

Principal Prosperity Series - Principal Asia Pacific High Dividend Equity Fund

Overall Morningstar Rating™ **★★★★★**

As of 31/8/2020

Important Notes:

1. The Principal Asia Pacific High Dividend Equity Fund ("Fund") will invest in a diversified portfolio of listed securities in the Asia Pacific region, including but not limited to the following countries: Australia, China, Hong Kong, Indonesia, Malaysia, New Zealand, Philippines, Singapore, South Korea, Taiwan and Thailand. Principal Asset Management Company (Asia) Limited ("Manager") will focus on companies which demonstrate strong corporate fundamentals and offer the potential for superior dividend yields. The Fund may also on an ancillary basis from time to time hold cash, deposits and instruments with floating or fixed rates such as certificates of deposits, bankers' acceptances and commercial paper.
2. The Fund invests in equities located in developed markets and in emerging markets. Such investments carry market, credit, liquidity, currency, regulatory and other associated risks that can cause portfolio values to be very volatile.
3. For Income Class Units of the Fund, dividend is not guaranteed. The Manager may at its discretion pay dividend out of gross income while paying all or part of the fees and expenses attributable to the Income Class Units out of the capital of such Units, resulting in an increase in distributable income for the payment of dividends by the Income Class Units and therefore, the Sub-Fund may effectively pay dividend paid out of capital. Payment of dividend effectively out of capital amounts to a return or withdrawal of part of the investor's original investment in the Income Class Units or from any capital gains attributable to that original investment. Any distributions involving payment of dividends effectively out of the capital of the Income Class Units may result in an immediate reduction of its net asset value per Unit.
4. Investment involves risk. There is no assurance on investment returns and you may not get back the amount originally invested.
5. The investment decision is yours and you should not invest in this Fund unless the intermediary who sells it to you has advised you that it is suitable for you and explained how it is consistent with your investment objectives.
6. You should not rely solely on this marketing material when making your investment decision. You should read the Explanatory Memorandum of Principal Prosperity Series for further details (including investment policy, risk factors, fees and charges, and fund information).

Investment Objective

To achieve high current income and capital appreciation through investing in a diversified portfolio of listed securities in the Asia Pacific region.
