## Notes to the financial statements as at June 30, 2022 *(continued)*

### NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

#### 2.2) *Valuation of investment securities (continued)*

The value of Transferable Securities, Money Market Instruments and any financial assets and instruments which are listed or dealt on a Regulated Market, a Regulated Market in an Other State or any Other Regulated Market is based on their last available prices on the relevant market which is normally the main market for such assets.

In the event that any assets held in a Sub-Fund's portfolio on the relevant day are not listed or dealt in on any Regulated Market, any Regulated Market in an Other State or on any Other Regulated Market or if, with respect of assets listed or dealt in on any such markets, the last available price as determined pursuant to the above paragraph is not representative of the fair market value of the relevant assets, the value of such assets will be based on a reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Management Company.

The liquidating value of futures, forward or options contracts not traded on Regulated Markets, Regulated Markets in Other States or on Other Regulated Markets shall mean their net value determined, pursuant to the policies established by the Management Company, on a basis consistently applied for each different variety of contracts.
