Release date **7.2.2024**

WHAT IS THIS PRODUCT?

Type: This product is a sub-fund of Mandatum SICAV-UCITS, an investment company with variable share capital with multiple funds and governed by the Luxembourg Law of December 17, 2010. The fund's depositary is CACEIS Investor & Treasury Services. The fund's prospectus and financial reports in English, and unit class prices, are available free of charge at www.mandatumam.com/ucits.

Term: The fund has no expiration date. The fund may, at its discretion, decide to terminate the fund or its series. The recommended investment period is at least 3 years and it is based on the fund's risk indicator and investment strategy.

Objective: The Fund invests mainly in the Nordic corporate bond markets. The Fund seeks long-term returns that exceed typical returns for medium term fixed income investments. The Fund's assets are mainly invested in bonds that have no credit rating or have a credit rating of no more than BB+ (Standard & Poor's) or Ba1 (Moody's) or BB+ (Fitch). The Fund is actively managed, but does not have a benchmark index. The investment manager integrates environmental, social and governance (ESG) criteria factors as a core element of its strategy. The fund is categorized as Article 8 of the SFDR product category.

Intended Retail Investor: The fund suits investors who seek a return higher than that typical of conventional fixed-income investments and accepts the risk typically associated with high-yield bonds. The fund's recommended holding period is at least 3 years.

WHAT ARE THE RISKS & WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for at least 3 year(s). This product has no maturity date.

We have classified this product as 2 out of 7, which is a low risk class. The actual risk can vary considerably if you redeem your investment earlier. Be aware of currency risk. If your currency is different from the currency of the fund, the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator

shown above. Other significant risks that are not reflected in the aforementioned risk indicator are liquidity risk and credit risk. The Fund's return risk and capital risk are typical of equity markets. Return risk and capital risk mean that the investor may lose the capital that they have invested as well as the returns in part or in full.

The risk-reward profile and risk category of the fund are subject to change. Not even the lowest risk category means that the investment is completely risk-free. This product does not include any protection against future market developments, therefore you may lose some or all of your investment.

WHAT ARE THE RISKS & WHAT COULD I GET IN RETURN? (CONTINUED)

Performance Scenarios

The return the investor receives will vary depending on how the market performs. The future market performance is uncertain and cannot be accurately predicted.

The unfavorable, moderate, and favorable outlooks presented are examples using the product's own history and, for the missing part, the worst, average and best returns of the appropriate benchmark over the past 10 years. The market may develop in very different ways in the future.

Recommended Holding Period: 3 years

Investment = €10,000

Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum		There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	€7,360	€7,840
	Average return each year	-26.40%	-7.81%
Unfavourable	What you might get back after costs	€8,410	€9,110
	Average return each year	-15.94%	-3.06%
Moderate	What you might get back after costs	€10,200	€10,580
	Average return each year	1.96%	1.88%
Favourable	What you might get back after costs	€12,260	€12,610
	Average return each year	22.56%	8.12%

The table according to the PRIIPS regulation shows the estimation for what is the value of your investment after costs over the next 3 years under different scenarios, assuming that you invest 10,000.00 €. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. **The figures do not take into account your personal tax situation, which may also affect how much you get back.**

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment or a benchmark between March 2017 and April 2020.

The moderate scenario occurred for an investment or a benchmark between November 2019 and November 2022.

The favourable scenario occurred for an investment or a benchmark between March 2016 and March 2019.

WHAT HAPPENS IF MANDATUM FUND MANAGEMENT S.A. IS UNABLE TO PAY OUT?

The assets of the investment fund are kept in its depositary. The insolvency of the fund company does not affect the fund's assets kept by the depositary, but in the event of insolvency of the depositary or the entity acting on its behalf, the fund may suffer a financial loss. This loss is not covered by any investor compensation or guarantee system. However, the risk is reduced to some extent by the fact that the depositary is legally required to keep its own assets separate from the investment fund's assets. The depositary is also, with certain limitations, responsible for the losses incurred by the fund and the unit owners, which are caused by the depositary's negligence, fraud or willful neglect of duties.

WHAT ARE THE COSTS?

The tables show the amounts that are used to cover different types of costs. These amounts depend on the amount of the investment and the duration of the investment period. The amounts presented here are estimates based on the investment amount and different possible investment periods. The assumption is that in the first year the investor would get back the amount they invested (0% annual return). With regard to other investment periods, the assumption is that the investor will receive a return on the product in accordance with a reasonable outlook. Investment 10,000 euros per year.

Table I: Costs over time

	If you exit after 1 year	If you exit after 3 years
Total costs	€110	€360
Annual cost impact (*)	1.10% each year	1.13% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.0% before costs and 1.9% after costs.

Table 2: Composition of costs

One-off costs		If you exit after 1 year
Entry costs	We do not charge an entry fee	€0
Exit costs	We do not charge an exit fee for this product.	€0
Ongoing costs		
Management fees and other administrative or operating costs	1.07% of the value of your investment per year. The figure includes the fund's management fee of 1.00%. This is an estimate based on actual costs over the last year or on estimated costs, if the fund/share series is recently issued.	€107
Transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. The sub-fund applies swing pricing if the sub-fund experiences subscriptions/redemptions above a pre-defined level (the "swing threshold") on a particular dealing day.	€3
Incidental costs		
Performance fees and/or Carried interests	There is no performance-based fee related with this product.	€0

HOW LONG SHOULD I HOLD AND CAN I TAKE MONEY OUT EARLY?

There is no minimum investment period in this fund, but it is intended as a long-term investment. The recommended investment period is 3 years. Investors can subscribe and redeem the fund's shares on days that are banking days in both Luxembourg and Finland.
