WS Evenlode Income B Acc

Objectives and investment policy

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

- The Fund is in the above risk category because it invests in shares.
- The lowest category does not mean a fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- A limited number of investments may be held which has the potential to increase the volatility of performance.
- The movements of exchange rates may lead to further changes in the value of investments and the income from them.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.87%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	No
-----------------	----

- The maximum ongoing charges figure is 0.90%. Please see the Prospectus for the applicable tiered discounts.
- It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.
- Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth.
- Where an entry charge is imposed, you may not get back the money you invested, even if the value of the Fund hasn't fallen. You should therefore regard your investment as medium to long-term.
- For details of the actual charges, please contact your financial adviser/distributor.
