*Issuer: Franklin Templeton Investments (Asia) Limited*

*Last updated: April 2020*

- **This statement provides you with key information about this product.**
- **This statement is a part of the offering document.**
- **You should not invest in this product based on this statement alone.**

**Quick facts**

**Management company:** Franklin Templeton International Services S.à r.l.

**Investment manager(s):** Franklin Templeton Investment Management Limited, United Kingdom (internal delegation) and Franklin Advisers, Inc., United States of America (internal delegation)

**Depository:** J.P. Morgan Bank Luxembourg S.A.

**Base currency:** EUR

**Financial year end of this Fund:** 30 June

**Dealing frequency:** Every Hong Kong Business Day

**Minimum Investment:** USD 1,000 [initial] and USD 500 [subsequent purchases] or equivalent

**Ongoing charges over a year<sup>#</sup>:**

Class A (Ydis) EUR: 0.80%

<sup>#</sup>The ongoing charges figure is based on the semi-annual financial statements for the period ended 31 December 2019. This figure may vary from year to year.

**Dividend policy:** Dividends, if declared, will be reinvested unless indicated by you in the application form to be paid out. Subject to any legal and regulatory requirements, the Fund may at its discretion pay dividends out of the capital or out of gross income of the Fund while charging / paying all or part of the Fund's fees and expenses to / out of the capital of the Fund, which results in an increase in distributable income for the payment of dividends by the Fund and therefore, the Fund may effectively pay dividends out of capital. The Fund may amend such distribution policy subject to the SFC's prior approval and by giving not less than one month's prior notice to investors. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.

**What is this product?**

*This is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is Commission de Surveillance du Secteur Financier.*

**Investment Objective and Policy**

*Franklin Euro Government Bond Fund (the "Fund") aims to maximise the investment return by achieving an increase in the value of its investments and earning income over the medium to long term.*

*The Fund invests principally (that is, at least two-thirds of the Fund's net assets) in:*

- *investment grade obligations of governments and government-related issuers and supranational entities located within the European Monetary Union (Eurozone countries).*

*In exceptional market circumstances (such as extreme volatility) and on a temporary basis only, 100% of the Fund's net assets may be invested in liquid assets, with due regard to the principle of risk spreading.*

*The Fund can invest on an ancillary basis in:*

- *debt obligations of governments and government-related entities and supranational entities worldwide (including non-investment grade securities) (limited to 15% of assets invested in securities issued by (i) non-European Monetary Union issuers and (ii) issuers with ratings of BB+ or below and Ba1 or below*
- *derivatives for hedging and/or efficient portfolio management purposes. These financial derivative instruments may be dealt on either (i) regulated markets, such as futures contracts (including those on government securities), as well as options or (ii) over-the-counter such as currency, exchange rate, and interest rate related swaps and forwards.*

*The Fund will seek to remove currency risk by hedging non-euro investments to the euro. In making investment decisions, the investment team thoroughly researches various factors that may affect bond prices.*

#### **Use of derivatives / investment in derivatives**

*The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.*

#### **What are the key risks?**

**Investment involves risks. Please refer to the offering document for details including the risk factors.**

- **Debt securities risk:** *The Fund is exposed to the credit/default risk of issuers of the debt securities that the Fund may invest in. Investment in the Fund is subject to interest rate risk. The debt securities will generally increase in value when interest rates fall and decrease in value when interest rates rise. Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times. The Fund's investment in securities issued or guaranteed by governments may be exposed to political, social and economic risks. In adverse situation, the governmental entity may be unwilling or unable to pay interest and repay principal, or the indebtedness may be restructured. In the event of a default on sovereign debt, the Fund may suffer significant losses. The Fund may invest in higher-yielding securities rated lower than investment grade or unrated. Such securities are generally subject to lower liquidity, higher volatility and greater risk of loss of principal and interest than high-rated debt securities.*
- **Market risk:** *The market values of securities owned by the Fund will tend to go up or down, sometimes rapidly or unpredictably, due to factors affecting individual issuers, particular industries or sectors within securities markets, or because of general market conditions. During a general downturn in the securities markets, multiple asset classes (including different sectors of the same asset class) may decline in value at the same time. Similarly, when markets perform well, there can be no assurance that securities held by the Fund will participate in the advance. Because the securities the Fund holds fluctuate in price in this manner, the Fund's value may go down as well as up and investors may be adversely affected.*
- **Credit risk:** *The Fund is exposed to the credit/default risk of issuers of the debt securities that the Fund may invest in. Changes in the financial condition of an issuer, changes in economic and political conditions in general, or changes in economic and political conditions specific to an issuer, are factors that may have an adverse impact on an issuer's credit quality and security value. Default can occur if an issuer fails to make principal and interest payments when due, which may result in a substantial loss to the Fund. Debt securities are also exposed to the risk of being downgraded, which can adversely affect and/or result in a substantial loss to the Fund.*
- **Europe and Eurozone risk:** *The Fund may invest in the Eurozone. Mounting sovereign debt burdens (e.g. any sovereigns within the Eurozone, which default on their debts, may be forced to restructure their debts and faced difficulties in obtaining credit or refinancing) and slowing economic growth among European countries, combined with uncertainties in European financial markets, including feared or actual failures in the banking system and the possible break-up of the Eurozone and Euro currency, may adversely affect interest rates and the prices of securities across Europe and potentially other markets as well. These events may increase volatility, liquidity and currency risks associated with investments in Europe. The aforesaid economic and financial difficulties in Europe may spread across Europe and as a result, a single or several European countries may exit the Eurozone or a sovereign within the Eurozone may default on its debts. In any event of the break-up of the*

*Eurozone or Euro currency, the Fund may be exposed to additional operational or performance risks. While the European governments, the European Central Bank, and other authorities are taking measures (e.g. undertaking economic reforms and imposing austerity measures on citizens) to address the current fiscal conditions, these measures may not have the desired effect and therefore the future stability and growth of Europe is uncertain. The performance and value of the Fund may be adversely affected should there be any adverse credit events (e.g. downgrade of the sovereign credit rating or default or bankruptcy of any Eurozone countries).*

- **Liquidity risk:** *The Fund may not be able to easily sell securities due to adverse market conditions or reduced value or creditworthiness of issuers in which it invests. The inability of the Fund to sell securities or positions may also impede the ability of the Fund to meet redemption requests in a timely manner. Certain securities may also be illiquid due to limited trading markets or contractual restrictions on their resale. Reduced liquidity due to these factors may have an adverse impact on the net asset value of the Fund.*
- **Valuation risk:** *Valuation of the Fund's investments may involve uncertainties and judgmental determinations. Independent pricing information may not always be available. If valuations prove to be incorrect, the investors of the Fund may be adversely affected.*
- **Volatility risk:** *The debt securities in emerging markets may be subject to higher volatility and lower liquidity compared to more developed markets. The prices of securities traded in such markets may be subject to fluctuations. The bid and offer spreads of the price of such securities may be large and the Fund may incur significant trading costs.*
- **Regional market risk:** *By being concentrated in one region (i.e., Europe), the Fund could suffer greater volatility compared to funds that follow a more diversified policy. The value of the Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory events affecting Europe and the Fund/investors may be adversely impacted.*
- **Derivative instruments risk:** *Derivative instruments involve cost, may be volatile, and may involve a leverage effect. A small market movement may give rise to a proportionately larger impact, which may cause substantial loss to the Fund. Other risks include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. In adverse situations, the Fund's use of derivative instruments may become ineffective and the Fund may suffer significant losses.*
- **Counterparty risk:** *The Fund may be exposed to the credit/default risks of its counterparties and the Fund/investors may be adversely impacted.*
- **Dividend policy risk:** *The Fund's dividend policy allows for payment of dividends out of capital or effectively out of capital. Where this is done, it amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.*

### How has the Fund performed?

■ The performance of the Fund in these years was achieved under circumstances that no longer apply. The investment policy was changed in 2015.

- *Past performance information is not indicative of future performance. Investors may not get back the full amount invested.*
- *The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividends reinvested.*
- *These figures show by how much class A (Ydis) EUR increased or decreased in value during the calendar year being shown. Performance data has been calculated in EUR, including ongoing charges and excluding subscription fee and redemption fee you might have to pay.*
- *Fund launch date: 8 January 1999*
- *Class A (Ydis) EUR launch date: 8 January 1999*

### Is there any guarantee?

*This Fund does not have any guarantees. You may not get back the full amount of money you invest.*

**What are the fees and charges?**
**Charges which may be payable by you**

<b>Registrar and Transfer, Corporate, Domiciliary and Administrative Agent fee + Additional fixed amount per Shareholder account at each Class level</b>	<b>Up to 0.2175%  Up to USD 30 per annum</b>

\*The current fee level may be increased up to the maximum level permitted by the constitutive document of the Fund by giving one month's prior notice to the shareholders.

\*\* The Annual Management Fees as defined in the Explanatory Memorandum comprise of the Management Fee (Investment Management Fee) and the Maintenance Charge.

**Other fees**

You may have to pay other fees and charges when dealing in the shares of the Fund.

**Additional Information**

- You generally buy and redeem shares at the Fund's next determined net asset value (NAV) after the Hong Kong Representative, Franklin Templeton Investments (Asia) Limited, receives your request in good order on or before 4:00 p.m. (Hong Kong time) being the dealing cut-off time. Certain intermediaries may impose an earlier dealing cut-off time.
- The net asset value of this Fund is calculated and the price of shares is published on each business day. Information about prices is available online at [www.franklintempleton.com.hk](http://www.franklintempleton.com.hk).
- The compositions of the dividends (i.e. the relative amounts paid out of (i) net distributable income and (ii) capital) for the last 12 months are made available by the Hong Kong Representative on request and are also available online at [www.franklintempleton.com.hk](http://www.franklintempleton.com.hk).

- *Investors may obtain information on the intermediaries by calling the Hong Kong Representative at (852) 2877-7733 or visiting the Hong Kong Representative's website at [www.franklintempleton.com.hk](http://www.franklintempleton.com.hk).*
- *The website mentioned above has not been reviewed by the Securities and Futures Commission ("SFC").*
