

Our purpose is to invest responsibly in social and public infrastructure that delivers long-term benefits for all stakeholders.

We aim to provide our investors with stable, long-term, inflation-linked returns, based on growing dividends and the potential for capital appreciation.

We expect to achieve this by investing in a diversified portfolio of infrastructure assets and businesses which, through our active management, meets societal and environmental needs both now and into the future.

International Public Partnerships ('INPP' or the 'Company') is a responsible, long-term investor in over 140 infrastructure projects and businesses with a market capitalisation of £2.6 billion¹. The portfolio consists of energy transmission, transport, education, health, justice and digital infrastructure projects and businesses, in the UK, Europe, Australia, New Zealand and North America. INPP seeks to provide its shareholders with both a long-term yield and capital growth.

- Geographically diversified investments across Europe, Australasia and North America in a variety of sectors
- A significant degree of inflation linkage to investment returns — 0.7% projected increase in return for a 1% increase over anticipated average inflation across the portfolio
- Operational performance and income from underlying investments is predominantly founded on asset availability or regulated assets, not demand usage or other non-controllable variables
- Long-term contractual arrangements with current average remaining investment life of c.38 years
- Strong ESG credentials and an Article 8 Financial Product, as categorised under Sustainable Finance Disclosures Regulation ('SFDR') and aligned with the UN-backed Principles for Responsible Investment ('PRI'), SDGs and Task Force on Climate-related Financial Disclosures ('TCFD')
- The Investment Adviser, Amber Fund Management Limited ('Amber'), has a successful track record of originating and developing investment opportunities in new sectors with low risks relative to returns
- A high degree of management and control of underlying investments to support sustained performance
- Pro-active, well-resourced and focused approach to asset and financial management engaging directly with its key stakeholders

Impact of the current macroeconomic environment

Changes in the global macroeconomic environment have impacted the share price of the Company and those in the wider listed investment trust sector. The Company previously announced a number of actions that it would take to ensure it remains well positioned in the current market environment. Updates on these actions are outlined in the 2023 Annual Report and include: an increased dividend target; realising capital from the existing portfolio; repaying the Company's Corporate Debt Facility and allocating up to £30m to a share buyback programme.

3. Calculated by running a 'plus 1.0%' inflation sensitivity for each investment and solving each investment's discount rate to return the original valuation. The inflation-linked return is the increase in the portfolio weighted average discount rate. Please see the 2023 Annual Report for further information.

4. Acknowledging the recent higher levels of inflation, the Company has decided to increase its 2023 dividend to 8.13 pence per share, representing a 5% increase compared to the 2022 dividend. Further information regarding the 2023 full-year dividend and future dividend targets can be found in the Chair's Letter of the 2023 Annual Report. **Please note that future profit projection and dividends cannot be guaranteed.** Projections are based on current estimates and may vary in future.

RELATIONSHIP WITH THE INVESTMENT ADVISER

INPP, through its Investment Adviser, Amber Infrastructure Group ('Amber'), takes an active investor role to deliver best value for its shareholders. Amber employs over 180 staff, across investment origination, financial and asset management.

This operating model contrasts with that of other market participants, who often use investment advisers with smaller teams, and outsource asset management activities. Amber also identifies, develops and originates investment opportunities that meet INPP's risk/return profile, and puts these forward for initial consideration and, where appropriate, investment approval.

Under the terms of the Investment Advisory Agreement with Amber, INPP has the first right of refusal over qualifying infrastructure investments identified by Amber and for the US, by Amber's long-term investor, US Group, Hunt Companies LLC ('Hunt'). INPP's access to these opportunities broadens the base for new investments.

Certain market opportunities can take years to gestate; Amber researches and tracks particular investment opportunities from conception, through to development and consultation stages, long in advance of an investment formally coming to market. This 'developer' approach gives INPP significant early-mover advantages.
