IMPORTANT:

- The Fund may invest in debt securities that are subject to actual or perceived ratings downgrade. The Fund's investments are concentrated in Europe. This may result in greater volatility than more broad-based investments. An increase in interest rates may adversely affect the value of the bonds held by the Fund.
- The Fund is subject to currency risk, sovereign debt risk and securities lending counterparty risk.
- The Fund may use derivatives for hedging. The Fund may suffer losses from its derivative usage.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.

The Fund changed its investment policy and objective in 2017. Prior to this performance of the Fund was achieved under circumstances that no longer apply. Prior to 1st February 2018, the Fund was managed by Bea Rodriguez and Matt Clay. A Money Market Fund (MMF) is not a guaranteed investment vehicle. An investment in MMFs is different from an investment in deposits; the principal invested in an MMF is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. The MMF does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per share. Further information about the funds, including the methods used by the MMF to value the assets of the MMF and calculate the NAV, are available at the Offering Documents.

The above Fund data is for information only and does not constitute an offer or invitation to anyone to invest in any BlackRock Global Funds (BGF) and has not been prepared in connection with any such offer. The Funds mentioned in this document are Funds of BlackRock Global Funds. BGF is an open-ended investment company established in Luxembourg which is available for sale in certain jurisdictions only. BGF is not available for sale in the U.S. or to U.S. persons. Product information concerning BGF should not be published in the U.S. Investment involves risk. Past performance is not necessarily a guide to future performance or returns. The value of investments and the income from them can fluctuate and is not guaranteed. Rates of exchange may cause the value of investments to go up or down. Investors may not get back the amount they invest. Individual stock price/figure does not represent the return of the Fund. The investment returns are denominated in share class dealing currency, which may be a foreign currency. If so, US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar/foreign currency exchange rate. SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

MSCI ESG Fund Rating (AAA-CCC)	AA	MSCI ESG Quality Score (0-10)	8.06
MSCI ESG Quality Score - Peer Percentile	89.00%	MSCI ESG % Coverage	84.39%
Fund Lipper Global Classification	Money Market EUR	MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES)	7.29
Funds in Peer Group	209		

All data is from MSCI ESG Fund Ratings as of **05-Feb-2021**, based on holdings as of **31-Aug-2020**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% of the fund's gross weight must come from securities covered by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities. For newly launched funds, sustainability characteristics are typically available 6 months after launch.

ESG GLOSSARY:

MSCI ESG Fund Rating (AAA-CCC): The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

MSCI ESG Quality Score - Peer Percentile: The fund's ESG Percentile compared to its Lipper peer group.

Fund Lipper Global Classification: The fund peer group as defined by the Lipper Global Classification.

Funds in Peer Group: The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

MSCI ESG Quality Score (0-10): The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. The Score also considers ESG Rating trend of holdings and the fund exposure to holdings in the laggard category. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

MSCI ESG % Coverage: Percentage of a fund's holdings that have MSCI ESG ratings data.

MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES): Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.
