

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# FISCH CONVERTIBLE GLOBAL IG FUND

## CLASS LE2 (EUR) LU2272748166

Competent authority: COMMISSION DE SURVEILLANCE DU SECTEUR FINANCIER

A SUBFUND OF THE FISCH UMBRELLA FUND MANAGED BY FISCH FUND SERVICES AG

## Objectives and investment policy

The subfund is managed actively and invests worldwide, mainly in convertible bonds and other convertible securities issued by government and corporate issuers. The investment objective of the subfund is capital growth of the investments. The subfund pursues a defensive strategy. Compared with an opportunistic strategy, a defensive strategy accepts less risk and so usually achieves a lower return.

The subfund invests up to 10% of its assets in equities.

Up to 10% of its assets may be invested in instruments that are not traded on a regulated market. Up to 10% of its assets may be invested in high-yield convertible bonds.

The subfund may use derivatives for efficient portfolio management and for hedging purposes.

The portfolio manager may, at their discretion, make investments for the subfund within the predetermined investment guidelines. The subfund uses the benchmark Refinitiv Convertible Bond Index - Global Inv. Grade EUR for performance comparison. A portion of the subfund's investments will correspond to the components of the benchmark. However, the portfolio manager may, at its discretion, invest in securities which are not included in the relevant benchmark. The risk and reward profile of the subfund is comparable to that of the benchmark.

Otherwise the standard investment guidelines according to UCITS V apply.

### Additional relevant features of the fund

Units of the subfund may be redeemed on any bank business day in Luxembourg. The costs of purchasing and selling securities are borne by the subfund. They are incurred in addition to the fees listed under Charges and have a negative influence on the return.

Income is distributed once a year.

Recommendation: This subfund may not be suitable for investors who want to withdraw their money from the subfund within a period of three years.

## Risk and reward profile

The above indicator shows the subfund's risk and reward features and fluctuations in value in the past.

The risk indicator was established on the basis of historical data and is not an indication of the subfund's current or future performance.

Classification in a risk category is not guaranteed and may change over time.

The lowest category should not be equated with a risk-free investment.

The subfund may generate losses and offers no capital guarantee.

### Reasons for placing the fund in this category

The subfund is subject to moderate price fluctuations owing to its defensive investment policy. The subfund takes moderate risks and therefore has a lower income potential.

### The following risks may be significant even if they do not have a direct impact on this categorisation

**Credit risk:** The subfund may invest in bonds. Their issuers may become insolvent.

**Liquidity risk:** The subfund's investments may achieve a lower liquidity level, which may have an impact on the subfund's liquidity.

**Counterparty risk:** If a contracting party becomes insolvent, it may not – or only partially – settle the subfund's outstanding claims.

**Operational risks and custody risks:** The subfund may be exposed to material losses owing to human error, system breakdowns, defective processes or external events. Custody of assets may involve a risk of loss, which can result from insolvency or breaches of the custodian's duty to use proper care.

**Risks inherent in the use of derivatives:** The subfund may use derivatives. The increased opportunities thereby attained involve increased risks of losses.

**Interest rate risk:** As a matter of principle, rising interest rates have a negative influence on the performance of the subfund.

**ESG risk:** The application of ESG criteria may lead to securities being excluded from the subfund or under- or overweighted versus the benchmark; this may result in lower returns in favour of a responsible investment approach.

## Charges

The fees are used to ensure the administration of the subfund, including sales and marketing. These charges reduce the investors' income.

One-off charges taken before or after you invest	
Entry charges (in favour of marketing)	up to 3.00%
Exit charges (in favour of marketing)	none
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.50%
Charges taken from the fund under certain specific conditions	
Performance fee	none

The entry charges indicated are maximum values. Investors can obtain details of the exact fees from their investment adviser or the distributor.

The ongoing charges are an estimate based on the charges stated in the sales prospectus and the articles of association.

You can obtain further information on the charges from the unabridged prospectus. The prospectus can be obtained on the [www.fischfundservices.lu](http://www.fischfundservices.lu) und [www.fundinfo.com](http://www.fundinfo.com) websites.
