OVERALL
MORNINGSTAR RATING™*

MARCH 2020 / FACTSHEET

1. The Fund invests in a diversified range of international equities and debt securities, generally with a significant exposure to Asian equities.
2. The Fund may be subject to risks relating to investment, equities and equity-related securities, fixed income securities, debt instruments with loss-absorption features, interest rate, credit and downgrading of investment grade securities, counterparty, currency risks and the risks of investing in small and mid-capitalisation companies and convertible bonds.
3. The Fund's investment may be concentrated in Asia and the value of the Fund may be more volatile. Investment in emerging markets may involve increased risks including liquidity, currency/currency control, political and economic uncertainties, legal and taxation, settlement, custody, and volatility risks.
4. The Fund may invest in derivatives for investment or efficient portfolio management purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
5. Dividends, at the discretion of the Managers, may be paid out of unrealised capital gains and/or gross income while charging all or part of its fees and expenses out of capital (which represent effectively paying dividends out of capital), resulting in an increase in distributable income. The Fund may also pay dividends directly out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment and results in an immediate reduction of the Fund's net asset value per unit.
6. Investors may suffer substantial loss of their investments in the Fund.

OBJECTIVE

The Fund is aimed specifically, but not exclusively, at meeting the investment requirements of Hong Kong-based retirement schemes and its investment objective and policies have been tailored accordingly, namely, to achieve a long-term annualised rate of return of 2% per annum in excess of Hong Kong wage inflation when measured in Hong Kong dollar terms.

STRATEGY

In order to deliver against the desired objective, the Fund will hold a diversified portfolio of Asia, international equity markets and fixed income securities. Investment may also be made in cash and money market instruments where considered appropriate in light of market conditions.

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.

Barings Asia Balanced Fund class A USD Acc share was rated against the numbers of EAA Fund Asia Allocation investments over the following time periods: 184 investments in the last three years, 134 investments in the last five years, and 47 investments in the last ten years. Past performance is no guarantee of future results.

Morningstar Rating is for the Class A USD Acc share class only; other classes may have different performance characteristics.

基金的晨星評級TM（或「星級」）乃就最少有三年往績記錄的受管理產品（包括互惠基金、變額年金及變額人壽附屬賬戶、交易所買賣基金、封閉式基金及獨立賬戶）而計算。交易所買賣基金與開放式互惠基金作比較用途時乃視作同一類別。計算「星級」時乃以晨星經風險調整後回報為計量準則，該準則會計及受管理產品每月超額表現的變動，並會較着重下跌的變動及給予穩定的表現較高評分。晨星評級並不計入就銷售費用所作的調整。每項產品類別中表現最佳的10%產品獲得五星評級，其後的22.5%獲得四星，接著的35%獲得三星，隨後的22.5%獲得兩星，最低的10%獲得一星。一項受管理產品的整體晨星評級乃以其表現數據連同其三年、五年及十年（如適用）晨星評級指標的加權平均值計算。權重分別如下：36至59個月總回報採用100%的三年評級，60至119個月的總回報採用60%的五年評級／40%的三年評級，以及120個月或以後的全部回報用50%的十年評級／30%的五年評級／20%的三年評級。雖然綜合評級似乎給予十年期評級的權重最高，但實際上最近三年的表現同時包括於三段評審年期內，故此最近三年的表現對綜合評級的影響最大。

霸菱傾亞均衡基金A類別美元累積股份與EAA基金亞洲配置投資於過去三年內184項投資、過去五年內134項投資及過去十年內47項投資作比較以進行評級。過往表現並不保證未來業績。

晨星評級只適用於A類別美元累積股份，並不代表其他類別的表現。
