What is this product?

Fidelity Funds is an open-ended investment company established in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

- The fund is an Equity fund and aims to achieve long-term capital growth from a portfolio primarily (i.e. at least 70% of the fund's assets) made up of equity securities of companies throughout the world including emerging markets. For the remaining assets, the Investment Manager has the freedom to invest outside the fund's market sectors, currency or asset classes.
- As the fund may invest globally, it may invest across different countries and regions. It is unconstrained in the amount it may invest in any single country or region.

- The fund aims to invest in multiple long-term market themes by investing in securities that may benefit from structural and/or secular (i.e. long term and not cyclical) changes in economic and social factors, such as disruptive technologies, demographics and climate change. Secular changes generally last for ten years or more and can lead to structural changes. Disruptive technologies are innovations that meaningfully change consumer, industry or company behavior. Demographic trends are long-term dynamics including those related to ageing population (including companies relating to healthcare and retirement consumption), growth of the middle class (companies exposed to increased consumption, increasing financial services and urbanization), and population growth (including companies exposed to scarcity of resources and need for improving productivity and automation). The Investment Manager has the discretion on the choice of themes the fund invests in.
- A minimum of 50% of the fund's net assets will be invested in securities deemed to maintain sustainable characteristics (defined by reference to a combination of different measurements such as ESG* ratings provided by external agencies or Fidelity Sustainability Ratings). The fund will consider a wide range of environmental and social characteristics on an ongoing basis. Environmental characteristics include but are not limited to climate change mitigation and adaptation, water and waste management, biodiversity, while social characteristics include but are not limited to product safety, supply chain, health and safety and human rights. Environmental and social characteristics are analysed by Fidelity's fundamental analysts and rated through Fidelity Sustainability Ratings. Fidelity Sustainability Ratings is a proprietary rating system developed by Fidelity's research analysts to assess individual issuers.
- In selecting securities for the fund, several factors are considered in the investment process; for example, consideration may include, but is not limited to, a company's financials, including revenue and profit growth, return on capital, cash flows and other financial measures. In addition, company management, industry and economic environment, and other factors may be considered in the investment process.
- The fund is actively managed and references the MSCI ACWI Index (the "Index") for performance comparison only. Shareholders' attention is drawn to the fact that the Index is not an index which integrates environmental and social considerations.
- The Investment Manager may invest in any country and in any currency and is not restricted in its choice of companies either by size or industry.
- The fund may also seek exposure of up to 20% of its net assets to closed-ended real estate investment trusts (REITs). The dividend or payout policy of the underlying closed-ended REITs is not representative of the dividend or payout policy of this fund.
- The closed-ended REITs that the fund may invest in may not be authorised by the Securities and Futures Commission in Hong Kong.
- The fund will invest less than 30% of its net assets directly and/or indirectly in onshore China A and B Shares on an aggregated basis. The fund can directly invest in China A Shares through the Qualified Foreign Institutional Investor ("QFII") status of FIL Investment Management (Hong Kong) Limited or through any permissible means available to the fund under prevailing laws and regulations (including through the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect programmes (collectively, "Stock Connect") or any other eligible means).
- The fund may invest in assets directly or achieve exposure indirectly through other eligible means including financial derivative instruments ("**derivatives**"). Such derivatives may include over-the-counter and/or exchange traded instruments such as futures, contracts for difference, equity swaps, options such as puts, calls and warrants, forwards, non-deliverable forwards and currency swaps. The fund may use derivatives with the aim of risk or cost reduction or to generate additional capital or income (including for investment purposes), in line with the risk profile of the fund.
- The fund will not invest more than 10% of their net asset value in securities issued by or guaranteed by any single country (including its government, a public or local authority of that country) with a credit rating below investment grade.
- The fund will not engage extensively in securities lending, repurchase and reverse repurchase transactions.

Use of derivatives/investment in derivatives

The fund's net derivative exposure may be up to 50% of its net asset value.

What are the key risks?

Investment involves risks. Please refer to the Hong Kong Prospectus for details including the risk factors.

Risk to Capital and Income (Investment Risk)

- The assets of the fund are subject to fluctuations in value. There is no guarantee of repayment of principal and you may not get back the original amount invested. Past performance is no guarantee of future performance.

Equities

- The fund's investment in equities securities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events including changes in investment sentiment, political and economic conditions and issuer-specific factors.

Thematic Focus Risk

- The fund's investments in specific themes may not achieve the desired results under all circumstances and market conditions. As the fund may invest in multiple themes, the investments may be rebalanced among different themes from time to time depending on the market conditions of the respective themes, and therefore the fund may incur greater transaction costs. Investors should note that the thematic investment approach adopted may result in the fund being more volatile than a fund which invests in more diversified types of investments.

* ESG means environment (E), social (S) and governance (G)

Eurozone Risk

- In light of ongoing concerns on the sovereign debt risk of certain countries within the Eurozone, the fund's investments in the region may be subject to higher volatility, liquidity, currency and default risks. Any adverse events, such as credit downgrade of a sovereign or exit of EU members from the Eurozone, may have a negative impact on the value of the fund.

Sustainable Investing

- The use of ESG criteria may affect the fund's investment performance and may result in a return that at times compares unfavourably to similar products without such focus. Sustainable characteristics used in the fund's investment policy may result in the fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so and/or selling securities due to their sustainable characteristics when it might be disadvantaged to do so. As such, the application of ESG criteria may restrict the ability of the fund to acquire or dispose of its investments at a price and time that it wishes to do so, and may therefore result in a loss to the fund.
- The securities held by the fund may be subject to style drift which no longer meet the fund's ESG criteria after its investments. The Investment Manager may need to dispose of such securities when it might be disadvantageous to do so. This may lead to a fall in the value of the fund.
- The use of ESG criteria may also result in the fund being concentrated in companies with ESG focus and its value may be volatile than that of fund having a more diverse portfolio of investments.
- There is a lack of standardised taxonomy of ESG evaluation methodology and the way in which different ESG funds will apply ESG criteria may vary, as there are not yet commonly agreed principles and metrics for assessing the sustainable characteristics of investments of ESG funds.
- The information and data sources provided by internal research teams and complemented by external ESG rating providers for evaluating sustainable characteristics of the securities may be incomplete, inaccurate or unavailable. As a result, there is a risk that the Investment Manager may incorrectly assess a security or issuer.
- Evaluation of sustainable characteristics of the securities and selection of securities may involve the Investment Manager's subjective judgment. As a result, there is a risk that the relevant sustainable characteristics may not be applied correctly or that the fund could have indirect exposure to issuers who do not meet the relevant sustainable characteristics, and sustainable characteristics of a security can change over time.

Foreign Currency Risk

- The fund's assets may be denominated in currencies other than the base currency of the fund. Also, a class of shares may be designated in a currency other than the base currency of the fund. Fluctuations in the exchange rates between these currencies and the base currency as well as changes in exchange rate controls may adversely affect the fund's net asset value.

Financial Derivative Instruments

- The fund's net derivative exposure may be up to 50% of its net asset value. The use of derivatives may give rise to liquidity risk, counterparty credit risk, volatility risk, valuations risks and over-the-counter transaction risk at times. The leverage element/component of a derivative can result in a loss significantly greater than the amount invested in the financial derivative instrument by the fund. Exposure to financial derivative instruments may lead to a high risk of significant loss by the fund.

How has the fund performed?

On 7 November 2016, Fidelity Funds - MoneyBuilder Global Fund (non SFC-authorised) merged into Fidelity Funds - International Fund, which was renamed as Fidelity Funds - Global Thematic Opportunities Fund with effect from 10 March 2021.

The performance during the years prior to 2021 was achieved under circumstances that may no longer apply as the investment objective was changed in 2021.

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.
- These figures show by how much the Class A-USD increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding any subscription fees and redemption fees you might have to pay.
- Fund launch date: 1991
- Class A-USD launch date: 1991
- Class A-USD is selected as the most appropriate representative share class as it has the longest track record and is denominated in the fund's reference currency.
- The benchmark is the MSCI ACWI Index.

使用衍生工具／投資於衍生工具

本基金有哪些主要風險？

投資涉及風險。有關詳情（包括風險因素）請參閱香港認購章程。

資本及收益的風險（投資風險）

- 基金的資產須承受價值波動。恕不保證閣下可獲償還本金。閣下可能無法收回最初的投資金額。基金過去的表現並非未來業績的保證。

股票

- 基金的股本證券投資可能受個別公司的活動和業績，或一般市場和經濟狀況或其他事件（包括投資情緒、政治和經濟狀況改變，以及特定發行機構因素）影響而反覆波動，而且波幅有時可能十分顯著。

焦點主題風險

- 基金在特定主題的投資可能無法在所有情況及市況下均取得預期的成果。由於基金可能投資於多個主題，因此可能會不時在不同主題之間重整投資，視乎各個主題的市況而定，基金可能會因而產生較高的交易成本。投資者應注意，採取主題投資方針可能導致基金的波幅高於分散投資在不同類型投資項目的基金。

歐元區風險

- 鑑於歐元區若干國家的主權債務風險持續令人憂慮，基金在該地區的投資可能須承受較高的波幅、流動性、貨幣及違約風險。任何不利事件，例如主權信貸評級下調或歐盟成員國退出歐元區，均可能對基金的價值造成負面影響。

可持續發展投資

- 使用ESG準則可能會影響基金的投資表現，並可能導致回報有時遜於不設該焦點的類似產品。基金的投資政策所採用的可持續發展特徵，可能會導致基金錯失良機，未能買入若干有望造好的證券，及／或基於證券的可持續發展特徵而被迫在不利時機出售證券。因此，ESG準則的應用可能會限制基金按照其屬意的價格和時間購入或出售其投資的能力，因此可能導致基金蒙受損失。
- 基金作出投資後，所持證券的風格可能改變，不再符合基金的ESG準則。投資經理可能被迫在不利時機出售該等證券，導致基金的價值下跌。
- 使用ESG準則亦可能導致基金集中投資於專注ESG的公司，而其價值可能會比具有更多元化投資組合的基金價值波動。
- 由於並無公認的原則和指標以評估ESG基金投資項目的可持續發展特徵，因此ESG評估方法缺乏標準化的分類法，不同ESG基金採用ESG準則的方式可能有所不同。
- 利用由內部研究團隊提供並配合外部ESG評級供應商的資料及數據來源，以評估證券的可持續發展特徵，這些資料及數據來源可能不完整、不準確或未能提供，因此會構成投資經理可能對證券或發行機構作出錯誤評估的風險。
- 評估證券的可持續發展特徵及證券選擇可能涉及投資經理的主觀判斷。因此，存在可能無法正確應用相關的可持續發展特徵，或基金可能間接投資於不符合相關可持續發展特徵的發行機構的風險，而且證券的可持續發展特徵可隨時間而改變。

外幣風險

- 基金的資產可能以非基本貨幣計算。此外，基金的某類別股份可能指定以非基本貨幣計值。這些貨幣與基本貨幣之間的匯率波動，以及外匯管制變動可能會對基金的資產淨值造成負面影響。

金融衍生工具

- 基金的衍生工具風險承擔淨額最高為其資產淨值的50%。偶爾使用衍生工具可能會引發流動性風險、交易對手信貸風險、波幅風險、估值風險及場外交易市場交易風險。衍生工具的槓桿元素／成份可能導致基金所蒙受的損失顯著高於其投資於該金融衍生工具的金額。投資於金融衍生工具可能導致基金須承受錄得重大損失的高風險。

本基金過往的業績表現如何？

富達基金 - MoneyBuilder環球基金 (非證監會認可) 已於2016年11月7日併入富達基金 - 國際基金 (由2021年3月10日起，該基金已改名為富達基金 - 環球主題機遇基金)。

2021年之前的各年業績表現是於不再適用的情況下達到，因投資目標已於2021年作出修訂。

- 往績並非預測日後業績表現的指標。投資者未必能取回全部投資本金。
- 基金業績表現以曆年末的資產淨值作為比較基礎，股息會滾存再作投資。
- 有關數據顯示A類別股份 - 美元在有關曆年內的價值升跌幅度。業績表現以美元計算，當中反映出持續費用，但不包括閣下可能須支付的認購費和贖回費。
- 基金推出日期：1991年
- A類別股份 - 美元推出日期：1991年
- A類別股份 - 美元獲選為最適合的股份類別代表，因其擁有最長過往紀錄及以基金報價貨幣計值。
