

# Alternative Risk Premia Fund

Inst: WRPIX | R6: WRPRX

## Asset class: Alternative

### THE FUND

The Allspring Alternative Risk Premia Fund strategy seeks to provide a significant source of return with low correlation to traditional asset classes equities, bonds and commodities delivered in a liquid, transparent and low cost portfolio.

### FUND STRATEGY

- Invests in factors such as value, momentum, and carry that attempt to capture relative outperformance due to behavioral bias, structural constraints, and risk compensation.
- Harnesses these factors across the asset class spectrum, from equities and fixed income to commodities and currencies, resulting in a robust and diversified suite of strategies.
- Uses a long/short implementation to capture factor opportunities while minimizing exposure to the market.

### FUND MANAGERS

Name	Yrs experience
Petros Bocray, CFA, FRM	24
Chenfei Ma, CFA	10

CFA® and Chartered Financial Analyst® are trademarks owned by CFA Institute.

Expense ratios (%)	Gross	Net
Institutional Shares	1.51	0.74
Class R6 Shares	1.41	0.64

## Competitive advantages

- Fundamental insight and systematic rigor: Investment process emphasizes deep understanding of markets and disciplined analysis, with a goal of managing intuitive portfolios across changing market environments.
- Multi-dimensional risk management: Viewing risk through multiple lenses allows us to identify unintended risk concentrations and understand the impact of leverage or extreme market events.
- Academic credentials and practical expertise: Portfolios are underpinned by the team's academic credentials and refined through years of practical experience managing alternative risk premia strategies.

## Annual Returns

Total returns (%)	3 Month	YTD	Annualized			Since Inception
			1Y	3Y	5Y	
Institutional Shares	5.72	11.22	11.22	7.06	1.76	0.74
Class R6 Shares	5.81	11.15	11.15	7.12	1.84	0.82
ICE BofA 3-Month U.S. Treasury Bill Index <sup>1</sup>	1.17	5.25	5.25	3.89	2.46	—

*Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted and assumes the reinvestment of dividends and capital gains. Current month-end performance is available at the funds' website, allspringglobal.com. Institutional and R6 Class shares are sold without a front-end sales charge or contingent deferred sales charge.*

*The manager has contractually committed through 10-31-25, to waive fees and/or reimburse expenses to the extent necessary to cap the fund's total annual fund operating expenses after fee waivers at 0.72% (I) and 0.62% (R6). Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. Without this cap, the fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectus.*

All investing involves risk, including the possible loss of principal. The investment techniques employed by the fund create leverage. As a result, the sum of the fund's investment exposures will typically exceed the amount of the fund's net assets. These exposures may vary over time. We expect gross notional exposure of the fund to be in a range of 400% to 1200% of the net asset value of the fund under normal market conditions. Leverage may be significantly different (higher or lower) as deemed necessary by the investment manager. We expect net notional exposure of the fund to be in a range of -200% to 200% of the net asset value of the fund under normal market conditions. Alternative risk premia investment risk is the fund's ability to achieve its investment objective depending largely upon the portfolio managers' successful evaluation of the risks, potential returns, and correlation properties with respect to the various risk premia in which the fund invests. The use of leverage results in certain risks, including, among others, the likelihood of greater volatility of net asset value. The use of derivatives may reduce returns and/or increase volatility. Consult the fund's prospectus for additional information on these and other risks. © 2025 Morningstar. All rights reserved.
