Monthly Fund Factsheet

30 April 2021

- The Fund invests primarily in debt securities of Asian government and/or corporates organised, headquartered or having their primary business operations in Asia.
- The Fund's investments may be concentrated in a single or small numbers of Asian countries which may have higher volatility or greater loss of capital than more diversified portfolios.
- The Fund invests in emerging markets which may have increased risks than developed markets including liquidity risk, currency risk/control, political and economic uncertainties, high degree of volatility, settlement risk and custody risk. The Fund invests in sovereign debt securities which are exposed to political, social and economic risks.
- The Fund invests in debt/fixed income securities which may be subject to credit, interest rate, currency and credit rating reliability risks which would negatively affect its value. Investment grade securities may be subject to risk of being downgraded and the value of the Fund may be adversely affected. The Fund may invest in below investment grade, unrated debt securities which exposes to greater volatility risk, default risk and price changes due to change in the issuer's creditworthiness. The Fund may use FDIs for hedging and efficient portfolio management purposes, which may subject the Fund to additional liquidity, valuation, counterparty and over the counter transaction risks. The Fund may invest in debt securities denominated in Asian currencies. Certain Asian currencies may not be freely convertible subject to exchange controls and restrictions which may expose to foreign exchange risk.
- For certain share classes, the Fund may at its discretion pay dividend out of capital or pay fees and expenses out of capital to increase distributable income and effectively a distribution out of capital. This amounts to a return or withdrawal of your original investment or from any capital gains attributable to that, and may result in an immediate decrease of NAV per share.
- It is possible that a part or entire value of your investment could be lost. You should not base your investment decision solely on this document. Please read the offering document including risk factors for details.
