# Barings Global Umbrella Fund

## Introduction

---

Baring Barings Global Umbrella Fund (the “Unit Trust”) is managed by Baring International Fund Managers (Ireland) Limited (the “Manager”). The Unit Trust was established pursuant to the Unit Trust’s Act, 1990 and a Trust Deed dated 21 June 1993 (as supplemented or amended from time to time) (the “Trust Deed”) made between the Manager and Northern Trust Fiduciary Services (Ireland) Limited (the “Depositary”) and authorised by the Central Bank of Ireland (the “CBI”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”). The Unit Trust is also listed on Euronext Dublin Global Exchange Market.

As the Unit Trust is registered for sale in Hong Kong, it has also been authorised by the Hong Kong Securities and Futures Commission (“SFC”) pursuant to the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds, supplemented or consolidated from time to time. Further details of the Fund are contained in the supplement to the Prospectus.

The Unit Trust is organised in the form of an Umbrella Fund. The Trust Deed provides that the Unit Trust may offer separate series of units, each representing interest in a Trust Fund (“a Fund”) comprised of a distinct portfolio of investments. A separate Fund is maintained for each series of units and is invested in accordance with the investment objective applicable to such Fund to date. Each Fund may create more than one class of units in relation to a Fund (“a class”) and these separate classes of units may be denominated in different currencies. A unit represents a beneficial interest in the Fund (“a unit”).

The Unit Trust has four active Funds as at 31 October 2019, which have been approved by the CBI:

Fund	Fund launch date
Barings Developed and Emerging Markets High Yield Bond Fund	19/07/1993
Barings Eastern Europe Fund	30/09/1996
Barings Global Leaders Fund	26/02/2001
Barings Global Resources Fund	12/12/1994

Barings Developed and Emerging Markets High Yield Bond Fund had fifteen classes of units on offer at period-end. Barings Eastern Europe Fund had nine classes of units on offer at period-end. Barings Global Leaders Fund had four classes of units on offer at period-end. Barings Global Resources Fund had five classes of units on offer at period-end. Further details of the Funds are contained in the individual supplements to the full Prospectus.

The financial statements include all the trades received up until 12:00.m. (Irish time) on 31 October 2019, the valuation point for the Unit Trust.

---

## Barings Global Umbrella Fund

### Investment Objective and Policy

---

#### Barings Developed and Emerging Markets High Yield Bond Fund

The primary investment objective of the Barings Developed and Emerging Markets High Yield Bond Fund (the “Fund”) is to produce a high level of current yield in US dollar terms, commensurate with an acceptable level of risk as determined by the Manager at its reasonable discretion. Any capital appreciation will be incidental. The Fund will seek to achieve its primary investment objective by investing at least 70% of its total assets at any one time in a combination of debt and loan securities (including credit-linked securities) of corporations and governments (including any agency of government or central bank) of any member state of the Organisation for Economic Co-operation and Development (“OECD”), and of any developing or emerging markets.

#### Barings Eastern Europe Fund

The investment objective of the Barings Eastern Europe Fund (the “Fund”) is to achieve long-term capital appreciation through investment in a diversified portfolio of securities of issuers located in or with a significant exposure to the emerging markets of Europe.

The Fund will seek to achieve its investment objective by investing at least 70% of its total assets at any one time in equities and equity-related securities, such as convertible bonds and warrants, of companies incorporated in, or exercising the predominant part of their economic activity in, Armenia, Azerbaijan, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine and Uzbekistan (the “Commonwealth of Independent States”), and in other emerging European countries such as Albania, Bulgaria, Bosnia and Herzegovina, Croatia, the Czech Republic, Estonia, Georgia, Greece, Hungary, Kosovo, Latvia, Lithuania, Macedonia, Montenegro, Poland, Romania, Serbia, Slovenia, Slovakia and Turkey, or quoted or traded on the stock exchanges in those countries. There is no limit to the extent of direct investment in Russia. Investment may also be made in securities listed or traded on recognised exchanges or markets in other countries where the issuer is located in or has a significant exposure to emerging European countries and in government and corporate debt securities.

#### Barings Global Leaders Fund

The investment objective of the Barings Global Leaders Fund (the “Fund”) is to achieve long-term capital growth by investing in equities listed or traded on a wide range of international markets.

The Fund will seek to achieve its investment objective by investing at least 70% of its total assets in equities and equity-related securities listed, quoted or traded on global markets, all of which could be in emerging markets. Please refer to the Prospectus for the full investment objective and policy.

#### Barings Global Resources Fund

The investment objective of the Barings Global Resources Fund (the “Fund”) is to achieve long-term capital appreciation through investment in a diversified portfolio of the securities of commodity producers, being companies engaged in the extraction, production, processing and/or trading of commodities e.g. oil, gold, aluminium, coffee and sugar. Baring Asset Management Limited (the “Investment Manager”) will identify worldwide commodities experiencing, or expected to experience, strong demand growth, and select appropriate companies for analysis and possible investment.

Please refer to the Prospectus for the full investment objective and policy of all the Funds.

#### How the Funds are managed

The Manager of Barings Developed and Emerging Markets High Yield Bond Fund has appointed Baring Asset Management Limited as the Investment Manager of the Fund. Under the terms of the Sub-Investment Management Agreement, dated 22 February 2017, the Investment Manager appointed both Barings LLC and Barings (U.K.) Limited as Sub-Investment Managers to provide discretionary investment management and advisory services to the Fund. Barings LLC and Barings (U.K.) Limited each have extensive investment expertise in high-yield securities, which supports the Fund’s strategy and enables the Fund’s investors to benefit from their extensive investment platforms, resources and experience across high-yield investment capabilities.

---

## Barings Global Umbrella Fund

### Investment Objective and Policy (continued)

---

#### How the Funds are managed (continued)

The Fund invests in high yield bonds in both emerging and developed markets. When investing the Fund's assets, the Manager will seek to take advantage of inefficiencies between geographic regions. For example, the Fund will seek to take advantage of pricing anomalies across the entire capital structure (i.e. secured, unsecured, and debt denominated in different currencies of the same issuer), potentially allowing the Fund to achieve a higher relative return for the same credit risk exposure. In addition, relative value decisions for geographic allocations across the high yield bond market will be determined using top-down, macro views based upon the overall global macroeconomic and geopolitical landscape, corporate fundamentals, expected returns and default rates, fund flows, new issuance volume, interest rate trends, and relative value across geographies among other topics. Once geographic allocations have been determined, portfolio managers rely on Baring's global team of research analysts to select individual bonds based on its fundamental bottom-up approach to credit.

The Manager of Barings Eastern Europe Fund, Barings Global Leaders Fund and Barings Resources Fund have appointed Baring Asset Management Limited as the Investment Manager. The Funds are managed using a well-defined quality Growth at a Reasonable Price ("GARP") investment style which aims to identify strong businesses with good expansion potential and attractive valuations. The Investment Manager draws on the research conducted by Barings' centralised global equity platform to construct a high conviction, concentrated portfolio.

Barings Global Leaders Fund invests in leading global companies that exhibit industry excellence, superior returns and long growth paths. Barings Global Resources Fund is managed against a diversified performance comparator and has the flexibility to move in and out of sectors. The Fund has exposure to Next Generation Resources sectors, in addition to traditional commodity and consumer resources, which provide access to nascent growth super cycles.

#### Risk profile

Please see detailed below the key risks applicable to the Funds:

- Changes in exchange rates between the currency of the Fund and the currencies in which the assets of the Fund are valued can have the effect of increasing or decreasing the value of the Fund and any income generated.
- Derivative instruments can make a profit or a loss, and there is no guarantee that a financial derivative contract will achieve its intended outcome. The use of derivatives can increase the amount by which the Fund's value rises and falls and could expose the Fund to losses that are significantly greater than the cost of the derivative, as a relatively small movement may have a larger impact on derivatives than the underlying assets.
- Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. Coupled with less developed regulation, this means your money is at greater risk.
- Losses may occur if an organisation through which we buy an asset (such as a bank) fails to meet its obligations.
- The Barings Global Leaders Fund and Barings Global Resources Fund can hold smaller company shares which can be more difficult to buy and sell as they may trade infrequently and in small volumes, so their share prices may fluctuate more than those of larger companies.

Please see below some of the key risks applicable to Barings Developed and Emerging Markets High Yield Bond Fund only:

- There is no guarantee that a bond issuer will pay the interest due or repay the loan. Bond values are likely to fall if interest rates rise.
- Where a bond market has a low number of buyers and/or a high number of sellers, it may be harder to sell fund investments at an anticipated price or in a timely manner. This could have a negative impact on the value of your investment. In extreme conditions, this could affect the Fund's ability to meet investors' redemption requests.

Please see below some of the key risks applicable to Barings Eastern Europe Fund only:

- Regional funds have a narrower focus than those which invest broadly across markets and are therefore considered to be more risky.

---

## Barings Global Umbrella Fund

### Investment Objective and Policy (continued)

---

#### **Risk profile** (continued)

Please see below some of the key risks applicable to Barings Global Resources Fund only:

- The value of commodities and the companies involved can be significantly affected by world events, trade controls, political and economic conditions, international energy conservation, the success of explorations projects, tax and other government regulations.

Please refer to the Prospectus for the full risk profile of each of the Funds.

---

## Barings Global Umbrella Fund

### Investment Managers' Report

For the financial period 31 October 2019

---

#### Barings Developed and Emerging Markets High Yield Bond Fund

##### Performance

During the six-month period to 31 October 2019, Barings Developed and Emerging Markets High Yield Bond Fund (the "Fund") generated a gross return of +2.57% on the Class A USD Inc unit class, underperforming the performance comparator, which returned +3.32%\*, hedged to USD.

Over the six-month period ended 31 October 2019, the global high yield market has continued to move higher, coming off the strong rebound seen in the first quarter. The extent of the prolonged rally has been bifurcated between the higher and lower ends of the credit quality spectrum. Double-Bs have seen strong returns through the six-month period while triple-Cs have detracted from overall market performance through 31 October. Single-Bs modestly lagged double-Bs during the period. This differential highlights high yield investors' reluctance to re-enter riskier assets going into what many view as late- to end-of-cycle. Corporate fundamentals have remained stable and the technical and macroeconomic backdrop continue to be supportive of the developed high yield bond market. Emerging Markets ("EM") high yield corporate bonds have also seen strong positive performance despite on-going trade tensions, slowing global trade growth, and declining crude oil prices. Contrary to developed market high yield bonds, EM corporate performance was driven by double-digit returns in triple-C rated bonds. Double-Bs saw more modest gains while single-Bs were only slightly up during the period.

Over the past six-months, the U.S. has displayed better relative value in the high yield space, versus Europe, given the U.S. economic outlook looking generally more stable. As such, the Fund's allocation to the U.S. was increased while reducing exposure to European issuers. EM debt market technicals have remained favorable along with attractive individual credit opportunities. The EM allocation has remained relatively range bound during the period. Credit selection was the primary detractor to Fund performance versus the Index across the U.S. and Europe. The Fund performed in-line with the Index in triple-Cs despite a higher allocation being a detractor. The Fund lagged in single-Bs and double-Bs due to credit selection as well as positioning across each category. The Energy sector was the largest contributor to relative performance while the Healthcare sector was the notable detractor.

##### Market outlook

Despite mounting geopolitical headlines, the global high yield bond market has generated positive performance during the period, continuing what has generally been a positive year for the asset class overall. Driven by a reasonably strong economic backdrop over the past few years, corporate earnings have been solid and leverage levels largely stable. In our view, corporate fundamentals overall remain relatively healthy. Growth appears to be slowing but measured, and we believe most companies have capital structures in place that can withstand and adjust to a slowdown. Additionally, due in part to lower financing costs over the last decade, interest coverage ratios appear relatively healthy. As a result, defaults—the biggest potential risk for high yield investors, continue to remain slightly below long-term historical averages. While an increase in defaults across more challenged sectors—Energy and Retail, namely—has contributed to a slight uptick in overall defaults this year, we do not expect to see a widespread or material increase in defaults in the near term. Furthermore, while commentary and action by central banks can influence investor sentiment and result in movements of retail fund flows or trading levels, there continues to be a willingness by central banks to take steps to support growth, which can be supportive for high yield borrowers and investors.

\* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

#### Barings LLC and Barings (UK) Limited

appointed as Sub-Investment manager by Baring Asset management Limited.

November 2019

Baring Asset Management Limited (the "Investment Manager") gives its portfolio managers full authority to manage their funds as they see fit, within the established guidelines set down. This includes the views that managers may take of the markets and sectors they invest in, which may differ from the views of other Barings' portfolio managers.

---

## Barings Global Umbrella Fund

### Investment Managers' Report (continued)

For the financial period 31 October 2019

---

#### Barings Eastern Europe Fund

##### Performance

In the six months to 31st October 2019, the Barings Eastern Europe Fund (the "Fund") generated a gross return of 9.7% on the Class A USD Inc unit class and the performance comparator returned 12.5%\*.

Lead by the Russian and Greek equity indices Emerging European stock markets performed well and rank amongst the best performing markets globally over the last six months.

The Russian energy company, Gazprom emerged as the key contributor to the portfolio's overall performance: The world's largest gas producer and second largest hydrocarbon company surprised the market with a dividend increase and, more importantly, a commitment to improving its corporate governance standards going forward. The resulting share price appreciation of over 60% (in USD) catapulted Gazprom amongst the top performing large cap stocks globally this period.

Elsewhere, the Greek market benefitted from the election victory of reform-minded New Democracy under new Prime Minister Mitsotakis. After a prolonged period of underwhelming news flow and generally volatile market backdrop, the outlook for the Greek banking sector especially has started to improve, aided by a new found confidence in the country's economic development.

Our exposure to the Turkish equity market also contributed to performance, albeit in a volatile manner. While the underlying economic performance of Turkey shows encouraging signs of growth it was the political noise surrounding the re-run of Istanbul's mayoral elections, the dismissal of the Central Bank governor and the Turkish armed forces' incursion into Northern Syria that increased investors' risk perception.

The Central European stock markets of Poland, Hungary and Czech Republic underperformed the rest of the region, held down by a correction in the Polish banking sector where investors fear unfavourable court settlements for the disputed, decade-old Swiss Franc retail mortgage books.

##### Market outlook

We believe the positive performance of various Emerging European stock markets over the last has been caused in part by the increasing attention investors pay to local company specific factors rather than global developments. This continuing trend may well mark an important moment in investors' perception of Emerging European markets, where political risk considerations have long trumped an improving corporate climate. These developments in our view have also been supported by changing investor attitudes towards sustainability and investing effectively for the long term.

Politically, we do observe some constructive changes in the state of civil societies and inherent institutional strength, challenging the uninspiring traditional notion of the region. These changes can often be seen in the most testing of environments. For example, the election of former comedian Volodymyr Zelensky to Ukrainian President, the return of the former economic minister and Ak Party founding member Ali Babacan to the political fray in Turkey, and the various local and national election results across the region are all indicative of these ongoing political processes.

Over the period the portfolio generated record dividend inflows, a key investment rationale, in our view, for Emerging European Equities. It is a testament to the region's equity markets that this dividend growth was delivered during a period of general Emerging Market currency weakness. For the upcoming periods however, we believe that the largest portion of the increase in dividend pay-out ratios has been realized, leading to what we believe is a normalisation in what has been a supernormal period of dividend growth.

As this dividend growth normalises, we believe an alternative supporting factor for overall performance may well be a more constructive environment for Emerging European currencies. In our view, we consider the Polish zloty, Hungarian forint, Russia rouble and Turkish lira to be attractively valued in relative terms.

---

## **Barings Global Umbrella Fund**

### **Investment Managers' Report** (continued)

For the financial period 31 October 2019

---

#### **Barings Eastern Europe Fund** (continued)

##### **Market outlook** (continued)

Looking ahead, the overall growth profile of Emerging Europe remains very attractive in our view, especially considering the region's low valuations and idiosyncratic opportunities such as cheap currencies, falling real interest rates and strong balance sheets. We also see substantial opportunities in the consumer space, export industries and technology sector, as rising household income levels and infrastructure investment has laid the foundation for sustainable growth and foreign investment.

\* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

#### **Baring Asset Management Limited**

**November 2019**

Baring Asset Management Limited (the "Investment Manager") gives its portfolio managers full authority to manage their funds as they see fit, within the established guidelines set down. This includes the views that managers may take of the markets and sectors they invest in, which may differ from the views of other Barings' portfolio managers.

---

## Barings Global Umbrella Fund

### Investment Managers' Report (continued)

For the financial period 31 October 2019

---

#### Barings Global Leaders Fund

##### Performance

The Barings Global Leaders Fund (the "Fund") generated gross returns of 0.99% on the Class A USD Inc unit class in six months to 31 October 2019, representing underperformance relative to the performance comparator, the MSCI All Country World Index, which returned 2.94%\*. Stock selection was the main driver of relative performance in the period.

US online take-out order and delivery company Grubhub underperformed on news that two competitors had merged; we have since sold the shares as we are concerned that Grubhub's consolidation strategy may not be as profitable as we had previously anticipated. Fever-Tree, a leading maker of premium mixers with a number one position in the UK, also underperformed due to slowing growth in its core UK market; however, we still believe the company has strong growth potential, particularly in the U.S., and will continue to deliver a clear brand message that leverages on its quality products.

Partially offsetting these negative returns, shares in Japanese media and electronics conglomerate Sony outperformed following very strong results, citing particularly good performance from its imaging sensor business whilst its other businesses, such as music, film and video games, continue to progress nicely. Shares in Nomura Research Institute, a Japanese management consulting and economic research company, also gained as the company remains well positioned in its domestic Japanese market to provide IT consulting services, which should drive future growth.

##### Market outlook

Interest rates are being lowered by the US Federal reserve and other central banks amid a global trend of accommodative monetary policy. Whilst monetary policy has been supportive of equity markets, headwinds from politics, trade disputes and leading economic indicators have been headwinds. In the case of politics and trade disputes, we think these headwinds are unlikely to abate until at least the next set of US elections. In the case of the economy the issue is whether recent monetary stimulus is enough to turnaround an economic slowdown that probably began late last year.

We have been leaning heavily on our process to navigate current turbulent times. Over the course of this year we have been reducing or selling investments where we felt companies were too dependent on external capital to grow their businesses - that is companies where we felt the quality of the balance sheet was weak. With economic growth weakening we are also scrutinising the strength of the end markets of our investments and focusing on companies where growth outlooks remain strong.

Finally, we are concerned that valuations in some sectors of the market have become too rich. Excessive valuations can turn a safe business into an unsafe investment. In this context we continue to pay attention to the valuations of our holdings and adjust accordingly.

As ever, our strategy remains to look for resilient businesses with good long term prospects that are selling at reasonable prices and we continue to be able to find investments that meet our criteria.

\* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

#### Baring Asset Management Limited

November 2019

Baring Asset Management Limited (the "Investment Manager") gives its portfolio managers full authority to manage their funds as they see fit, within the established guidelines set down. This includes the views that managers may take of the markets and sectors they invest in, which may differ from the views of other Barings' portfolio managers.

---

## Barings Global Umbrella Fund

### Investment Managers' Report (continued)

For the financial period 31 October 2019

---

#### Barings Global Resources Fund

##### Performance

The Barings Global Resources Fund (the "Fund") delivered a gross return of -2.59% on the Class A USD Inc unit class in the six months to 31 October 2019, representing outperformance compared to its performance comparator which delivered a return of -4.04%\* over the same period. Strong stock selection, particularly in the Materials sector, was the main driver of relative outperformance.

In Materials, Canadian gold miner Agnico Eagle was the most significant contributor to relative returns as the company delivered above consensus 2Q19 results, meanwhile recent macro stresses have led investors to seek safety in gold equity. Shares in Japanese speciality chemicals company Shin-Etsu Chemical also performed well on very good results reflecting strong shipments and robust margins in its PVC business and ongoing strength in its silicon wafer business. In Energy, shares in US petroleum refiner Valero Energy gained following the announcement in September that US refiners are unlikely to face new regulations, while investors are optimistic that gasoline demand may rise if President Trump is successful in rolling back his predecessor's fuel-economy standards in Light Duty Vehicles.

Partially offsetting these positive returns, steel companies including Luxembourg-domiciled ArcelorMittal were weak, as they continue to face headwinds from global trade tensions which have led to weaker steel prices. Softness in the oil price also led to weakness in Energy Exploration and Production (E&P) companies including Concho Resources and EOG Resources.

##### Market outlook

The remainder of the year looks set to continue to be a turbulent period for commodity companies, amid gathering evidence of a slowdown in the global economy, political uncertainty in Europe, further developments in the China/US trade war amongst other factors. In addition, prospects for periods of heightened tension in the Middle East have increased as the U.S. continues to apply pressure to Iran through economic sanctions whilst maintaining a large military presence in the region.

In Energy, we continue to take a balanced view on the sector. We continue to focus on identifying high quality companies that are generating stronger underlying cash flow than peers. Typically, these companies have better quality asset bases and management teams which we believe will generate more consistent returns through the balance of the year. The Fund has been increasing exposure to midstream and downstream companies as cash flows look strong and growth is underpinned with ongoing infrastructure growth for the former, and IMO 2020 for the latter (an International Maritime Organization regulation).

Within global diversified miners, whilst cash flow and returns to shareholders from the iron ore exposed names will be strong, we believe the fundamentals will begin to deteriorate in the fourth quarter of 2019; consequently, we prefer those names that have a broader range of commodity exposure such as platinum group metals and copper. As a group they continue to be in a much stronger position than during the last downturn, with better positioning on the cost curve, stronger balance sheets and more conservative management teams.

Finally within Next Generation resources, we have been increasing our exposure to specialist areas such as hydrogen which we believe will have a growing place in the global power train over our investment period, and is an area that will attract increasing focus from investors.

\* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

# Barings Global Umbrella Fund

## Notes to the financial statements

For the financial period ended 31 October 2019

---

### 1. Basis of measurement

The financial statements presented are unaudited condensed interim financial statements for the financial period ended 31 October 2019 that have been prepared in accordance with Financial Reporting Standard 104 ("FRS 104") "Interim Financial Reporting".

The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 30 April 2019, which have been prepared in accordance with accounting standards generally accepted in Ireland, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish statute, comprising the Unit Trusts Act, 1990, and the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds.

The accounting policies applied in these condensed interim financial statements are consistent with those used in the Unit Trust most recent annual financial statements for the financial year ended 30 April 2019.

The condensed interim financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. These financial statements were prepared on the going concern basis.

The Unit Trust meets all the conditions set out in FRS 102, section 7 and consequently has availed of the exemption available to certain funds not to prepare a statement of cash flows.

The comparative figures included for the Statement of Financial Position relate to the previous financial year ended 30 April 2019, while the comparative figures included for the Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares relate to the six month period ended 31 October 2018.

### 2. Significant accounting policies

#### (a) Fair value measurement

By fully adopting FRS 102, in accounting for its financial instruments, a reporting entity is required to apply either a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, or c) the recognition and measurement provisions of IFRS 9 Financial Instruments and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Unit Trust has chosen to implement b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments.

The use of the IAS 39 recognition and measurement provisions is in line with the pricing policy set out in the Trust Deed, which outlines that the fair value of financial assets and financial liabilities be valued at the last traded prices.

### 3. Cash and cash equivalents, collateral cash and bank overdrafts

Cash and cash equivalents, collateral cash and bank overdrafts are valued at fair value with interest accrued, where applicable. Cash deposits are maintained with The Northern Trust Company ("TNTC"), London branch, with uninvested cash balances being swept daily into the Northern Trust Global Funds. Any collateral cash is held by the broker as this is restricted cash. As at 31 October 2019 and 30 April 2019, the following collateral cash was held by Barings Developed and Emerging Markets High Yield Bond Fund:

	31 October 2019 US\$	30 April 2019 US\$
State Street*	2,670,000	(2,060,000)
Total	<u>2,670,000</u>	<u>(2,060,000)</u>

## Barings Global Umbrella Fund

### Notes to the financial statements (continued)

For the financial period ended 31 October 2019

#### 3. Cash and cash equivalents, collateral cash and bank overdrafts (continued)

\* All cash held with State Street is cash held as collateral for derivative purposes.

#### 4. Redeemable units

## Barings Global Umbrella Fund

### Notes to the financial statements (continued)

For the financial period ended 31 October 2019

---

#### 6. Significant agreements and fees (continued)

##### Management fees (continued)

The Unit Trust is managed by the Manager, who has delegated investment responsibility to Baring Asset Management Limited (the "Investment Manager"). The Investment Manager is an investment management company incorporated in London on 6 April 1994. The Investment Manager is part of the Barings LLC Group and is a wholly owned subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"). The outstanding amounts payable as at the end of the financial period-end for management fees are disclosed on each Fund's Statement of Financial Position. The management fees paid during the financial period amounted to US\$10,185,750 (31 October 2018: US\$12,802,327).

The Manager will discharge the fees and expenses of the Investment Manager out of its own fee. The management fee is payable monthly in arrears and is calculated by reference to the Net Asset Value of each Fund as at each business day ("valuation day"). Where the Net Asset Value of any Fund includes interests in any Investment Fund managed by a subsidiary of the parent company ("a Barings Fund"), the fee payable to the Manager relating to the holding will be reduced by the percentage rate (if any) charged to the Barings Fund for comparable management services.

Barings Eastern Europe Fund received a management rebate in relation to its investment in the Barings Russia Fund. The management fee rates have not changed from the previous year.

##### Administration, Depositary and Operating fees

The Manager is entitled to receive an Administration, Depositary and Operating Expenses fee. The fee payable is a percentage of the Net Asset Value of each class and is accrued daily and paid monthly in arrears. The Manager will pay the aggregate fees and expenses of the Administrator and Depositary, in addition to certain other fees and ongoing expenses.

For all Funds, the Manager shall be entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes (I hedged classes 0.2625%).

Please refer to the Prospectus for full details of the fees payable.

##### Investment Funds

Some of the Funds invest in other Investment Funds managed by the Investment Manager. These holdings are detailed in the Schedule of Investments.

##### Trailer fees and reimbursements

Trailer fees (commissions for the marketing of the Funds) are paid to distribution, commission and sales agents out of the management fees. Reimbursements to institutional investors, who, from a commercial perspective, are holding the Funds' units for third parties, are also paid out of the management fees.

##### Transaction costs

The transaction costs incurred by the Funds for the financial periods ended 31 October 2019 and 31 October 2018 were as follows:

	31 October 2019	31 October 2018
	US\$	US\$
Barings Eastern Europe Fund	316,526	246,534
Barings Global Leaders Fund	4,821	24,023
Barings Global Resources Fund	151,289	533,777

## Barings Global Umbrella Fund

### Notes to the financial statements (continued)

For the financial period ended 31 October 2019

#### 7. Related party transactions

Peter Clark is connected to the Manager through employment with Barings (U.K.) Limited. Timothy Schulze is connected to the Manager through employment with Barings LLC. Julian Swayne is connected to the Manager through employment with Baring Asset Management Limited. Alan Behen and Paul Smyth are employees of the Manager. The Manager will discharge the fees and expenses of the Investment Manager out of its own fee. The Investment Manager is part of the Barings LLC group and is a wholly owned subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"). Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

#### Significant unitholdings

The following table details significant concentrations in unitholdings of each Fund or instances where the units were beneficially held by other Investment Funds managed by the Investment Manager or one of its affiliates. As at 31 October 2019 and 30 April 2019, the following had significant unitholdings in the Trust:

	Number of unitholders with beneficial interest greater than 20% of the units in issue	Total % of units held with unitholders beneficial interest greater than 20% of the units in issue	Total % of units held by Investment Funds managed by the Manager or affiliates of the Manager
Barings Developed and Emerging Markets High Yield Bond Fund	Nil (30 April 2019: Nil)	Nil (30 April 2019: Nil)	3.72% (30 April 2019: 2.86%)
Barings Eastern Europe Fund	Nil (30 April 2019: Nil)	Nil (30 April 2019: Nil)	0.00% (30 April 2019: 0.15%)
Barings Global Leaders Fund	1 (30 April 2019: 1)	68.28% (30 April 2019: 66.45%)	0.00% (30 April 2019: 67.09%)
Barings Global Resources Fund	Nil (30 April 2019: Nil)	Nil (30 April 2019: Nil)	0.00% (30 April 2019: 0.53%)

#### 8. Fair value hierarchy

FRS 102 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that is not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input was assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Manager. The Manager considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets and financial liabilities measured at fair value.

There have been no transfers during the financial period ending 31 October 2019 or financial year ending 30 April 2019 from level 1 to level 2 or from level 2 to level 1. At 31 October 2019 and 30 April 2019, there were no financial assets or financial liabilities classified as level 3.

Transfer between levels, where applicable, occur at the end of the financial period.

Cash including deposits held with banks and other short-term investments in an active market are categorised as Level 1. All receivables and payables are categorised as Level 2.

#### 9. Efficient portfolio management

The Funds may use Financial Derivative Instruments (“FDIs”) for efficient portfolio management. The efficient portfolio management purposes for which the Unit Trust intends to employ FDIs are reduction of risk, reduction of cost and the generation of additional capital or income for the relevant Funds with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. The Unit Trust may use various types of derivatives for these purposes, including, without limitation, forwards, futures, options, swaps (including but not limited to total return swaps, credit default swaps, and IRSs) and contracts for differences for these purposes.

##### Risk Monitoring of Global Exposure

The Unit Trust has been classified as a non-sophisticated user of FDI (Financial Derivative Instruments) and, as permitted by the UCITS Regulations the Unit Trust has adopted a commitment approach (the “Commitment Approach”) in the calculation of global exposure for the fund during the financial period.

In accordance with the UCITS Regulations, the Commitment Approach has been calculated, in the case of forward currency contracts (“FCCTs”), by converting the FCCT position into an equivalent position based on the market value of the underlying asset. As the FDI are used for hedging purposes, the exposure of the FDI has been calculated and then netted against the instrument being hedged. The Global Exposure calculation is performed on a daily basis.

In no circumstances will the global exposure of the Fund exceed 100% of its Net Asset Value.

#### 12. Soft commission arrangements

The Investment Manager will pay for research from their own books, as commission paid on trades will be "execution only", which is the agreed cost for the broker to settle the trade (31 October 2018: same).

#### 13. Contingent liabilities

There were no contingent liabilities at financial period-end 31 October 2019 and financial year-end 30 April 2019.

---

## Barings Global Umbrella Fund

### Notes to the financial statements (continued)

For the financial period ended 31 October 2019

---

#### 14. Transactions with connected persons

The UCITS Regulations require that any transaction carried out with the Manager by a Promoter, Manager, Depositary, Investment Manager and/or associate of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the unitholders.

The Board of Directors of the Manager are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the period complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

#### 15. Taxation

Under current law and practice, the Unit Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended ("the TCA"). On that basis, it is not chargeable to Irish tax on its income or capital gains.

However, Irish tax can arise on the happening of a chargeable event in the Unit Trust. A chargeable event includes any distribution payments to unitholders, or any encashment, redemption, transfer or cancellation of units and any deemed disposal of units for Irish tax purposes arising as a result of holding units in the Unit Trust for a period of eight years or more, or the appropriation or cancellation of shares of a unitholder by the Unit Trust for the purposes of meeting the amount of tax payable on a gain arising on a transfer.

No Irish tax will arise on the Unit Trust in respect of chargeable events due to:

(a) a unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided that a relevant declaration is in place (in accordance with Schedule 2b of the TCA) and the Unit Trust is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct; or

(b) a unitholder who is an exempt Irish investor (as defined in Section 739D TCA).

Dividends, interest and capital gains (if any) received on investments made by the Unit Trust may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Unit Trust or its unitholders.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for Unit Trust Investment Undertakings marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting "equivalent measures". The Unit Trust Investment Undertakings wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

#### 16. Bank facilities

There is a bank overdraft facility in place with The Northern Trust Company ("TNTC"). An "uncommitted" multi-currency loan facility has been made available by TNTC to the Funds. During the financial period ended 31 October 2019, Barings Global Resources Fund had drawn down on this facility. (31 October 2018: Barings Eastern Europe Fund and Barings Global Resources).

#### 17. Significant events

Barings Russia Fund merged with Barings Eastern Europe Fund on 16 October 2019.

---

## Barings Global Umbrella Fund

### Notes to the financial statements (continued)

For the financial period ended 31 October 2019

---

#### 17. Significant events (continued)

The consequences of the 2016 Brexit referendum continue to be uncertain and Barings continues to plan for a number of possible scenarios, including “no deal”. Barings is committed to ensuring continuity of service for its investors and protecting its business against potential regulatory or other market access barriers related to Brexit. In this regard, Baring International Fund Managers (Ireland) Limited (“BIFMI”), will continue as the Manager of the Unit Trust and the Sub-Funds will continue to be registered for distribution into relevant jurisdictions in EU27 and elsewhere. Portfolio management in respect of European investments will continue to be delegated to Baring Asset Management Limited, a UK entity and portfolio management of US investments will continue to be conducted by Barings LLC, a US entity. The custodians and administrators of the Funds are also EU27 entities. In addition, BIFMI has enhanced its presence in Dublin and recruited locally at all levels to staff its new office, reflecting the increased significance of BIFMI’s role within the Barings business.

Whilst the medium to long-term consequences of the decision to leave the EU remain uncertain in any scenario, there could be short-term volatility which could have a negative impact on general economic conditions, business and consumer confidence in both the UK and EU, which may in turn have negative political, economic and market impacts more widely. The longer-term consequences may be affected by the terms of any future arrangements the UK has with the EU27. Among other things, the UK’s decision to leave the EU could lead to changes in the law and tax treatment of funds, instability in the equity, debt and foreign exchange markets, including volatility in the value of sterling or the euro.

There have been no other significant events to the financial period-end which, in the opinion of the Directors, may have had an impact on the financial statements for the financial period ended 31 October 2019.

#### 18. Subsequent events

There have been no events subsequent to the financial period-end which, in the opinion of the Directors of the Manager, may have had a material impact on these financial statements for the financial period ended 31 October 2019.

#### 19. Approval of financial statements

The financial statements were approved by the Directors of the Manager on 12 December 2019.

---

#### Market timing

Repeatedly purchasing and selling units in the Funds in response to short-term market fluctuations – known as ‘market timing’ – can disrupt Baring Asset Management Limited’s (the “Investment Manager’s”) investment strategy and increase the Funds’ expenses to the prejudice of all unitholders. The Funds are not intended for market timing or excessive trading. To deter these activities, the Directors of Baring International Fund Managers (Ireland) Limited (the “Manager”) may refuse to accept an application for units from persons that it reasonably believes are engaged in market timing or are otherwise excessive or potentially disruptive to the Funds.

The Directors of the Manager reserve the right to redeem units from a unitholder, on the basis of the circumstances of the unitholder concerned, or if they have reasonable grounds to believe that the unitholder is engaging in any activity which might result in the Funds or their unitholders as a whole suffering any legal, regulatory, reputational or other material disadvantage which the Funds or their unitholders as a whole might not otherwise have suffered.

#### UK reporting fund status

UK taxable investors in UK reporting funds are subject to tax on their share of the UK reporting funds’ income attributable to their holdings in the Funds, whether or not distributed, while typically any gains on disposal of their holdings are subject to capital gains tax.

Details of the unit classes which currently have UK reporting fund status are available at the Her Majesty’s Revenue and Customs (“HMRC”) Collective Investment Schemes Centre website:

<http://www.hmrc.gov.uk/cisc/offshore-funds.htm>.

As stated above, UK tax payers should note that for each unit class with reporting fund status, their share of any amounts of income, if any, that have not been distributed will be subject to tax.

Further details will be made available on the Baring Asset Management Limited website: [www.baring.com](http://www.baring.com).

## Barings Global Umbrella Fund

### Appendix 1 – Information for investors in Switzerland

For the financial period 31 October 2019

---

Baring International Fund Managers (Ireland) Limited (the “Manager”) has appointed BNP Paribas Securities Services, Paris, Succursale de Zurich, Selnaustrasse 16, CH-8002, Zurich, Switzerland, as representative and paying agent for Switzerland. Units are distributed in Switzerland by BNP Paribas Securities Services, Paris at the above address. Investors can obtain, free of charge, the Prospectus, the Key Investor Information Document(s) (“KIID(s)”), the last annual and interim reports, the Unit Trusts Act, 1990, as well as a list of the purchases and sales made on behalf of the Funds, in French, from the representative at the above address. Official publications for the Funds are found on the Internet at [www.fundinfo.com](http://www.fundinfo.com) and in the Swiss Official Trade Gazette. Unit prices (Net Asset Value with the words “plus commissions”) are published daily on the Internet at [www.fundinfo.com](http://www.fundinfo.com).

All the information appearing in these reports and accounts is solely with respect to those Funds of the Unit Trust which are licensed for public offer and marketing in or from Switzerland, namely: Barings Developed and Emerging Markets High Yield Bond Fund, Barings Eastern Europe Fund, Barings Global Leaders Fund and Barings Global Resources Fund, (the “Funds”).

For the financial period 31 October 2019

---

#### Trailer fees and reimbursements

Trailer fees (Bestandespflegekommissionen) may only be paid to the sales agents/partners indicated below:

- authorised sales agents (distributors) within the meaning of Article 19, Para 1, Collective Investments Scheme Act ("CISA");
- sales agents (distributors) exempted from the authorisation requirement within the meaning of Article 19, Para 4 CISA and Article 8 Collective Investment Scheme Ordinance ("CISO");
- sales partners who place Fund units exclusively with institutional investors with professional treasury facilities; and/or
- sales partners who place Fund units with their clients exclusively on the basis of a written commission-based asset management mandate.

Reimbursements (Rückvergütungen) may only be paid to the institutional investors detailed below who, from a commercial perspective, are holding the Fund units for third parties:

- life insurance companies (in respect of Fund units held for the account of insured persons or to cover obligations towards insured persons);
- pension funds and other retirement provision institutions (in respect of Fund units held for the account of beneficiaries);
- investment foundations (in respect of Fund units held for the account of in-house funds);
- Swiss fund management companies (in respect of Fund units held for the account of the funds managed);
- foreign fund management companies and providers (in respect of Fund units held for the account of managed funds and investing unitholders); and/or
- investment companies (in respect of the investment of the company assets).

### Appendix 2 – Information for investors in Germany

For the financial period 31 October 2019

---

The Prospectus, the Key Investor Information Document(s) (“KIID(s)”), a list of portfolio changes, the Unit Trusts Act, 1990, as well as the annual and the interim reports are available free of charge in hard copy at the office of the German Paying and Information Agent and the Further German Information Agent.

#### German Paying and Information Agent

Deutsche Bank AG  
Global Transaction Banking  
Issuer Services – Global Securities Services  
Post IPO Services  
Taunusanlage 12  
60325 Frankfurt am Main  
Germany

#### Further German Information Agent

Baring Asset Management GmbH  
Ulmenstraße 54  
60325 Frankfurt am Main  
Germany

#### **Special risks resulting from tax publication requirements in Germany**

Foreign investment companies (such as Baring International Fund Managers (Ireland) Limited (the “Manager”)) must provide documentation to the German fiscal authorities upon request, e.g. in order to verify the accuracy of the published tax information. The basis upon which such figures are calculated is open to interpretation and it cannot be guaranteed that the German fiscal authorities will accept the Manager’s calculation methodology in every material respect. In addition, if it transpires that these publications are incorrect, any subsequent correction will, as a general rule, not have retrospective effect and will, as a general rule, only take effect during the current financial period. Consequently, the correction may positively or negatively affect the investors who receive a distribution or an attribution of deemed income distributions in the current period.
