# **CT Diversified Monthly Income Fund**

#### **Share Class C Inc**

Fund manager Simon Holmes

## Fund objective and policy

The Fund aims to provide a monthly income with the potential for capital growth over the long term (at least 5 years). The Fund is actively managed. It is not constrained by its comparator benchmark, the IA Mixed Investments 0-35% Shares sector median, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund invests at least 60%, directly or indirectly, in fixed interest securities. It also invests in dividend bearing equities, generally with an above average dividend yield and alternative investments. In selecting fixed interest and equity securities the Manager seeks to achieve a wide degree of diversification across issuers, regions, and industry sectors.

#### **Risk warning**

The value of your investments and any income from them can go down as well as up and you may not get back the original amount invested. Charges are taken from the capital of the fund, which will restrict capital growth potential. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

#### Glossary

Active Engagement Report We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
