		Additional	¥75,000
	Hedged US\$	Initial	\$2,500
		Additional	\$500

What is this product?

The Japanese Smaller Companies Fund is a sub-fund of the Janus Henderson Horizon Fund, constituted in the form of a mutual fund and domiciled in Luxembourg. Its home regulator is the Commission de Surveillance du Secteur Financier.

JANUS HENDERSON HORIZON FUND – JAPANESE SMALLER COMPANIES FUND

Investment objective and investment strategy

Investment objective

The Sub-Fund aims to provide capital growth over the long term.

Investment strategy

The Sub-Fund invests at least two-thirds of its NAV in equities or equity-related instruments of small capitalisation companies that are domiciled, or derive a significant portion of their revenues and/or profits from operations, in Japan, of any industry. For this purpose, companies falling within the bottom 25% of their relevant market by way of market capitalisation are considered to be small capitalisation companies.

Equity-related instruments may include depository receipts.

The Sub-Fund may use financial derivative instruments ("FDIs") (such as futures, forwards, options and warrants) to reduce risk and to manage the Sub-Fund more efficiently. Under no circumstances shall the use of these instruments and techniques cause the Sub-Fund to diverge from its investment policy.

The Investment Manager ("IM") may from time to time consider hedging currency and interest rates exposure, but will not generally enter into contracts involving a speculative position in any currency or interest rate.

No more than 10% of the Sub-Fund's NAV may be invested in units of UCITS or other UCIs.

For the remaining assets, the IM has the flexibility to invest outside the Sub-Fund's principal geographies or asset classes.

On an ancillary basis and for defensive purposes, the Sub-Fund may invest in:

- investment grade government bonds and associated derivative instruments;
- cash and money market instruments.

The Sub-Fund may engage in securities lending transactions. Lending transactions may not be carried out on more than 50% of the NAV of the Sub-Fund.

Currently, the Sub-Fund does not engage in repurchase and/or reverse repurchase agreement transactions.

Performance Target: The Sub-Fund targets to outperform the Russell/Nomura Small Cap Index by 2.5% per annum, before the deduction of charges, over any 5 year period.

The Sub-Fund is actively managed with reference to the Russell/Nomura Small Cap Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Sub-Fund's performance target and the level above which performance fees may be charged. The IM has discretion to choose investments for the Sub-Fund with weightings different to the index or not in the index, but at times the Sub-Fund may hold investments similar to the index.

The IM believes in-depth stock analysis, coupled with superior stock picking are the main drivers of superior long-term performance in Japanese smaller companies. The Sub-Fund is designed to capture the undervalued growth potential of Japanese smaller companies by typically investing in the smallest 25% of listed Japanese companies by market capitalisation using a disciplined, pragmatic and risk-aware investment process. The investment approach focuses on stock valuation, investment catalysts and long-term structural growth to drive earnings and returns.

Use of derivatives / Investment in derivatives

The Sub-Fund's Net Derivative Exposure may be up to 50% of the Sub-Fund's NAV.

What are the key risks?

Investment involves risks. Please refer to the Prospectus and Hong Kong Covering Document for details including the risk factors.

General investment risk

- The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses. There is no guarantee of the repayment of principal.

Equity and equity-related securities risk

- The value of equity and equity-related securities may be affected by various economic, political, market and issuer-specific factors and changes in investment sentiment. As a result, the value of such securities may be volatile and decline in value over short or even extended periods of time as well as rise. A fall in the value of equity and equity-related securities may adversely affect the NAV of the Sub-Fund.

Risks relating to securities lending

- Investors should note that if the borrower of securities lent by the Sub-Fund becomes insolvent or refuses to honour its obligations to return the relevant securities in a timely manner, the Sub-Fund would experience delays in recovering its

JANUS HENDERSON HORIZON FUND – JAPANESE SMALLER COMPANIES FUND

securities and may possibly incur a capital loss which may adversely impact investors. The collateral received may realise at a value less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of the issuers of the collateral, or the illiquidity of the market in which the collateral is traded. Further, delays in the return of securities on loan may restrict the ability of the Sub-Fund to meet delivery obligations under security sales or payment obligations arising from realisation requests.

Currency risk

- Assets of the Sub-Fund may be denominated in a currency other than the base currency (i.e. Yen) of the Sub-Fund. Also, a Share Class may be designated in a currency other than the base currency of the Sub-Fund. Changes in exchange rate control and changes in the exchange rate between the base currency and these currencies may affect the value of the Sub-Fund's assets as expressed in the base currency. Adverse fluctuations in currency exchange rates can result in a decrease in return and in a loss of capital which may have an adverse impact on the Sub-Fund.

Derivatives risk

- The use of FDIs can involve a higher level of risk. In adverse situations, the Sub-Fund's use of FDIs may become ineffective and the Sub-Fund may suffer significant losses. The leverage element/ component of an FDI can result in a loss significantly greater than the amount invested in the FDI by the Sub-Fund. The use of FDIs also exposes the Sub-Fund to associated risks including counterparty risk, leverage risk, liquidity risk, volatility risk, valuation risk and over-the-counter transaction risk.

Performance fee risk

- Performance fees may encourage the IM to make riskier investment decisions than in the absence of performance-based incentive systems. The increase in NAV which is used as a basis for the calculation of performance fees, may comprise of both realised gains and unrealised gains as at the end of the calculation period, and as a result, performance fees may be paid on unrealised gains which may subsequently never be realised by the Sub-Fund.
- The Sub-Fund does not apply any equalisation in the calculation of performance fee, therefore there may be circumstances where an investor may either be advantaged or disadvantaged as a result of the performance fee calculation methodology. Specifically, in the event of the Sub-Fund's outperformance, an investor may be subject to a performance fee even if a loss in investment capital has been suffered by the investor.

Market risk

- The value of the investments in the Sub-Fund may go up or down due to changing economic, political, regulatory, social development or market conditions that impact the share price of the companies that the Sub-Fund invests in. A fall in the value of the Sub-Fund's investment may cause a fall in the NAV of the Sub-Fund. There is no guarantee of the repayment of principal.

Concentration risk

- The Sub-Fund's instruments are concentrated in Japan. The Sub-Fund will be more susceptible to and may be adversely affected by any single economic market, political, policy, foreign exchange, liquidity, tax, legal or regulatory occurrence affecting the Japanese market and the value of the Sub-Fund will be more volatile than a sub-fund that has a more diverse portfolio of investments.

Liquidity risk

- Any security could become hard to value or to sell at a desired time and price, increasing the risk of investment losses.

Small-capitalisation/mid-capitalisation companies related risk

- Securities of small capitalisation/mid-capitalisation companies may be less liquid than the securities of larger companies, as a result of inadequate trading volume or restrictions on trading. Securities in small capitalisation/mid-capitalisation companies may possess greater potential for capital appreciation, but also involve risks, such as limited product lines, markets and financial or managerial resources. Prices of such securities may be more volatile to adverse economic developments than those of larger companies in general.

Share class hedging risk

- Financial swaps, futures, forward currency exchange contracts, options and other derivative transactions may be used to preserve the value of the hedged share class currency against the base currency of the Sub-Fund. The effects (gains/losses) of the hedging will be reflected in the NAV of the hedged Share Class and investors in the Share Class will bear any expenses incurred arising from the hedge. Such hedging may protect investors against a decrease in the value of the base currency of the Sub-Fund but will also limit the investors from any potential gain if the base currency rises against the hedged share class currency.

Hedging risk

- Any attempts to reduce certain risks may not work as intended. Any measures that the Sub-Fund takes that are designed to offset specific risks may work imperfectly, may not be feasible at times, or may fail completely. To the extent that no hedge exists, the Sub-Fund or Share Class will be exposed to all risks that the hedge would have protected against.

JANUS HENDERSON HORIZON FUND – JAPANESE SMALLER COMPANIES FUND

How has the Sub-Fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with distributions reinvested.
- These figures show by how much the Share Class increased or decreased in value during the calendar year being shown. Performance data has been calculated in JPY including ongoing charges and excluding subscription fee and redemption fee you might have to pay.
- The benchmark of the Sub-Fund is Russell/Nomura Small Cap Index (as from 1 November 2015). Prior to 1 November 2015, the benchmark was Tokyo SE Second Section Index. The benchmark was changed to Russell/Nomura Small Cap Index to reflect more closely the Sub-Fund's targeted investments and to enable investors to better compare the performance of the Sub-Fund with other Japanese smaller companies funds.
- Sub-Fund launch date: 1985.
- Share Class A2 JPY launch date: 2009.
- The Investment Manager views Class A2 JPY, being the retail Share Class denominated in the base currency of the Sub-Fund, as the most appropriate representative Share Class.

Is there any guarantee?

This Sub-Fund does not have any guarantees. You may not get back the full amount of money you invest.

JANUS HENDERSON HORIZON FUND – JAPANESE SMALLER COMPANIES FUND

What are the fees and charges?

Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the Sub-Fund. A minimum prior notice period of 1 month except for management fee, will be provided to you in the event of a fee revision.

Fee	What you pay
Subscription fee (Initial charge):	Class A: up to 5% of the total amount invested by an investor.
Switching fee:	Up to 1% of the gross amount being switched between all sub-funds.
Redemption fee:	Nil
Trading fee:	Up to 1% of the gross amount being redeemed which is redeemed up to 90 calendar days after such shares have been purchased.

Ongoing fees payable by the Sub-Fund

The following expenses will be paid out of the Sub-Fund. They affect you because they reduce the return you get on your investments.

	Annual rate (as a % of the Sub-Fund's total net assets) except for performance fee
Management fee:	Class A: 1.20% The management fee may be increased, to a maximum rate of 1.5%, subject to three months' notice to investors.
Depository fee:	The Sub-Fund will pay to the Depository a fee for fiduciary services, which is set at a rate of 0.006%, subject to a minimum fee of GBP1,200 (USD1,800).
Custody fees:	The Sub-Fund will pay to the Depository custody fees of up to 0.65% (inclusive of the asset-based fees and the transaction-based fees), depending on the markets in which the Sub-Fund invests.
Performance fee:	<ul style="list-style-type: none">▪ The performance fee to be paid by the Sub-Fund is 10% of the amount by which the increase in total NAV per share during the relevant performance period exceeds the increase in the relevant benchmark over the same period, in accordance with the "high water mark" principle.▪ The performance fee for the Sub-Fund accrued on each Dealing Day = Outperformance per Share x Average number of Shares in issue during the performance period x 10%.▪ The "Outperformance per Share" is NAV per Share (before deduction of any provision for the performance fee) - the greater of the High Water Mark or the Target NAV per Share.▪ The "High Water Mark" is the initial NAV per share or if higher, the NAV per share as at the end of the last performance period in which a performance fee was payable.▪ The "Target NAV per Share" is a hypothetical NAV per Share determined by increasing/decreasing the NAV per Share (as at the last time that a performance fee was paid or, if none has been paid, the date of introduction of the performance fee in relation to the Sub-Fund) in proportion to the percentage change in the relevant benchmark up to the date as at which the calculation is being made.▪ Performance fee accrues on each dealing day if the NAV per share exceeds the High Water Mark or the Target NAV per Share (whichever is higher). On each dealing day, the performance fee accrual made on the previous dealing day will be adjusted to reflect the Sub-Fund's performance, positive or negative.▪ If the NAV per share decreases or underperforms the benchmark, no performance fee will be accrued until such decrease or underperformance is made good in full.▪ The performance period is normally 1 July of the current year to 30 June of the next year.▪ The relevant benchmark of the Sub-Fund is Russell/Nomura Small Cap Index.▪ Please refer to the Prospectus and Hong Kong Covering Document for details and illustrative examples of the performance fee calculation.

JANUS HENDERSON HORIZON FUND – JAPANESE SMALLER COMPANIES FUND

Administration fee:	Up to 0.18%
----------------------------	-------------

Registrar and Transfer Agency fee:	Up to 0.12%
---	-------------
