exchange in Australia. Gains generated from disposals of Australian investments may be exposed to Australian tax at the rate of 30%. In September 2012, the Australian Government introduced legislation exempting gains realized by a foreign fund on or before 30 June 2011, provided that certain ownership conditions and other criteria are met. In June 2015, the Australian Government further introduced legislation ("Legislation") which exempts gains realized by a foreign managed fund on or after 1 July 2011 provided that certain ownership conditions and other criteria can be met.

The Manager considers that the charge for capital gains tax on Australian investments invested by the Fund as at 30 September 2023 is unlikely as at the date of approval of these financial statements. The Manager is of the view that the Fund should meet the criteria under the Legislation and should be eligible for the exemption of tax. As at 30 September 2023 and 2022, no provision for such tax was made accordingly. This assessment represents the best estimate of the Manager.

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received during the year/period ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Manager are set out below:

The Fund invests in various funds ("underlying funds") which are managed by the Manager or its Connected Persons. All fees on allotments and redemptions in the underlying funds payable by the Fund are waived by the managers of underlying funds which are managed by the Manager and/or its Connected Persons.

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year/period	Average commission rate %
<u>2023</u>					
JPMorgan Asset Management (Europe) S.à r.l	1,505,978	6.80	-	-	-
<u>21.6.2021 (Date of Trust Deed) to 30.9.2022</u>					
JPMorgan Asset Management (Europe) S.à r.l.	29,242,042	24.09	-	-	-

(b) Balances with the Manager and its Connected Persons as at year/period end:

	2023 USD	2022 USD
Cash at banks	197,764	396,383
Amounts payable	(62,009)	(70,742)

As at 30 September 2023, the Fund's investment balance of USD17,125,145 (2022: USD17,764,772) represents the investments in the collective investment schemes issued and managed by a Connected Person of the Manager.

- (c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to USD173,915 (2022: realized losses amounting to USD156,215).
- (d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD45 (2022: USD9).
- (e) Management fee of 1.25% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears. If the Fund invests in the collective investment scheme managed by the Manager or its Connected Persons, the management fee of the Manager will be reduced to take account of the management fee levied in respect of such collective investment scheme to the extent attributable to that Fund's interest in such collective investment scheme.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year/period and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year/period	Total allotments	Total redemptions	At the end of the year/period	Profits from transaction USD
<u>2023</u>

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the year/period ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	21.6.2021 (Date of Trust Deed) to 30.9.2022 USD
Interest on deposits	5,158	475
Safe custody and bank charges	(510)	(1,300)

- (j) During the year/period ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	21.6.2021 (Date of Trust Deed) to 30.9.2022 USD
Interest on deposits	70,398	8,544
Safe custody and bank charges	(14,784)	(10,731)
Transaction costs	(26,510)	(87,573)

9 Soft dollar arrangements/Commission sharing arrangements

During the year/period ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

Independent Auditor's Report

To the Unitholders of JPMorgan Future Transition Multi-Asset Fund (the "Fund")

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of JPMorgan Future Transition Multi-Asset Fund, which are set out on pages 363 to 382, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 21 June 2021, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Future Transition Multi-Asset Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting year which give a true and fair view of the financial position of the Fund at the end of that year and of the transactions for the year then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting year should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 21 June 2021, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

**Details of Financial Derivative Instruments
As at 30 September 2023 (Unaudited)**

(a) Forward foreign exchange contracts

As at 30 September 2023, the Fund held outstanding forward foreign exchange contracts with details as shown in Note 10.

(b) Futures

As at 30 September 2023, the Fund held futures contracts with details as shown in Note 10.

**Information on Exposure Arising from Financial
Derivative Instruments
For the year ended 30 September 2023 (Unaudited)**

The lowest, highest and average gross exposure arising from the use of financial derivative instruments in the Fund for any purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest gross exposure	47.8
Highest gross exposure	293.3
Average gross exposure	92.7

The lowest, highest and average net exposure arising from the use of financial derivative instruments in the Fund for non-hedging purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest net exposure	-
Highest net exposure	17.7
Average net exposure	3.9

[#] There are some share classes with currency hedging features. For the avoidance of doubt, their exposures are not included in the calculation of the gross exposure of the Fund portfolio.

The notes on pages 396 to 431 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Global Bond Fund (the "Fund") was established under a Trust Deed dated 30 April 1979, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("the SFC").

The investment objective of the Fund is to aim to achieve a return in excess of global bond markets by investing primarily (i.e. at least 80% of its total net asset value) in global investment grade debt securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Margin deposits

Cash collateral provided by the Fund is identified in the Statement of Financial Position as margin deposits and is not included as a component of cash and cash equivalents.

(j) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(k) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(l) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

4 Financial risk management**(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The Fund's holding in the collective investment schemes, as a percentage of the collective investment schemes' total net asset value, will vary from time to time dependent on the volume of allotments and redemptions at the collective investment schemes level. It is possible that the Fund may, at any point in time, hold a majority of the collective investment schemes' total units in issue. The Fund's maximum exposure to loss from its interests in Investee Funds is equal to the total fair value of its investment in collective investment schemes. Total purchase in collective investment schemes during the year ended 30 September 2023 was USD348,457,288 (2022: USD78,739,914). During the year ended 30 September 2023, total net loss incurred on the investment in collective investment schemes was USD6,491,564 (2022: total net loss of USD22,833,765).

(a) Market risk**(i) Market price risk**

The Fund primarily invests in debt securities which are subject to interest rate risk. Refer to Note 4(l)(a)(ii) for interest rate risk.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

Also, refer to Note 10 for the exposures on derivatives.

The Investment Manager monitors the Fund's interest rate risk sensitivity primarily through the modified duration of the Fund on a regular basis. The modified duration measures the sensitivity of the price of a bond relative to the change in interest rate. As at 30 September 2023, the Investment Manager estimates that the Fund has a modified duration of 5.65 (2022: 5.38). For the purpose of disclosing relevant sensitivities, the percentage of reasonable possible change in interest rate adopted is 25 basis points, and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in net asset value of the Fund by approximately USD20,549,911 (2022: USD11,662,063). If the interest rates were to fall by 25 basis points, this would result in an increase in the net asset value of the Fund by the same amount.

Any cash and cash equivalents and margin deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	52,447,491	+0.4	209,790

Turkish Lira	58	-52.1	(30)
	<u>336,325,913</u>		<u>(32,276,774)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend, interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to the credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The Fund's investments are predominantly in debt securities and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities is managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities by credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	28.9	35.4
S&P(AA)/Moody's(Aa)/FITCH(AA)	12.2	6.5
S&P(A)/Moody's(A)/FITCH(A)	5.0	9.4
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	6.0	5.6
S&P(BB)/Moody's(Ba)/FITCH(BB)	0.1	0.2
S&P(B)/Moody's(B)/FITCH(B)	0.5	-
Unrated	23.9	27.7
	<u>76.6</u>	<u>84.8</u>

The table below summarizes the unrated debt securities as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AA)/Moody's(Aa)/FITCH(AA)	6.9	3.9
S&P(A)/Moody's(A)/FITCH(A)	12.1	20.6
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	3.3	3.0
Unrated	1.6	0.2
	<u>23.9</u>	<u>27.7</u>

In order to monitor the credit quality of the unrated debt securities, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities in order to calculate the implied ratings for each of the debt securities.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	20,966,262	44,447,749
Margin deposits with brokers and derivatives held with/issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	7,093,407	5,676,669
S&P(A)/Moody's(A)/FITCH(A)	20,418,399	19,132,872
Investment balances with custodian		
S&P(AA)/Moody's(Aa)/FITCH(AA)	<u>1,378,243,094</u>	<u>777,597,053</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Overdraft with brokers	2,469,355	-	861,955	-
Amounts due to brokers	2,997,810	-	-	-
Amounts payable on redemption	1,552,490	-	23,722,188	-
Distribution payable	2,908,531	-	2,000,222	-
Derivatives	2,541,385	853,416	12,539,920	3,642,005
Other accounts payable	1,389,555	-	697,415	-
Net assets attributable to holders of redeemable units	<u>1,454,860,952</u>	<u>-</u>	<u>867,067,860</u>	<u>-</u>
Total financial liabilities	<u>1,468,720,078</u>	<u>853,416</u>	<u>906,889,560</u>	<u>3,642,005</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Debt Securities	-	1,114,406,228	-	1,114,406,228
Collective Investment Schemes	263,836,866	-	-	263,836,866
Derivatives	2,131,853	23,731,332	-	25,863,185
Total financial assets at fair value through profit and loss	<u>265,968,719</u>	<u>1,138,137,560</u>	<u>-</u>	<u>1,404,106,279</u>

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Liabilities</u>				
Derivatives	156,332	3,238,469	-	3,394,801
Total financial liabilities at fair value through profit and loss	156,332	3,238,469	-	3,394,801

2022

Assets

Debt Securities	-	735,003,256	-	735,003,256
Collective Investment Schemes	42,593,797	-	-	42,593,797
Derivatives	2,688,120	19,086,551	-	21,774,671
Total financial assets at fair value through profit and loss	45,281,917	754,089,807	-	799,371,724

Liabilities

Derivatives	2,334,643	13,847,282	-	16,181,925
Total financial liabilities at fair value through profit and loss	2,334,643	13,847,282	-	16,181,925

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, collective investment schemes and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net losses on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	56,527,057	(114,373,611)
Realized losses on sale of investments and derivatives	(88,790,434)	(5,100,077)
	<u>(32,263,377)</u>	<u>(119,473,688)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

Distribution Class	Ex date	Pay date	Rate	Units	USD

7 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

In addition, the non-PRC residents with interest income derived from the debt securities will be subject to 10% WIT. Pursuant to the PRC CIT Law, debt securities issuers in the PRC are obligated to withhold the 10% PRC WIT on interest income for those foreign debt securities holders. However, interest income derived from government bonds issued by the State Council's finance departments and/or local government bonds approved by the State Council is exempt from PRC WIT under the PRC CIT Law. In addition, bank deposit interest income and interest received from government bonds and local government bonds are also exempt from Value-Added Tax ("VAT").

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), VAT at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

During the years ended 30 September 2023 and 2022, the Fund invests in PRC debt securities in PRC through Bond Connect. The Manager considers that the enforcement of PRC tax on gains derived from the PRC debt securities is uncertain as at the date of approval of these financial statements and has exercised its judgment when assessing whether the Fund may be liable for PRC taxation on its gains, the amount of potential liability and the probability of such tax being levied up to the reporting date. However, significant uncertainties exist and estimation of the Manager may substantially differ from the actual events.

Based on the current verbal interpretation of the STA and the local PRC tax authorities, the authorities are of the view that capital gains derived by foreign investors from investment in PRC debt securities would not be treated as PRC-sourced income and thus would not be subject to PRC WIT. However, there are no written tax regulations issued by the PRC tax authorities to confirm this interpretation. As a matter of practice, such 10% PRC WIT on capital gains realized by non-PRC tax resident enterprises from the trading of these PRC debt securities has not been strictly enforced by the PRC tax authorities. The Manager has considered the applicability of the arrangement between the Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion to the Fund and assessed that the probability of such tax being levied up to the approval date of the financial statements of the Fund is reasonably low. Based on all the aforementioned factors, the Manager has reassessed the provisioning approach and has continued not making PRC WIT provision on gains derived from the PRC debt securities of the Fund.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain interest income received during the years ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and on normal commercial terms.

(a) Investment transactions with Connected Persons of the Manager are set out below:

The Fund invests in various funds ("underlying funds") which are managed by Connected Persons of the Manager. All fees on allotments and redemptions in the underlying funds payable by the Fund are waived by the managers of underlying funds which are managed by Connected Persons of the Manager.

During the year ended 30 September 2023, dividend income amounted to USD6,960,396 (2022: USD1,840,535) in the Statement of Comprehensive Income which represents the distributions from investments in collective investment schemes issued and managed by Connected Persons of the Manager.

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
-----------------	--	---	------------------------	---	------------------------------

2023

JPMorgan Asset Management (Europe) S.à r.l.	469,179,945	3.82	-	-	-
J.P. Morgan Securities plc	84,793,337	0.69	-	-	-

2022

JPMorgan Asset Management (Europe) S.à r.l.	320,975,039	2.63	-	-	-
--	-------------	------	---	---	---

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	20,966,262	44,447,749
Amounts receivable	165	30,092,210
Amounts payable	(943,637)	(619,350)
	<u>20,022,690</u>	<u>74,520,609</u>

As at 30 September 2023, the Fund's investment balance of USD263,836,866 (2022: USD42,593,797) represents the investments in the collective investment schemes issued and managed by a Connected Person of the Manager.

As at 30 September 2023, the Fund's investment balance of USD1,378,243,094 (2022: USD777,597,053) represents the investments held by the custodian, JPMorgan Chase Bank, N.A., a Connected Person of the Manager.

- (c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD298 (2022: USD408).
- (d) Management fee of 0.8% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears. If the Fund invests in the collective investment scheme managed by the Manager or its Connected Persons, the management fee of the Manager will be reduced to take account of the management fee levied in respect of such collective investment scheme to the extent attributable to that Fund's interest in such collective investment scheme.

- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain Directors of the Manager and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction USD
<u>2023</u>							
<u>Directors of the Manager</u>

- (f) Trustee's fee of 0.018% per annum of the net asset value of the Fund is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee and registrar's fee as disclosed in Note 8(d) and 8(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	410,848	19,188
Other income	8,978	-
Transaction costs	(4,977)	(4,763)
Safe custody and bank charges	(278,048)	(323,306)
	<u>136,801</u>	<u>(308,671)</u>

9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

Independent Auditor's Report

To the Unitholders of JPMorgan Global Bond Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Global Bond Fund, which are set out on pages 394 to 431, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 30 April 1979, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Global Bond Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund is managed by the Manager in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto; and
- report to the unitholders for each annual accounting period on the conduct of the Manager in the management of the Fund.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 30 April 1979, as amended, for the year ended 30 September 2023.

Bank of East Asia (Trustees) Limited, Trustee

Notes to the Financial Statements

1 The Fund

JPMorgan Global Investment Grade Bond Fund (the "Fund") was established under a Trust Deed dated 1 February 2023, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve a return in excess of global bond markets by investing primarily (i.e. at least 90% of its total net asset value) in investment grade debt securities globally across different sectors, including but not limited to government, government related, corporate, emerging markets and securitized debts.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the period presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

New standards, amendments and interpretations effective after 1 February 2023 (Date of Trust Deed) and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 February 2023 (Date of Trust Deed), and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the period.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(i) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(j) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

2023

	USD Class (acc) Units	USD Class C (acc) Units	USD Class C (mth) Units
Number of units in issue:			
At the beginning of the period	-	-	-
Total allotments	100.000	48,191,181.560	2,539,446.697
At the end of the period	100.000	48,191,181.560	2,539,446.697
	USD	USD	USD
Net assets attributable to holders of redeemable units	971	468,252,672	24,124,335
Net assets attributable to holders of redeemable units (per unit)	9.71	9.72	9.50

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The Fund's holding in the collective investment schemes, as a percentage of the collective investment schemes' total net asset value, will vary from time to time dependent on the volume of allotments and redemptions at the collective investment schemes level. It is possible that the Fund may, at any point in time, hold a majority of the collective investment schemes' total units in issue. The Fund's maximum exposure to loss from its interests in Investee Funds is equal to the total fair value of its investment in collective investment schemes. Total purchase in collective investment schemes during the period ended 30 September 2023 was USD155,700,838. During the period ended 30 September 2023, there was no gain/loss carried/incurred on the investment in collective investment schemes.

(a) Market risk

(i) Market price risk

The Fund primarily invests in debt securities which are subject to interest rate risk. Refer to Note 4(l)(a)(ii) for interest rate risk.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 year USD	1-5 years USD	Over 5 years USD	No stated maturity USD	Total USD
<u>2023</u>

Total Listed/Quoted Investments	<u>504,674,851</u>	<u>102.5</u>

Also, refer to Note 10 for the exposures on derivatives.

The Investment Manager monitors the Fund's interest rate risk sensitivity primarily through the modified duration of the Fund on a regular basis. The modified duration measures the sensitivity of the price of a bond relative to the change in interest rate. As at 30 September 2023, the Investment Manager estimates that the Fund has a modified duration of 6.02. For the purpose of disclosing relevant sensitivities, the percentage of reasonable possible change in interest rate adopted is 25 basis points, and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in net asset value of the Fund by approximately USD7,410,289. If the interest rates were to fall by 25 basis points, this would result in an increase in the net asset value of the Fund by the same amount.

Any cash and cash equivalents is placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10(a) for the outstanding forward foreign exchange contracts as at period end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
2023			
Australian Dollar	(296,906)	+0.4	(1,188)
Canadian Dollar	35,689	+1.6	571
Chinese Yuan (Offshore)	(47,406,512)	-2.1	995,537
Chinese Yuan (Onshore)	46,930,044	-2.9	(1,360,971)
Euro	864,232	+8.1	70,003
Hong Kong Dollar	868	+0.2	2
Japanese Yen	(240,045)	-3.0	7,201
Mexican Nuevo Peso	(678,769)	+15.7	(106,567)
Sterling	244,508	+9.3	22,739
	<u>(546,891)</u>		<u>(372,673)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts due from brokers or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The Fund's investments are predominantly in debt securities and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities is managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities by credit rating as at 30 September.

	2023 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	28.2
S&P(AA)/Moody's(Aa)/FITCH(AA)	9.7
S&P(A)/Moody's(A)/FITCH(A)	6.6
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	10.7
Unrated	40.7
	<hr style="border-top: 1px solid black;"/>
	95.9
	<hr style="border-top: 3px double black;"/>

The table below summarizes the unrated debt securities as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets
S&P(AA)/Moody's(Aa)/FITCH(AA)	15.5
S&P(A)/Moody's(A)/FITCH(A)	12.0
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	7.5
Unrated	5.7
	<hr style="border-top: 1px solid black;"/>
	40.7
	<hr style="border-top: 3px double black;"/>

In order to monitor the credit quality of the unrated debt securities, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities in order to calculate the implied ratings for each of the debt securities.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to Counterparties USD
Bank balances	
S&P(AA)/Moody's(Aa)/FITCH(AA)	10,579
S&P(A)/Moody's(A)/FITCH(A)	2,451,126
Derivatives held with/issued by brokers	
S&P(AA)/Moody's(Aa)/FITCH(AA)	5,320,059
S&P(A)/Moody's(A)/FITCH(A)	2,546,976
Investment balances with custodian	
S&P(A)/Moody's(A)/FITCH(A)	497,939,079
	<hr style="border-top: 1px solid black;"/>
	<hr style="border-top: 3px double black;"/>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023	
	Less than 1 month USD	1 to 12 months USD
Overdraft with brokers	397,849	-
Amounts due to brokers	22,614,148	-
Distribution payable	93,706	-
Derivatives	505,492	625,771
Other accounts payable	281,671	-
Net assets attributable to holders of redeemable units	492,377,978	-
Total financial liabilities	516,270,844	625,771

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD
		Financial Instruments USD	Collateral and margin deposits USD	
<u>2023</u>				
<u>Assets</u>				
Derivatives	7,867,035	(1,089,071)	(397,849)	6,380,115
Financial assets at fair value through profit and loss	7,867,035	(1,089,071)	(397,849)	6,380,115

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD
		Financial Instruments USD	Collateral and margin deposits USD	
<u>Liabilities</u>				
Overdraft with brokers	397,849	-	(397,849)	-
Derivatives	1,131,263	(1,089,071)	-	42,192
Financial liabilities at fair value through profit and loss	1,529,112	(1,089,071)	(397,849)	42,192

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Debt Securities	-	472,145,866	-	472,145,866
Collective Investment Schemes	25,793,213	-	-	25,793,213
Derivatives	2,321,445	5,545,590	-	7,867,035
Total financial assets at fair value through profit and loss	<u>28,114,658</u>	<u>477,691,456</u>	<u>-</u>	<u>505,806,114</u>
<u>Liabilities</u>				
Derivatives	<u>331,348</u>	<u>799,915</u>	<u>-</u>	<u>1,131,263</u>
Total financial liabilities at fair value through profit and loss	<u>331,348</u>	<u>799,915</u>	<u>-</u>	<u>1,131,263</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, collective investment schemes and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the period ended 30 September 2023.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023.

5 Net losses on investments and derivatives

	1.2.2023 (Date of Trust Deed) to 30.9.2023 USD
Change in unrealized gains/losses in value of investments and derivatives	(13,519,290)
Realized gains on sale of investments and derivatives	972,365
	(12,546,925)

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the period.

Distribution Class	Ex date	Pay date	Rate	Units	USD
<u>1.2.2023 (Date of Trust Deed) to 30.9.2023</u>					
USD Class C (mth)	28.4.2023	9.5.2023	USD0.0371	1,194,314.516	(44,309)
USD Class C (mth)	31.5.2023	8.6.2023	USD0.0370	2,539,446.697	(93,959)
USD Class C (mth)	30.6.2023	10.7.2023	USD0.0371	2,539,446.697	(94,213)
USD Class C (mth)	31.7.2023	8.8.2023	USD0.0369	2,539,446.697	(93,706)
USD Class C (mth)	31.8.2023	8.9.2023	USD0.0369	2,539,446.697	(93,706)
USD Class C (mth)	29.9.2023	11.10.2023	USD0.0369	2,539,446.697	(93,706)
Total distribution to holders of redeemable units					(513,599)

7 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

In addition, the non-PRC residents with interest income derived from the debt securities will be subject to 10% WIT. Pursuant to the PRC CIT Law, debt securities issuers in the PRC are obligated to withhold the 10% PRC WIT on interest income for those foreign debt securities holders. However, interest income derived from government bonds issued by the State Council's finance departments and/or local government bonds approved by the State Council is exempt from PRC WIT under the PRC CIT Law. In addition, bank deposit interest income and interest received from government bonds and local government bonds are also exempt from Value-Added Tax ("VAT").

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), VAT at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

During the period ended 30 September 2023, the Fund invests in PRC debt securities in PRC through Bond Connect. The Manager considers that the enforcement of PRC tax on gains derived from the PRC debt securities is uncertain as at the date of approval of these financial statements and has exercised its judgment when assessing whether the Fund may be liable for PRC taxation on its gains, the amount of potential liability and the probability of such tax being levied up to the reporting date. However, significant uncertainties exist and estimation of the Manager may substantially differ from the actual events.

Based on the current verbal interpretation of the STA and the local PRC tax authorities, the authorities are of the view that capital gains derived by foreign investors from investment in PRC debt securities would not be treated as PRC-sourced income and thus would not be subject to PRC WIT. However, there are no written tax regulations issued by the PRC tax authorities to confirm this interpretation. As a matter of practice, such 10% PRC WIT on capital gains realized by non-PRC tax resident enterprises from the trading of these PRC debt securities has not been strictly enforced by the PRC tax authorities. The Manager has considered the applicability of the arrangement between the Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion to the Fund and assessed that the probability of such tax being levied up to the approval date of the financial statements of the Fund is reasonably low. Based on all the aforementioned factors, the Manager has reassessed the provisioning approach and has continued not making PRC WIT provision on gains derived from the PRC debt securities of the Fund.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain interest income received during the period ended 30 September 2023.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the period between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

The Fund invests in various funds ("underlying funds") which are managed by Connected Persons of the Manager. All fees on allotments and redemptions in the underlying funds payable by the Fund are waived by the managers of underlying funds which are managed by Connected Persons of the Manager.

During the period ended 30 September 2023, dividend income amounted to USD155,876 in the Statement of Comprehensive Income which represents the distributions from investments in collective investment schemes issued and managed by Connected Persons of the Manager.

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the period	Average commission rate %
<u>2023</u>					
HSBC Bank (China) Company Limited	11,210,650	0.34	-	-	-
HSBC Bank Plc London	903,426	0.03	-	-	-
HSBC Securities (USA) Inc, New York	25,751,419	0.78	-	-	-
JPMorgan Chase Bank, N.A.	285,452,587	8.61	-	-	-

(b) Balances with the Manager and its Connected Persons as at period end:

	2023 USD
Cash at banks	10,579
Amounts payable	<u>(177,878)</u>

As at 30 September 2023, the Fund's investment balance of USD25,793,213 represents the investments in the collective investment schemes issued and managed by a Connected Person of the Manager.

- (c) Management fee for USD Class (acc) of 0.8% per annum and USD Class C (acc) and USD Class C (mth) of 0.4% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears. If the Fund invests in the collective investment scheme managed by the Manager or its Connected Persons, the management fee of the Manager will be reduced to take account of the management fee levied in respect of such collective investment scheme to the extent attributable to that Fund's interest in such collective investment scheme.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (d) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the period and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the period	Total allotments	Total redemptions	At the end of the period	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	-	100.000	-	100.000	-

- (e) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (f) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (g) During the period ended 30 September 2023, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(c) and 8(f), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.2.2023 (Date of Trust Deed) to 30.9.2023 USD
Interest on deposits	10,477
Safe custody and bank charges	(557)

- (h) During the period ended 30 September 2023, in addition to the trustee's fee as disclosed in Note 8(e), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.2.2023 (Date of Trust Deed) to 30.9.2023 USD
Interest on deposits	81,781
Transaction costs	(8,808)
Safe custody and bank charges	(64,425)

9 Soft dollar arrangements/Commission sharing arrangements

During the period ended 30 September 2023, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

10 Derivatives

(a) Outstanding forward foreign exchange contracts as at 30 September were as follows:

Contract to deliver	In exchange for	Settlement date	Counterparty	Unrealized gains/(losses) USD
<u>2023</u>

Independent Auditor's Report

To the Unitholders of JPMorgan Global Investment Grade Bond Fund (the "Fund")

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of JPMorgan Global Investment Grade Bond Fund, which are set out on pages 444 to 460, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the period then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the period then ended;
- the Statement of Cash Flows for the period then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the period then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 1 February 2023, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Global Investment Grade Bond Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 1 February 2023, as amended, for the period ended 30 September 2023.

Analysis of balances of cash and cash equivalents:		
Cash at banks	29,536,201	61,754,261

The notes on pages 469 to 480 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan India Fund (the "Fund") was established under a Trust Deed dated 23 November 1989, as amended (the "Trust Deed") and is governed by the laws of the Republic of Mauritius. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities linked to the Indian economy. These include, but are not restricted to, securities traded on the stock exchanges of India and the rest of the Indian sub-continent including Pakistan, Bangladesh and Sri Lanka.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)2023

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	2,107,921.758
Total allotments	435,390.319
Total redemptions	(474,901.525)
At the end of the year	<u>2,068,410.552</u>

USD

Net assets attributable to holders of redeemable units	<u>653,185,301</u>
--	--------------------

Net assets attributable to holders of redeemable units (per unit)	<u>315.79</u>
---	---------------

2022

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	2,174,920.875
Total allotments	414,425.799
Total redemptions	(481,424.916)
At the end of the year	<u>2,107,921.758</u>

USD

Net assets attributable to holders of redeemable units	<u>617,326,798</u>
--	--------------------

Net assets attributable to holders of redeemable units (per unit)	<u>292.86</u>
---	---------------

As at 30 September 2023, the Fund had USD653,185,301 (2022: USD617,326,798) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity.

The Fund's policies for managing its obligations for the holders of redeemable units of the Fund are included in Note 4(II) capital risk management.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- Banks	163,440,065	25.0	120,995,387	19.7
- IT Services	88,355,835	13.5	92,399,585	15.0
- Automobiles	45,618,180	7.0	44,168,379	7.1
- Household Products	36,089,320	5.5	39,094,046	6.3
- Thrifts & Mortgage Finance	-	-	40,109,223	6.5
- Others	312,055,612	47.8	233,070,437	37.7
Total Listed/Quoted Investments	645,559,012	98.8	569,837,057	92.3
	Net asset value USD	Relevant benchmark index for the Fund (Note*)	% of reasonable possible change of the relevant Beta benchmark index (Note**)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	653,185,301	MSCI India 10/40 Net	0.80 +10.1	52,777,372
As at 30 September 2022	617,326,798	MSCI India 10/40 Net	0.95 -9.6	(56,300,204)

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- ** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- *** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- **** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	29,536,201	61,754,261
Total interest sensitivity gap	<u>29,536,201</u>	<u>61,754,261</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Hong Kong Dollar	3,220	+0.2	6
Indian Rupee	600,905,627	-2.0	(12,018,113)
	<u>600,908,847</u>		<u>(12,018,107)</u>

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2022</u>			
Hong Kong Dollar	5,963	-0.8	(48)
Indian Rupee	561,798,776	-8.8	(49,438,292)
	<u>561,804,739</u>		<u>(49,438,340)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to Counterparties USD	2022 Exposure to Counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	446,603	244,945
S&P(A)/Moody's(A)/FITCH(A)	29,089,598	61,509,316
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>645,559,012</u>	<u>569,837,057</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	-	2,098,682
Amounts payable on redemption	2,510,113	2,471,309
Other accounts payable	966,484	989,558
Total financial liabilities	<u>3,476,597</u>	<u>5,559,549</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	645,559,012	-	-	645,559,012
Total financial assets at fair value through profit and loss	<u>645,559,012</u>	<u>-</u>	<u>-</u>	<u>645,559,012</u>

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2022</u>				
<u>Assets</u>				
Equities	569,837,057	-	-	569,837,057
Total financial assets at fair value through profit and loss	<u>569,837,057</u>	<u>-</u>	<u>-</u>	<u>569,837,057</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	41,341,410	(171,405,271)
Realized gains on sale of investments and derivatives	20,167,298	79,827,038
	<u>61,508,708</u>	<u>(91,578,233)</u>

6 Taxation

The amount of taxation charged to the Statement of Comprehensive Income represents:

	2023 USD	2022 USD
Capital gains tax – India	(9,600,246)	8,482,486
Withholding tax	(2,303,890)	(1,980,352)
Taxation	<u>(11,904,136)</u>	<u>6,502,134</u>

The movement in tax payable is as follows:

	2023 USD	2022 USD
At the beginning of the year	13,415,887	30,347,257
Taxation charged to the Statement of Comprehensive Income	11,904,136	(6,502,134)
Tax paid	(5,844,413)	(10,429,236)
Taxation	<u>19,475,610</u>	<u>13,415,887</u>

India Taxation

The Fund, which is regarded as taxable under Mauritius tax law, mainly invests in India and the Manager hopes to obtain benefits under the double taxation treaty signed by Mauritius with India. To obtain benefits under the double taxation treaty, the Fund must meet certain tests and conditions, including the establishment of Mauritius tax residence and related requirements. The Fund has obtained tax residence certifications ("TRC") from the Mauritian authorities for the years ended 30 September 2023 and 2022 and believes such certifications are determinative of its resident status for treaty purposes. The Fund which is tax resident in Mauritius under the treaty, but has no branch or permanent establishment in India, may be subject to tax on gains from the sale of listed investments in India and withholding tax on dividend derived from investments in equity securities and interest earned on debt securities.

As per the tax treaty between Mauritius and India, any dividend income received from an Indian company on or after 1 April 2020, should be taxable in India at the rate of 15% plus applicable surcharge and cess, subject to the Fund, holding a valid TRC issued by the Mauritius Revenue Authority, being eligible for treaty benefits and being compliant with the other provisions of the Indian domestic law and tax treaty.

The Governments of India and Mauritius signed a protocol amending the India-Mauritius tax treaty on 10 May 2016 altering the tax treatment of capital gains. As per the protocol, capital gains on alienation of equity shares held as on 31 March 2017 are exempt from tax, irrespective of the date of sale of such shares. However, effective 1 April 2019, India has the right to tax capital gains arising from alienation of shares acquired on or after 1 April 2017 and sold after 31 March 2019 at the full rate of tax rate under the domestic tax laws (there was a transitional period of 2 years between 1 April 2017 to 31 March 2019 which provided for taxation at a concessional rate of 50% of the domestic tax rates). There can be no assurance that any future changes to the India-Mauritius tax treaty or future interpretations of the India-Mauritius tax treaty will not adversely affect the tax position of the Fund in India.

Effective 1 April 2019, short-term capital gains arising from the sale of listed equity shares held for less than 12-months are taxed at 15% (plus applicable surcharge and cess) where Securities Transaction Tax has been charged. Long-term capital gains arising from the sale of listed equity shares held for more than 12-months are taxed at 10% (plus applicable surcharge and cess). As at 30 September 2023 and 2022, the Fund has made a tax provision for both net realized and unrealized short-term gains and long-term gains.

Mauritius Taxation

The Fund is subject to income tax in Mauritius on its chargeable income at 15% (2022: 15%). The Fund which holds a Category 1 Global Business Licence ("GBL") is entitled to deemed foreign tax credits. Pursuant to the enactment of the Finance Act 2018 of Mauritius, with effect as from 1 January 2019, the deemed foreign tax credit regime was phased out with the implementation of a new partial exemption regime. The Fund which had obtained GBL before 16 October 2017 is grandfathered and continues to benefit from the deemed foreign tax credit regime up to 30 June 2021. Hence, the Fund is entitled to the deemed foreign tax credit equivalent to 80% (2022: 80%) of the Mauritian tax on its foreign source income resulting in an effective tax rate of 3%. Capital gains of the Fund are exempt from tax in Mauritius. There is no withholding tax payable in Mauritius on the Fund's distribution to unitholders.

Post 30 June 2021, the Fund will be entitled to either a foreign tax credit equivalent to the actual foreign tax suffered or an exemption of 80% of the Mauritius tax on some of the foreign sourced income derived, including but not limited to foreign source dividends or interest income, subject to meeting certain prescribed conditions.

No actual tax expense was incurred for the years ended 30 September 2023 and 2022. The reconciliation between the actual tax expense and the theoretical tax calculated at the applicable rate of 15% (2022: 15%) for the year ended is as follows:

	2023 USD	2022 USD
Profit/(loss) before taxation	60,600,840	(96,141,878)
Theoretical tax at the applicable rate of 15%	9,090,126	(14,421,282)
Non-taxable income	(9,226,306)	(11,974,056)
Non-allowable expenses	1,164,692	27,460,298
Foreign tax credit	(1,028,512)	(1,064,960)
Actual tax expense	-	-
Underprovision of tax	-	-
Tax expense	-	-

The foregoing is based on current interpretation and practice and is subject to any future changes in tax laws of Mauritius and of the countries in which the Fund has invested and in the tax treaties between Mauritius and these countries.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Securities and Capital Markets (India) Private Limited	6,373,909	2.09	6,022	2.38	0.09
J.P. Morgan India Private Limited	22,903,493	7.50	19,017	7.51	0.08

2022

HSBC Securities and Capital Markets (India) Private Limited	28,579,756	6.81	31,920	10.70	0.11
J.P. Morgan India Private Limited	30,320,624	7.22	12,406	4.16	0.04

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	446,603	244,945
Amounts payable	(874,649)	(894,620)

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD4,565 (2022: USD7,458).

(d) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Investment Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

(f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	6,159	382
Transaction costs	(19,017)	(12,406)
Safe custody and bank charges	(24,379)	(21,046)
	<u> </u>	<u> </u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Mauritius) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	21,273	374
Transaction costs	(12,420)	(38,160)
Safe custody and bank charges	(142,598)	(168,217)
	<u> </u>	<u> </u>

8 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD305,716,250 (2022: USD315,075,121). Commission which amounted to USD10,286 (2022: USD34,830) is paid from the fund on these transactions.

9 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan India Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan India Fund, which are set out on pages 467 to 480, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial performance and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (the "IESBA Code"). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises the investment portfolio, the statement of movements in portfolio holdings, the statement of responsibilities of the Manager and the Trustee, the report of the Trustee to the unitholders and the management and administration but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Other Information (Continued)

If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 23 November 1989, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan India Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We report that the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 23 November 1989, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Mauritius) Limited, Trustee

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 23 November 1989 to 30 September 2010.

The notes on pages 489 to 500 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan India Smaller Companies Fund (the "Fund") was established under a Trust Deed dated 13 April 2006, as amended (the "Trust Deed") and is governed by the laws of the Republic of Mauritius. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of small to medium-sized companies in India.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

2023

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	4,182,117.559
Total allotments	187,543.851
Total redemptions	<u>(167,594.221)</u>
At the end of the year	<u>4,202,067.189</u>
	USD
Net assets attributable to holders of redeemable units	<u>127,434,527</u>
Net assets attributable to holders of redeemable units (per unit)	<u>30.33</u>

2022

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	3,756,663.321
Total allotments	891,617.863
Total redemptions	(466,163.625)
At the end of the year	<u>4,182,117.559</u>
	USD
Net assets attributable to holders of redeemable units	<u>117,013,616</u>
Net assets attributable to holders of redeemable units (per unit)	<u>27.98</u>

As at 30 September 2023, the Fund had USD127,434,527 (2022: USD117,013,616) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity.

The Fund's policies for managing its obligations for the holders of redeemable units of the Fund are included in Note 4(II) capital risk management.

4 Financial risk management

(I) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- Capital Markets	11,335,300	8.9	7,887,425	6.7
- Business Support Services	8,163,676	6.4	7,995,186	6.8
- Heavy Electrical Equipment	7,782,868	6.1	-	-
- Health Care Providers & Services	7,431,508	5.8	10,812,759	9.2
- Biotechnology & Medical Research	7,015,231	5.5	-	-
- Electrical Equipment	6,447,792	5.1	7,488,010	6.4
- Air Freight & Logistics	-	-	8,515,509	7.3
- Real Estate Management & Development	-	-	7,510,177	6.4
- Others	78,245,441	61.4	58,988,463	50.5
Total Listed/Quoted Investments	126,421,816	99.2	109,197,529	93.3

The Investment Manager monitors the Fund's market price sensitivity primarily through the Fund's volatility, which helps to describe the likely range of the Fund's return, on a regular basis. In statistical terms, it is the standard deviation of the return distribution. Greater volatility of monthly fund returns means that there is a wider range of likely returns in the future, or greater uncertainty regarding the fund returns. Most investors would equate this greater uncertainty with greater risk.

The table below summarizes the volatility of the Fund expressed in annual terms and the estimated impact on the net asset value.

	2023	2022
Annual volatility (Note*)	13.53%	23.03%

If the above volatility were to be applied to the Fund's net asset value as at 30 September 2023 of USD127,434,527 (2022: USD117,013,616) and assuming that the Fund's returns are normally distributed with its mean return equals to nil and with one standard deviation away from the mean return (i.e. a probability of 68%), the estimated reasonable possible change in the Fund's net asset value would be between USD110,192,635 and USD144,676,419; or within +/- USD17,241,892 (2022: between USD90,065,380 and USD143,961,852; or within +/- USD26,948,236) over a twelve-month period based on the Fund's historical annual volatility percentage as a result of the market price fluctuation, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Volatility is calculated based on the monthly Fund's returns over the maximum of past 36 months or the number of months since portfolio inception. For funds launched within a period of less than 12 months, volatility is calculated based on the weekly Fund's returns since the Fund's launch. Volatility is expressed in annual volatility by applying the square root of time adjustment. Volatility may not cover stressed market events, nor represent the Investment Manager's forecast of the Fund's range of future returns.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	4,173,772	10,969,655
Total interest sensitivity gap	<u>4,173,772</u>	<u>10,969,655</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
2023			
Hong Kong Dollar	28,538	+0.2	57
Indian Rupee	115,343,598	-2.0	(2,306,872)
Singapore Dollar	50	+5.1	3
	<u>115,372,186</u>		<u>(2,306,812)</u>
2022			
Hong Kong Dollar	158	-0.8	(1)
Indian Rupee	103,423,170	-8.8	(9,101,239)
Singapore Dollar	3,134,048	-5.4	(169,239)
	<u>106,557,376</u>		<u>(9,270,479)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	166,756	234,457
S&P(A)/Moody's(A)/FITCH(A)	4,007,016	10,735,198
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>126,421,816</u>	<u>109,197,529</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	-	2,119,245
Amounts payable on redemption	46,693	116,900
Other accounts payable	196,414	193,906
Total financial liabilities	<u>243,107</u>	<u>2,430,051</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	126,421,816	-	-	126,421,816
Total financial assets at fair value through profit and loss	<u>126,421,816</u>	<u>-</u>	<u>-</u>	<u>126,421,816</u>
<u>2022</u>				
<u>Assets</u>				
Equities	109,197,529	-	-	109,197,529
Total financial assets at fair value through profit and loss	<u>109,197,529</u>	<u>-</u>	<u>-</u>	<u>109,197,529</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	5,639,041	(34,719,099)
Realized gains on sale of investments and derivatives	7,326,031	18,469,443
	<u>12,965,072</u>	<u>(16,249,656)</u>

6 Taxation

The amount of taxation charged to the Statement of Comprehensive Income represents:

	2023 USD	2022 USD
Capital gains tax – India	(2,205,700)	1,176,169
Withholding tax	(246,330)	(235,601)
Taxation	<u>(2,452,030)</u>	<u>940,568</u>

The movement in tax payable is as follows:

	2023 USD	2022 USD
At the beginning of the year	1,765,126	3,947,788
Taxation charged to the Statement of Comprehensive Income	2,452,030	(940,568)
Tax paid	(1,074,901)	(1,242,094)
Taxation	<u>3,142,255</u>	<u>1,765,126</u>

India Taxation

The Fund, which is regarded as taxable under Mauritius tax law, mainly invests in India and the Manager hopes to obtain benefits under the double taxation treaty signed by Mauritius with India. To obtain benefits under the double taxation treaty, the Fund must meet certain tests and conditions, including the establishment of Mauritius tax residence and related requirements. The Fund has obtained tax residence certifications ("TRC") from the Mauritian authorities for the years ended 30 September 2023 and 2022 and believes such certifications are determinative of its resident status for treaty purposes. The Fund which is tax resident in Mauritius under the treaty, but has no branch or permanent establishment in India, may be subject to tax on gains from the sale of listed investments in India and withholding tax on dividend derived from investments in equity securities and interest earned on debt securities.

As per the tax treaty between Mauritius and India, any dividend income received from an Indian company on or after 1 April 2020, should be taxable in India at the rate of 15% plus applicable surcharge and cess, subject to the Fund, holding a valid TRC issued by the Mauritius Revenue Authority, being eligible for treaty benefits and being compliant with the other provisions of the Indian domestic law and tax treaty.

The Governments of India and Mauritius signed a protocol amending the India-Mauritius tax treaty on 10 May 2016 altering the tax treatment of capital gains. As per the protocol, capital gains on alienation of equity shares held as on 31 March 2017 are exempt from tax, irrespective of the date of sale of such shares. However, effective 1 April 2019, India has the right to tax capital gains arising from alienation of shares acquired on or after 1 April 2017 and sold after 31 March 2019 at the full rate of tax under the domestic tax laws (there was a transitional period of 2 years between 1 April 2017 to 31 March 2019 which provided for taxation at a concessional rate of 50% of the domestic tax rates). There can be no assurance that any future changes to the India-Mauritius tax treaty or future interpretations of the India-Mauritius tax treaty will not adversely affect the tax position of the Fund in India.

Effective 1 April 2019, short-term capital gains arising from the sale of listed equity shares held for less than 12-months are taxed at 15% (plus applicable surcharge and cess) where Securities Transaction Tax has been charged. Long-term capital gains arising from the sale of listed equity shares held for more than 12-months are taxed at 10% (plus applicable surcharge and cess). As at 30 September 2023 and 2022, the Fund has made a tax provision for both net realized and unrealized short-term and long-term gains.

Mauritius Taxation

The Fund is subject to income tax in Mauritius on its chargeable income at 15% (2022: 15%). The Fund which holds a Category 1 Global Business Licence ("GBL") is entitled to deemed foreign tax credits. Pursuant to the enactment of the Finance Act 2018 of Mauritius, with effect as from 1 January 2019, the deemed foreign tax credit regime was phased out with the implementation of a new partial exemption regime. The Fund which had obtained GBL before 16 October 2017 is grandfathered and continues to benefit from the deemed foreign tax credit regime up to 30 June 2021. Hence, the Fund is entitled to the deemed foreign tax credit equivalent to 80% (2022: 80%) of the Mauritian tax on its foreign source income resulting in an effective tax rate of 3%. Capital gains of the Fund are exempt from tax in Mauritius. There is no withholding tax payable in Mauritius on the Fund's distribution to unitholders.

Post 30 June 2021, the Fund will be entitled to either a foreign tax credit equivalent to the actual foreign tax suffered or an exemption of 80% of the Mauritius tax on some of the foreign sourced income derived, including but not limited to foreign source dividends or interest income, subject to meeting certain prescribed conditions.

No actual tax expense was incurred for the years ended 30 September 2023 and 2022. The reconciliation between the actual tax expense and the theoretical tax calculated at the applicable rate of 15% (2022: 15%) for the year ended is as follows:

	2023 USD	2022 USD
Profit/(loss) before taxation	12,067,647	(17,315,207)
Theoretical tax at the applicable rate of 15%	1,810,147	(2,597,281)
Non-taxable income	(1,944,761)	(2,770,416)
Non-allowable expenses	311,943	5,578,032
Foreign tax credit	(177,329)	(210,335)
Actual tax expense	-	-
Underprovision of tax	-	-
Tax credit	-	-

The foregoing is based on current interpretation and practice and is subject to any future changes in tax laws of Mauritius and of the countries in which the Fund has invested and in the tax treaties between Mauritius and these countries.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan India Private Limited	5,409,153	4.66	1,949	2.49	0.04
<u>2022</u>					
HSBC Securities and Capital Markets (India) Private Limited	12,920	0.01	14	0.02	0.11
J.P. Morgan India Private Limited	7,025,159	6.43	5,177	6.09	0.07

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	166,756	234,457
Amounts payable	(161,459)	(283,148)

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD1,838 (2022: USD3,977).

(d) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

(f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	2,406	170
Transaction costs	(1,949)	(5,177)
Safe custody and bank charges	(4,079)	(4,614)
	<u>(3,622)</u>	<u>(9,621)</u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Mauritius) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	11,428	832
Interest expense	(575)	(1,106)
Transaction costs	(12,129)	(7,809)
Safe custody and bank charges	(70,447)	(70,259)
	<u>(71,723)</u>	<u>(78,342)</u>

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD108,527,800 (2022: USD86,310,111). Commission which amounted to USD4,562 (2022: USD8,876) is paid from the Fund on these transactions.

10 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan India Smaller Companies Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan India Smaller Companies Fund, which are set out on pages 487 to 500, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial performance and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (the "IESBA Code"). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises the investment portfolio, the statement of movements in portfolio holdings, the statement of responsibilities of the Manager and the Trustee, the report of the Trustee to the unitholders and the management and administration but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Other Information (Continued)

If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 13 April 2006, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan India Smaller Companies Fund
(the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We report that the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 13 April 2006, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Mauritius) Limited, Trustee

The notes on pages 509 to 519 form part of these financial statements.

Notes to the Financial Statements**1 The Fund**

JPMorgan Indonesia Fund (the "Fund") was established under a Trust Deed dated 19 September 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities linked to the Indonesian economy. These include, but are not restricted to, securities traded on the stock exchanges of Indonesia.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)2023

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	976,372.008
Total allotments	105,461.791
Total redemptions	(181,897.172)
At the end of the year	<u>899,936.627</u>

USD

Net assets attributable to holders of redeemable units	<u>26,221,403</u>
Net assets attributable to holders of redeemable units (per unit)	<u>29.14</u>

2022

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	1,071,502.979
Total allotments	189,953.209
Total redemptions	(285,084.180)
At the end of the year	<u>976,372.008</u>

USD

Net assets attributable to holders of redeemable units	<u>27,855,697</u>
Net assets attributable to holders of redeemable units (per unit)	<u>28.53</u>

As at 30 September 2023, the Fund had USD26,221,403 (2022: USD27,855,697) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity.

The Fund's policies for managing its obligations for the holders of redeemable units of the Fund are included in Note 4(II) capital risk management.

4 Financial risk management**(I) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- Banks	8,647,555	33.0	9,203,005	33.0
- Automobiles	2,400,180	9.2	2,245,430	8.1
- Food Products	1,920,360	7.3	2,519,042	9.0
- Oil, Gas & Consumable Fuels	1,866,857	7.1	2,324,393	8.3
- Diversified Telecommunication Services	1,796,312	6.8	2,924,621	10.5
- Others	9,268,482	35.4	7,953,586	28.6
Total Listed/Quoted Investments	<u>25,899,746</u>	<u>98.8</u>	<u>27,170,077</u>	<u>97.5</u>

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>26,221,403</u>	MSCI Indonesia IMI Capped to 8% Net	0.95	-4.3	<u>(1,071,144)</u>
As at 30 September 2022	<u>27,855,697</u>	MSCI Indonesia IMI Capped to 8% Net	1.01	+8.0	<u>2,250,740</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	487,650	650,999
Total interest sensitivity gap	<u>487,650</u>	<u>650,999</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	325	+0.4	1
Hong Kong Dollar	785	+0.2	2
Indonesian Rupiah	26,153,995	-1.5	(392,310)
Singapore Dollar	369	+5.1	19
	<u>26,155,474</u>		<u>(392,288)</u>
<u>2022</u>			
Australian Dollar	321	-11.0	(35)
Hong Kong Dollar	866	-0.8	(7)
Indonesian Rupiah	27,472,371	-6.0	(1,648,342)
Singapore Dollar	348	-5.4	(19)
	<u>27,473,906</u>		<u>(1,648,403)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.
- ** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	32,818	235,036
S&P(A)/Moody's(A)/FITCH(A)	454,832	415,963
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	25,899,746	27,170,077

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts payable on redemption	109,450	41,989
Other accounts payable	57,987	63,962
Total financial liabilities	167,437	105,951

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	25,899,746	-	-	25,899,746
Total financial assets at fair value through profit and loss	<u>25,899,746</u>	<u>-</u>	<u>-</u>	<u>25,899,746</u>
<u>2022</u>				
<u>Assets</u>				
Equities	27,170,077	-	-	27,170,077
Total financial assets at fair value through profit and loss	<u>27,170,077</u>	<u>-</u>	<u>-</u>	<u>27,170,077</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net (losses)/gains on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	(173,863)	2,311,730
Realized gains on sale of investments and derivatives	133,430	161,325
	<u>(40,433)</u>	<u>2,473,055</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities (Asia Pacific) Limited	1,335,870	6.54	532	4.58	0.04
The Hongkong and Shanghai Banking Corporation Limited	24,033	0.12	24	0.21	0.10
<u>2022</u>					
J.P. Morgan Securities (Asia Pacific) Limited	1,455,734	3.69	582	2.47	0.04
The Hongkong and Shanghai Banking Corporation Limited	416,485	1.06	2,843	12.07	0.68

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	32,818	235,036
Amounts payable	<u>(39,507)</u>	<u>(43,047)</u>

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD643 (2022: USD1,140).

(d) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	532.318	-	(165.733)	366.585	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	486.638	-	(382.741)	103.897	-
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	748.422	200.852	(416.956)	532.318	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	765.481	-	(278.843)	486.638	-

- (f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	1,665	76
Other income	-	2
Transaction costs	(532)	(582)
Safe custody and bank charges	(1,985)	(2,218)
	<u>(1,985)</u>	<u>(2,218)</u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	3,557	92
Interest expense	(875)	(491)
Transaction costs	(13,639)	(28,840)
Safe custody and bank charges	(23,988)	(19,616)
	<u>(23,988)</u>	<u>(19,616)</u>

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD19,601,862 (2022: USD34,615,267). Commission which amounted to USD517 (2022: USD3,416) is paid from the Fund on these transactions.

10 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Indonesia Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Indonesia Fund, which are set out on pages 507 to 519, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 19 September 2006, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Indonesia Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 19 September 2006, as amended, for the year ended 30 September 2023.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 19 September 2006 to 30 September 2010.

The notes on pages 529 to 547 form part of these financial statements.

Notes to the Financial Statements**1 The Fund**

JPMorgan Japan (Yen) Fund (the "Fund") was established under a Trust Deed dated 1 August 1969, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through investment primarily (i.e. at least 70% of its total net asset value) in Japanese equity securities and other equity securities whose performance is linked to that of the Japanese economy.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted Japanese Yen as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

2023

	HKD Hedged Class (acc) Units	JPY Class (acc) Units	RMB Hedged Class (acc) Units	USD Hedged Class (acc) Units
Number of units in issue:

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments JPY'000	% of net assets	Fair value of investments JPY'000	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- Chemicals	5,635,346	10.9	3,098,027	7.4
- Electric Appliances	5,222,618	10.1	4,163,373	9.9
- Information & Communication	4,287,530	8.3	4,449,464	10.6
- Other Products	4,124,504	8.0	2,512,508	6.0
- Insurance	3,957,076	7.7	2,525,498	6.0
- Household Electronics	3,582,648	6.9	2,302,928	5.5
- Machinery	3,013,563	5.8	2,624,609	6.2
- Precision Instruments	2,871,559	5.6	2,852,245	6.8
- Services	1,989,876	3.9	2,888,432	6.9
- Retail Trade	1,433,384	2.8	2,461,588	5.8
- Others	15,186,646	29.4	9,217,246	21.7
	<u>51,304,750</u>	<u>99.4</u>	<u>39,095,918</u>	<u>92.8</u>
Derivatives				
- Forward foreign exchange contracts	204,706	0.4	73,880	0.2
	<u>51,509,456</u>	<u>99.8</u>	<u>39,169,798</u>	<u>93.0</u>
<u>Liabilities</u>				
Derivatives				
- Forward foreign exchange contracts	(38,383)	(0.1)	(19,330)	(0.1)
	<u>51,471,073</u>	<u>99.7</u>	<u>39,150,468</u>	<u>92.9</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value JPY'000	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) JPY'000
As at 30 September 2023	<u>51,623,989</u>	TOPIX Net	1.21	+29.3	<u>18,302,253</u>
As at 30 September 2022	<u>42,118,563</u>	TOPIX Net	1.03	-7.5	<u>(3,253,659)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month JPY'000	2022 Less than 1 month JPY'000
Cash at banks	136,082	2,754,940
Short-term bank loans - unsecured	<u>(190,000)</u>	<u>-</u>
Total interest sensitivity gap	<u>(53,918)</u>	<u>2,754,940</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-JPY currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	JPY'000 equivalent	% of reasonable possible change against JPY (Note**)	Estimated impact on net asset value JPY'000
<u>2023</u>			
Chinese Yuan (Offshore)	164,848	+0.9	1,484
Hong Kong Dollar	1,614,265	+3.3	53,271
United States Dollar	8,922,428	+3.1	276,595
	<u>10,701,541</u>		<u>331,350</u>
<u>2022</u>			
Chinese Yuan (Offshore)	3,610	+17.4	628
Hong Kong Dollar	790	+28.7	227
United States Dollar	30,577	+29.7	9,081
	<u>34,977</u>		<u>9,936</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties JPY'000	2022 Exposure to counterparties JPY'000
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	101,465	917,085
S&P(A)/Moody's(A)/FITCH(A)	34,617	1,837,855
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	19,694	(1,386)
S&P(A)/Moody's(A)/FITCH(A)	185,012	55,936
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>51,304,750</u>	<u>39,095,918</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month JPY'000	1 to 12 months JPY'000	Less than 1 month JPY'000	1 to 12 months JPY'000
Short-term bank loans - unsecured	190,000	-	-	-
Amounts due to brokers	46,486	-	-	-
Amounts payable on redemption	228,345	-	61,314	-
Derivatives	38,376	7	19,272	58
Other accounts payable	81,829	-	67,189	-
Net assets attributable to holders of redeemable units	<u>51,623,989</u>	-	<u>42,118,563</u>	-
Total financial liabilities	<u>52,209,025</u>	<u>7</u>	<u>42,266,338</u>	<u>58</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position JPY'000	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount JPY'000
		Financial Instruments JPY'000	Collateral and margin deposits JPY'000	
<u>2023</u>				
<u>Assets</u>				
Derivatives	57,166	(15,915)	-	41,251
Financial assets at fair value through profit and loss	57,166	(15,915)	-	41,251
<u>Liabilities</u>				
Derivatives	34,829	(15,915)	-	18,914
Financial liabilities at fair value through profit and loss	34,829	(15,915)	-	18,914
<u>2022</u>				
<u>Assets</u>				
Derivatives	69,445	(13,651)	-	55,794
Financial assets at fair value through profit and loss	69,445	(13,651)	-	55,794
<u>Liabilities</u>				
Derivatives	18,006	(13,651)	-	4,355
Financial liabilities at fair value through profit and loss	18,006	(13,651)	-	4,355

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

	Level 1 JPY'000	Level 2 JPY'000	Level 3 JPY'000	Total JPY'000
2023				
Assets				
Equities	51,304,750	-	-	51,304,750
Derivatives	-	204,706	-	204,706
Total financial assets at fair value through profit and loss	51,304,750	204,706	-	51,509,456
Liabilities				
Derivatives	-	38,383	-	38,383
Total financial liabilities at fair value through profit and loss	-	38,383	-	38,383
2022				
Assets				
Equities	39,095,918	-	-	39,095,918
Derivatives	-	73,880	-	73,880
Total financial assets at fair value through profit and loss	39,095,918	73,880	-	39,169,798
Liabilities				
Derivatives	-	19,330	-	19,330
Total financial liabilities at fair value through profit and loss	-	19,330	-	19,330

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 JPY'000	2022 JPY'000
Change in unrealized gains/losses in value of investments and derivatives	7,475,933	(14,407,969)
Realized gains on sale of investments and derivatives	701,970	3,077,082
	<u>8,177,903</u>	<u>(11,330,887)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments JPY'000	% of the Fund's total aggregate value of transactions	Commission paid JPY'000	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities Japan Co., Ltd	892,524	3.39	301	3.11	0.03
<u>2022</u>					
J.P. Morgan Securities Japan Co., Ltd	793,920	2.69	318	2.50	0.04

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 JPY'000	2022 JPY'000
Cash at banks	101,465	917,085
Amounts payable	(76,205)	(63,193)
	<u> </u>	<u> </u>

(c) During the year ended 30 September 2023, the fund entered into forward exchange contracts with Connected Persons of the Trustee, with realized gains amounting to JPY145,089,000 (2022: realized gains amounting to JPY71,242,000).

(d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to JPY285,000 (2022: JPY510,000).

(e) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction JPY'000
<u>2023</u>					
<u>JPMorgan Asset Management</u>					
<u>(Asia Pacific) Limited</u>					
- JPY Class (acc)	44.170	206.377	(2.741)	247.806	-
- USD Hedged Class (acc)	-	68.617	-	68.617	-
<u>JPMorgan Asset Management (S)</u>					
<u>Limited</u>					
- USD Hedged Class (acc)	-	213.546	-	213.546	-
<u>2022</u>					
<u>JPMorgan Asset Management</u>					
<u>(Asia Pacific) Limited</u>					
- JPY Class (acc)	5.486	38.684	-	44.170	-
<u>JPMorgan Asset Management (S)</u>					
<u>Limited</u>					
- JPY Class (acc)	13.022	-	(13.022)	-	213

(g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first JPY3,000 million, 0.04% per annum for the balance from JPY3,000 million to JPY5,300 million, and 0.025% per annum for the balance in excess of JPY5,300 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(e) and 7(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 JPY'000	2022 JPY'000
Interest on deposits	1,769	36
Transaction costs	(301)	(318)
Safe custody and bank charges	(5,547)	(3,754)
	<u> </u>	<u> </u>

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 JPY'000	2022 JPY'000
Interest on deposits	320	45
Interest expense	(65)	(113)
Transaction costs	(458)	(741)
Safe custody and bank charges	(10,023)	(10,371)
	<u> </u>	<u> </u>

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to JPY22,870,469,000 (2022: JPY19,307,929,000). Commission which amounted to JPY672,000 (2022: JPY1,931,000) is paid from the Fund on these transactions.

10 Derivatives

Independent Auditor's Report

To the Unitholders of JPMorgan Japan (Yen) Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Japan (Yen) Fund, which are set out on pages 527 to 547, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 1 August 1969, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Japan (Yen) Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 1 August 1969, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

The notes on pages 558 to 568 form part of these financial statements.

Notes to the Financial Statements**1 The Fund**

JPMorgan Korea Fund (the "Fund") was established under a Trust Deed dated 11 December 1991, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through investment primarily (i.e. at least 70% of its total net asset value) in companies whose shares are listed on the Korea Stock Exchange or traded on the Korean over-the-counter market.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers, and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)2023

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	2,687,873.100
Total allotments	1,257,827.746
Total redemptions	(1,264,621.508)
At the end of the year	<u>2,681,079.338</u>
	USD
Net assets attributable to holders of redeemable units	<u>173,621,183</u>
Net assets attributable to holders of redeemable units (per unit)	<u>64.76</u>

2022

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	2,749,307.247
Total allotments	733,463.179
Total redemptions	(794,897.326)
At the end of the year	<u>2,687,873.100</u>

	USD
Net assets attributable to holders of redeemable units	<u>143,424,110</u>
Net assets attributable to holders of redeemable units (per unit)	<u>53.36</u>

As at 30 September 2023, the Fund had USD173,621,183 (2022: USD143,424,110) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity.

The Fund's policies for managing its obligations for the holders of redeemable units of the Fund are included in Note 4(II) capital risk management.

4 Financial risk management

(I) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- Technology Hardware, Storage & Peripherals	17,344,565	10.0	14,535,584	10.1
- Semiconductors & Semiconductor Equipment	16,328,642	9.4	13,417,279	9.3
- Chemicals - Commodity	13,977,064	8.1	10,497,316	7.3
- Banks	11,889,277	6.8	7,406,182	5.2
- Auto Components	10,255,099	5.9	8,408,803	5.9
- Oil, Gas & Consumable Fuels	9,578,227	5.5	7,873,034	5.5
- Pharmaceuticals - Diversified	8,539,017	4.9	7,851,618	5.5
- Interactive Media & Services	8,225,552	4.7	7,648,103	5.3
- Automobiles	6,914,770	4.0	9,282,813	6.5
- Others	69,591,181	40.1	55,780,815	38.9
Total Listed/Quoted Investments	172,643,394	99.4	142,701,547	99.5

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta benchmark index (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>173,621,183</u>	Korea Composite Stock Price (KOSPI)	0.98	+21.3	<u>36,241,686</u>
As at 30 September 2022	<u>143,424,110</u>	Korea Composite Stock Price (KOSPI)	1.01	-41.9	<u>(60,695,649)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	2,639,701	1,129,364
Total interest sensitivity gap	<u>2,639,701</u>	<u>1,129,364</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Hong Kong Dollar	1,825	+0.2	4
Japanese Yen	4,128	-3.0	(124)
Korean Won	167,573,786	+6.0	10,054,427
	<u>167,579,739</u>		<u>10,054,307</u>
<u>2022</u>			
Hong Kong Dollar	4,687	-0.8	(37)
Japanese Yen	4,255	-22.9	(974)
Korean Won	139,092,218	-17.2	(23,923,861)
	<u>139,101,160</u>		<u>(23,924,872)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	297,126	441,065
S&P(A)/Moody's(A)/FITCH(A)	2,342,575	688,299
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>172,643,394</u>	<u>142,701,547</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	1,362,684	410,613
Amounts payable on redemption	1,051,625	671,743
Other accounts payable	290,173	287,752
Total financial liabilities	<u>2,704,482</u>	<u>1,370,108</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	172,643,394	-	-	172,643,394
Total financial assets at fair value through profit and loss	<u>172,643,394</u>	<u>-</u>	<u>-</u>	<u>172,643,394</u>
<u>2022</u>				
<u>Assets</u>				
Equities	142,701,547	-	-	142,701,547
Total financial assets at fair value through profit and loss	<u>142,701,547</u>	<u>-</u>	<u>-</u>	<u>142,701,547</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investment and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	45,819,175	(98,247,116)
Realized losses on sale of investments and derivatives	(14,002,953)	(555,225)
	<u>31,816,222</u>	<u>(98,802,341)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities (Asia Pacific) Limited	12,699,249	5.58	4,329	2.63	0.03
The Hongkong and Shanghai Banking Corporation Limited, Seoul	1,162,146	0.51	349	0.21	0.03
<u>2022</u>					
J.P. Morgan Securities (Asia Pacific) Limited	4,295,997	2.02	2,232	1.06	0.05
The Hongkong and Shanghai Banking Corporation Limited, Seoul	542,502	0.25	694	0.33	0.13

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	297,126	441,065
Amounts receivable	0	1
Amounts payable	<u>(247,725)</u>	<u>(243,807)</u>

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD1,910 (2022: USD2,748).

(d) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	587.816	2,516.709	(577.516)	2,527.009	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	32.193	612.722	(16.099)	628.816	-
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	1,155.031	-	(567.215)	587.816	16,211
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	32.193	-	-	32.193	-

- (f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Other income	-	2,959
Interest on deposits	3,935	166
Transaction costs	(4,329)	(2,232)
Safe custody and bank charges	(14,208)	(13,939)

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	6,614	665
Interest expense	(595)	-
Transaction costs	(38,753)	(28,744)
Safe custody and bank charges	(60,927)	(77,493)

8 Borrowings

During the year ended 30 September 2023, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms. The Fund has no bank borrowing during the year ended 30 September 2022.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD226,621,821 (2022: USD92,754,443). Commission which amounted to USD5,422 (2022: USD8,794) is paid from the Fund on these transactions.

10 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Korea Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Korea Fund, which are set out on pages 556 to 568, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 11 December 1991, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Korea Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 11 December 1991, as amended, for the year ended 30 September 2023.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 11 December 1991 to 30 September 2010.

The notes on pages 577 to 588 form part of these financial statements.

Notes to the Financial Statements**1 The Fund**

JPMorgan Malaysia Fund (the "Fund") was established under a Trust Deed dated 12 December 1989, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities linked to the Malaysian economy. These include, but are not restricted to, securities listed on the Kuala Lumpur Stock Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basic of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Net assets attributable to holders of redeemable units (per unit)	<u>49.10</u>	<u>8.11</u>

4 Financial risk management**(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk**(i) Market price risk**

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
Listed/Quoted Investments	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Assets				
Equities				
- Finance	15,619,406	36.5	15,521,106	37.1
- Trading Services	7,991,627	18.6	7,915,377	19.1

- Plantations	2,735,099	6.4	2,549,134	6.1
- Others	11,699,113	27.5	10,638,974	25.4
	<u>41,265,732</u>	<u>96.5</u>	<u>39,984,982</u>	<u>95.8</u>
Derivatives				
- Warrants	-	-	17,619	0.0
Total Listed/Quoted Investments	<u>41,265,732</u>	<u>96.5</u>	<u>40,002,601</u>	<u>95.8</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>42,753,445</u>	MSCI Malaysia Net	0.96	+5.2	<u>2,134,252</u>
As at 30 September 2022	<u>41,743,854</u>	MSCI Malaysia Net	1.03	-15.9	<u>(6,836,391)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	1,350,454	1,642,671
Total interest sensitivity gap	<u>1,350,454</u>	<u>1,642,671</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Hong Kong Dollar	5,714	+0.2	11
Malaysian Ringgit	42,697,828	-1.2	(512,374)
Singapore Dollar	1,018	+5.1	52
	<u>42,704,560</u>		<u>(512,311)</u>
<u>2022</u>			
Hong Kong Dollar	3,314	-0.8	(27)
Malaysian Ringgit	40,474,858	-9.7	(3,926,061)
Singapore Dollar	962	-5.4	(52)
	<u>40,479,134</u>		<u>(3,926,140)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	54,265	90,510
S&P(A)/Moody's(A)/FITCH(A)	1,296,189	1,552,161
Investment and derivative balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>41,265,732</u>	<u>40,002,601</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	129,714	192,724
Amounts payable on redemption	52,785	88,627
Other accounts payable	95,775	96,806
Net assets attributable to holders of redeemable units	42,753,445	41,743,854
Total financial liabilities	<u>43,031,719</u>	<u>42,122,011</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	41,265,732	-	-	41,265,732
Total financial assets at fair value through profit and loss	<u>41,265,732</u>	<u>-</u>	<u>-</u>	<u>41,265,732</u>
<u>2022</u>				
<u>Assets</u>				
Equities	39,984,982	-	-	39,984,982
Derivatives	-	17,619	-	17,619
Total financial assets at fair value through profit and loss	<u>39,984,982</u>	<u>17,619</u>	<u>-</u>	<u>40,002,601</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	749,368	(8,957,951)
Realized losses on sale of investments and derivatives	(374,310)	(1,580,403)
	<u>375,058</u>	<u>(10,538,354)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities (Asia Pacific) Limited	450,157	3.49	138	0.98	0.03
<u>2022</u>					
HSBC Securities (USA) Inc	8,306	0.03	18	0.07	0.22
J.P. Morgan Securities (Asia Pacific) Limited	1,037,717	4.32	792	3.18	0.08
The Hongkong and Shanghai Banking Corporation Limited	136,607	0.57	55	0.22	0.04

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	54,265	90,510
Amounts receivable	0	0
Amounts payable	(74,923)	(162,718)

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD496 (2022: USD711).

(d) Management fee for USD Class (acc) of 1.5% per annum and USD Class C (acc) of 0.75% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	186.992	-	(186.992)	-	-
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	373.975	-	(186.983)	186.992	1,021

- (f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	1,839	90
Other income	-	6
Transaction costs	(138)	(792)
Safe custody and bank charges	(4,773)	(7,844)
	<u>(4,773)</u>	<u>(7,844)</u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	2,559	195
Interest expense	-	(27)
Transaction costs	(5,440)	(13,821)
Safe custody and bank charges	(23,069)	(24,485)
	<u>(23,069)</u>	<u>(24,485)</u>

8 Borrowings

The Fund has no bank borrowing during the year ended 30 September 2023. During the year ended 30 September 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD10,241,157 (2022: USD20,338,682). Commission which amounted to USD265 (2022: USD1,944) is paid from the Fund on these transactions.

10 Derivatives

Details of warrants as at 30 September were as follows:

	Underlying assets	Issuer	Fair value USD
<u>2023</u>

			17,619

11 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Malaysia Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Malaysia Fund, which are set out on pages 575 to 588, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 12 December 1989, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Malaysia Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 12 December 1989, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 12 December 1989 to 30 September 2010.

The notes on pages 597 to 608 form part of these financial statements.

Notes to the Financial Statements**1 The Fund**

JPMorgan Money Fund (the "Fund") was established under a Trust Deed dated 13 June 1983, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The Fund currently comprises the HK\$ portfolio ("Portfolio").

The investment objective of the Portfolio is to provide an efficient vehicle for holding liquid assets currently denominated in the currency of Hong Kong by investing in short-term deposits and high quality money market instruments. The Manager will aim to secure long-term capital growth.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments*Classification*

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments are accounted for on the trade date basis. Investments are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments are recognized in the Statement of Comprehensive Income. Investments are derecognized when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Interest income on investments is accounted for as part of net gains/losses on investments in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted Hong Kong dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments sold and payables for investments purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(i) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

	<u>825,000,000</u>	<u>825,000,000</u>

4 Number of units in issue and net assets attributable to holders of redeemable units (per unit)Fair value adjustment of units of the Fund

As at 30 September 2023, the Fund had HKD1,814,251,106 (2022: HKD1,768,765,153) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity. The redemption amount is determined based on the net assets attributable to holders of redeemable units calculated in accordance with the provisions of the Trust Deed ("Trust Deed NAV").

	2023 HKD	2022 HKD
Net assets attributable to holders of redeemable units (In accordance with HKFRS)	1,814,251,106	1,768,765,153
Fair value adjustment of units of the Fund:		
Difference in valuation of investments [Note 4(a)]	<u>252,654</u>	<u>564,667</u>
Net assets attributable to holders of redeemable units (In accordance with the Trust Deed)	<u>1,814,503,760</u>	<u>1,769,329,820</u>

Note:

- (a) In accordance with the Trust Deed, amortized cost method may be used in respect of certain debt instruments specified in the Explanatory Memorandum. In accordance with the Explanatory Memorandum, debt investments of the Fund with a residual maturity exceeding 90 days will be valued at their latest market quoted price on the relevant dealing day. Debt investments of the Fund with a residual maturity of 90 days or less at the time of purchase will be valued using the amortized cost method, whereby the investments are valued at cost and adjusted to account for the amortization of premiums or discounts over the remaining life of such debt investments. For debt investments being held by the Fund and turning to have a residual maturity of 90 days, such debt investments will begin to be valued using the amortized cost method, whereby their closing price on the dealing day immediately before the investments turned 90 days to maturity will be used as the basis and adjusted for the amortization of premiums or discounts over the investments' remaining life. However, as stated in Note 2(b), the accounting policy of the Fund for the purpose of compliance with HKFRS 9 "Financial Instruments" and for reporting purposes is to fair value debt securities and money market based on quoted prices inclusive of accrued interest.

Number of units in issue

	2023 Units	2022 Units
Number of units in issue:		
At the beginning of the year	10,588,113.962	12,778,195.213

Net assets attributable to holders of redeemable units (per unit) (In accordance with the Trust Deed)	<u>172.54</u>	<u>167.11</u>

The Fund's policies for managing its obligations for the holders of redeemable units of the Fund are included in Note 5(II) capital risk management.

5 Financial risk management**(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk**(i) Market price risk**

The Fund primarily invests in debt securities and money market which are subject to interest rate risk. Refer to Note 5(l)(a)(ii) for interest rate risk.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 year HKD
<u>2023</u>	
Cash at banks	46,995,228
Short-term deposits	825,000,000
Investments (Note*)	967,580,661
Total interest sensitivity gap	<u>1,839,575,889</u>
<u>2022</u>	
Cash at banks	114,871,119
Short-term deposits	825,000,000
Investments (Note*)	926,963,203
Total interest sensitivity gap	<u>1,866,834,322</u>

Note:

* The coupon rate of the investments ranged between 0.00% p.a. - 5.28% p.a. (2022: 0.00% p.a. - 4.47% p.a.).

As at 30 September, the Fund's fair value of investments were as follows:

Listed/Quoted Investments	2023		2022	
	Fair value of investments HKD	% of net assets	Fair value of investments HKD	% of net assets
<u>Assets</u>				
<u>Debt Securities</u>				
- Hong Kong	132,021,162	7.2	44,810,257	2.5
- Others	167,538,834	9.3	169,645,140	9.6
	<u>299,559,996</u>	<u>16.5</u>	<u>214,455,397</u>	<u>12.1</u>
<u>Money Market</u>				
- China	324,185,102	17.9	88,776,308	5.0
- Hong Kong	138,994,443	7.7	179,415,824	10.2
- France	94,477,610	5.2	104,950,350	5.9
- Norway	-	-	99,878,496	5.6
- Others	110,363,510	6.0	239,486,828	13.6
	<u>668,020,665</u>	<u>36.8</u>	<u>712,507,806</u>	<u>40.3</u>
Total Listed/Quoted Investments	<u>967,580,661</u>	<u>53.3</u>	<u>926,963,203</u>	<u>52.4</u>

The Investment Manager monitors the Fund's interest rate risk sensitivity primarily through the modified duration of the Fund on a regular basis. The modified duration measures the sensitivity of the price of a bond and money market investment relative to the change in interest rate. As at 30 September 2023, the Investment Manager estimates that the Fund has a modified duration of 0.10 (2022: 0.06). For the purpose of disclosing relevant sensitivities, the percentage of reasonable possible change in interest rate adopted is 25 basis points, and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in net asset value of the Fund by approximately HKD453,563 (2022: HKD265,315). If the interest rates were to fall by 25 basis points, this would result in an increase in the net asset value of the Fund by the same amount.

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	HKD equivalent	% of reasonable possible change against HKD (Note**)	Estimated impact on net asset value HKD
<u>2023</u>			
Net currency exposures (Note*)			
United States Dollar	272,047	-0.2	(544)
	<u>272,047</u>		<u>(544)</u>
<u>2022</u>			
United States Dollar	376,153	+0.8	3,009
	<u>376,153</u>		<u>3,009</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The Fund's investments are predominantly in debt securities and money market and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities and money market are managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities and money market by credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AA)/Moody's(Aa)/FITCH(AA)	5.9	2.8
S&P(A)/Moody's(A)/FITCH(A)	7.0	3.2
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	1.8	-
Unrated	38.6	46.4
	<u>53.3</u>	<u>52.4</u>

The table below summarizes the unrated debt securities and money market as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AA)/Moody's(Aa)/FITCH(AA)	0.3	20.3
S&P(A)/Moody's(A)/FITCH(A)	4.1	20.8
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	-	1.7
Unrated	34.2	3.6
	<u>38.6</u>	<u>46.4</u>

In order to monitor the credit quality of the unrated debt securities and money market, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities and money market for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities and money market in order to calculate the implied ratings for each of the debt securities and money market.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties HKD	2022 Exposure to counterparties HKD
Bank balances and short-term deposits		
S&P(AA)/Moody's(Aa)/FITCH(AA)	631,995,228	744,871,119
S&P(A)/Moody's(A)/FITCH(A)	240,000,000	195,000,000
Investment balances with custodian		
S&P(AA)/Moody's(Aa)/FITCH(AA)	<u>967,580,661</u>	<u>926,963,203</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023	2022
	Less than 1 month	Less than 1 month
	HKD	HKD
Amounts due to brokers	14,751,450	90,066,749
Amounts payable on redemption	11,106,529	8,226,034
Other accounts payable	545,397	549,232
Total financial liabilities	<u>26,403,376</u>	<u>98,842,015</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 HKD	Level 2 HKD	Level 3 HKD	Total HKD
<u>2023</u>				
<u>Assets</u>				
Debt Securities	-	299,559,996	-	299,559,996
Money Market	-	668,020,665	-	668,020,665
Total financial assets at fair value through profit and loss	-	967,580,661	-	967,580,661
<u>2022</u>				
<u>Assets</u>				
Debt Securities	-	214,455,397	-	214,455,397
Money Market	-	712,507,806	-	712,507,806
Total financial assets at fair value through profit and loss	-	926,963,203	-	926,963,203

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

6 Net gains on investments

	2023 HKD	2022 HKD
Change in unrealized gains/losses in value of investments	6,412,383	4,263,727
Realized gains on sale of investments	26,915,034	279,693
	<u>33,327,417</u>	<u>4,543,420</u>

7 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

- (a) Balances with the Manager and its Connected Persons as at year end:

	2023 HKD	2022 HKD
Cash at banks	46,995,228	114,871,119
Amounts receivable	6,712	6,357
Amounts payable	(370,040)	(372,632)
	<u> </u>	<u> </u>

As at 30 September 2023, the Fund's investment balance of HKD967,580,661 (2022: HKD926,963,203) represents the investments held by the custodian, JPMorgan Chase Bank, N.A., a Connected Person of the Manager.

- (b) During the years ended 30 September 2023 and 2022, there was no income accruing to the Manager relating to allotments and redemptions in the Fund.
- (c) Management fee of up to 0.25% per annum of the net asset value of the Portfolio would be paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.
- (d) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain Directors of the Manager held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction HKD
<u>2023</u>							
Directors of the Manager	6,111.507	-	-	(3,000.000)	-	3,111.507	-
<u>2022</u>							
Directors of the Manager	23,876.392	-	16,049.437	(33,814.322)	-	6,111.507	1,309

- (e) Trustee's fee of 0.018% per annum of the net asset value of the Portfolio is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (f) JPMorgan Funds (Asia) Limited would receive a registrar's fee at the rate of up to 0.075% per annum of the net asset value of the Portfolio. The registrar's fee is accrued daily based on the net asset value of the Portfolio on each dealing day and is payable quarterly in arrears.
- (g) During the years ended 30 September 2023 and 2022, in addition to the management fee and registrar's fee as disclosed in Note 8(c) and 8(f), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 HKD	2022 HKD
Interest on deposits	945,351	115,418
Transaction costs	(13,438)	(10,796)
Safe custody and bank charges	(221,394)	(186,396)
	<u> </u>	<u> </u>

9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

10 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Money Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Money Fund, which are set out on pages 595 to 608, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 13 June 1983, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Money Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund is managed by the Manager in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto; and
- report to the unitholders for each annual accounting period on the conduct of the Manager in the management of the Fund.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 13 June 1983, as amended, for the year ended 30 September 2023.

Bank of East Asia (Trustees) Limited, Trustee

**Details of Financial Derivative Instruments
As at 30 September 2023 (Unaudited)**

(a) Convertible bonds

As at 30 September 2023, the Fund held convertible bonds, which the underlying assets and counterparties were the issuers themselves, with details as shown in the Investment Portfolio.

(b) Forward foreign exchange contracts

As at 30 September 2023, the Fund held outstanding forward foreign exchange contracts with details as shown in Note 11.

(c) Futures

As at 30 September 2023, the Fund held futures contracts with details as shown in Note 11.

(d) Warrants

As at 30 September 2023, the Fund held warrants with details as shown in Note 11.

(e) Rights

As at 30 September 2023, the Fund held rights with details as shown in Note 11.

**Information on Exposure Arising from Financial
Derivative Instruments
For the year ended 30 September 2023 (Unaudited)**

The lowest, highest and average gross exposure arising from the use of financial derivative instruments in the Fund for any purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023
	% of NAV
Lowest gross exposure	23.7
Highest gross exposure	62.0
Average gross exposure	38.8

The lowest, highest and average net exposure arising from the use of financial derivative instruments in the Fund for non-hedging purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023
	% of NAV
Lowest net exposure	6.0
Highest net exposure	25.2
Average net exposure	15.6

* The calculation of gross exposure on financial derivative instruments does not include convertible bonds.

There are some share classes with currency hedging features. For the avoidance of doubt, their exposures are not included in the calculation of the gross exposure of the Fund portfolio.

Cash at banks	3,488,790	10,561,334

The notes on pages 643 to 672 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Multi Balanced Fund (the "Fund") was established under a Trust Deed dated 23 February 2017, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide regular income by investing primarily in a conservatively constructed portfolio of income generating securities globally, including but not limited to, equities (including preferred shares), senior secured bonds, high yield bonds, investment grade bonds, below investment grade bonds, emerging market bonds, convertible bonds, asset backed securities (including asset backed commercial papers) and mortgage backed securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Margin deposits

Cash collateral provided by the Fund is identified in the Statement of Financial Position as margin deposits and is not included as a component of cash and cash equivalents.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(k) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

(l) Investments pledged as collateral

If the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge the collateral, a disclosure of the collateral provided is made in the notes to the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

4 Financial risk management

(I) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The Fund's holding in the collective investment schemes, as a percentage of the collective investment schemes' total net asset value, will vary from time to time dependent on the volume of allotments and redemptions at the collective investment schemes level. It is possible that the Fund may, at any point in time, hold a majority of the collective investment schemes' total units in issue. The Fund's maximum exposure to loss from its interests in Investee Funds is equal to the total fair value of its investment in collective investment schemes. Total purchase in collective investment schemes during the year ended 30 September 2023 was USD15,282,387 (2022: USD13,664,136). During the year ended 30 September 2023, total net gain earned on the investment in collective investment schemes was USD1,830,472 (2022: total net loss of USD5,132,469).

(a) Market risk
(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments

Also, refer to Note 11 for the exposures on derivatives.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Fund's volatility, which helps to describe the likely range of the Fund's return, on a regular basis. In statistical terms, it is the standard deviation of the return distribution. Greater volatility of monthly fund returns means that there is a wider range of likely returns in the future, or greater uncertainty regarding the fund returns. Most investors would equate this greater uncertainty with greater risk.

The table below summarizes the volatility of the Fund expressed in annual terms and the estimated impact on the net asset value.

	2023	2022
Annual volatility (Note*)	7.63%	8.04%

If the above volatility were to be applied to the Fund's net asset value as at 30 September 2023 of USD221,269,931 (2022: USD292,350,894) and assuming that the Fund's returns are normally distributed with its mean return equals to nil and with one standard deviation away from the mean return (i.e. a probability of 68%), the estimated reasonable possible change in the Fund's net asset value would be between USD204,387,035 and USD238,152,827 or within +/- USD16,882,896 (2022: between USD268,845,882 and USD315,855,906, or within +/- USD23,505,012) over a twelve-month period based on the Fund's historical annual volatility percentage as a result of the market price fluctuation, assuming that all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Volatility is calculated based on the monthly Fund's returns over the maximum of past 36 months or the number of months since portfolio inception. For funds launched within a period of less than 12 months, volatility is calculated based on the weekly Fund's returns since the Fund's launch. Volatility is expressed in annual volatility by applying the square root of time adjustment. Volatility may not cover stressed market events, nor represent the Investment Manager's forecast of the Fund's range of future returns.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives, cash deposits and short-term bank loans.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 year USD	1-5 years USD	Over 5 years USD	Total USD
<u>2023</u>				
Cash at banks	3,488,790	-	-	3,488,790
Margin deposits	1,137,727	-	-	1,137,727
Derivatives	(1,113,601)	-	-	(1,113,601)
Investments (Note*)	4,801,033	38,599,364	104,428,937	147,829,334
Total interest sensitivity gap	<u>8,313,949</u>	<u>38,599,364</u>	<u>104,428,937</u>	<u>151,342,250</u>

	Less than 1 year USD	1-5 years USD	Over 5 years USD	Total USD
<u>2022</u>				
Cash at banks	10,561,334	-	-	10,561,334
Equity-linked notes	12,029,748	-	-	12,029,748
Investments (Note*)	4,073,613	36,524,269	154,566,442	195,164,324
	<u>26,664,695</u>	<u>36,524,269</u>	<u>154,566,442</u>	<u>217,755,406</u>
Total interest sensitivity gap				

Note:

* The coupon rate of the investments ranged between 0.52% p.a. – 13.50% p.a. (2022: 0.13% p.a. – 13.00% p.a.).

Any cash and cash equivalents and margin deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

The Fund held 66.8% (2022: 70.9%) of net asset value in debt securities, money market, convertible bonds and equity-linked notes with an average duration of 5.09 (2022: 3.99). If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in the fair value of debt securities, money market, convertible bonds and equity-linked notes by approximately USD1,881,128 (2022: USD2,066,761). Conversely, if the interest rates were to fall by 25 basis points, this would result in an increase in the fair value of debt securities, money market, convertible bonds and equity-linked notes by the same amount.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 11(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers, dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

As at 30 September 2023, the Fund held 66.8% (2022: 70.9%) of net asset value in debt securities, money market, convertible bonds and equity-linked notes and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities, money market, convertible bonds and equity-linked notes are managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities, money market, convertible bonds and equity-linked notes by credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	9.4	10.7
S&P(AA)/Moody's(Aa)/FITCH(AA)	4.0	2.8
S&P(A)/Moody's(A)/FITCH(A)	8.7	6.4
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	17.7	27.9
S&P(BB)/Moody's(Ba)/FITCH(BB)	7.2	10.1
S&P(B)/Moody's(B)/FITCH(B)	16.0	5.2
S&P(CCC)/Moody's(CAA)/FITCH(CCC)	-	0.8
Unrated	3.8	7.0
	<u>66.8</u>	<u>70.9</u>

The table below summarizes the unrated debt securities, money market, convertible bonds and equity-linked notes as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AA)/Moody's(Aa)/FITCH(AA)	2.0	-
S&P(B)/Moody's(B)/FITCH(B)	0.4	-
S&P(CCC)/Moody's(CAA)/FITCH(CCC)	0.4	-
Unrated	1.0	7.0
	<u>3.8</u>	<u>7.0</u>

In order to monitor the credit quality of the unrated debt securities, money market, convertible bonds and equity-linked notes, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities in order to calculate the implied ratings for each of the debt securities, money market, convertible bonds and equity-linked notes.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	33,701	85,261
S&P(A)/Moody's(A)/FITCH(A)	3,455,089	10,476,073
Margin deposits with brokers and derivatives held with/issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	1,963,782	854,707
S&P(A)/Moody's(A)/FITCH(A)	113,699	1,711,835
Investment and derivative balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>217,384,733</u>	<u>282,272,980</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023		2022	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Overdraft with brokers	-	-	444,853	-
Amounts due to brokers	266,468	-	3,193,370	-
Amounts payable on redemption	335,917	-	1,661,041	-
Distribution payable	946,535	-	973,897	-
Derivatives	139,293	1,113,703	3,175,094	451
Other accounts payable	301,236	-	412,229	-
Net assets attributable to holders of redeemable units	221,269,931	-	292,350,894	-
Total financial liabilities	223,259,380	1,113,703	302,211,378	451

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities and Convertibles	47,034,961	18,163	97,405	47,150,529
Debt Securities (Note*)	-	147,811,171	-	147,811,171
Collective Investment Schemes	22,422,691	-	-	22,422,691
Derivatives	231,871	708,225	-	940,096
Total financial assets at fair value through profit and loss	69,689,523	148,537,559	97,405	218,324,487
<u>Liabilities</u>				
Derivatives	1,113,601	139,395	-	1,252,996
Total financial liabilities at fair value through profit and loss	1,113,601	139,395	-	1,252,996
<u>2022</u>				
<u>Assets</u>				
Equities and Convertibles	62,802,080	40,757	116,215	62,959,052
Equity-linked Notes	-	12,029,748	-	12,029,748
Debt Securities (Note*)	-	194,403,896	5,337	194,409,233
Money Market	-	734,505	-	734,505
Collective Investment Schemes	12,063,855	-	-	12,063,855
Derivatives	1,425,927	1,217,202	-	2,643,129
Total financial assets at fair value through profit and loss	76,291,862	208,426,108	121,552	284,839,522
<u>Liabilities</u>				
Derivatives	33,012	3,142,533	-	3,175,545
Total financial liabilities at fair value through profit and loss	33,012	3,142,533	-	3,175,545

Note:

* As at 30 September 2023, debt securities include a security pledged as collateral with fair value of USD2,321,578 (2022: USD1,494,834).

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, collective investment schemes and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

The level 3 equities as at 30 September 2023 of USD97,405 are equity positions with a single broker quote without comparables or actual commitment to transact at the quoted price (2022: USD116,215).

There were no level 3 debt securities as at 30 September 2023.

The level 3 debt securities as at 30 September 2022 of USD5,337 are listed/quoted investments suspended from trading as at year end for a period of more than 1 month, listed/quoted investments under entity restructuring or illiquid investments. The Fund adjusts the last traded price of the investments by applying a valuation discount, which is considered to be the unobservable input in the valuation. If the discount was to change by +/-5%, this would result in a change in the Fund's net asset value by USD267, assuming all other variables that may impact the net asset value of the Fund are held constant.

There were no transfers between levels for the year ended 30 September 2023.

The table below summarizes the transfers between levels of the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value for the year ended 30 September 2022.

	Level 1 USD	Level 2 USD	Level 3 USD
<u>2022</u>			
Transfers between Levels 2 and 3: Financial assets at fair value through profit and loss			
Debt Securities			
- Luxembourg	-	(251,961)	251,961

Luxembourg

Debt securities transferred from Level 2 to Level 3 were valued based on unobservable inputs as at 30 September 2023 and 2022.

The following table presents the movement in level 3 instruments for the years ended 30 September 2023 and 2022 by class of financial instrument.

	2023 USD	2022 USD
Opening balance	121,552	-
Transfers between Levels 2 and 3	-	251,961
Purchases	-	-
Sales	-	(40,564)
Net losses recognized in net gains/(losses) on investments and derivatives	(24,147)	(89,845)
Closing balance	<u>97,405</u>	<u>121,552</u>
Change in unrealized gains/losses for Level 3 assets held at year end and included in net gains/(losses) on investments and derivatives	<u>(18,810)</u>	<u>(89,845)</u>

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	25,621,138	(63,454,483)
Realized (losses)/gains on sale of investments and derivatives	(13,120,154)	558,456
	<u>12,500,984</u>	<u>(62,896,027)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

7 Taxation

Australia Taxation

The Fund invests in securities listed on the stock exchange in Australia. Gains generated from disposals of Australian investments may be exposed to Australian tax at the rate of 30%. In September 2012, the Australian Government introduced legislation exempting gains realized by a foreign fund on or before 30 June 2011, provided that certain ownership conditions and other criteria are met. In June 2015, the Australian Government further introduced legislation ("Legislation") which exempts gains realized by a foreign managed fund on or after 1 July 2011 provided that certain ownership conditions and other criteria can be met.

The Manager considers that the charge for capital gains tax on Australian investments invested by the Fund as at 30 September 2023 is unlikely as at the date of approval of these financial statements. The Manager is of the view that the Fund should meet the criteria under the Legislation and should be eligible for the exemption of tax. As at 30 September 2023 and 2022, no provision for such tax was made accordingly. This assessment represents the best estimate of the Manager.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received, interest income received and capital gains derived during the years ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

The Fund invests in various funds ("underlying funds") which are managed by the Manager or its Connected Persons. All fees on allotments and redemptions in the underlying funds payable by the Fund are waived by the managers of underlying funds which are managed by the Manager and/or its Connected Persons.

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	33,701	85,261
Amounts receivable	3,202	12
Amounts payable	(239,696)	(636,148)

As at 30 September 2023, the Fund's investment balance of USD22,422,691 (2022: USD12,063,855) represents the investments in the collective investment schemes issued and managed by Connected Persons of the Manager.

- (c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee with realized losses amounting to USD2,920,611 (2022: realized losses amounting to USD977,369).
- (d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD52 (2022: USD609).
- (e) Management fee of 1.25% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears. If the Fund invests in the collective investment scheme managed by the Manager or its Connected Persons, the management fee of the Manager will be reduced to take account of the management fee levied in respect of such collective investment scheme to the extent attributable to that Fund's interest in such collective investment scheme.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (mth)	-	324.707	-	324.707	102

2022

Nil

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Other income	23,211	14,265
Interest on deposits	584	293
Transaction costs	(287)	(297)
Safe custody and bank charges	(6,530)	(8,889)
	<u> </u>	<u> </u>

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	179,139	20,381
Safe custody and bank charges	(82,933)	(79,708)
Transaction costs	(196,160)	(292,174)
	<u> </u>	<u> </u>

9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

Independent Auditor's Report

To the Unitholders of JPMorgan Multi Balanced Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Multi Balanced Fund, which are set out on pages 641 to 672, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 23 February 2017, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

JPMorgan Multi Balanced Fund

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Multi Balanced Fund (the "Fund")

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Matters under the Relevant Disclosure Provisions of the Trust Deed and Appendix E of the SFC Code

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 23 February 2017, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

**Details of Financial Derivative Instruments
As at 30 September 2023 (Unaudited)**

(a) Convertible bonds

As at 30 September 2023, the Fund held convertible bonds, which the underlying assets and counterparties were the issuers themselves, with details as shown in the Investment Portfolio.

(b) Forward foreign exchange contracts

As at 30 September 2023, the Fund held outstanding forward foreign exchange contracts with details as shown in Note 11.

(c) Futures

As at 30 September 2023, the Fund held futures contracts with details as shown in Note 11.

(d) Rights

As at 30 September 2023, the Fund held rights with details as shown in Note 11.

(e) Warrants

As at 30 September 2023, the Fund held warrants with details as shown in Note 11.

**Information on Exposure Arising from Financial
Derivative Instruments
For the year ended 30 September 2023 (Unaudited)**

The lowest, highest and average gross exposure arising from the use of financial derivative instruments in the Fund for any purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest gross exposure	43.9
Highest gross exposure	81.3
Average gross exposure	56.3

The lowest, highest and average net exposure arising from the use of financial derivative instruments in the Fund for non-hedging purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2023.

	2023 % of NAV
Lowest net exposure	16.3
Highest net exposure	35.2
Average net exposure	26.1

* The calculation of gross exposure on financial derivative instruments does not include convertible bonds.

There are some share classes with currency hedging features. For the avoidance of doubt, their exposures are not included in the calculation of the gross exposure of the Fund portfolio.

Notes to the Financial Statements

1 The Fund

JPMorgan Multi Income Fund (the "Fund") was established under a Trust Deed dated 24 June 2011, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to maximize the income return primarily through investing in a diversified portfolio of income producing equities, bonds and other securities. In addition, the Fund aims to provide medium to long-term moderate capital growth. The Manager will seek to achieve these objectives by active asset allocation to, and within, different asset classes and geographies. The asset classes include but are not limited to investment grade bonds, below investment grade bonds, high yield bonds, emerging market bonds, convertible bonds, asset backed securities (including asset backed commercial papers), mortgage backed securities, real estate investment trusts ("REITs") and equities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Structured entities

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(e) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(f) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(g) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(h) Margin deposits

Cash collateral provided by the Fund is identified in the Statement of Financial Position as margin deposits and is not included as a component of cash and cash equivalents.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(k) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

(l) Investments pledged as collateral

If the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge the collateral, a disclosure of the collateral provided is made in the notes to the financial statements.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stock selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
Listed/Quoted Investments	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
<u>Assets</u>

Also, refer to Note 11 for the exposures on derivatives.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Fund's volatility, which helps to describe the likely range of the Fund's return, on a regular basis. In statistical terms, it is the standard deviation of the return distribution. Greater volatility of monthly fund returns means that there is a wider range of likely returns in the future, or greater uncertainty regarding the fund returns. Most investors would equate this greater uncertainty with greater risk.

The table below summarizes the volatility of the Fund expressed in annual terms and the estimated impact on the net asset value.

	2023	2022
Annual volatility (Note*)	9.21%	11.52%

If the above volatility were to be applied to the Fund's net asset value as at 30 September 2023 of USD4,334,847,638 (2022: USD4,811,255,692) and assuming that the Fund's returns are normally distributed with its mean return equals to nil and with one standard deviation away from the mean return (i.e. a probability of 68%), the estimated reasonable possible change in the Fund's net asset value would be between USD3,935,608,171 and USD4,734,087,105; or within +/- USD399,239,467 (2022: USD4,256,999,036 and USD5,365,512,348; or within +/- USD554,256,656) over a twelve-month period based on the Fund's historical annual volatility percentage as a result of the market price fluctuation, assuming that all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Volatility is calculated based on the monthly Fund's returns over the maximum of past 36 months or the number of months since portfolio inception. For funds launched within a period of less than 12 months, volatility is calculated based on the weekly Fund's returns since the Fund's launch. Volatility is expressed in annual volatility by applying the square root of time adjustment. Volatility may not cover stressed market events, nor represent the Investment Manager's forecast of the Fund's range of future returns.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	Less than 1 year USD	1-5 years USD	Over 5 years USD	Total USD
<u>2023</u>				
Cash at banks	12,523,914	-	-	12,523,914

Total interest sensitivity gap	<u>144,537,448</u>	<u>1,017,797,417</u>	<u>1,209,066,712</u>	<u>2,371,401,577</u>
<u>2022</u>				
Cash at banks	1,085,987	-	-	1,085,987
Short-term deposits	163,054,184	-	-	163,054,184
Margin deposits	21,851,098	-	-	21,851,098
Derivatives	(41,295,657)	-	-	(41,295,657)
Equity-linked notes	389,197,777	-	-	389,197,777
Investments (Note*)	83,960,706	708,864,442	1,570,602,582	2,363,427,730
Total interest sensitivity gap	<u>617,854,095</u>	<u>708,864,442</u>	<u>1,570,602,582</u>	<u>2,897,321,119</u>

Note:

* The coupon rate of the investments ranged between 0.00% p.a. – 21.07% p.a. (2022: 0.00% p.a. – 19.45% p.a.).

The Fund held 53.3% (2022: 57.2%) of net asset value in debt securities, money market, convertible bonds and equity-linked notes with an average duration of 7.32 (2022: 5.32). If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in the fair value of debt securities, money market, convertible bonds and equity-linked notes by approximately USD42,309,688 (2022: USD36,609,919). Conversely, if the interest rates were to fall by 25 basis points, this would result in an increase in the fair value of debt securities, money market, convertible bonds and equity-linked notes by the same amount.

Any cash and cash equivalents, short-term deposit and margin deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 11(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD

	<u>1,756,274,138</u>		<u>(192,703,220)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

As at 30 September 2023, the Fund held 53.3% (2022: 57.3%) of net asset value in debt securities, money market, convertible bonds and equity-linked notes therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities, money market, convertible bonds and equity-linked notes is managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities, money market, convertible bonds and equity-linked notes by credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	2.1	1.2
S&P(AA)/Moody's(Aa)/FITCH(AA)	1.0	0.5
S&P(A)/Moody's(A)/FITCH(A)	3.1	0.8
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	11.0	12.7
S&P(BB)/Moody's(Ba)/FITCH(BB)	20.8	19.0
S&P(B)/Moody's(B)/FITCH(B)	8.7	7.9
S&P(CCC)/Moody's(Caa)/FITCH(CCC)	1.8	1.5
Unrated	4.8	13.7
	<u>53.3</u>	<u>57.3</u>

The table below summarizes the unrated debt securities, money market, convertible bonds and equity-linked notes as stated in the table above by their issuers' credit rating as at 30 September.

	2023 % of net assets	2022 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	0.0	0.0
S&P(AA)/Moody's(Aa)/FITCH(AA)	0.2	0.0
S&P(A)/Moody's(A)/FITCH(A)	0.0	0.0
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	0.1	0.1
S&P(BB)/Moody's(Ba)/FITCH(BB)	0.1	0.0
S&P(B)/Moody's(B)/FITCH(B)	0.0	0.0
Unrated	4.4	13.6
	<u>4.8</u>	<u>13.7</u>

In order to monitor the credit quality of the unrated debt securities, money market, convertible bonds and equity-linked notes, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities, money market, convertible bonds and equity-linked notes for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities, money market, convertible bonds and equity-linked notes in order to calculate the implied ratings for each of the debt securities, money market, convertible bonds and equity-linked notes.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances and short-term deposits		
S&P(AA)/Moody's(Aa)/FITCH(AA)	1,426,290	1,085,987
S&P(A)/Moody's(A)/FITCH(A)	53,635,842	163,054,184
Margin deposits with brokers and derivatives held with/issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	11,457,280	5,059,423
S&P(A)/Moody's(A)/FITCH(A)	37,730,349	60,257,589
Investment and derivative balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>4,286,820,122</u>	<u>4,726,375,468</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount USD

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities and Convertibles	1,760,269,541	39,174,902	8,753,593	1,808,198,036

Debt Securities	-	-	-	-
Total financial assets at fair value through profit and loss	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

Note:

* As at 30 September 2023, debt securities include a security pledged as collateral with fair value of USD36,743,690 (2022: USD38,280,434).

The Fund has not sold or re-pledged any collateral during the years ended 30 September 2023 and 2022. The terms and conditions associated with collateral have no significant unusual requirements from the usual practice of recourse when a default occurs.

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, collective investment schemes and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Level 3 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

The level 3 equities as at 30 September 2023 of USD7,893,554 are equity positions with a single broker quote without comparables or actual commitment to transact at the quoted price (2022: USD9,061,471).

The Fund uses discounted cash-flow method for valuation of the level 3 debt securities as at 30 September 2023 of USD11,798,735 (2022: USD18,630,475). Interest rate is considered to be the unobservable input in the valuation. No sensitivity analysis was disclosed as the level 3 debt securities have a fixed interest rate.

The level 3 equities and debt securities as at 30 September 2023 of USD860,039 and USDnil respectively (2022: USD656,051 and USD204,659 respectively) are listed/quoted investments suspended from trading as at year end for a period of more than 1 month, listed/quoted investments under entity restructuring or illiquid investments. The Fund adjusts the last traded price of the securities by applying a valuation discount, which is considered to be the unobservable input in the valuation. If the discount was to change by +/-5%, this would result in a change in the Fund's net asset value by +/-USD1,027,616 (2022: USD974,559), assuming all other variables that may impact the net asset value of the Fund are held constant.

There were no transfers between levels for the year ended 30 September 2023.

The table below summarizes the transfers between levels of the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value for the year ended 30 September 2022.

	Level 1 USD	Level 2 USD	Level 3 USD
<u>2022</u>			
Transfers between Levels 1 and 3: Financial assets at fair value through profit and loss			
Equities			
- Russia	(13,221,756)	-	13,221,756
Transfers between Levels 2 and 3: Financial assets at fair value through profit and loss			
Debt Securities			
- Luxembourg	-	(5,243,886)	5,243,886
Equities			
- United States	-	(4,915,497)	4,915,497
	-	(10,159,383)	10,159,383

Russia

Equities transferred from Level 1 to Level 3 were valued based on unobservable inputs as at 30 September 2022.

Luxembourg

Debt securities transferred from Level 2 to Level 3 were valued based on unobservable inputs as at 30 September 2022.

United States

Equities transferred from Level 2 to Level 3 were valued based on unobservable inputs as at 30 September 2022.

The following table presents the movement in level 3 instruments for the years ended 30 September 2023 and 2022 by class of financial instrument.

	2023 USD	2022 USD
Opening balance	28,552,656	4,376,200
Transfers between Level 1 to 3	-	13,221,756
Transfers between Level 2 to 3	-	10,159,383
Purchase	-	29,901,729
Sales	(7,343,542)	(16,880,808)
Net losses recognized in net gains/(losses) on investments and derivatives	(656,786)	(12,225,604)
Closing balance	20,552,328	28,552,656
Change in unrealized gains/losses for Level 3 assets held at year end and included in net gains/(losses) on investments and derivatives	(452,127)	(11,591,114)

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	487,128,487	(1,080,615,581)
Realized losses on sale of investments and derivatives	(226,648,374)	(1,795,615)
	<u>260,480,113</u>	<u>(1,082,411,196)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

7 Taxation

Australia Taxation

The Fund invests in securities listed on the stock exchange in Australia. Gains generated from disposals of Australian investments may be exposed to Australian tax at the rate of 30%. In September 2012, the Australian Government introduced legislation exempting gains realized by a foreign fund on or before 30 June 2011, provided that certain ownership conditions and other criteria are met. In June 2015, the Australian Government further introduced legislation ("Legislation") which exempts gains realized by a foreign managed fund on or after 1 July 2011 provided that certain ownership conditions and other criteria can be met.

The Manager considers that the charge for capital gains tax on Australian investments invested by the Fund as at 30 September 2023 is unlikely as at the date of approval of these financial statements. The Manager is of the view that the Fund should meet the criteria under the Legislation and should be eligible for the exemption of tax. As at 30 September 2023 and 2022, no provision for such tax was made accordingly. This assessment represents the best estimate of the Manager.

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via the China Connect and are temporarily exempt from PRC corporate income tax. The capital gains derived through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received, interest income received and capital gains derived during the years ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %

Independent Auditor's Report

To the Unitholders of JPMorgan Multi Income Fund (the "Fund")

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of JPMorgan Multi Income Fund, which are set out on pages 727 to 774, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 24 June 2011, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

• Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Multi Income Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 24 June 2011, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

24 January 2024

Notes to the Financial Statements**1 The Fund**

JPMorgan Pacific Securities Fund (the "Fund") was established under a Trust Deed dated 7 April 1978, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in the securities of companies in the Asia-Pacific region, including Japan, Australia and New Zealand.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)2023

4 Financial risk management**(i) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- Japan	178,302,764	34.3	159,884,267	30.2
- China	85,793,020	16.5	97,520,183	18.4
- Taiwan	64,844,162	12.5	60,220,000	11.4
- Korea	44,938,013	8.6	41,785,996	7.9
- Australia	38,888,875	7.5	56,499,040	10.7
- India	38,632,429	7.4	39,448,326	7.5
- Hong Kong	21,427,987	4.1	32,337,928	6.1
- Indonesia	20,350,379	3.9	30,393,961	5.7
- Others	21,014,875	4.0	12,125,153	2.2
	<u>514,192,504</u>	<u>98.8</u>	<u>530,214,854</u>	<u>100.1</u>
Derivatives				
- Forward foreign exchange contracts	467,077	0.1	283,468	0.1
	<u>514,659,581</u>	<u>98.9</u>	<u>530,498,322</u>	<u>100.2</u>
<u>Liabilities</u>				
Derivatives				
- Forward foreign exchange contracts	(26,402)	(0.0)	(2,371,133)	(0.5)
Total Listed/Quoted Investments	<u>514,633,179</u>	<u>98.9</u>	<u>528,127,189</u>	<u>99.7</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>520,399,543</u>	MSCI AC Asia Pacific Net	1.07	+16.1	<u>89,649,229</u>
As at 30 September 2022	<u>529,442,116</u>	MSCI AC Asia Pacific Net	1.08	-27.7	<u>(158,387,903)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- ** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- *** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- **** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	3,067,722	1,412,850
Total interest sensitivity gap	<u>3,067,722</u>	<u>1,412,850</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	42,756,653	+0.4	171,027
Chinese Yuan (Offshore)	94,551,836	-2.1	(1,985,589)
Hong Kong Dollar	99,475,255	+0.2	198,951
Indian Rupee	38,292,394	-2.0	(765,848)
Indonesian Rupiah	20,350,379	-1.5	(305,256)
Japanese Yen	179,271,271	-3.0	(5,378,138)
Korean Won	45,812,620	+6.0	2,748,757
Singapore Dollar	10,041,158	+5.1	512,099
Taiwan Dollar	64,999,614	-1.6	(1,039,994)
Thai Bhat	4,266,890	+3.6	153,608
Vietnamese Dong	3,207,316	-1.8	(57,732)
	<u>603,025,386</u>		<u>(5,748,115)</u>
<u>2022</u>			
Australian Dollar	56,808,808	-11.0	(6,248,969)
Chinese Yuan (Offshore)	108,956,481	-9.5	(10,350,866)
Hong Kong Dollar	108,904,340	-0.8	(871,235)
Indian Rupee	39,448,326	-8.8	(3,471,453)
Indonesian Rupiah	30,393,961	-6.0	(1,823,638)
Japanese Yen	160,420,704	-22.9	(36,736,341)
Korean Won	41,785,995	-17.2	(7,187,191)
Singapore Dollar	7,518,770	-5.4	(406,014)
Taiwan Dollar	60,385,930	-12.2	(7,367,083)
Vietnamese Dong	4,852,151	-4.6	(223,199)
	<u>619,475,466</u>		<u>(74,685,989)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	500,527	440,675
S&P(A)/Moody's(A)/FITCH(A)	2,567,195	972,175
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	466,139	149,493
S&P(A)/Moody's(A)/FITCH(A)	938	133,975
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>514,192,504</u>	<u>530,214,854</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2023</u>		<u>2022</u>	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts due to brokers	1,866,925	-	-	-
Amounts payable on redemption	744,692	-	836,929	-
Derivatives	26,402	-	2,371,126	7
Other accounts payable	772,848	-	844,566	-
Net assets attributable to holders of redeemable units	<u>520,399,543</u>	-	<u>529,442,116</u>	-
Total financial liabilities	<u>523,810,410</u>	<u>-</u>	<u>533,494,737</u>	<u>7</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>2023</u>				
<u>Assets</u>				
Derivatives	467,077	(10,879)	-	456,198
Financial assets at fair value through profit and loss	467,077	(10,879)	-	456,198
	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>Liabilities</u>				
Derivatives	26,402	(10,879)	-	15,523

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>2022</u>				
<u>Assets</u>				
Derivatives	283,468	(65,974)	-	217,494
Financial assets at fair value through profit and loss	283,468	(65,974)	-	217,494

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>2022</u>				
<u>Liabilities</u>				
Derivatives	2,371,133	(65,974)	-	2,305,159
Financial liabilities at fair value through profit and loss	<u>2,371,133</u>	<u>(65,974)</u>	<u>-</u>	<u>2,305,159</u>

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	514,192,504	-	-	514,192,504
Derivatives	-	467,077	-	467,077
Total financial assets at fair value through profit and loss	<u>514,192,504</u>	<u>467,077</u>	<u>-</u>	<u>514,659,581</u>

	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Liabilities</u>				
Derivatives	-	26,402	-	26,402
Total financial liabilities at fair value through profit and loss	-	26,402	-	26,402
<u>2022</u>				
<u>Assets</u>				
Equities	530,214,854	-	-	530,214,854
Derivatives	-	283,468	-	283,468
Total financial assets at fair value through profit and loss	530,214,854	283,468	-	530,498,322
<u>Liabilities</u>				
Derivatives	-	2,371,133	-	2,371,133
Total financial liabilities at fair value through profit and loss	-	2,371,133	-	2,371,133

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	102,111,615	(348,473,154)
Realized (losses)/gains on sale of investments and derivatives	(65,259,373)	34,655,464
	<u>36,852,242</u>	<u>(313,817,690)</u>

6 Taxation

Australia Taxation

The Fund invests in securities listed on the stock exchange in Australia. Gains generated from disposals of Australian investments may be exposed to Australian tax at the rate of 30%. In September 2012, the Australian Government introduced legislation exempting gains realized by a foreign fund on or before 30 June 2011, provided that certain ownership conditions and other criteria are met. In June 2015, the Australian Government further introduced legislation ("Legislation") which exempts gains realized by a foreign managed fund on or after 1 July 2011 provided that certain ownership conditions and other criteria can be met.

The Manager considers that the charge for capital gains tax on Australian investments invested by the Fund as at 30 September 2023 is unlikely as at the date of approval of these financial statements. The Manager is of the view that the Fund should meet the criteria under the Legislation and should be eligible for the exemption of tax. As at 30 September 2023 and 2022, no provision for such tax was made accordingly. This assessment represents the best estimate of the Manager.

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via the China Connect are temporarily exempt from PRC corporate income tax. The capital gains derived through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities (Asia Pacific) Limited	6,945,781	1.41	2,664	1.27	0.04
J.P. Morgan Securities Australia Limited	787,979	0.16	236	0.11	0.03
J.P. Morgan Securities Japan Co., Ltd	3,374,533	0.68	1,080	0.52	0.03
The Hongkong and Shanghai Banking Corporation Limited	7,288,894	1.48	4,213	2.01	0.06

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
J.P. Morgan India Private Limited	3,914,594	0.67	1,566	0.52	0.04
J.P. Morgan Securities (Asia Pacific) Limited	11,445,286	1.96	5,763	1.91	0.05
J.P. Morgan Securities Australia Limited	5,837,600	1.00	2,335	0.78	0.04
J.P. Morgan Securities Japan Co., Ltd	2,269,216	0.39	908	0.30	0.04
The Hongkong and Shanghai Banking Corporation Limited	10,792,394	1.85	5,555	1.85	0.05

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	500,527	440,675
Amounts receivable	21	16
Amounts payable	(698,556)	(764,275)

(c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to USD5,952,810 (2022: realized losses amounting to USD2,190,399).

(d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD4,200 (2022: USD5,471).

(e) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(f) The Fund has a securities lender's agreement with J.P. Morgan Securities plc, a Connected Person of the Manager. However, the Fund does not intend to carry out any securities lending transactions. The arrangement is mainly intended to allow the Fund to carry out securities borrowing transactions.

(g) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The retirement schemes of the employees of the Manager and its Connected Persons may subscribe to USD Class (acc) of the Fund.

The Manager and certain members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	1,156.658	410.648	(372.715)	1,194.591	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	157.231	8.330	(150.007)	15.554	-

- (h) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (i) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (j) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(e) and 7(i), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	7,823	4,685
Transaction costs	(3,980)	(9,916)
Safe custody and bank charges	(19,004)	(23,831)

- (k) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(h), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	9,942	1,645
Interest expense	(9,761)	(5,950)
Transaction costs	(13,185)	(21,961)
Safe custody and bank charges	(154,197)	(202,446)

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowing with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD472,586,537 (2022: USD450,064,693). Commission which amounted to USD18,633 (2022: USD44,618) is paid from the Fund on these transactions.

Independent Auditor's Report

To the Unitholders of JPMorgan Pacific Securities Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Pacific Securities Fund, which are set out on pages 783 to 802, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 7 April 1978, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Pacific Securities Fund
(the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 7 April 1978, as amended, for the year ended 30 September 2023.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

Notes to the Financial Statements**1 The Fund**

JPMorgan Pacific Technology Fund (the "Fund") was established under a Trust Deed dated 14 August 1997, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of securities of technology companies (including but not limited to companies related to technology, media and communication services) in the Pacific region, including Japan.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

A relevant benchmark index for the Fund was introduced and took effect on 1 January 2022. The Investment Manager monitors the Fund's market price sensitivity relative to the benchmark through the measure of beta. As at 30 September 2022, weekly returns of the Fund were used for calculating beta since 1 January 2022. Actual historical change in the benchmark index since 1 January 2022 will be used to calculate the % of reasonable possible change of the relevant benchmark index. As at 30 September 2023, 1 year return is used to calculate the % of reasonable possible change of the relevant benchmark index.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
<u>Equities</u>				
- China	193,329,594	28.2	341,912,730	48.1
- Japan	182,614,364	26.6	134,653,843	18.9
- Taiwan	162,905,893	23.7	92,154,257	13.0
- Korea	103,360,419	15.0	37,740,311	5.3
- India	42,618,643	6.2	66,227,300	9.3
- Others	-	-	12,478,570	1.7
	<u>684,828,913</u>	<u>99.7</u>	<u>685,167,011</u>	<u>96.3</u>
<u>Derivatives</u>				
- Forward foreign exchange contracts	667,216	0.1	492,618	0.0
	<u>685,496,129</u>	<u>99.8</u>	<u>685,659,629</u>	<u>96.3</u>
<u>Liabilities</u>				
<u>Derivatives</u>				
- Forward foreign exchange contracts	(63,636)	(0.0)	(3,731,303)	(0.5)
Total Listed/Quoted Investments	<u><u>685,432,493</u></u>	<u><u>99.8</u></u>	<u><u>681,928,326</u></u>	<u><u>95.8</u></u>

Also, refer to Note 10 for the exposures on derivatives.

Since 1 January 2022, the Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>686,662,805</u>	MSCI AC Asia Pacific Tech 100 Equal Weighted Index (Total Return Net)	0.99	+4.06	<u>27,599,725</u>
As at 30 September 2022	<u>711,578,039</u>	MSCI AC Asia Pacific Tech 100 Equal Weighted Index (Total Return Net)	0.94	-33.8	<u>(226,082,575)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- ** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- *** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- **** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	1,676,690	29,957,974
Total interest sensitivity gap	<u>1,676,690</u>	<u>29,957,974</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	2,896,292	+0.4	11,585
Chinese Yuan (Offshore)	188,803,530	-2.1	(3,964,874)
Hong Kong Dollar	115,760,490	+0.2	231,521
Indian Rupee	42,348,808	-2.0	(846,976)
Japanese Yen	183,241,927	-3.0	(5,497,258)
Korean Won	103,360,419	+6.0	6,201,625
Singapore Dollar	21,619,273	+5.1	1,102,583
Taiwan Dollar	163,153,538	-1.6	(2,610,457)
	<u>821,184,277</u>		<u>(5,372,251)</u>
<u>2022</u>			
Australian Dollar	7,738,888	-11.0	(851,278)
Chinese Yuan (Offshore)	238,195,457	-9.5	(22,628,568)
Hong Kong Dollar	185,753,682	-0.8	(1,486,029)
Indian Rupee	66,227,300	-8.8	(5,828,002)
Japanese Yen	138,230,458	-22.9	(31,654,775)
Korean Won	37,740,311	-17.2	(6,491,333)
Singapore Dollar	19,672,312	-5.4	(1,062,305)
Taiwan Dollar	92,393,403	-12.2	(11,271,995)
	<u>785,951,811</u>		<u>(81,274,285)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown on the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	657,683	370,310
S&P(A)/Moody's(A)/FITCH(A)	1,019,007	29,587,664
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	659,146	207,907
S&P(A)/Moody's(A)/FITCH(A)	8,070	284,711
Investment and derivative balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>684,828,913</u>	<u>685,167,011</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023		2022	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts payable on redemption	329,717	-	3,474,451	-
Derivatives	60,524	3,112	3,731,278	25
Other accounts payable	925,436	-	1,083,039	-
Net assets attributable to holders of redeemable units	<u>686,662,805</u>	-	<u>711,578,039</u>	-
Total financial liabilities	<u>687,978,482</u>	<u>3,112</u>	<u>719,866,807</u>	<u>25</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
<u>Liabilities</u>				
Derivatives	3,731,303	(277,649)	-	3,453,654
Financial liabilities at fair value through profit and loss	3,731,303	(277,649)	-	3,453,654

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	684,828,913	-	-	684,828,913
Derivatives	-	667,216	-	667,216
Total financial assets at fair value through profit and loss	<u>684,828,913</u>	<u>667,216</u>	<u>-</u>	<u>685,496,129</u>
<u>Liabilities</u>				
Derivatives	-	63,636	-	63,636
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>63,636</u>	<u>-</u>	<u>63,636</u>
<u>2022</u>				
<u>Assets</u>				
Equities	685,167,011	-	-	685,167,011
Derivatives	-	492,618	-	492,618
Total financial assets at fair value through profit and loss	<u>685,167,011</u>	<u>492,618</u>	<u>-</u>	<u>685,659,629</u>
<u>Liabilities</u>				
Derivatives	-	3,731,303	-	3,731,303
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>3,731,303</u>	<u>-</u>	<u>3,731,303</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	238,521,824	(376,949,144)
Realized losses on sale of investments and derivatives	(172,836,723)	(238,245,545)
	65,685,101	(615,194,689)

6 Taxation

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via the China Connect are temporarily exempt from PRC corporate income tax. The capital gains derived through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Securities (USA) Inc	455,634	0.03	1,739	0.21	0.38
J.P. Morgan Securities (Asia Pacific) Limited	47,021,570	3.08	26,735	3.30	0.06
J.P. Morgan Securities Japan Co., Ltd	19,907,698	1.30	6,135	0.76	0.03
The Hongkong and Shanghai Banking Corporation Limited	34,962,738	2.29	35,572	4.39	0.10
<u>2022</u>					
HSBC Securities and Capital Markets (India) Private Limited	25,165,478	1.34	27,682	2.53	0.11
J.P. Morgan Securities (Asia Pacific) Limited	91,164,282	4.85	58,444	5.35	0.06
J.P. Morgan Securities Australia Limited	3,285,311	0.17	1,314	0.12	0.04
J.P. Morgan Securities Japan Co., Ltd	17,288,542	0.92	6,915	0.63	0.04
The Hongkong and Shanghai Banking Corporation Limited	76,494,050	4.07	53,879	4.93	0.07

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	657,683	370,310
Amounts receivable	12	2
Amounts payable	(851,980)	(1,002,901)

(c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to USD7,689,850 (2022: realized losses amounting to USD2,941,585).

(d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD2,058 (2022: USD4,302).

(e) Management fee for HKD Class C (acc) and USD Class C (acc) of 0.75% per annum and all other share classes of 1.5% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
2023					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- HKD Class C (acc)	777.850	-	(777.850)	-	-
- USD Class (acc)	7,307.365	6,994.971	(1,414.005)	12,888.331	-
- USD Class C (acc)	-	542.038	-	542.038	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	43.826	-	(43.826)	-	-
<u>JPMorgan Asset Management Real Assets (Asia) Limited</u>					
- USD Class (acc)	44.849	-	(31.388)	13.461	-
2022					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- HKD Class C (acc)	777.850	-	-	777.850	-
- USD Class (acc)	2,917.751	4,953.775	(564.161)	7,307.365	15,827
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	87.651	-	(43.825)	43.826	1,462
<u>JPMorgan Asset Management Real Assets (Asia) Limited</u>					
- USD Class (acc)	62.776	-	(17.927)	44.849	598

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(e) and 7(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	8,974	1,422
Safe custody and bank charges	(27,475)	(55,148)
Transaction costs	(32,870)	(66,673)

- (j) During the years ended 30 September 2023 and 2022, in addition to the Trustee's fee as disclosed in Note 7(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	13,639	3,308
Interest expense	(18,503)	(1,596)
Transaction costs	(52,028)	(106,858)
Safe custody and bank charges	(301,980)	(302,484)

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD1,480,109,570 (2022: USD1,626,672,024). Commission which amounted to USD173,402 (2022: USD215,385) is paid from the Fund on these transactions.

10 Derivatives

Independent Auditor's Report

To the Unitholders of JPMorgan Pacific Technology Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Pacific Technology Fund, which are set out on pages 810 to 830, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 14 August 1997, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Pacific Technology Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 14 August 1997, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 14 August 1997 to 30 September 2010.

Notes to the Financial Statements**1 The Fund**

JPMorgan Philippine Fund (the "Fund") was established under a Trust Deed dated 29 July 1974, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through investment primarily (i.e. at least 70% of its total net asset value) in the equity securities of companies based or operating in the Philippines.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives*Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)2023

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the year	363,719.662	4,083.000
Total allotments	42,930.003	-

Net assets attributable to holders of redeemable units	<u>34,796,961</u>	<u>41,717</u>
Net assets attributable to holders of redeemable units (per unit)	<u>98.95</u>	<u>10.22</u>

2022

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the year	383,139.399	4,083.000
Total allotments	48,060.511	-
Total redemptions	(67,480.248)	-
At the end of the year	<u>363,719.662</u>	<u>4,083.000</u>
	USD	USD
Net assets attributable to holders of redeemable units	<u>31,172,958</u>	<u>35,864</u>
Net assets attributable to holders of redeemable units (per unit)	<u>85.71</u>	<u>8.78</u>

4 Financial risk management**(I) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- Holding Firms	8,970,034	25.8	8,453,889	27.1
- Banks	8,649,451	24.8	5,874,331	18.8
- Property	6,777,963	19.5	5,021,502	16.1
- Food, Beverages & Tobacco	3,778,686	10.8	4,929,390	15.8
- Transportation Services	2,942,060	8.4	1,858,071	6.0
- Communications	1,583,629	4.5	2,714,836	8.7
- Others	1,864,924	5.4	1,626,067	5.2
Total Listed/Quoted Investments	34,566,747	99.2	30,478,086	97.7

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	34,838,678	MSCI Philippines Net	0.96	+17.7	5,919,788
As at 30 September 2022	31,208,822	MSCI Philippines Net	0.95	-26.3	(7,797,524)

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	534,099	914,212
Total interest sensitivity gap	<u>534,099</u>	<u>914,212</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
Net currency exposures (Note*)			
<u>2023</u>			
Hong Kong Dollar	3,418	+0.2	7
Philippine Peso	34,642,448	+3.6	1,247,128
	<u>34,645,866</u>		<u>1,247,135</u>
<u>2022</u>			
Hong Kong Dollar	10,825	-0.8	(87)
Philippine Peso	30,891,555	-13.0	(4,015,902)
	<u>30,902,380</u>		<u>(4,015,989)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	31,163	186,429
S&P(A)/Moody's(A)/FITCH(A)	502,936	727,783
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	34,566,747	30,478,086

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	327,738	69,321
Amounts payable on redemption	96,755	54,241
Other accounts payable	74,356	76,838
Net assets attributable to holders of redeemable units	34,838,678	31,208,822
Total financial liabilities	35,337,527	31,409,222

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	34,566,747	-	-	34,566,747
Total financial assets at fair value through profit and loss	<u>34,566,747</u>	<u>-</u>	<u>-</u>	<u>34,566,747</u>
<u>2022</u>				
<u>Assets</u>				
Equities	30,478,086	-	-	30,478,086
Total financial assets at fair value through profit and loss	<u>30,478,086</u>	<u>-</u>	<u>-</u>	<u>30,478,086</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	6,261,122	(12,181,905)
Realized (losses)/gains on sale of investments and derivatives	(1,279,249)	1,479,178
	<u>4,981,873</u>	<u>(10,702,727)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
J.P. Morgan Securities (Asia Pacific) Limited	507,544	3.36	634	5.05	0.12
<u>2022</u>					
J.P. Morgan Securities (Asia Pacific) Limited	1,477,524	4.88	2,043	9.94	0.14
The Hongkong and Shanghai Banking Corporation Limited	136,892	0.45	178	0.87	0.13

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	31,163	186,429
Amounts payable	<u>(56,034)</u>	<u>(59,575)</u>

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD155 (2022: USD407).

(d) Management fee for USD Class (acc) of 1.5% per annum and USD Class C (acc) of 0.75% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	50.327	-	(25.164)	25.163	-
<u>2022</u>					
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	50.327	-	-	50.327	-

- (f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	1,804	88
Other income	-	3
Transaction costs	(634)	(15,476)
Safe custody and bank charges	(4,283)	(6,052)
	<u>(4,283)</u>	<u>(6,052)</u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	4,802	193
Interest expense	-	(35)
Transaction costs	(5,555)	(178)
Safe custody and bank charges	(29,396)	(28,094)
	<u>(29,396)</u>	<u>(28,094)</u>

8 Borrowings

The Fund has no bank borrowing during the year ended 30 September 2023. During the year ended 30 September 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD14,901,354 (2022: USD25,447,297). Commission which amounted to USD375 (2022: USD2,568) is paid from the Fund on these transactions.

10 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Philippine Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Philippine Fund, which are set out on pages 837 to 849, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 29 July 1974, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Philippine Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 29 July 1974, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 30 June 1987 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Sustainable Infrastructure Fund (the "Fund") was established under a Trust Deed dated 6 July 2005, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

With effect from 12 July 2022, the Fund has been renamed from JPMorgan Global Property Income Fund to JPMorgan Sustainable Infrastructure Fund.

Prior to 12 July 2022, the investment objective of the Fund was "to achieve a high level of current income and long-term capital appreciation primarily (i.e. at least 70% of its total net asset value) through investing in equity securities that are listed on any stock exchange and are principally engaged in or related to the property industry or which own significant property assets, and the Fund does not invest in real estate directly."

With effect from 12 July 2022, the investment objective of the Fund has been changed to "to achieve a return by investing primarily (i.e. at least 70% of its total net asset value) in equity securities globally (including listed real estate investment trusts) that are well positioned to promote the development of the infrastructure required to facilitate a sustainable and inclusive economy, whilst not significantly harming any environmental or social objectives and following good governance practices."

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation

Functional and presentation currency

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

(k) Distribution payable to holders of redeemable units

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- United States	11,800,349	40.2	29,696,538	47.1
- United Kingdom	5,158,852	17.6	6,918,338	11.0
- Spain	2,629,884	9.0	5,713,452	9.1
- Italy	2,008,799	6.8	2,727,227	4.3
- Others	7,235,075	24.6	16,405,615	26.0

Also, refer to Note 10 for the exposures on derivatives.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Fund's volatility, which helps to describe the likely range of the Fund's return, on a regular basis. In statistical terms, it is the standard deviation of the return distribution. Greater volatility of monthly fund returns means that there is a wider range of likely returns in the future, or greater uncertainty regarding the fund returns. Most investors would equate this greater uncertainty with greater risk.

The table below summarizes the volatility of the Fund expressed in annual terms and the estimated impact on the net asset value.

	2023	2022
Annual volatility (Note*)	22.85%	30.10%**

If the above volatility were to be applied to the Fund's net asset value as at 30 September 2023 of USD29,364,185 (2022: USD63,043,323) and assuming that the Fund's returns are normally distributed with its mean return equals to nil and with one standard deviation away from the mean return (i.e. a probability of 68%), the estimated reasonable possible change in the Fund's net asset value would be between USD22,654,469 and USD36,073,901; or within +/- USD6,709,716 (2022: between USD44,067,283 and USD82,019,363; or within +/- USD18,976,040) over a twelve-month period based on the Fund's historical annual volatility percentage as a result of the market price fluctuation, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Volatility is calculated based on the monthly Fund's returns over the maximum of past 36 months or the number of months since portfolio inception. For funds launched within a period of less than 12 months, volatility is calculated based on the weekly Fund's returns since the Fund's launch. Volatility is expressed in annual volatility by applying the square root of time adjustment. Volatility may not cover stressed market events, nor represent the Investment Manager's forecast of the Fund's range of future returns.

** With effect from 12 July 2022, the representative class of the Fund for the purpose of disclosing past performance has been changed to a new Class which was launched on 12 July 2022, in light of the change of investment objective of the Fund. As such, volatility was calculated based on the weekly returns since 12 July 2022.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	429,592	2,469,086
Total interest sensitivity gap	429,592	2,469,086

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-USD currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Australian Dollar	688,674	+0.4	2,755
Brazilian Real	1,037,176	+8.1	84,011
Canadian Dollar	8,823	+1.6	141
Chinese Yuan (Offshore)	10,458,146	-2.1	(219,621)
Danish Krone	1,278	+7.8	100
Euro	8,148,300	+8.1	660,012
Hong Kong Dollar	344,166	+0.2	688
Japanese Yen	231,267	-3.0	(6,938)
Korean Won	144,183	+6.0	8,651
Singapore Dollar	386,049	+5.1	19,688
Sterling	5,190,556	+9.3	482,722
	<u>26,638,618</u>		<u>1,032,209</u>
<u>2022</u>			
Australian Dollar	2,684,174	-11.0	(295,259)
Chinese Yuan (Offshore)	26,115,407	-9.5	(2,480,964)
Danish Krone	1,534,363	-15.5	(237,826)
Euro	14,689,887	-15.5	(2,276,932)
Hong Kong Dollar	539,526	-0.8	(4,316)
Japanese Yen	675,033	-22.9	(154,583)
Korean Won	1,047,960	-17.2	(180,249)
Singapore Dollar	518,058	-5.4	(27,975)
Sterling	6,941,006	-17.2	(1,193,853)
	<u>54,745,414</u>		<u>(6,851,957)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade wills fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to Counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	19,609	17,822
S&P(A)/Moody's(A)/FITCH(A)	409,983	2,451,264
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	156,929	23,550
S&P(A)/Moody's(A)/FITCH(A)	644	37,203
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>28,832,959</u>	<u>61,461,737</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023		2022	
	Less than 1 month USD	1 to 12 months USD	Less than 1 month USD	1 to 12 months USD
Amounts due to brokers	6,699	-	-	-
Amounts payable on redemption	124	-	399,288	-
Distribution payable	57,473	-	112,102	-
Derivatives	7,917	412	637,636	67
Other accounts payable	62,586	-	80,595	-
Net assets attributable to holders of redeemable units	<u>29,364,185</u>	<u>-</u>	<u>63,043,323</u>	<u>-</u>
Total financial liabilities	<u>29,498,984</u>	<u>412</u>	<u>64,272,944</u>	<u>67</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2023 and 2022, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position USD	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments USD	Collateral and margin deposits USD	Net amount USD
2023

Financial liabilities at fair value through profit and loss	637,703	(22,275)	-	615,428

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>

2022

Assets

Equities	-	567	-	567
Total financial assets at fair value through profit and loss	<u>-</u>	<u>567</u>	<u>-</u>	<u>567</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	8,206,730	(11,622,674)
Realized losses on sale of investments and derivatives	(5,525,537)	(1,314,561)
	<u>2,681,193</u>	<u>(12,937,235)</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2022: nil).

7 Taxation

Australia Taxation

The Fund invests in securities listed on the stock exchange in Australia. Gains generated from disposals of Australian investments may be exposed to Australian tax at the rate of 30%. In September 2012, the Australian Government introduced legislation exempting gains realized by a foreign fund on or before 30 June 2011, provided that certain ownership conditions and other criteria are met. In June 2015, the Australian Government further introduced legislation ("Legislation") which exempts gains realized by a foreign managed fund on or after 1 July 2011 provided that certain ownership conditions and other criteria can be met.

The Manager considers that the charge for capital gains tax on Australian investments invested by the Fund as at 30 September 2023 is unlikely as at the date of approval of these financial statements. The Manager is of the view that the Fund should meet the criteria under the Legislation and should be eligible for the exemption of tax. As at 30 September 2023 and 2022, no provision for such tax was made accordingly. This assessment represents the best estimate of the Manager.

China Taxation

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax ("UMCT") (currently at the rate ranging from 1% to 7%), Education Surcharge ("ES") (currently at the rate of 3%) and Local Education Surcharge ("LES") (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). Pursuant to the newly issued UMCT Law and Public Notice [2021] No.28 jointly issued by the Ministry of Finance ("MOF") and the PRC State Taxation Administration ("STA"), effective from 1 September 2021, no UMCT, ES and LES would be levied on the VAT paid for the service provisions and sale of intangible assets in China by overseas parties to PRC parties. However, in practice, the implementation of the exemption may vary depending on the local practice.

Dividend income and capital gain on A-shares

The Fund invests in A-shares listed in the PRC via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively the "China Connect") and is subjected to 10% WIT on dividend income derived from the shares. WIT was charged on dividend income received from the shares during the years ended 30 September 2023 and 2022.

According to Caishui [2014] No. 81 and Caishui [2016] No. 127, capital gains derived by overseas investors from the trading of China A-shares via the China Connect and are temporarily exempt from PRC corporate income tax. The capital gains derived through the China Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations.

Dividend income and capital gain on H-shares

The Fund has investments in shares of companies in PRC listed on the Hong Kong Stock Exchange ("H-shares"). Under general taxing provisions of the PRC CIT Law, a Fund could be technically subject to 10% WIT on the PRC sourced capital gains, unless exempt or reduced under relevant double tax treaties. However, there may be practical difficulty for the PRC tax authorities to impose and collect WIT on such capital gains. The 10% WIT has not been strictly enforced by local tax bureau on capital gains derived by non-tax resident enterprises of the PRC from the trading of H-shares. Where capital gains are derived from trading of H-shares, VAT in general is not imposed as the purchase and disposal are often concluded and completed outside the PRC.

No provision was made for taxation from such gains in the financial statements as the Manager believes that the taxation on capital gains derived from H-shares is not probable under the current enforcement environment.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Other Jurisdictions

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
The Hongkong and Shanghai Banking Corporation Limited	57,028	0.05	25	0.09	0.04
<u>2022</u>					
Nil					

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	19,609	17,822
Amounts receivables	-	307
Amounts payable	(47,047)	(66,848)

(c) During the year ended 30 September 2023, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to USD7,263 (2022: nil).

(d) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD128 (2022: USD778).

(e) Management fee of 1.0% per annum of the net asset value of the Fund would be paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
--	---------------------------------	------------------	-------------------	---------------------------	------------------------------------

(g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

(i) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	335	27
Other income	-	304
Safe custody and bank charges	(5,793)	(4,749)

- (j) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023	2022
	USD	USD
Interest on deposits	24,580	2,973
Safe custody and bank charges	(23,908)	(15,459)
Transaction costs	(29,205)	(15,407)

9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2023 and 2022, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

Independent Auditor's Report

To the Unitholders of JPMorgan Sustainable Infrastructure Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Sustainable Infrastructure Fund, which are set out on pages 857 to 876, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 6 July 2005, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Sustainable Infrastructure Fund
(the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 6 July 2005, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee

The notes on pages 886 to 896 form part of these financial statements.

Notes to the Financial Statements

1 The Fund

JPMorgan Thailand Fund (the "Fund") was established under a Trust Deed dated 20 July 1989, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities of companies based or operating principally in Thailand.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

2023

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	1,423,171.777
Total allotments	273,282.183
Total redemptions	(404,234.940)
At the end of the year	<u>1,292,219.020</u>
	USD
Net assets attributable to holders of redeemable units	<u>209,215,217</u>
Net assets attributable to holders of redeemable units (per unit)	<u>161.90</u>

2022

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the year	1,523,631.225
Total allotments	257,578.646
Total redemptions	<u>(358,038.094)</u>
At the end of the year	<u>1,423,171.777</u>
	USD
Net assets attributable to holders of redeemable units	<u>230,674,358</u>
Net assets attributable to holders of redeemable units (per unit)	<u>162.08</u>

As at 30 September 2023, the Fund had USD209,215,217 (2022: USD230,674,358) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity.

The Fund's policies for managing its obligations for the holders of redeemable units of the Fund are included in Note 4(II) capital risk management.

4 Financial risk management

(I) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
Listed/Quoted Investments				
Assets				
Equities				
- Energy	38,564,822	18.4	42,161,441	18.3
- Health Care Services	25,027,467	12.0	23,031,564	10.0
- Food & Beverages	21,558,187	10.3	16,939,782	7.3
- Transportation	18,868,195	9.0	24,690,591	10.7
- Building & Furnishing Materials	14,091,160	6.7	11,542,701	5.0
- Banking	13,861,420	6.6	15,788,328	6.9
- Property Development	8,269,916	4.0	14,242,195	6.2
- Wireless Telecommunications Services	8,000,428	3.8	13,003,652	5.6
- Others	58,162,626	27.9	66,143,484	28.6
	<u>206,404,221</u>	<u>98.7</u>	<u>227,543,738</u>	<u>98.6</u>
Derivatives				
- Warrants	5,996	0.0	150,564	0.1
	<u>5,996</u>	<u>0.0</u>	<u>150,564</u>	<u>0.1</u>
Total Listed/Quoted Investments	<u>206,410,217</u>	<u>98.7</u>	<u>227,694,302</u>	<u>98.7</u>
Total Investments	<u>206,410,217</u>	<u>98.7</u>	<u>227,694,302</u>	<u>98.7</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>209,215,217</u>	MSCI Thailand Net	0.96	+0.0	-
As at 30 September 2022	<u>230,674,358</u>	MSCI Thailand Net	0.98	-6.8	<u>(15,372,139)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

*** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

**** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	3,307,483	3,404,154
Total interest sensitivity gap	3,307,483	3,404,154

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Hong Kong Dollar	7,912	+0.2	16
Singapore Dollar	18	+5.1	1
Thai Baht	208,014,366	+3.6	7,488,517
	208,022,296		7,488,534
<u>2022</u>			
Hong Kong Dollar	4,628	-0.8	(37)
Singapore Dollar	1,073,379	-5.4	(57,962)
Thai Baht	229,858,884	-10.3	(23,675,465)
	230,936,891		(23,733,464)

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to the credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	410,700	106,368
S&P(A)/Moody's(A)/FITCH(A)	2,896,783	3,297,786
Investment and derivative balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>206,410,217</u>	<u>227,694,302</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	1,172,648	111,484
Amounts payable on redemption	1,276,557	454,541
Other accounts payable	344,747	403,401
Total financial liabilities	<u>2,793,952</u>	<u>969,426</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	206,404,221	-	-	206,404,221
Derivatives	-	5,996	-	5,996
Total financial assets at fair value through profit and loss	<u>206,404,221</u>	<u>5,996</u>	<u>-</u>	<u>206,410,217</u>

Listed/Quoted Investments

2022

Assets

Equities	227,543,738	-	-	227,543,738
Derivatives	-	150,564	-	150,564
Total financial assets at fair value through profit and loss	<u>227,543,738</u>	<u>150,564</u>	<u>-</u>	<u>227,694,302</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	2,411,949	(12,938,431)
Realized gains/(losses) on sale of investments and derivatives	672,968	(1,337,828)
	<u>3,084,917</u>	<u>(14,276,259)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
HSBC Securities (USA) Inc	-	-	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	2,108,464	0.86	21,085	13.46	1.00
J.P. Morgan Securities (Asia Pacific) Limited	21,683,943	8.81	10,490	6.70	0.05
<u>2022</u>					
HSBC Securities (USA) Inc	20,550	0.01	44	0.03	0.21
J.P. Morgan Securities (Asia Pacific) Limited	20,699,843	8.56	8,462	6.05	0.04

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	410,700	106,368
Amounts receivable	1	-
Amounts payable	(519,424)	(343,552)
	<u> </u>	<u> </u>

(c) During the year ended 30 September 2023, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD1,588 (2022: USD2,950).

(d) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific)</u>					
<u>Limited</u>					
- USD Class (acc)	76.800	21.003	(46.370)	51.433	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	483.847	40.409	(61.250)	463.006	-
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific)</u>					
<u>Limited</u>					
- USD Class (acc)	459.677	30.430	(413.307)	76.800	167
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	132.322	361.347	(9.822)	483.847	1

(f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

(h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	3,473	119
Other income	1,739	12
Transaction costs	(10,490)	(8,462)
Safe custody and bank charges	(17,145)	(13,030)
	<u> </u>	<u> </u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023	2022
	USD	USD
Interest on deposits	4,882	297
Interest expense	-	(41)
Transaction costs	(47,292)	(20,354)
Safe custody and bank charges	(95,776)	(116,296)

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD239,191,483 (2022: USD217,783,915). Commission which amounted to USD5,813 (2022: USD21,172) is paid from the Fund on these transactions.

10 Derivatives

11 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Thailand Fund (the "Fund")

Report on the Audit of the Financial Statements**Opinion**

What we have audited

The financial statements of JPMorgan Thailand Fund, which are set out on pages 884 to 896, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKASs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 20 July 1989, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKASs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Thailand Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

Hong Kong, 24 January 2024

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 20 July 1989, as amended, for the year ended 30 September 2023.

UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 8 August 1989 to 30 September 2010.

Notes to the Financial Statements

1 The Fund

JPMorgan Vietnam Opportunities Fund (the "Fund") was established under a Trust Deed dated 15 August 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of companies either (i) domiciled or listed on a stock exchange in Vietnam, or (ii) with actual or prospective operations, assets or investments, direct or indirect, in Vietnam in an aggregate amount of not less than either USD50 million or 10 per cent. of the gross assets of the investing company (albeit such operations, assets or investments may at the time of investment be immaterial to the financial results of such company).

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

Standards and amendments to existing standards effective from 1 October 2022

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2022 that have had a material impact on the Fund.

New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Investments and derivatives

Classification

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

(d) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(e) Income and expense

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

(f) Transaction costs

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

(g) Foreign currency translation*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

(i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

(j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

2023

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the year	12,784,851.835	1,167,166.782
Total allotments	1,977,457.140	123,155.578
Total redemptions	(2,157,899.990)	(201,579.855)
At the end of the year	<u>12,604,408.985</u>	<u>1,088,742.505</u>
	USD	USD
Net assets attributable to holders of redeemable units	<u>250,479,927</u>	<u>14,006,658</u>
Net assets attributable to holders of redeemable units (per unit)	<u>19.87</u>	<u>12.86</u>

2022

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the year	15,851,516.455	1,741,328.730
Total allotments	767,133.273	401,408.213
Total redemptions	(3,833,797.893)	(975,570.161)
At the end of the year	<u>12,784,851.835</u>	<u>1,167,166.782</u>
	USD	USD
Net assets attributable to holders of redeemable units	<u>246,272,309</u>	<u>14,446,401</u>
Net assets attributable to holders of redeemable units (per unit)	<u>19.26</u>	<u>12.38</u>

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2023		2022	
Listed/Quoted Investments	Fair value of investments USD	% of net assets	Fair value of investments USD	% of net assets
<u>Assets</u>				
<u>Equities</u>				
- Financial Services	46,144,135	17.4	40,359,201	15.5
- Banking	43,424,426	16.4	40,350,866	15.4
- Real Estate Management & Development	40,908,967	15.5	58,629,409	22.5
- Multi-Industry	23,439,577	8.9	23,057,103	8.8
- Telecommunications	17,264,067	6.5	11,281,759	4.3
- Food & House Products	15,975,616	6.0	17,257,124	6.6
- Retailing	10,694,208	4.0	13,791,232	5.3
- Others	55,342,096	21.0	48,054,432	18.6
Total Listed/Quoted Investments	<u>253,193,092</u>	<u>95.7</u>	<u>252,781,126</u>	<u>97.0</u>

	Net asset value USD	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) USD
As at 30 September 2023	<u>264,486,585</u>	MSCI Vietnam IMI Capped Net Index	0.93	-2.6	<u>(6,395,286)</u>
As at 30 September 2022	<u>260,718,710</u>	MSCI Vietnam IMI Capped Net Index	1.00	-27.3	<u>(71,176,208)</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- ** Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- *** % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- **** Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Cash at banks	<u>11,983,831</u>	<u>7,542,057</u>
Total interest sensitivity gap	<u>11,983,831</u>	<u>7,542,057</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	USD equivalent	% of reasonable possible change against USD (Note**)	Estimated impact on net asset value USD
<u>2023</u>			
Hong Kong Dollar	2,158	+0.2	4
Vietnamese Dong	258,747,005	-1.8	(4,657,446)
	<u>258,749,163</u>		<u>(4,657,442)</u>
<u>2022</u>			
Hong Kong Dollar	261	-0.8	(2)
Vietnamese Dong	259,335,949	-4.6	(11,929,454)
	<u>259,336,210</u>		<u>(11,929,456)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- * Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.
- ** % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

(b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend, interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2023 and 2022 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2023 Exposure to counterparties USD	2022 Exposure to counterparties USD
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	60,467	145,391
S&P(A)/Moody's(A)/FITCH(A)	11,923,364	7,396,666
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>253,193,092</u>	<u>252,781,126</u>

(c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2023 Less than 1 month USD	2022 Less than 1 month USD
Amounts due to brokers	806,419	606,696
Amounts payable on redemption	804,630	1,554,138
Other accounts payable	397,475	421,974
Net assets attributable to holders of redeemable units	<u>264,486,585</u>	<u>260,718,710</u>
Total financial liabilities	<u>266,495,109</u>	<u>263,301,518</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

(II) Capital risk management

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

(III) Fair value estimation

As at 30 September 2023 and 2022, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>2023</u>				
<u>Assets</u>				
Equities	253,193,092	-	-	253,193,092
Total financial assets at fair value through profit and loss	<u>253,193,092</u>	<u>-</u>	<u>-</u>	<u>253,193,092</u>

2022

Assets

Equities	252,781,126	-	-	252,781,126
Total financial assets at fair value through profit and loss	<u>252,781,126</u>	<u>-</u>	<u>-</u>	<u>252,781,126</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2023 and 2022.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2023 and 2022.

5 Net gains/(losses) on investments and derivatives

	2023 USD	2022 USD
Change in unrealized gains/losses in value of investments and derivatives	26,440,692	(134,086,783)
Realized (losses)/gains on sale of investments and derivatives	(17,739,739)	37,790,936
	<u>8,700,953</u>	<u>(96,295,847)</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2023 and 2022.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments USD	% of the Fund's total aggregate value of transactions	Commission paid USD	% of the Fund's total commission paid in the year	Average commission rate %
<u>2023</u>					
Nil					
<u>2022</u>					
J.P. Morgan Securities (Asia Pacific) Limited	1,302,903	0.21	521	0.05	0.04

(b) Balances with the Manager and its Connected Persons as at year end:

	2023 USD	2022 USD
Cash at banks	60,467	145,391
Amounts payable	(336,926)	(359,290)

(c) During the year ended 30 September 2023, there was no income accruing to the Manager relating to allotments and redemptions in the Fund. During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to USD433.

(d) Management fee for USD Class (acc) of 1.5% per annum and USD Class C (acc) of 0.75% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of USD40 per valuation if the Fund's net asset value is larger than USD5 million but smaller than USD20 million, or USD70 per valuation if the Fund's net asset value is larger than USD20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2023</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	2,871.696	-	(1,564.681)	1,307.015	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	410.633	4,137.805	(205.307)	4,343.131	-

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction USD
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	2,871.696	-	-	2,871.696	-
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	410.633	-	-	410.633	-

- (f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first USD40 million, 0.04% per annum for the balance from USD40 million to USD70 million, and 0.025% per annum for the balance in excess of USD70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2023 and 2022, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	3,253	183
Other Income	-	933
Transaction costs	-	(521)
Safe custody and bank charges	(5,249)	(7,345)
	<u> </u>	<u> </u>

- (i) During the years ended 30 September 2023 and 2022, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2023 USD	2022 USD
Interest on deposits	5,418	406
Interest on expense	(7,295)	(40,451)
Transaction costs	(18,728)	(41,215)
Safe custody and bank charges	(358,190)	(526,196)
	<u> </u>	<u> </u>

8 Borrowings

During the years ended 30 September 2023 and 2022, the Fund has unsecured short-term bank borrowings with different financial institutions, one of which is The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2023, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to USD207,121,377 (2022: USD8,847,741). Commission which amounted to USD7,703 (2022: USD658) is paid from the Fund on these transactions.

10 Distribution

No distribution was made during the year (2022: nil).

Independent Auditor's Report

To the Unitholders of JPMorgan Vietnam Opportunities Fund (the "Fund")

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of JPMorgan Vietnam Opportunities Fund, which are set out on pages 903 to 915, comprise:

- the Statement of Financial Position as at 30 September 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2023, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Other Information

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 15 August 2006, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Independent Auditor's Report (Continued)

To the Unitholders of JPMorgan Australia Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure
Provisions of the Trust Deed and Appendix E of the
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

Statement of Responsibilities of the Manager and the Trustee

Manager's Responsibilities

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

Trustee's Responsibilities

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

Report of the Trustee to the Unitholders

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 15 August 2006, as amended, for the year ended 30 September 2023.

HSBC Institutional Trust Services (Asia) Limited, Trustee
