GENERAL INFORMATION

Heptagon Fund ICAV (the "ICAV") was registered by the Central Bank of Ireland (the "Central Bank") on 1 October 2021 pursuant to the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") as an openended umbrella type Irish Collective Asset-management Vehicle Ireland with registration number C67289. The ICAV was formerly known as Heptagon Fund Plc and it changed its legal structure to an Irish Collective Assetmanagement Vehicle. The ICAV is organised in the form of an umbrella fund with variable capital and segregated liability between its sub-funds (the "Sub-Funds").

The ICAV was originally authorised in Ireland by the Central Bank, as an investment company pursuant to Part XIII of the Companies Act 1990 on 19 December 2007, to market solely to "Professional Investors". The ICAV was established as a variable capital company on 11 November 2010 under Irish Law but on 1 October 2021 was converted to an Irish Collective Asset-management Vehicle by resolution of the Shareholders. The ICAV is authorised and regulated in Ireland by the Central Bank as an Undertakings for Collective Investment in Transferable Securities (the "UCITS") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The ICAV is structured in the form of an umbrella fund consisting of different sub-funds comprising one or more classes. The shares of each class rank pari passu with each other in all respects provided that they may differ as to certain matters including currency denomination, hedging strategies, if any, applied to the currency of a particular class, dividend policy, the level of fees and expenses to be charged, subscription or redemption procedures or the minimum subscription and minimum holding applicable. The shares of each class established in a sub-fund are specified in the relevant supplement.

The Sub-Funds are set out below:

- Yacktman US Equity Fund ("Yacktman")
- Driehaus Emerging Markets Sustainable Equity Fund ("Driehaus Emerging")
- Kopernik Global All-Cap Equity Fund ("Kopernik")
- Harvest China A Shares Equity Fund ("Harvest China")⁽¹⁾
- Heptagon European Focus Equity Fund ("European Focus")
- Heptagon Future Trends Equity Fund ("Future Trends")
- Heptagon Future Trends Hedged Fund ("Future Trends Hedged")
- Driehaus US Micro Cap Equity Fund ("Driehaus Micro")
- WCM Global Equity Fund ("WCM Global")
- Heptagon Listed Private Assets Fund ("Listed Private Assets")
- Heptagon Kettle Hill US L/S Equity Fund ("Kettle Hill")
- Driehaus US Small Cap Equity Fund ("Driehaus Small")
- Summit Sustainable Opportunities L/S Equity Fund ("Summit Sustainable Opportunities")⁽²⁾
- Easterly US Value Equity Fund ("Easterly")⁽³⁾
- Qblue Global Sustainable Leaders Fund ("Qblue")

⁽¹⁾ The Sub-Fund entered into liquidation on 17 April 2020 but the Central Bank has not withdrawn its approval yet.

⁽²⁾ The Sub-Fund entered into liquidation subsequent to the financial year end, on 9 October 2023.

⁽³⁾ The Sub-Fund entered into liquidation on 21 August 2023 but the Central Bank has not withdrawn its approval yet.

The assets of each Sub-Fund are invested separately in accordance with the investment objectives and policies of that Sub-Fund.

The functional currency of Yacktman, Driehaus Emerging, Kopernik, Harvest China, Future Trends, Future Trends, Hedged, Driehaus Micro, WCM Global, Listed Private Assets, Kettle Hill, Driehaus Small, Summit Sustainable Opportunities, Easterly and Qblue is US Dollar ("US\$"). The functional currency of European Focus is Euro ("EUR").

Pricing

There is a single price for buying, selling and switching shares for each Sub-Fund. This is represented by the Net Asset Value. The Directors may deduct a fair sum in respect of repurchase requests which necessitate any Sub-Fund breaking deposits at a penalty or realising investments at a discount in order to realise assets to provide monies to meet such a repurchase.

GENERAL INFORMATION (CONTINUED)

Dividend policy

The income and earnings and gains of classes which are accumulating classes will be accumulated and reinvested on behalf of the shareholders. It is not currently intended to distribute dividends to shareholders in these classes.

Where profits are available, it is the Directors' current intention to declare and distribute to shareholders the income, earnings and gains of classes which are distributing classes.

Shareholders should note that for distributing Share Classes, dividends may be payable out of the capital of the Sub-Fund. As a result, capital will be eroded and distributions will be achieved by foregoing the potential for future capital growth and this cycle may continue until all capital is depleted.

Dealing day

The dealing day for all the Sub-Funds is every business day or such other day or days as may be determined by the Directors and notified to shareholders in advance, provided there shall be at least one dealing day per fortnight.

The dealing day for Listed Private Assets up to 23 February 2022 was every Friday or next available business day if Friday was not a business day and any other day or days as may have been determined by the Directors and notified to shareholders in advance, provided there shall be at least one dealing day per fortnight. From 24 February 2022, the dealing day for Listed Private Assets is every business day or such other day or days as may be determined by the Directors and notified to shareholders in advance, provided there shall be at least one dealing day or days as may be determined by the Directors and notified to shareholders in advance, provided there shall be at least one dealing day per fortnight.

Shares in issue

Shares are issued to investors as shares of a class in these Sub-Funds. The Directors may, whether on the establishment of these Sub-Funds or from time to time, with prior notification to and clearance by the Central Bank, create more than one class of shares in these Sub-Funds. The Directors may in their absolute discretion differentiate between classes of shares, without limitation, as to currency denomination of a particular class, dividend policy, hedging strategies, if any, applied to the designated currency of a particular class, fees and expenses, subscription or redemption procedures or the minimum subscription or minimum holding applicable.

The ICAV had in issue the following share classes in each of the Sub-Funds at the financial year end:

Sub-Fund	Share Class	Currency	Launch Date	Hedged
<u>Yacktman</u>				
	Class A US\$	US\$	31 December 2011	_

Significant events during the financial year

When the unfortunate events began to unfold at the end of February 2022 due to the Russian invasion of Ukraine, the Investment Manager together with the ICAV's Board began processing all the information, articles and opinions that were circulating at the time since Kopernik holds Russian investments. There were many reports on asset managers writing down Russian securities which were discussed with the Sub-Investment Manager, Kopernik Global Investors LLC. The Investment Manager, the ICAV's Board, the Manager as well as the Depositary felt that a conservative approach should be taken in the valuation of the Russian securities in Kopernik.

There are a total of 10 Russian investments in the portfolio as at 30 September 2023 and 30 September 2022; 3 of which are GDR's and 7 are common stocks. Due to the 100% write down, exposure to Russian assets is nil. Should there be a time when the sanctions on Russia and Russian equities are lifted allowing them to be freely traded and priced on exchanges, it could be the case that the ICAV's Board in discussions with the Investment Manager and the Manager, may decide to use the market price when valuing the securities once again. A shareholder notification was circulated to the shareholders of the Sub-Fund regarding the valuation of Russian securities.

The Prospectus of the ICAV and new Supplements to the Prospectus of the ICAV for all Sub-Funds except for Harvest China were noted by the Central Bank on 1 December 2022 in order to address Sustainable Finance Disclosure Regulation (the "SFDR") requirements.

The new Supplement to the Prospectus of the ICAV for Qblue was noted by the Central Bank on 16 June 2023 in order to reflect details of new Class of Shares - Class SSEK SEK.

The latest Supplement to the Prospectus of the ICAV for WCM Global was noted by the Central Bank on 12 July 2023 in order to reflect details of new Classes of Shares - Class CGH GBP, Class CSG SGD, Class XG GBP and Class Y3 US\$.

GENERAL INFORMATION (CONTINUED)

Significant events during the financial year (continued)

The latest Supplement to the Prospectus of the ICAV for Driehaus Emerging was noted by the Central Bank on 4 August 2023 in order to consider Principle Adverse Impact indicators and reflect details of new Classes of Shares - Class M US\$, Class X US\$ and Class XED EUR.

Easterly entered into liquidation with the full redemption of shares on 21 August 2023 according to the intention of the Investment Manager and the Sub-Investment Manager.

The new Supplement to the Prospectus of the ICAV for Driehaus Small was noted by the Central Bank on 25 September 2023 in order to re-categorise the Sub-Fund from an Article 6 to an Article 8 fund under the SFDR. Additionally, the Sub-Fund now considers sustainability performance against four Principle Adverse Impact indicators.

New Classes of Shares have been launched for Yacktman, Driehaus Emerging, Future Trends, WCM Global, Driehaus Small and Qblue. Details of these Classes of Shares are provided in the Statement of Financial Position on pages 80 to 89.

DIRECTORS' REPORT

The Board of Directors (the "Directors") present their report and audited financial statements for the financial year ended 30 September 2023.

Principal activities

There were no other significant events subsequent to the financial year end, up to the date the financial statements were approved, that would impact these financial statements.

Directors

The Directors who held office during the financial year are listed on page 2. Directors' interests are outlined in note 8 and note 15 of the financial statements.

DIRECTORS' REPORT (CONTINUED)

Connected Persons

The Central Bank UCITS Regulation 41(1) "Restrictions on transactions with connected persons" states that, inter alia, any transaction carried out with a UCITS by the management company or depositary; and the delegates or subdelegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders.

The Directors of the Manager are satisfied that: (i) there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the Central Bank UCITS Regulation 41(1) are applied to all transactions with connected persons; and (ii) transactions with connected persons entered into during the financial period complied with the obligations set out in the Central Bank UCITS Regulation 41(1).

Transactions Involving Directors

In respect of the year, the Directors are not aware of any contracts or arrangements of any significance in relation to the business of the ICAV in which the Directors or their connected persons had any interest as defined by the ICAV Act, other than those disclosed in note 15 to these financial statements.

Performance of the Business, principle activities and future developments

Please refer to the Investment Manager's Reports for details.

Results for the financial year and assets, liabilities and financial position as at 30 September 2023

The Statement of Financial Position as at 30 September 2023 and the Statement of Comprehensive Income for the financial year ended 30 September 2023 are set out on pages 75 to 114.

Risk management objectives and policies

Risks arising from the ICAV's investment activities include those of market price, foreign exchange, interest rate, liquidity and credit risks. Details on these risks and how they are monitored, and where possible, managed by the ICAV may be found in note 13.

Dividends

Details of dividends declared and paid during the financial year ended 30 September 2023 are disclosed in note 18 of the financial statements.

Statement of Directors' responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations. The Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") as amended requires the Directors to prepare financial statements for each financial period which give a true and fair view of the ICAV's assets, liabilities and financial position as at the end of the financial period and the profit or loss of the Fund for the financial period. The Directors have elected to prepare the financial statements in accordance with applicable Irish law and International Financial Reporting Standards, as adopted by the European Union ("IFRS").

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;

- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards;
- assess the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

DIRECTORS' REPORT (CONTINUED)

Statement of Directors' responsibilities (continued)

The Directors are responsible for ensuring that the ICAV keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the ICAV, enable, at any time, the assets, liabilities, financial position and profit or loss of the ICAV to be determined with reasonable accuracy, enable the Directors to ensure that the financial statements are prepared in accordance with IFRS as adopted by the European Union, comply with European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"), and enable the financial statements to be audited. They are responsible for safeguarding the assets of the ICAV and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the ICAV's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Under the UCITS Regulations, the Directors are required to entrust the assets of the ICAV to a Depositary for safekeeping. In carrying out this duty, the ICAV has declared custody of the ICAV's assets to Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary").

Statement of Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- as far as they are aware, there is no relevant audit information of which the ICAV's auditor is unaware; and
- they have taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the ICAV's auditor is aware of that information.

Accounting records

The measures which the Directors have taken to ensure that adequate accounting records are kept, are the adoption of suitable policies for recording transactions, assets and liabilities, the employment of appropriate qualified staff and the use of computer and documentary systems.

The ICAV's accounting records are retained at Brown Brothers Harriman Fund Administration Services (Ireland) Limited, 30 Herbert Street, Dublin 2 and at Simmons & Simmons Corporate Services Limited, Waterways House – 3rd Floor, Grand Canal Quay, Dublin 2.

Independent Auditors

The auditors, Grant Thornton, have expressed their willingness to continue in office and therefore were reappointed in accordance with Section 125 of the ICAV Act.

Corporate Governance Statement

The ICAV is subject to corporate governance practices imposed by:

- (i) The Irish Collective Asset-management Vehicles Act 2015 which is available for inspection at the registered office of the ICAV at Waterways House 3rd Floor, Grand Canal Quay, Dublin 2, Ireland and may also be obtained at: <u>https://www.irishstatutebook.ie/eli/2015/act/2/enacted/en/html</u>.
- (ii) The Instrument of Incorporation of the ICAV which are available for inspection at the registered office of the Facilities Agent and at the ICAV's Registered Office in Ireland.
- (iii) The Central Bank UCITS Regulations 2011, as amended.
- (iv) The Central Bank of Ireland in its UCITS Regulations which can be obtained from the Central Bank's website at: <u>https://www.centralbank.ie/regulation/industry-market-sectors/funds</u> and are available for inspection at the registered office of the ICAV.
- (v) The Irish Funds Corporate Governance Code for Collective Investment Schemes and Management Companies, which the ICAV fully adopted on 7 December 2012.

DIRECTORS' REPORT (CONTINUED)

Corporate Governance Statement (continued)

Financial reporting process

The Directors have established processes regarding internal control and risk management systems to ensure its effective oversight of the financial reporting process. These include appointing Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") to maintain the accounting records of the ICAV independently of the Investment Manager and the Depositary. The Administrator is contractually obliged to maintain proper books and records as required by the Administration Agreement under which it is appointed. To that end the Administrator performs regular reconciliations of its records to those of the Depositary.

The ICAV has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and semi-annual financial statements. The annual and semi-annual financial statements are required to be approved by the Directors and filed with the Central Bank.

The accounting information given in the annual report is required to be audited by one or more persons empowered to audit accounts in accordance with the ICAV Act, who as best practice also attend the board meetings of the ICAV, at which the annual financial statements are considered, to report on the audit process and to answer any questions which may arise in connection with the audit. The auditor's report, including any qualifications, is reproduced in full in the annual financial statements.

Shareholders' meetings

The convening and conduct of Shareholders' meetings are governed by the Instrument of Incorporation of the ICAV and the ICAV Act. Although the Directors may convene an extraordinary general meeting of the ICAV at any time, the Directors are required to convene an annual general meeting of the ICAV within eighteen months of registration, and within fifteen months of the date of the previous annual general meeting thereafter. Shareholders representing not less than one-tenth of the paid up share capital of the ICAV may also request the Directors to convene a Shareholders' meeting.

Not less than twenty one days notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and seven days notice must be given in the case of any other general meeting unless the auditors of the ICAV and all the Shareholders of the ICAV entitled to attend and vote, agree to shorter notice. Two members of the ICAV present, either in person or by proxy, constitute a quorum at a general meeting provided that the quorum for a general meeting convened to consider any alteration to the class rights of shares is two Shareholders holding, or representing by proxy, at least one third of the issued shares of the relevant Sub-Fund or share class.

Every holder of participating shares or non-participating shares present in person or by proxy who votes on a show of hands is entitled to one vote. The chairman of a general meeting of a Sub-Fund or any shareholder of a Sub-Fund or share class present in person or by proxy at a meeting of a Sub-Fund may demand a poll.

The chairman of a general meeting of the ICAV or at least two members present in person or by proxy or any holder or holders of participating shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll. On a poll, every holder of participating shares present in person or by proxy is entitled to one vote in respect of each share held by him and every holder of non-participating shares is entitled to one vote in respect of all non-participating shares held by him.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a Shareholders' meeting. An ordinary resolution of the ICAV or of the Shareholders of a particular Sub-Fund or class requires a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the ICAV or of the Shareholders of a particular Sub-Fund or class requires a majority of not less than 75% of the Shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Instrument of Incorporation.

HEPTAGON FUND ICAV ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS For the financial year ended 30 September 2023

DIRECTORS' REPORT (CONTINUED)

Corporate Governance Statement (continued)

Composition and operation of the Board of Directors

Unless otherwise determined by an ordinary resolution of the ICAV in general meeting, the number of Directors may not be less than two nor more than nine. Currently the Board of the ICAV is composed of three Directors, being those listed in the directory on page 2 of these financial statements.

The business of the ICAV is managed by the Directors, who exercise all such powers of the ICAV as are not, by the ICAV Act or by the Instrument of Incorporation of the ICAV, required to be exercised by the ICAV in general meeting.

There are no committees of the Board of Directors.

Approved on behalf of the Board of Directors by:

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Heptagon Fund ICAV (the "ICAV") for the financial year ended 30 September 2023, in our capacity as Depositary to the ICAV.

This report including the opinion has been prepared for and solely for the shareholders in the ICAV as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the "UCITS Regulations"), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the ICAV in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the ICAV has been managed in that financial period in accordance with the provisions of the ICAV's Instrument of Incorporation and the UCITS Regulations. It is the overall responsibility of the ICAV to comply with these provisions. If the ICAV has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the ICAV has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the ICAV's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the ICAV has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the Instrument of Incorporation, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"); and
- (ii) otherwise in accordance with the provisions of the Instrument of Incorporation and the UCITS Regulations and the Central Bank UCITS Regulations.

Brown Brothers Harriman Trustee Services (Ireland) Limited 30 Herbert Street Dublin 2 D02 W329 Ireland

Date: 29 January 2024

INVESTMENT MANAGER'S REPORTS FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

<u>Yacktman</u>

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Yacktman US Equity Fund C share class Russell 1000 Value NR USD	12.7%	13.6%	-0.9%

The Yacktman US Equity Fund (the "Sub-Fund") had a positive performance period and underperformed the Russell 1000 Value NR USD Index by 0.9% during the financial year, delivering 12.7% vs 13.6% for the benchmark.

Key drivers of performance for the financial year ended 30 September 2023

The main positive contributors to the Sub-Fund during the period were Canadian Natural Resources Ltd, Bollore SE and Booking Holdings Inc. On the other hand, Charles Schwab Corp, Embecta Corp and U-Haul Holding Co were the main detractors.

Comment

During the last quarter, energy was the best-performing sector, with rising oil prices and the demand/supply imbalance. The Sub-Fund has a significant position in the energy sector, which has seen some short-term price volatility because of demand concerns amidst recessionary fears. While this sector is viewed through a cyclical lens, there have been a number of major changes seen recently, including stronger balance sheets, reduced investment, and increased shareholder returns.

The Sub-Investment Manager believes that combined with attractive valuations and their view of a medium-term supply/demand imbalance, they have maintained a recent overweight positioning in the sector despite weakening consumer spending. Some of the largest positions in the Sub-Fund, saw a decline in their performance for the quarter but remain high-conviction investments in the Sub-Fund.

The Sub-Investment Manager stated: "We remain optimistic about the outlook for the Yacktman US Equity Fund. In this rising rate environment, companies with high leverage face new challenges. Overall market valuations are historically very high, which we think will cause lower returns over longer periods, even though there has been significant upside momentum this year. We believe the portfolio is well-positioned to generate strong risk-adjusted returns over time."

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Driehaus Emerging

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Driehaus Emerging Markets Sustainable Equity Fund C share class MSCI Emerging Markets NR USD	7.3%	11.6%	-4.3%

The Driehaus Emerging Markets Sustainable Equity Fund (the "Sub-Fund") returned 7.3% over the financial year but was behind the benchmark, the MSCI Emerging Markets NR USD Index, by a 4.3% margin.

Key drivers of performance for the financial year ended 30 September 2023

The top contributors to the Sub-Fund's positive performance were Taiwan Semiconductor Manufacturing Co Ltd ADR, Samsung Electronics Co Ltd and Grupo Financiero Banorte SAB de CV Class O, on the contrary, the bottom performers were Meituan Class B, KE Holdings Inc ADR and H World Group Ltd ADR.

Comment

The Sub-Investment Manager highlighted that previously the two most important themes in emerging markets were the ongoing weak economic situation in China and the difficulty in trying to predict a reversal in domestic confidence. They also discussed some of the initial impacts of generative AI on the emerging markets asset class. So the Sub-Investment Manager going forward stated that the evolution of data and geopolitical headlines out of China will remain important for absolute and relative performance, but another performance driver has also re-emerged from a temporary hiatus: US interest rates and the dollar.

The higher for longer interest rates theme reared its head in the last quarter and pressured risk assets across the world, with emerging markets being no exception (EM equities did slightly outperform global equities, however, a fact many may have missed). Yields increased across most global markets, with the move generally being led by the long end in a bear-steepening fashion. The Federal Reserve, and central banks in general, were central to the market narrative.

The Sub-Investment Manager continues: "We have stressed the data-dependent stance of the Fed and that economic data has continued to realize better than expected from the growth perspective in recent months. We have not yet seen any meaningful pressure on labour markets, and that has left both the consumer and, consequently, economic growth stronger than expected. We do find it confusing that the data generally points to a better-than-expected dynamic in the US, while the behaviour and commentary of most global consumer stocks would tell a different story."

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

<u>Kopernik</u>

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Kopernik Global All-Cap Equity Fund C share class MSCI ACWI NR USD	24.4%	20.8%	3.6%

The Kopernik Global All-Cap Equity Fund (the "Sub-Fund") had a strong financial year and outperformed the MSCI ACWI NR USD Index by 3.6%, having a positive return of 24.4% vs 20.8% for the benchmark.

Key drivers of performance for the financial year ended 30 September 2023

Newcrest Mining Ltd was the top positive contributor to the performance of the Sub-Fund, followed by NAC Kazatomprom JSC GDR and Sprott Physical Uranium Trust. On the other hand, Credit Suisse Group AG ADR, Impala Platinum Holdings Ltd and Barrick Gold Corp were the main detractors to performance.

Comment

The Sub-Investment Manager stated that during the last quarter, many of the strategy companies located in Asia contributed positively. Moreover, the Sub-Investment Manager believes that the Fundamentals for gold and other precious metals remain strongly supportive. The Fundamentals for mining companies are appealing even without inflation, and it is highly likely that the central banks' unprecedented money printing (factoring in the past year's drawdown) is an incremental positive for gold. Currently, the portfolio is invested with a maximum allowed position in the mining industry, diversified across companies, geographies, and management teams. The Sub-Investment Manager sees a significant upside to the risk-adjusted intrinsic value of the strategy's mining stocks.

The Sub-Investment Manager indicated: "We continue to be focused on appraising businesses and mitigating risk through diversification across sectors and countries. Our investment process is centred on buying and holding companies trading at significant discounts to their risk-adjusted intrinsic value, and we view volatility as an opportunity to add and trim. You can count on us to employ our disciplined, Fundamentals-based, long-term approach that has produced a proven track record throughout full market cycles."

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

European Focus

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Heptagon European Focus Equity Fund CE share class MSCI Europe NR EUR	9.0%	19.1%	-10.1%

The Heptagon European Focus Equity Fund (the "Sub-Fund") had a good period and returned 9.0% but still underperformed the benchmark, the MSCI Europe NR EUR Index, which had a positive return of 19.1%. The Sub-Fund underperformed the benchmark by 10.1%.

Key drivers of performance for the financial year ended 30 September 2023

Novo Nordisk AS Class B, Hermes International SCA and ASML Holding NV were the top three contributors to performance, whereas, TOMRA Systems ASA, Adyen NV and Diageo Plc were the largest detractors.

Comment

The Sub-Investment Manager indicates that the economic cycles tend to look different when in the midst of them. However, their experience is that given time, most peculiarities relating to each specific cycle tend to gradually mould into the bigger picture and that cycle becomes more or less the same as past cycles. What may look different this time around is that there is almost a preconceived idea of what level of interest rate tightening is sufficient to bring down inflation. However, the jury is still out as to what level of further rate hikes will force economies into recession. Unlike past cycles, the common belief now is that the FED will stop at the first gate post (as opposed to overshoot on the excess number and levels of interest rate hikes) and essentially let underlying Fundamentals lead to a gradual slowdown in economic activity.

The Sub-Investment Manager stated: "Looking out until the end of this year, we believe the economic activity climate will continue to weaken on both sides of the Atlantic. As always, the US economy appears to be further ahead in terms of the economic cycle (down as well as up) which implies that we are expecting Europe to slow down more rapidly than the US in the second half of 2023. Against this backdrop, we believe that the FED's decisions on where interest rates are heading and the Bank's narrative will act as the main impetus to stock prices in the months ahead."

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Future Trends

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Heptagon Future Trends Equity Fund C share class MSCI World NR USD	13.3%	22.4%	-9.1%

The Heptagon Future Trends Equity Fund (the "Sub-Fund") returned a positive performance during the period of 13.3% but the Sub-Fund underperformed the benchmark, the MSCI World NR USD Index, by 9.1%.

Key drivers of performance for the financial year ended 30 September 2023

Novo Nordisk AS Class B, Intuitive Surgical Inc and Mastercard Inc Class A were the top three positive contributors to performance. On the other hand, Chegg Inc, PayPal Holdings Inc and Keysight Technologies Inc were the Sub-Fund's top detractors.

Comment

The Sub-Investment Manager stated that dealing with drawdowns is never easy. However, the Sub-Investment Manager believes that it is crucial to stay the course and make no change to the investment approach. The Sub-Investment Manager stayed focused on Fundamentals and believes the approach offers investors genuinely differentiated pan-thematic exposure. All the top-down and bottom-up work that is continuously done, suggests that the runway ahead for the businesses the Sub-Fund owns is significant.

The Sub-Investment Manger when asked the question, what makes the Sub-Fund different, specified that the answer is clear. It is pan-thematic and concentrated, diversified with high conviction and disciplined approach to not invest in loss-making businesses.

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Future Trends Hedged

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Heptagon Future Trends Hedged Fund A share class 50/50 MSCI World NR LCL/SOFR*	0.3%	12.5%	-12.2%

The Heptagon Future Trends Hedged Fund (the "Sub-Fund") had a performance of 0.3% for the period vs 12.5% for the benchmark, underperforming by 12.2%.

Key drivers of performance for the financial year ended 30 September 2023

As the Sub-Fund has the same equity exposure as the Heptagon Future Trends Equity Fund, the top equity performers were almost in line with the main Sub-Fund. Novo Nordisk AS Class B, Intuitive Surgical Inc and Mastercard Inc Class A were the top three positive contributors to performance. On the other hand, Chegg Inc, PayPal Holdings Inc and Keysight Technologies Inc were the Sub-Fund's top detractors.

Comment

The Heptagon Future Trends Hedged Fund is managed with the same investment philosophy as the Heptagon Future Trends Equity Fund.

The Sub-Investment Manager stated that dealing with drawdowns is never easy. However, the Sub-Investment Manager believes that it is crucial to stay the course and make no change to the investment approach. The Sub-Investment Manager stayed focused on Fundamentals and believes the approach offers investors genuinely differentiated pan-thematic exposure. All the top-down and bottom-up work that is continuously done, suggests that the runway ahead for the businesses the Sub-Fund owns is significant.

The Sub-Investment Manger when asked the question, what makes the Sub-Fund different, specified that the answer is clear. It is pan-thematic and concentrated, diversified with high conviction and disciplined approach to not invest in loss-making businesses.

* For comparison purposes as the Sub-Fund has no specific benchmark.

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Driehaus Micro

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Driehaus US Micro Cap Equity Fund C share class Russell Microcap® Growth Index	3.6%	-3.1%	6.7%

The Driehaus US Micro Cap Equity Fund (the "Sub-Fund") returned a positive performance of 3.6% over the financial period, outperforming the benchmark, the Russell Microcap Growth Index, which returned -3.1%, by 6.7%.

Key drivers of performance for the financial year ended 30 September 2023

elf Beauty Inc, Axcelis Technologies Inc and Aehr Test Systems were the best three performers for the Sub-Fund from a contribution to performance point of view, on the other hand Xometry Inc, Clearfield Inc and Grid Dynamics Holdings Inc were the main performance detractors.

Comment

The Sub-Investment Manager indicated that the near-term market conditions continue to be heavily influenced by the direction of long-term yields. "The path of inflation, FED monetary policy and recession concerns remain the additional key focus areas for market participants. Additionally, the very recent, deadly attack by Hamas on Israel creates a complex new risk in the region that will need to be monitored. Yet we are seeing encouraging signs across many industries and individual holdings."

The Sub-Investment Manager continued that the two-plus month sell-off has left the market at extremes to the downside. Valuations remain appealing for many parts of the market and are significantly so for small caps compared to large caps. Smaller cap stocks, in general, continue at their second-largest discount to large caps over the past 40 years. While the case for a recession has conflicting variables for and against, the market has been discounting a recession for well over a year. In the intermediate term, the case for small caps stocks is very compelling as history shows that small caps typically materially outperform during the first five years or more of a new market cycle.

The Sub-Investment Manager commented: "In terms of portfolio positioning, we have an attractive mix of secular and cyclical growth holdings. By sector, health care is our largest absolute weight, followed by industrials, technology, and consumer discretionary. On a relative basis, the Sub-Fund is overweight industrials, consumer staples, consumer discretionary, technology, and energy. The Sub-Fund is underweight health care, financials and materials. The valuation difference between small and large caps continues to look quite favourable for small caps."

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

WCM Global

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
WCM Global Equity Fund C share class MSCI ACWI NR USD	16.8%	20.8%	-4.0%

The WCM Global Equity Fund (the "Sub-Fund") had a strong period returning 16.8% but underperformed by 4.0% vs the benchmark, the MSCI ACWI NR USD Index, which returned 20.8% for the financial year.

Key drivers of performance for the financial year ended 30 September 2023

Lam Research Corp, Novo Nordisk AS Class B and Old Dominion Freight Line Inc were the Sub-Fund's best performers and top contributors to performance, Adyen NV, Atlassian Corp Class A and Corteva Inc were the largest performance detractors.

Comment

The Sub-Investment Manager commented: "Higher interest rates, a stronger dollar, surging energy stocks, and the relative strength of "low quality" all conspired to create renewed style headwinds for the Sub-Fund. Amidst this backdrop, the Sub-Fund gave up some ground, but maintained its calendar year lead over the benchmark. While pessimism seems to have returned as the prevailing mood among investors, we see exciting and abundant investment opportunities for those with a long-term focus."

The Sub-Investment Manager stated that in the third quarter, most global equity markets saw a reversal in their year-to-date gains, as the vast majority of global benchmarks experienced declines. Apart from Energy, there was really no good place to be for the most recent 3-month period. But The Sub-Investment Manager doesn't take that as bad news. In fact, most of the portfolio holdings continue to execute at a high level and are posting growth above expectations. At the same time, the P/E multiple for the portfolio has compressed to the lowest level it's been in many years.

The Sub-Investment Manager is confident that the Sub-Fund's companies will continue to successfully navigate this uncertainty and will ultimately be rewarded with strong returns. The confidence stems from what is seen as the Sub-Investment Manager's edge: the focus on owning positive-moat-trajectory businesses with well-aligned, adaptable cultures. And that edge is, as always, the main reason the Sub-Investment Manager remains optimistic.

Heptagon Capital, October 2023

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Listed Private Assets

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Heptagon Listed Private Assets Fund C share class $SOFR + 2\%^*$	-4.3%	6.8%	-11.1%

The Heptagon Listed Private Assets Fund (the "Sub-Fund") had a negative performance for the period, declining 4.3% and behind the benchmark by 11.1%.

Key drivers of performance for the financial year ended 30 September 2023

The top three contributors to performance were 3i Group Plc, Yellow Cake Plc and 3i Infrastructure Plc, on the other hand, the largest detractors to performance were Digital 9 Infrastructure Plc, Gresham House Energy Storage Fund Plc and Alexandria Real Estate Equities Inc.

Comment

The Sub-Investment Manager indicated: "Looking forward, it is our view that the current poor performance and high level of discount in our portfolio and universe is a function of technical factors such as adverse flows away from UK small and mid-cap stocks. We do not believe that the level of discounts is a reflection of investors' negative expectations of future net asset values. We have seen 3 acquisitions over the past 12 months in our space, all have been done at a meaningful price premium of about 40% or a 10% premium to net asset values."

The Sub-Investment Manager highlighted that the above reinforces their view that the prices currently on display for many of the Sub-Fund holdings are not "takeover prices" and mostly are undervalued assets. Reallocation away from small and mid-cap names into short-term government bonds has clearly been a driving force behind these moves. It is, therefore, impossible to predict when these flows will reverse but at some point, value should reassert itself either in the form of M&A transactions or in the narrowing of discounts over time.

^{*} For comparison purposes as the Sub-Fund has no specific benchmark.

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Kettle Hill

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Heptagon Kettle Hill US L/S Equity Fund Y share class Hedge Fund Research HFRX Equity Hedge*	8.9%	4.9%	4.0%

The Heptagon Kettle Hill US L/S Equity Fund (the "Sub-Fund") returned 8.9% for the financial year, outperforming the benchmark, the Hedge Fund Research HFRX Equity Hedge Index by 4.0%.

Key drivers of performance for the financial year ended 30 September 2023

The largest positive contributors to performance were Netflix Inc, Smartsheet Inc Class A and Transocean Ltd. On the other hand, Basket Ishares Russell 2000 was the largest detractor followed by Basket S&P500 and Enovix Corp.

Comment

The Sub-Investment Manager mentioned: "Interest rates increased due to hawkish Fed speak, persistent levels of inflation, quantitative tightening, subdued demand from international buyers of US debt, and an increase in term premium due to our federal government budget deficit. Consumer spending appeared to have slowed as cash balances and credit card debt reverted to pre-pandemic levels, stimulus programs were removed, and middle-income families struggled with the high cost of living. With respect to the strategy's overall performance, software and technology were the largest contributors to the long exposure performance while short performance was driven by bets against consumer discretionary stocks."

The Sub-Investment Manager thinks that higher interest rates are poison for the economy, but they can benefit the portfolio in various ways. High interest rates disrupt economic growth and create stock price volatility, which creates the dislocations in the pricing of individual securities that the Sub-Investment Manager's investment process attempts to identify. The Sub-Investment Manager does relatively well in periods that are difficult to navigate for less cautious investors.

* For comparison purposes as the Sub-Fund has no specific benchmark.

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Driehaus Small

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Driehaus US Small Cap Equity Fund C share class Russell 2000 Growth TR Index	9.2%	9.6%	-0.4%

The Driehaus US Small Cap Equity Fund (the "Sub-Fund") returned 9.2% during the financial period, underperforming the benchmark, the Russell 2000 Growth TR Index by 0.4%.

Key drivers of performance for the financial year ended 30 September 2023

Super Micro Computer Inc, Axcelis Technologies Inc and elf Beauty Inc were the largest performance contributors, on the contrary, Xometry Inc, Apellis Pharmaceuticals Inc and Clearfield Inc were the main detractors.

Comment

The Sub-Investment Manager indicated that the near-term market conditions continue to be heavily influenced by the direction of long-term yields. "The path of inflation, Fed monetary policy and recession concerns remain the additional key focus areas for market participants. Additionally, the very recent, deadly attack by Hamas on Israel creates a complex new risk in the region that will need to be monitored. Yet we are seeing encouraging signs across many industries and individual holdings."

The Sub-Investment Manager continued that he two-plus month sell-off has left the market at extremes to the downside. Valuations remain appealing for many parts of the market and are significantly so for small caps compared to large caps. Smaller cap stocks, in general, continue at their second-largest discount to large caps over the past 40 years. While the case for a recession has conflicting variables for and against, the market has been discounting a recession for well over a year. In the intermediate term, the case for small caps stocks is very compelling as history shows that small caps typically materially outperform during the first five years or more of a new market cycle.

The Sub-Investment Manager commented: "In terms of portfolio positioning, we have an attractive mix of secular and cyclical growth holdings. By sector, health care is our largest absolute weight, followed by industrials, technology, and consumer discretionary. On a relative basis, the Sub-Fund is overweight industrials, consumer staples, consumer discretionary, technology, and energy. The Sub-Fund is underweight health care, financials and materials. The valuation difference between small and large caps continues to look quite favourable for small caps."

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Summit Sustainable Opportunities

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Summit Sustainable Opportunities L/S Equity Fund C share class S&P 500 Net TR*	-1.1%	22.2%	-23.3%

The Summit Sustainable Opportunities L/S Equity Fund (the "Sub-Fund") had a decline in performance over the financial year of -1.1%, compared to a rise of 22.2% for the benchmark.

Key drivers of performance for the financial year ended 30 September 2023

Top equity contributors were MongoDB Inc Class A, Lattice Semiconductor Corp and Samsara Inc Class A, on the other hand, Enovix Corp, Sunrun Inc and Enphase Energy Inc were the largest equity detractors.

Comment

The Sub-Fund entered into liquidation on 9 October 2023 after the Directors resolved that the Sub-Fund was no longer commercially or economically viable, and each of the remaining shares in the Sub-Fund were compulsory redeemed.

^{*} For comparison purposes as the Sub-Fund has no specific benchmark.

Heptagon Capital, October 2023

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

Easterly

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Easterly US Value Equity Fund C share class* Russell 3000 Value NR USD	19.7%	16.4%	3.3%

The Easterly US Value Equity (the "Sub-Fund") showed a positive performance and returned 19.7% up to the Sub-Fund's liquidation on 21 August 2023, outperforming the benchmark, the Russell 3000 Value NR USD Index by 3.3%.

Key drivers of performance for the financial year ended 30 September 2023

The main contributors to performance of the Sub-Fund were nVent Electric Plc, Cisco Systems Inc and Dupont De Nemours Inc. On the opposite side, Dominion Energy Inc, Truist Financial Corp and CVS Health Corp were the largest performance detractors for the period.

Comment

Due to receipt of a large redemption request, the Directors resolved that the Sub-Fund was no longer commercially or economically viable, and each of the remaining shareholders agreed to voluntarily redeem their shares from the Sub-Fund. The Sub-Fund entered into liquidation on 21 August 2023.

^{*} Easterly entered into liquidation on 21 August 2023, the last available price was used for the above calculation.

INVESTMENT MANAGER'S REPORTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

<u>Qblue</u>

Financial year end 30 September 2023	Sub-Fund	Benchmark	Excess
	Performance	Performance	Return
Qblue Global Sustainable Leaders Fund C share class MSCI World NR USD	20.7%	22.4%	-1.7%

The Qblue Global Sustainable Leaders Fund (the "Sub-Fund") had a strong performance and returned 20.7%, but underperformed by 1.7% the MSCI World NR USD Index, which returned 22.4%.

Key drivers of performance for the financial year ended 30 September 2023

The main positive contributors to the Sub-Fund during the period were NVIDIA Corp, Adobe Inc and Gilead Sciences Inc. On the other hand, Enphase Energy Inc, SolarEdge Technologies Inc and TELUS Corp were the main detractors.

Comment

The Sub-Investment Manager stated that in the first half of 2023, the markets were mainly driven by the seven largest technology companies. In the last quarter, while the rest of the market was down, the broader group of mega-caps continued to outperform. In the last quarter, nine of the eleven sectors in the MSCI World Index were down, with the only exception being Energy and Communication Services. The Sub-Fund outperformed the benchmark in four out of eleven sectors, with Information Technology and Industrials being the best performers, and Financials and Communication Services being the worst performers. Some of the best-performing as well as some of the worst-performing companies in the last quarter can be found in the Information Technology industry.

The Sub-Investment Manager continues that by geography, Europe outperformed the benchmark, while North America and Asia underperformed. Furthermore, in the last quarter, the Climate Transition and ESG dimensions of the Sustainability Cube[™] ended positively, while the UN SDG dimension ended down.

Independent auditor's report to the shareholders of Heptagon Fund ICAV

Opinion

We have audited the financial statements of Heptagon Fund ICAV ("the ICAV"), which comprise the Investment Portfolio Statements, Statement of Financial Position as at 30 September 2023, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Statement of Cash Flows for the financial year ended 30 September 2023, and the related notes to the financial statements, including the summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and International Financial Reporting Standards (or "IFRS") as adopted by the European Union.

In our opinion, the ICAV's financial statements:

- give a true and fair view in accordance with IFRS as adopted by the European Union of the assets, liabilities and financial position of the ICAV as at 30 September 2023 and of its financial performance and cash flows for the financial year then ended; and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015 (as amended) (the "ICAV Act"), the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law. Our responsibilities under those standards are further described in the 'Responsibilities of the auditor for the audit of the financial statements' section of our report. We are independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and the ethical pronouncements established by Chartered Accountants Ireland, applied as determined to be appropriate in the circumstances for the ICAV. We have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Emphasis of Matter

As described in notes 1 and 2, Harvest China A Shares Equity Fund, Easterly US Value Equity Fund and Summit Sustainable Opportunities L/S Equity Fund were entered into liquidation on 17 April 2020, 21 August 2023 and 9 October 2023, respectively, as a result, the basis of accounting for these sub-funds have been changed from going concern basis to non-going concern basis. Central Bank of Ireland has not withdrawn its approval as at the date of this audit report. Our opinion is not modified in respect of this matter.

Independent auditor's report to the shareholders of Heptagon Fund ICAV

Other information

Other information comprises information included in the annual report, other than the financial statements and the auditor's report thereon, Directors' Report, Investment Manager's Reports, Report of the Depositary to the Shareholders, Significant Portfolio Movements and the unaudited appendices to the Annual Report. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies in the financial statements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Matters on which we are required to report by the ICAV Act

- We have obtained all the information and explanations, which we consider necessary for the purposes of our audit.
- In our opinion, the accounting records of the ICAV were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion, the information given in the Directors' Report is consistent with the financial statements. Based solely on the work undertaken in the course of our audit, in our opinion, the Directors' Report has been prepared in accordance with the requirements of the ICAV Act.

Matters on which we are required to report by exception

Under the ICAV Act we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by section 117 of the ICAV Act have not been made. We have no exceptions to report arising from this responsibility.

Responsibilities of management and those charged with governance for the financial statements

As explained more fully in the Statement of Directors' responsibilities, management is responsible for the preparation of the financial statements which give a true and fair view in accordance with IFRS as adopted by the European Union, and for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the ICAV or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the ICAV's financial reporting process.

Responsibilities of the auditor for the audit of the financial statements

The auditor's objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes their opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists.

Independent auditor's report to the shareholders of Heptagon Fund ICAV

Responsibilities of the auditor for the audit of the financial statements (continued)

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with ISAs (Ireland), the auditor will exercise professional judgment and maintain professional scepticism throughout the audit. The auditor will also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for their opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the ICAV's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ICAV's ability to continue as a going concern. If they conclude that a material uncertainty exists, they are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify their opinion. Their conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the ICAV to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.

The auditor communicates with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that may be identified during the audit.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the ICAV's shareholders, as a body, in accordance with section 120 of the Irish Collective Asset-management Vehicles Act 2015 (as amended). Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

David Lynch For and on behalf of **Grant Thornton** Chartered Accountants & Statutory Audit Firm Dublin Ireland 29 January 2024

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

1. Establishment

Heptagon Fund ICAV (the "ICAV") was registered by the Central Bank of Ireland (the "Central Bank") on 1 October 2021 pursuant to the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") as an openended umbrella type Irish Collective Asset-management Vehicle. The ICAV is organised in the form of an umbrella fund with variable capital and segregated liability between its sub-funds (the "Sub-Funds").

The ICAV was originally authorised in Ireland by the Central Bank, as an investment company pursuant to Part XIII of the Companies Act 1990 on 19 December 2007, to market solely to "Professional Investors". The ICAV was established as a variable capital company on 11 November 2010 under Irish Law but on 1 October 2021 was converted to an Irish Collective Asset-management Vehicle by resolution of the Shareholders. The ICAV is authorised and regulated in Ireland by the Central Bank as an Undertakings for Collective Investment in Transferable Securities ("UCITS") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The ICAV is structured in the form of an umbrella fund consisting of different sub-funds comprising one or more classes. The shares of each class rank pari passu with each other in all respects provided that they may differ as to certain matters including currency denomination, hedging strategies, if any, applied to the currency of a particular class, dividend policy, the level of fees and expenses to be charged, subscription or redemption procedures or the minimum subscription and minimum holding applicable. The shares of each class established in a sub-fund are specified in the relevant supplement.

The Sub-Funds are set out below:

- Yacktman US Equity Fund ("Yacktman")
- Driehaus Emerging Markets Sustainable Equity Fund ("Driehaus Emerging")
- Kopernik Global All-Cap Equity Fund ("Kopernik")
- Harvest China A Shares Equity Fund ("Harvest China")⁽¹⁾
- Heptagon European Focus Equity Fund ("European Focus")
- Heptagon Future Trends Equity Fund ("Future Trends")
- Heptagon Future Trends Hedged Fund ("Future Trends Hedged")
- Driehaus US Micro Cap Equity Fund ("Driehaus Micro")
- WCM Global Equity Fund ("WCM Global")
- Heptagon Listed Private Assets Fund ("Listed Private Assets")
- Heptagon Kettle Hill US L/S Equity Fund ("Kettle Hill")
- Driehaus US Small Cap Equity Fund ("Driehaus Small")
- Summit Sustainable Opportunities L/S Equity Fund ("Summit Sustainable Opportunities")⁽²⁾
- Easterly US Value Equity Fund ("Easterly")⁽³⁾
- Qblue Global Sustainable Leaders Fund ("Qblue")

⁽¹⁾ The Sub-Fund entered into liquidation on 17 April 2020 but the Central Bank has not withdrawn its approval yet.

⁽²⁾ The Sub-Fund entered into liquidation subsequent to the financial year end, on 9 October 2023.

⁽³⁾ The Sub-Fund entered into liquidation on 21 August 2023 but the Central Bank has not withdrawn its approval yet.

The assets of each Sub-Fund are invested separately in accordance with the investment objectives and policies of that Sub-Fund.

Yacktman was launched on 12 December 2010, Driehaus Emerging was launched on 25 June 2012, Kopernik was launched on 16 December 2013, Harvest China was launched on 24 September 2014 and entered into liquidation on 17 April 2020 and European Focus was launched on 26 August 2014. Future Trends was launched on 12 January 2016, Future Trends Hedged was launched on 9 September 2016, Driehaus Micro was launched on 7 December 2016, WCM Global was launched on 18 January 2017, Listed Private Assets was launched on 23 June 2017, Kettle Hill was launched on 5 October 2017 and Driehaus Small was launched on 31 July 2019. Summit Sustainable Opportunities was launched on 30 June 2020 and entered into liquidation on 9 October 2023, Easterly was launched on 30 June 2020 and entered into liquidation on 12 January 2022.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

1. Establishment (continued)

The functional currency of Yacktman, Driehaus Emerging, Kopernik, Harvest China, Future Trends, Future Trends Hedged, Driehaus Micro, WCM Global, Listed Private Assets, Kettle Hill, Driehaus Small, Summit Sustainable Opportunities, Easterly and Qblue is US Dollar ("US\$"). The functional currency of European Focus is Euro ("EUR").

The ICAV had no employees during the financial year (2022: Nil).

2. Significant Accounting Policies

The significant accounting policies adopted by the ICAV are as follows:

Basis of preparation of financial statements

The financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and Irish statute comprising the ICAV Act and the requirements of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss. The financial statements of each Sub-Fund have been prepared on a going concern basis with the exceptions of Harvest China, Summit Sustainable Opportunities and Easterly, which have been prepared on a non-going concern basis. Harvest China entered into liquidation on 17 April 2020 and Easterly on 21 August 2023. These Sub-Funds are disclosed within these financial statements as the Central Bank has not withdrawn its approval yet. Summit Sustainable Opportunities entered into liquidation subsequent to the financial year end, on 9 October 2023.

The non-going concern basis requires the carrying value of the assets to be stated at their estimated recoverable amounts and all liabilities to be stated at their estimated settlement amounts. No adjustments were made as the assets and liabilities are approximate to estimated recoverable amounts and estimated settlement amounts, respectively.

a) New standards, amendments and interpretations effective for annual period beginning on or after 1 October 2022

There are no new standards or amendments to existing standards that are effective for the first time for the financial period beginning 1 October 2022.

Financial assets and liabilities at fair value through profit or loss

The ICAV classifies its investments as financial assets or liabilities at fair value through profit or loss. These include equities, warrants, rights, short term debt obligations, real estate investment trusts, investment funds, forward foreign currency contracts, futures contracts, option contracts and equity swaps. These instruments are acquired or incurred principally for the purpose of generating a profit from short-term fluctuation in price.

(a) Classification

The ICAV has assessed the classification of financial instruments as at the date of initial application and has applied such classification retrospectively. Based on that assessment:

- All financial assets are measured at fair value.

- Debt instruments and equity instruments are acquired for the purpose of generating short-term profit. Therefore, they meet the hold-for-trading criteria and are required to be measured at fair value through profit or loss.

- Financial assets previously classified as receivables are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. Thus, such instruments continue to be measured at amortised cost.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

2. Significant Accounting Policies (continued)

Financial assets and liabilities at fair value through profit or loss (continued)

Impairment

The ICAV records expected credit losses ("ECLs") on all of its debt securities, loans and trade receivables, either on a 12-month or lifetime basis. Given the limited exposure of the ICAV to credit risk, this amendment has not had a material impact on the financial statements. The ICAV only holds trade receivables with no financing component and that have maturities of less than 12 months at amortised cost. Therefore, it has adopted an approach similar to the simplified approach to ECLs.

(b) Recognition/Derecognition

Purchases and sales of investments are recognised on trade date – the date at which the ICAV commits to purchase or sell the asset. Investments are initially recognised at fair value and are derecognised when the rights to receive cash flows from the investments have expired or the ICAV has transferred substantially all risks and rewards of ownership.

(c) Measurement

Financial assets and financial liabilities at fair value through profit or loss are recorded in the Statement of Financial Position at fair value. The main impact on measurement from the classification of liabilities relates to the element of gains and losses for financial liabilities designated as at fair value through profit or loss attributable to changes in credit risk. Such elements are recognised in other comprehensive income, unless this treatment creates or enlarged an accounting mismatch in profit or loss, in which case, all gains and losses on that liability (including the effects of changes in credit risk) should be presented in profit or loss. The Sub-Fund has not designated any financial liabilities at fair value through profit or loss. Therefore, this requirement has not had an impact on the Sub-Fund.

Transaction costs are expensed in the Statement of Comprehensive Income. Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers and brokers. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value.

Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within operating income when the Sub-Fund's right to receive payments is established.

(d) Determination of fair value

Subsequent to initial measurement, financial assets and liabilities at fair value through profit or loss are measured at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Instruments held by a Sub-Fund traded on an exchange, are measured at fair value based on the last traded price for financial assets and financial liabilities on such regulated market as at the relevant valuation point in accordance with the Prospectus. If an investment is quoted, listed or normally dealt in, on more than one market, the Directors may, in their absolute discretion, select any of such markets for the valuation purposes.

If prices for an investment are not available at the relevant time or are unrepresentative in the opinion of the Investment Manager or the Administrator, as its delegate, such investments shall be valued at such values as shall be certified with care and in good faith as the probable realisation value of the investment, by the Directors or Manager, or by a competent person, approved for this purpose by the Depositary.

The short-term debt obligations and convertible bonds are measured on a yield basis.

Investments in Exchange Traded Funds are traded on a recognised exchange and this may not be the same as the Net Asset Value. These traded prices are considered fair value.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

2. Significant Accounting Policies (continued)

Futures contracts

Futures are contracts for delayed delivery of currency, commodities, securities or money market instruments in which the seller agrees to make delivery at a specified future date of a specified commodity or instrument, at a specified price or yield. Gains and losses on futures contracts are recorded by the ICAV based upon market fluctuations and are recorded as realised or unrealised gains or losses in the Statement of Comprehensive Income.

Forward foreign currency contracts

Forward foreign currency contracts are commitments either to purchase or sell a designated currency at a specified future date for a specified price and may be settled in cash. Forward foreign currency contracts may be entered into in order to protect the ICAV against adverse movement in the value of the functional currency or for the speculative aim of enhancing return. All commitments are marked to market at the applicable translation rates and any resulting unrealised gains or losses are recorded in the Statement of Financial Position. The ICAV records realised gains or losses upon closing of the forward foreign currency contracts.

Where the ICAV enters into forward foreign currency contracts as a way of managing foreign exchange risk for specific share classes, gains or losses from these contracts are allocated solely to the corresponding share classes.

Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty (which result in a net foreign currency position of zero with the counterparty) are generally offset and considered "offset forward currency contracts" and any realised gains or losses are recognised on settlement date. Forward foreign currency contracts result in credit exposure to the counterparty.

The fair value of non-exchange traded derivatives is estimated based on the amount that the ICAV would receive or pay to terminate the contract at the financial period end, taking into account current market conditions (volatility, appropriate yield curve) and the current credit worthiness of the counterparties.

The fair value of a forward foreign currency contract is determined as the net present value of estimated future cash flows, discounted at appropriate market rates on the valuation date.

Equity swaps

The ICAV may invest in equity swaps with underlying positions in Master Limited Partnerships ("MLPs") and/or Energy Sector Investments, in accordance with the investment policy. An equity swap is a contract in which one party receives interest payments on a reference asset, plus any capital gains and losses accrued on the underlying position over the payment period, while the other receives a specified fixed or floating cash flow unrelated to the credit worthiness of the reference asset. The payments are usually based on the same notional amount. The interest payments are usually based on floating rates with a spread added according to the agreement between the parties. Equity swaps will allow the ICAV to derive the economic benefit of owning MLPs or Energy Sector Investments without investing in the MLPs. Equity swaps can be "funded" or "unfunded". In a funded equity swap, the ICAV will pay the principal to the counterparty whereas in an unfunded swap the principal will not be paid, but collateral (or margin) is usually required to be posted with the counterparty.

These swaps are marked to market on a daily basis. The market value is based on the valuation elements laid down in the contract, and are obtained from third party pricing agents, market makers or internal models. Changes in valuations, if any, are recorded as unrealised gains or losses. Payments received or made are recorded as realised gains or losses.

Option contracts

The unrealised gain or loss on open option positions is calculated and recorded as the fair value of the option less the premium paid on that option. The fair value of the options which are dealt in on a securities market are the settlement price as determined by the market. Unrealised gains or losses on open option positions are included in financial assets and liabilities at fair value through profit and loss in the Statement of Financial Position.

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

2. Significant Accounting Policies (continued)

Warrants and rights

The ICAV may invest in warrants. Warrants which are fully paid up and have a zero strike price exhibit the identical risk and return characteristics as in the case where the ICAV had acquired the underlying equity directly. Such warrants are valued at the last bid price for the underlying equity quoted on the stock exchange or principal market on which it is listed or, if the bid price is unavailable or unrepresentative, the last available mid price on such stock exchange or market. The ICAV may also purchase or otherwise receive rights. Rights generally give the holder the right to receive, upon exercise, a security of the issuer at a stated price.

Short-term debt obligations

Short-term debt obligations represent short-term United States Treasury Bills with maturity dates less than 6 months.

Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

A structured entity often has some or all of the following features or attributes: (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The ICAV considers all of its investments in funds to be investments in unconsolidated structured entities on the basis that they hold a number of features similar to that of a structured entity, such as:

- the voting rights in the funds are not dominant rights in deciding who controls them because the rights relate to administrative tasks only;

- each fund's activities are restricted by its prospectus; and

- the funds have narrow and well-defined objectives to provide investment opportunities to investors.

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting period.

Accounting estimates and assumptions

The preparation of financial statements in conformity with IFRS, requires the Directors to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The Directors believe that the estimates utilised in financial statements are reasonable and prudent. Actual results could differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the financial period in which the estimate is revised if the revision affects only that financial period, or in the financial period of the revision and future financial periods, if the revision affects both current and future financial periods.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

As of 30 September 2023 and 30 September 2022, none of the financial assets and liabilities are offset in the Statement of Financial Position.

Realised and unrealised gains and losses on financial assets and liabilities at fair value through profit or loss Realised and unrealised gains and losses on investments represent the difference between disposal proceeds or valuation and historic cost.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

2. Significant Accounting Policies (continued)

Transaction costs

Transaction costs are expensed to the Statement of Comprehensive Income when incurred. Realised and unrealised gains and losses on investments are recorded in the Statement of Comprehensive Income.

Cash and cash equivalents

For the purposes of the Statement of Cash Flows, cash and cash equivalents includes deposits held at call with a bank or financial institution with an original maturity of three months or less. Cash equivalents are short-term highly liquid investments that are readily convertible to cash and which are subject to insignificant risk of decrease in value. For the purpose of Statement of Financial Position, cash and cash equivalents comprises cash at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use. Cash is held with an affiliate of the Administrator.

ICAV cash accounts

A number of ICAV cash accounts are being operated by the Administrator, on behalf of the ICAV pursuant to the Central Bank of Ireland Guidance paper entitled Umbrella Funds – Cash Accounts Holding Subscription, Redemption and Dividend Monies. These cash accounts, held with Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") for collection of unprocessed subscription monies received from investors, redemption monies payable to investors and/or other amounts due to investors for the ICAV are deemed assets of the ICAV. The balance on these cash accounts is reflected on the Statement of Financial Position of the ICAV with an appropriate equal and opposite liability.

Collateral

Cash collateral which is pledged to the broker is recorded as an asset to the ICAV within "Collateral held with the broker" and is valued at its fair value. Cash received as collateral is recorded as an asset on the Statement of Financial Position and is valued at its fair value. A related liability to repay the collateral is recorded as a liability within "Due to broker" on the Statement of Financial Position and is also valued at its fair value.

Bank overdrafts

All bank overdraft balances are recognised as liabilities in the Statement of Financial Position and are held with an affiliate of the Administrator.

Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accrual basis.

Investment income and expenses

Interest income and expenses are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant financial period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability.

Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option.

The ICAV has non-participating shares in issue that are classified as 'equity' in accordance with IFRS.

The redeemable participating shares do not represent the most 'subordinate' class of instrument and are classified as financial liabilities. Redeemable participating shares have priority over other claims to the assets of the entity on liquidation.

The redeemable participating shares can be put back to the ICAV on any dealing day for cash equal to a proportionate share of the ICAV's net asset value.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

2. Significant Accounting Policies (continued)

Redeemable participating shares (continued)

Each Sub-Fund provides its shareholders with the right to redeem their interest in the Sub-Fund at any dealing date for cash equal to their proportionate share of the net asset value of that segregated portfolio. Under the amendments to IAS 32, this right represents in substance a liability of the Sub-Fund to shareholders.

The ICAV's non-participating shares do not participate in the profits of the ICAV.

Dividend income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend" to the extent that information thereon is reasonably available to the Sub-Fund. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

Foreign Currency

Items included in the ICAV's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency of the ICAV is US Dollar ("US\$") and the presentation currency of the ICAV is also US\$. The functional currency of the Sub-Funds with the exception of European Focus is US Dollar ("US\$"). The functional currency of European Focus is Euro ("EUR").

3. Taxation

The ICAV is a specified collective investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended and is therefore not liable to Irish corporation tax on its income and capital gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or the transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of the shares.

No Irish tax will arise on the ICAV in respect of a chargeable event in respect of:

a) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and

b) Certain exempted Irish tax resident Shareholders who have provided the ICAV with the necessary signed statutory declarations.

There was no chargeable event during the financial year ended 30 September 2023 or 30 September 2022.

Dividends, interest and capital gains (if any) received on investments made by the ICAV, may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the ICAV or its Shareholders.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

4. Investment Management Fees and Performance Fees

Yacktman

The Investment Manager is entitled to receive out of the assets of Yacktman an annual fee of 1.50% in respect of Class A US\$, Class AD US\$, Class AE EUR and Class AEH EUR, of 1.95% in respect of Class B US\$, of 1.00% in respect of Class C US\$, Class CEH EUR and Class CGD GBP, of 1.15% in respect of Class I US\$, Class II US\$, Class ICHH CHF, Class ID US\$, Class IE EUR, Class IE1 EUR, Class IEH EUR, Class IEH1 EUR, Class IG GBP and Class IGD GBP, and of up to 1.00% in respect of Class X US\$, Class XG GBP and Class XGD GBP, accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager is entitled to be reimbursed by Yacktman for reasonable out of pocket expenses incurred by it. The fees charged for Yacktman during the financial year were US\$8,942,883 (30 September 2022: US\$9,054,784) of which US\$903,951 was outstanding at the financial year end (30 September 2022: US\$885,649).

The Investment Manager is not entitled to a performance fee based on the performance of the Sub-Fund.

The Investment Manager has appointed Yacktman Asset Management LP (the "Sub-Investment Manager") to act as Sub-Investment Manager by the assignment on 22 June 2012, of the sub-investment management agreement dated 11 November 2010. The Sub-Investment Manager provides discretionary investment management and marketing services in relation to Yacktman subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is a US company and is registered with the Securities Exchange Commission ("SEC"). Fees of the Sub-Investment Manager.

Driehaus Emerging

The Investment Manager is entitled to receive out of the assets of Driehaus Emerging an annual fee of 1.50% in respect of Class A US\$ and Class AE EUR, of 1.95% in respect of Class B US\$, of 0.80% in respect of Class C US\$, Class C1 US\$, Class CD US\$ and Class CE EUR, of 0.90% in respect of Class I US\$, Class IE EUR, Class IF US\$ and Class IG GBP, of 0.85% in respect of Class SGB GBP, and of 0.50% in respect of Class X US\$ and Class XED EUR. accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager is entitled to be reimbursed by Driehaus Emerging for reasonable out of pocket expenses incurred by it. The fees charged for Driehaus Emerging during the financial year were US\$796,126 (30 September 2022: US\$668,358) of which US\$115,444 was outstanding at the financial year end (30 September 2022: US\$58,370).

The Investment Manager is not entitled to a performance fee based on the performance of the Sub-Fund.

The Investment Manager has appointed Driehaus Capital Management LLC (the "Sub-Investment Manager") to act as Sub-Investment Manager pursuant to an amended and restated sub-investment management agreement dated 6 December 2016. The Sub-Investment Manager provides discretionary investment management and marketing services in relation to Driehaus Emerging subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is a US investment adviser and is registered with the SEC. Fees of the Sub-Investment Manager.

Kopernik

The Investment Manager is entitled to receive out of the assets of Kopernik an annual fee of 1.50% in respect of Class A US\$, Class ACHH CHF, Class AE EUR, Class AEH EUR and Class AG GBP, of 0.90% in respect of Class C US\$, Class CD US\$, Class CE EUR, Class CEH EUR and Class CG GBP, of 1.15% in respect of Class I US\$, Class II US\$, Class ICHH CHF, Class ID US\$, Class IE EUR, Class IEH EUR and Class IG GBP, of up to 0.90% in respect of Class P US\$ and Class Z US\$, and of 1.00% in respect of Class S US\$, Class SE EUR, Class SGB GBP and Class SGBD GBP accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager is entitled to be reimbursed by Kopernik for reasonable out of pocket expenses incurred by it. The fees charged for Kopernik during the financial year were US\$11,040,700 (30 September 2022: US\$11,979,839) of which US\$945,505 was outstanding at the financial year end (30 September 2022: US\$877,848).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

4. Investment Management Fees and Performance Fees (continued)

Kopernik (continued)

The Investment Manager is also entitled to a performance fee in respect of Class P US\$ payable annually in arrears in respect of each performance period. The Investment Manager is entitled to receive out of the assets allocable to the relevant class of shares a performance fee equal to a specified percentage, not greater than 20.00%, of the amount by which the performance of Kopernik exceeds the MSCI All Country World Index (the "Benchmark"). The initial performance period in respect of each relevant class commences on the first business day after expiry of the initial offer period. The performance periods of Kopernik are each calendar year. The performance fees charged for Kopernik during the financial year were US\$2,629 (30 September 2022: US\$359,422) none of which was outstanding at the financial year end (30 September 2022: US\$48,314).

Performance fees charged per share class for the financial year ended 30 September 2023 are disclosed below:

Share classes	Performance fees charged per share class in Sub-Fund currency	Percentage of performance fees based on the share class dealing NAV
Class P US\$	US\$2,629	0.91%

Performance fees charged per share class for the financial year ended 30 September 2022 are disclosed below:

Share classes	Performance fees charged per share class in Sub-Fund currency	Percentage of performance fees based on the share class dealing NAV
Class P US\$	US\$359,422	119.41%

The Investment Manager has appointed Kopernik Global Investors LLC (the "Sub-Investment Manager") to act as Sub-Investment Manager pursuant to a sub-investment management agreement dated 29 November 2013. The Sub-Investment Manager provides discretionary investment management and marketing services in relation to Kopernik subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is a US investment adviser and is registered with the SEC. Fees of the Sub-Investment Manager are paid by the Investment Manager.

Harvest China

Up until its liquidation on 17 April 2020, the Investment Manager has been entitled to receive out of the assets of Harvest China an annual fee of 1.50% in respect of Class A US\$ and of 0.90% in respect of Class C US\$, accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager has been entitled to be reimbursed by Harvest China for reasonable out of pocket expenses incurred by it. The fees charged for Harvest China during the financial year were US\$Nil (30 September 2022: US\$Nil) none of which was outstanding at the financial year end (30 September 2022: US\$Nil).

The Investment Manager has not been entitled to a performance fee based on the performance of the Sub-Fund.

The Investment Manager had appointed Harvest Global Investments (the "Sub-Investment Manager") to act as Sub-Investment Manager pursuant to an amended and restated sub-investment management agreement dated 17 April 2014. The Sub-Investment Manager provides discretionary investment management and marketing services in relation to Harvest China subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is a Hong Kong investment adviser and is registered with the Securities and Futures Commission ("SFC") in Hong Kong. Fees of the Sub-Investment Manager are paid by the Investment Manager.

European Focus

The Investment Manager is entitled to receive out of the assets of European Focus an annual fee of 1.50% in respect of Class A US\$, Class AE EUR, of 0.90% in respect of Class CCHH CHF, Class CE EUR, Class CG GBP and Class CH US\$, of 1.15% in respect of Class I US\$, Class IE EUR, and of up to 0.90% in respect of Class XE EUR, accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager is entitled to be reimbursed by European Focus for reasonable out of pocket expenses incurred by it. The fees charged for European Focus during the financial year were EUR738,711 (30 September 2022: EUR782,097) of which EUR59,815 was outstanding at the financial year end (30 September 2022: EUR63,659).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

4. Investment Management Fees and Performance Fees (continued)

European Focus (continued)

The Investment Manager is also entitled to a performance fee payable annually in arrears in respect of each performance period. The Investment Manager is entitled to receive out of the assets allocable to the relevant class of shares a performance fee equal to a specified percentage, not greater than 15.00%, of the amount by which the performance of European Focus exceeds the MSCI Europe Index NR (the "Benchmark"). The initial performance period in respect of each relevant class commences on the first business day after expiry of the initial offer period. The performance periods of European Focus are each calendar year. The performance fees charged for European Focus during the financial year were EURNil (30 September 2022: EUR Nil) none of which was outstanding at the financial year end (30 September 2022: EUR Nil).

The Investment Manager has appointed Heptagon Capital LLP (the "Sub-Investment Manager") to act as Sub-Investment Manager pursuant to an amended and restated sub-investment management agreement dated 29 November 2014 and amended 30 July 2014. The Sub-Investment Manager provides discretionary investment management and marketing services in relation to European Focus subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is authorised and regulated by the Financial Conduct Authority ("FCA"). Fees of the Sub-Investment Manager are paid by the Investment Manager.

Future Trends

The Investment Manager is entitled to receive out of the assets of Heptagon Future Trends Equity Fund an annual fee of 1.50% in respect of Class A US\$, Class AE EUR and Class AEH EUR, of 1.95% in respect of Class B US\$, of 1.00% in respect of Class C US\$, Class CCHH CHF, Class CD US\$, Class CE EUR, Class CEH EUR and Class CG GBP, of 1.15% in respect of Class I US\$ and Class IE EUR, of 0.85% in respect of Class SG GBP, and of up to 1.00% in respect of Class Y US\$, accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager is entitled to be reimbursed by Future Trends for reasonable out of pocket expenses incurred by it. The fees charged for Future Trends during the financial year were US\$1,319,148 (30 September 2022: US\$1,533,768) of which US\$136,197 was outstanding at the financial year end (30 September 2022: US\$123,052).

The Investment Manager is also entitled to a performance fee payable annually in arrears in respect of each performance period. The Investment Manager is entitled to receive out of the assets allocable to the relevant class of shares a performance fee equal to a specified percentage, not greater than 20.00%, of the amount by which the performance of Future Trends exceeds the MSCI World NR USD (the "Benchmark"). The initial performance period in respect of each relevant class commences on the first business day after expiry of the initial offer period. The performance periods of Future Trends are each calendar year. The performance fees charged for Future Trends during the financial year were US\$ Nil (30 September 2022: US\$Nil) none of which was outstanding at the financial year end (30 September 2022: US\$Nil).

The Investment Manager has appointed Heptagon Capital LLP (the "Sub-Investment Manager") to act as Sub-Investment Manager pursuant to a sub-investment management agreement dated 29 November 2013 and amended 2 December 2015. The Sub-Investment Manager provides discretionary investment management and marketing services in relation to Future Trends subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is an English limited liability partnership authorised to conduct investment business in the United Kingdom by the FCA. Fees of the Sub-Investment Manager are paid by the Investment Manager.

Future Trends Hedged

The Investment Manager is entitled to receive out of the assets of Future Trends Hedged an annual fee of 1.50% in respect of Class A US\$, accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager is entitled to be reimbursed by Future Trends Hedged for reasonable out of pocket expenses incurred by it. The fees charged for Future Trends Hedged during the financial year were US\$131,143 (30 September 2022: US\$172,550) of which US\$20,274 was outstanding at the financial year end (30 September 2022: US\$1,450).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

4. Investment Management Fees and Performance Fees (continued)

Future Trends Hedged (continued)

The Investment Manager is also entitled to a performance fee payable annually in arrears in respect of each performance period. The Investment Manager is entitled to receive out of the assets allocable to the relevant class of shares a performance fee equal to a specified percentage, not greater than 15.00%, of the amount by which the performance of Future Trends Hedged exceeds the Base Net Asset NAV defined as being equal to the Net Asset Value of the relevant Class as at the date at which the last Performance Fee crystallised and became payable. The initial performance period in respect of each relevant class commences on the first business day after expiry of the initial offer period. The performance periods of Future Trends Hedged during the financial year were US\$Nil (30 September 2022: US\$Nil) none of which was outstanding at the financial year end (30 September 2022: US\$Nil).

The Investment Manager has appointed Heptagon Capital LLP (the "Sub-Investment Manager") to act as a subinvestment manager pursuant to a sub-investment management agreement dated 29 November 2013. The Sub-Investment Manager will provide discretionary investment management and marketing services in relation to the Sub-Fund subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is an English limited liability partnership authorised to conduct investment business in the United Kingdom by the FCA. Fees of the Sub-Investment Manager are paid by the Investment Manager.

Driehaus Micro

The Investment Manager is entitled to receive out of the assets of Driehaus Micro an annual fee of 1.60% in respect of Class A US\$, Class AE EUR and Class AEH EUR, of 1.95% in respect of Class B US\$, of 1.00% in respect of Class C US\$, Class CG GBP and Class CGH GBP, of 1.25% in respect of Class I US\$ and Class ID US\$, and of 1.10% in respect of Class S US\$, Class SE EUR and Class SGB GBP, accrued daily and payable monthly in arrears (before deduction of fees, expenses, borrowings and interest). The Investment Manager is entitled to be reimbursed by Driehaus Micro for reasonable out of pocket expenses incurred by it. The fees charged for Driehaus Micro during the financial year were US\$7,185,320 (30 September 2022: US\$7,805,103) of which US\$636,441 was outstanding at the financial year end (30 September 2022: US\$572,908).

The Investment Manager is not entitled to a performance fee based on the performance of the Sub-Fund.

The Investment Manager has appointed Driehaus Capital Management LLC (the "Sub-Investment Manager") to act as a sub-investment manager pursuant to a sub-investment management agreement dated 8 June 2016. The Sub-Investment Manager will provide discretionary investment management and marketing services in relation to the Sub-Fund subject to the overall supervision of the Investment Manager. The Sub-Investment Manager is a US investment adviser and is registered with the SEC. Fees of the Sub-Investment Manager are paid by the Investment Manager.

7. Depositary Fees

The Depositary is entitled to receive a maximum annual Depositary fee in the range of 0.02% to 0.035% per annum of the net asset value of the relevant Sub-Fund, accrued at each valuation point and payable monthly in arrears subject to a minimum fee of US\$7,500 per Sub-Fund per annum as aggregated across all Sub-Funds of the ICAV. All Sub-Funds, except for Yacktman and Easterly, also pay custody fees ranging from 0.005% to 0.70% calculated by reference to the market value of the investments that the relevant Sub-Fund may make in each relevant market. Yacktman pays custody fees ranging from 0.01% to 0.03% calculated by reference to the market value of the investments that Yacktman may make in each relevant market. Easterly pays custody fees ranging from 0.005% to 0.30% calculated by reference to the market value of the investments that Easterly may make in each relevant market.

The Depositary fees are accrued at each valuation point and payable monthly in arrears, and subject to a minimum charge of US\$12,000 per annum. The Depositary is also entitled to transaction and cash service charges and to recover properly vouched out-of-pocket expenses out of the assets of the relevant Sub-Fund (plus VAT thereon, if any), including expenses of any sub-custodian appointed by it which shall be at normal commercial rates. The Depositary is entitled to receive an annual trustee fee in respect of each Sub-Fund accrued daily and payable monthly in arrears at an agreed annual percentage rate of 0.025% of the net asset value of each Sub-Fund.

8. Directors' Fees

The Directors charge a fee for their services at a rate determined by the Board of Directors and agreed with the ICAV. The Directors have determined that the maximum fee per director cannot exceed EUR30,000 per annum (excluding VAT, if any). All Directors are entitled to reimbursement by the ICAV of expenses properly incurred in connection with the business of the ICAV or the discharge of their duties. Robert Rosenberg has waived his entitlement to Directors fees since his appointment.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

8. Directors' Fees (continued)

Directors' fees and expenses charged during the financial year were:

-Yacktman: US\$6,386 (30 September 2022: US\$7,234);

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

9. Share Capital

The authorised share capital of the ICAV is EUR2.00 divided into 2 redeemable non-participating shares of EUR1.00 each and 500,000,000,000 shares of no par value. The maximum issued share capital of the ICAV is 2 redeemable non-participating shares of EUR1.00 each and 500,000,000,000 shares of no par value.

Non-participating shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the Sub-Fund. The Directors have the power to allot shares in the capital of the Sub-Fund on such terms and in such manner as they may think fit.

Future Trends Hedged

There was one share class in existence at the financial year end, Class A US\$. Details of the net asset values are disclosed below. In preparing the published net asset value ("NAV") of Future Trends Hedged, establishment expenses were amortised over a five year period. For the purposes of these financial statements all establishment expenses have been expensed in the financial year which they were incurred in accordance with IAS 38. As a result the published NAV differs from the audited NAV. This treatment does not impact on on-going valuations of Future Trends Hedged, the calculation of NAV based fees or the values used for subscriptions and redemptions. The impact on the NAV for the financial year ended 30 September 2023 was 0 basis points (30 September 2022: 0 basis points, 30 September 2021: 6 basis points).

Summit Sustainable Opportunities

There were five share classes in existence at the financial year end, Class AE EUR, Class C US\$, Class CCHH CHF, Class CEH EUR and Class CG GBP. Details of the net asset values of the five classes are disclosed below. In preparing the published net asset value ("NAV") of Summit Sustainable Opportunities, establishment expenses are amortised over a five year period. For the purposes of these financial statements all establishment expenses have been expensed in the financial year which they were incurred in accordance with IAS 38. As a result, the published NAV differs from the audited NAV. This treatment does not impact on on-going valuations of Summit Sustainable Opportunities, the calculation of NAV based fees or the values used for subscriptions and redemptions. The impact on the NAV for the financial year ended 30 September 2023 was 0 basis points (30 September 2022: 15 basis points, 30 September 2021: 12 basis points).

<u>Easterly</u>

The Sub-Fund entered into liquidation on 21 August 2023. In preparing the published net asset value ("NAV") of Easterly, establishment expenses were amortised over a five year period. For the purposes of these financial statements all establishment expenses have been expensed in the financial year which they were incurred in accordance with IAS 38. As a result the published NAV differed from the audited NAV. This treatment does not impact on on-going valuations of Easterly, the calculation of NAV based fees or the values used for subscriptions and redemptions. The impact on the NAV for the financial year ended 30 September 2022 was 6 basis points (30 September 2021: 10 basis points).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

11. Fair Value Hierarchy

IFRS 7 "Financial instruments – Disclosures" establishes a three-tier fair value hierarchy that prioritises the inputs to valuation techniques to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and lowest priority to unobservable inputs (Level 3 measurement). Investments measured and reported at fair value are classified and disclosed in one of the following fair value hierarchy levels based on the significance of the inputs used in measuring its fair value:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities, include active listed equities, short-term obligations and exchange traded derivatives.

Level 2: Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly. Fair value is determined through the use of models or other valuation methodologies. These include corporate bonds, listed equities on markets that are not active and over-the-counter derivatives.

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable. Unobservable inputs are developed based on the best information available in the circumstances and reflect the ICAV's own assumptions about how market participants would be expected to value the asset or liability.

An investment is always categorised as Level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The Sub-Fund's financial instruments are measured at fair value and it is usually possible to determine their fair values within a reasonable range of estimates. Fair value estimates are made at a specific point in time, based on market conditions and information about the financial instrument. These estimates are subjective in nature and involve uncertainties that may require significant judgement (e.g., interest rates, volatility, estimated cash flows etc.). Actual results could differ from these estimates.

As at 30 September 2023 and 30 September 2022, cash and cash equivalents are classified as Level 1. All other assets and liabilities not measured at fair value but for which fair value is disclosed are classified as Level 2. Refer to the Statements of Financial Position for a breakdown of assets and liabilities and to Note 2 for a description of the valuation techniques.

The following tables present the financial instruments carried on the Statement of Financial Position by caption and by level within the valuation hierarchy as at 30 September 2023.

⁽¹⁾ The Sub-Fund launched on 12 January 2022.* As approved by the Sub-Fund's Board of the Directors.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

11. Fair Value Hierarchy (continued)

There were no transfers between levels for securities held at 30 September 2023.

The following table presents the transfers between levels for securities held at 30 September 2022:

<u>Kopernik</u>	Level 1	Level 2	Level 3
	US\$	US\$	US\$
Transfer between Level 1 and Level 3:			
Equities	(201,639,225)	-	201,639,225

The transfer of securities is assumed to take place at the start of the financial year, therefore the fair value amounts were carried over from 30 September 2021.

The transfer from level 1 to level 3 was the result of equity securities Etalon Group Plc GDR, Federal Grid Co Unified Energy System PJSC, Gazprom PJSC, Lenta International Co PJSC GDR, LSR Group PJSC Class A, Moscow Exchange MICEX-RTS PJSC, Polyus PJSC GDR, RusHydro PJSC, Sberbank of Russia PJSC ADR, and VTB Bank PJSC. The transfers were due to Russia/Ukraine crisis, the Board of the ICAV decided to write down to zero all positions in Russian local securities, American Depository Receipts ("ADRs") and Global Depository Receipts ("GDRs") in which the Sub-Fund is currently invested. Further detail is provided in the Significant events note.

There were no transfers within Yacktman, Driehaus Emerging, European Focus, Future Trends, Future Trends Hedged, Driehaus Micro, WCM Global, Listed Private Assets, Kettle Hill, Driehaus Small, Summit Sustainable Opportunities, Easterly and Qblue Sub-Funds for securities held at 30 September 2022.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

12. Derivatives

Details of derivatives held by the ICAV as at 30 September 2023 are shown in the Investment Portfolio Statements.

13. Risks associated with financial instruments

Market risk

The ICAV employs the standard commitment approach to comply with the UCITS IV directive, which requires each UCITS Fund to calculate its global risk exposure. The standard commitment approach requires the Investment Manager to convert each financial derivative instrument position into the market value of an equivalent position in the underlying asset of that derivative taking account of netting and hedging arrangements. The Sub-Funds' total commitment to financial derivative instruments is limited to 100% of its total net value.

The ICAV is exposed to market risk (which includes valuation and price risk, interest rate risk, foreign currency risk), credit risk, liquidity risk and cash flow interest rate risk arising from the financial instruments it holds. The ICAV uses derivatives and other instruments for trading purposes and in connection with its risk management activities.

The ICAV has investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy and has established processes to monitor and control economic hedging transactions in a timely and accurate manner. The ICAV's accounting policies in relation to investments in equities and short-term debt obligations, forward foreign currency contracts, futures, equity swaps and option contracts are set out in note 2.

As an investment fund, the ICAV buys, sells and holds financial assets and liabilities in order to take advantage of changes in market prices or rates.

Management of risk

The Investment Manager assesses the exposure to market risk before making investment decisions and monitors the overall level of market risk on a daily basis. This is done at the level of each underlying investment when they are assigned an appropriate benchmark and an underlying currency monitoring basis. It is also carried out at the aggregate level where the portfolio is assigned a global benchmark, while tactical allocations that deviate from this benchmark may be taken and are monitored. Geographical allocations, certain style factors both explicit and implicit currency exposures are monitored daily.

These factors are reported to the Directors by the Investment Manager monthly and discussed by the Directors in quarterly meetings.

The detailed risk management policies employed by the ICAV to manage these risks are discussed below.

a) Valuation and price risk

Price risk is the risk that the value of an instrument will fluctuate as a result of changes in market prices whether specific to an individual investment, its investor or all factors affecting all instruments traded in the market.

All of the ICAV's financial instruments are measured as financial assets or liabilities at fair value through profit or loss. Gains and losses are recorded by the ICAV based upon market fluctuations and are recorded as realised or unrealised gains or losses in the Statement of Comprehensive Income. All changes in market conditions will directly affect the net asset value of the ICAV.

Price risk is managed by the ICAV's Investment Manager by constructing a diversified portfolio of investments traded on various markets. The investment portfolio consists of investments in equities, short-term debt obligations and derivative contract assets and liabilities. An analysis of the Sub-Funds portfolio of investments is shown in the Investment Portfolio Statements on pages 36 to 74.

a) Valuation and price risk (continued)

Sensitivity analysis

The ICAV's portfolio of investments consists of investments in equities, short-term debt obligations, convertible bonds and derivative contract assets and liabilities. As at 30 September 2023 and 30 September 2022, a 5% increase in security prices would have increased the net assets attributable to holders of redeemable participating shares of each Sub-Fund as outlined in the table below; an equal change in the opposite direction would have decreased the net assets attributable to holders of redeemable shares by an equal but opposite amount.

Portfolio	Currency	30 September 2023	30 September 2022
Yacktman	US\$	29,079,635	29,965,579
Driehaus Emerging	US\$	7,652,152	2,575,482

Easterly ⁽¹⁾	US\$	-	3,414,188
Qblue	US\$	25,006,415	16,317,038

Fair value pricing

All of the ICAV's financial instruments are carried at fair value on the Statement of Financial Position. Usually the fair value of the financial instruments can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including accounts payable and accrued expenses, the carrying amounts approximated fair value due to the immediate or short-term nature of these financial instruments.

The carrying amounts of all the ICAV's financial assets and financial liabilities at the financial year end date approximated their fair values.

Estimation of fair values

The major methods and assumptions used in estimating the fair values of financial instruments are disclosed in note 2, Significant Accounting Policies.

As indicated, many of the ICAV's financial instruments are measured at fair value on the Statement of Financial Position and it is usually possible to determine their fair values within a reasonable range of estimates.

Fair value estimates are made at a specific point in time, based on market conditions and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment (e.g., interest rates, volatility, estimated cash flows etc.) and therefore, cannot be determined with precision.

⁽¹⁾ The Sub-Fund entered into liquidation on 21 August 2023 but the Central Bank has not withdrawn its approval yet.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

13. Risks associated with financial instruments (continued)

Market risk (continued)

b) Interest rate risk

Interest rate risk is the risk that a financial asset's value will fluctuate as a result of changes in market interest rates. Interest rate risk is managed as part of the overall investment strategy of the ICAV.

Management of risk

The vast majority of the ICAV's financial assets and liabilities are non-interest bearing; as a result, the ICAV is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash and cash equivalents are invested at the best available short-term rates, consistent with liquidity and credit worthiness constraints at the time.

Sensitivity analysis

The ICAV's portfolio of investments is not exposed to significant interest rate risk on the market value of its short-term debt securities due to the short-term to maturity of less than one year. Corporate and convertible bonds held by the ICAV don't expose its portfolio to significant interest rate risk due to the low contribution of the bond in the overall portfolio's value. An increase of 50 basis points in interest rates at the last coupon date would have decreased the net assets attributable to holders of redeemable shares at 30 September 2023 by US\$651,655 (30 September 2022: US\$775,642). This analysis assumes that all other variables remain constant. For a decrease of 50 basis points there would be an equal and opposite impact on the net assets attributable to holders of redeemable shares.

c) Foreign currency risk

The ICAV may invest its assets in securities denominated in a wide range of other currencies, some of which may not be freely convertible. The net asset value ("NAV") of the ICAV which is expressed in its functional currency will fluctuate in accordance with the changes in the foreign exchange rate between the functional currency and the currencies in which the ICAV's investments are denominated. The ICAV may, therefore, be exposed to a foreign exchange/currency risk.

The Investment Manager monitors the ICAV's exposure to foreign currencies on a daily basis and measures the risk to the ICAV of the foreign currency exposure by considering the sensitivity of the ICAV's NAV to a movement in the rates of exchange to which the ICAV's net assets, income and expenses are exposed.

Management of risk

The management of currency risk is largely achieved via spot currency contracts to limit the effect of anticipated future changes in exchange rates which might adversely affect the value of the Sub-Fund's portfolio of investments.

⁽²⁾ The Sub-Fund entered into liquidation on 21 August 2023 but the Central Bank has not withdrawn its approval yet.

^(a) This analysis is intended as a relative estimate of currency risk for each of the Sub-Funds, rather than precise numbers. Therefore, the amounts presented represent hypothetical outcomes which are not intended to be predictive, as future market conditions could vary significantly from those experienced in the past. As at 30 September 2023, had the exchange rate between the US Dollar (Euro for European Focus) and the foreign currencies increased or decreased by 5% with all other variables held constant, the increase or decrease respectively in Net assets attributable to holders of redeemable participating shares of the Sub-Funds would result in approximately the amounts displayed in the sensitivity movement column.

⁽²⁾ The Sub-Fund launched on 12 January 2022.

^(a) This analysis is intended as a relative estimate of currency risk for each of the Sub-Funds, rather than precise numbers. Therefore, the amounts presented represent hypothetical outcomes which are not intended to be predictive, as future market conditions could vary significantly from those experienced in the past. As at 30 September 2022, had the exchange rate between the US Dollar (Euro for European Focus) and the foreign currencies increased or decreased by 5% with all other variables held constant, the increase or decrease respectively in Net assets attributable to holders of redeemable participating shares of the Sub-Funds would result in approximately the amounts displayed in the sensitivity movement column.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

13. Risks associated with financial instruments (continued)

Liquidity risk

The ICAV's offering document provides for the daily creation and cancellation of shares and is therefore exposed to the liquidity risk of meeting Shareholder redemptions at any time, unless the Directors agree otherwise. The ICAV has the ability to borrow in the short term to meet these obligations, although no such borrowings have arisen during the financial year.

The ICAV's investments are considered to be readily realisable as they are all listed on major global stock exchanges or traded in regulated markets. The table below shows the contractual, undiscounted cash flows of the ICAV's liabilities.

Management of risk

The Investment Manager is made aware of pending redemptions and through this, and the use of notice redemption requirements, it should be able to realise sufficient liquidity from the sales of investments in the portfolio to meet anticipated redemptions given the majority of investments are daily traded. In more extreme situations, the ICAV has the ability to limit redemptions if circumstances require it.

⁽²⁾ The Sub-Fund launched on 12 January 2022.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

13. Risks associated with financial instruments (continued)

Credit risk

Credit risk is the risk that an issuer or counterparty will be unable to meet a commitment that it has entered into with the ICAV. It is the ICAV's policy to enter into financial instruments with a range of reputable counterparties. Therefore, the ICAV does not expect to incur material credit losses on its financial instruments. The majority of the Sub-Funds' financial assets and financial liabilities are non-interest bearing equity securities traded on an exchange. As a result, they are not subject to significant amounts of credit risk.

Counterparty/Broker risk

The ICAV may have credit exposure to one or more counterparties/brokers by virtue of investment positions in equities, convertible bonds and short-term debt obligations held by the ICAV. To the extent that a counterparty/broker defaults on its obligation and the ICAV is delayed from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. Such risks will increase where the ICAV uses only a limited number of counterparties or brokers.

At 30 September 2023, substantially all of the assets of the ICAV are held by the Depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited ("BBH") which has a long-term debt rating of A+ as issued by Fitch. Saxo Bank, the clearing broker for future contracts has not chosen to obtain a credit rating. Morgan Stanley, the counterparty for equity swap and option contracts which has a long-term debt rating of Aa3 and short-term credit rating of P-1 as measured by Moody's. Bank of America, the counterparty for equity swap and option contracts which has a long-term debt rating of F1+ as measured by Fitch. Cantor Fitzgerald & Co, the counterparty for option contracts which has a long-term credit rating of BBB- and short-term credit rating of F3 as measured by Fitch. Oppenheimer & Co Inc, the counterparty for option contracts has not chosen to obtain a credit rating. Wells Fargo & Co, the counterparty for option contracts which has a long-term debt rating of A+ and short-term credit rating of A+ and short-term credit rating of F1 as measured by Fitch.

At 30 September 2022, substantially all of the assets of the ICAV were held by the Depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited ("BBH") which had a long-term debt rating of A+ as issued by Fitch. Saxo Bank, the clearing broker for future contracts had not chosen to obtain a credit rating. Morgan Stanley, the counterparty for equity swap and option contracts which had a long-term debt rating of Aa3 and short-term credit rating of P-1 as measured by Moody's. Bank of America, the counterparty for equity swap and option contracts which had a long-term debt rating of F1+ as measured by Fitch. Barclays Capital, the counterparty for option contracts which had a long-term credit rating of A and short-term credit rating of F1 as measured by Fitch. JP Morgan, the counterparty for option contracts which had a long-term credit rating of AA- and short-term credit ratin

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

13. Risks associated with financial instruments (continued)

Credit risk (continued)

Counterparty/Broker risk (continued)

Cash held via accounts opened on the books of the Depositary, are obligations of the Depositary while cash held in accounts opened directly on the books of a third party cash correspondent bank, sub-custodian or a broker (collectively, the "agent") are obligations of the agent. Cash held via banks are liabilities of the agent, creating a debtor/creditor relationship directly between the agent and the ICAV. Accordingly, while the Depositary is responsible for exercising reasonable care in the administration of such agency banks where it has appointed the agent (i.e., in the case of cash correspondent banks and sub-custodians), it is not liable for their repayment in the event the agent, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

The Depositary must ensure that there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. The Depositary must ensure the ownership of each asset and the location of documents of title for each asset.

All securities that the Depositary holds in custody (as global sub-custodian for and on behalf of the Depositary for further benefit of its underlying clients) are segregated from the Depositary's own assets, whether they are held in depositary's vault, in segregated accounts on the books of their sub-custodians, or in an account maintained at a central securities depository. The Depositary maintains segregated accounts per client on its own books as well as on the books of the sub-custodian in the local market, where this is possible. The Depositary must also ensure non-cash assets are held on a fiduciary basis through the Depositary's network of global sub-custodians. The Depositary's sub-custodians are required by contract with the Depositary and generally by operation of law to segregate the securities of custody clients from the general banking assets of the sub-custodian.

The Depositary performs both initial and ongoing due diligence reviews on the sub-custodians within its global custody network through its Network Management group. Such reviews include an assessment of service level standards, management expertise, market information, custody operations, reporting and technology capabilities at the sub-custodian, as well as reviews in relation to their reputation and standing in the market and their ongoing commitment to providing custody services. Service level agreements are put in place with each sub-custodian, as well as the usual contractual arrangements, and these are reviewed on a regular basis through service review meetings, including on-site due diligence meetings.

Regular financial analysis of all sub-custodians is carried out by the Depositary's risk and credit group and is focused on the sub-custodian bank's capital adequacy, asset quality, earnings, liquidity and credit ratings as key indicators, amongst others. These reviews form part of the Depositary's routine assessment of a sub-custodian's financial strength and standing.

Management of risk

The assets of the ICAV are segregated from the Depositary own assets and held along with the assets of the other clients held with this Depositary. The ICAV is subject to misappropriation risk to the extent that this institution may be unable to fulfil its obligations either to return the ICAV's securities or repay amounts owed.

The ICAV invests in equities, convertible bonds, short-term debt obligations, derivatives and exchange traded funds. Some of the exchange traded funds may utilise a minimal amount of leverage through UCITS Regulations permission. The ICAV employs no leverage itself.

All transactions in securities are settled/paid for upon delivery using the Depositary. The risk of default is considered minimal, as delivery of securities sold is only made once the Depositary has received payment. Payment is made on a purchase once the securities have been received by the Depositary. The trade will fail if either party fails to meet their obligation.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

13. Risks associated with financial instruments (continued)

Involvement with unconsolidated structured entities

The tables below set out interests held by the ICAV in unconsolidated structured entities. The ICAV's maximum exposure to loss is equal to the total fair value of its investments in funds.

As of 30 September 2023

Konownik

Kopernik	Number of Investee Funds	Total Net Assets of Investee Funds (range in millions) US\$	Investment Fair Value US\$
Strategy Uranium Investment	1	4,610	32,799,614
Total	1	4,610	32,799,614

Listed Private Assets

	Number of Investee Funds	Total Net Assets of Investee Funds (range in millions) US\$	Investment Fair Value US\$
Strategy Infrastructure Private Debt		11,352 2,285	3,807,812 1,496,460
	5		
	2		
Specialists	5	12,931	3,811,975
Total	12	26,568	9,116,247

During the year ended 30 September 2023 and 30 September 2022, the ICAV did not provide financial support to unconsolidated structured entities and has no intention of providing financial or other support.

Net realised and unrealised gains/(losses) incurred on investments in investee funds for the year ended 30 September 2023 were US\$11,431,567 (30 September 2022: US\$2,552,794) for Kopernik and US\$(295,298) (30 September 2022: US\$(3,279,206)) for Listed Private Assets. These are accounted for within the line item "Net realised gains/(losses) on financial assets and financial liabilities at fair value through profit or loss" and "Net change in unrealised gains on financial assets and financial liabilities at fair value through the profit or loss" in the Statement of Comprehensive Income.

16. Efficient Portfolio Management

The ICAV may, on behalf of each Sub-Fund and subject to the conditions and within the limits laid down by the Central Bank, use techniques and instruments for hedging purposes (to protect a Sub-Fund against, or minimise liability from, fluctuations in market value or foreign currency exposures), for the purposes of efficient portfolio management (including but not limited to forward foreign currency contracts, futures contracts, options contracts, put and call options contracts on securities, indices and currencies, stock index contracts, swap contracts, repurchase/reverse repurchase and stocklending agreements subject to the conditions and limits set down by the Central Bank).

The ICAV may engage in such techniques and instruments for the reduction of risk, cost or the generation of additional capital or income for each Sub-Fund with an appropriate level of risk, taking into account the risk profile of the ICAV as described in the ICAV's Prospectus, its issued Supplement's and the general provisions of the UCITS Regulations.

Additional disclosure is required under Central Bank's UCITS Regulations for UCITS funds which have engaged in efficient portfolio management techniques. UCITS funds are required to disclose the revenues arising from efficient portfolio management techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

The following tables show the realised gains/(losses), movements in unrealised gains/(losses) and commission expenses related to futures contracts, hedge share class forward foreign currency contracts and options contracts during the financial year ended 30 September 2023 and 30 September 2022. Counterparties for futures contracts, hedge share class forward foreign currency contracts and option contracts used by the Sub-Fund are disclosed in relevant Investment Portfolio Statement.

17. Offsetting Financial Instruments

The ICAV is required to disclose the impact of offsetting assets and liabilities represented in the Statement of Financial Position to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognised assets and liabilities. These recognised assets and liabilities are derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of set-off criteria: the amounts owed by the ICAV to another party are determinable, the ICAV has the right to set-off the amounts owed with the amounts owed by the other party, the ICAV intends to set-off on a net basis, and the ICAV right of set-off is enforceable at law.

For financial reporting purpose, the ICAV does not offset derivative assets and derivative liabilities in the Statement of Financial Position. Amounts which cannot be offset under IFRS, but which could be settled net under the terms of master netting agreements if certain conditions arise, and collateral received or pledged, are presented in the tables to show the total net exposure of the ICAV as at 30 September 2023 and 30 September 2022. Driehaus Emerging, Harvest China, Easterly and Qblue do not have the tables presented in the subsequent pages as the Sub-Funds have no derivative assets and liabilities available to offset.

(a) Collateral received (or pledged) is limited to an amount not to exceed 100% of the net amount of assets (or liabilities) in the tables presented above, for each respective counterparty. (b) Net Amount represents amounts subject to loss as at financial year end, in the event of a counterparty failure.

(c) Net Amount represents amounts under-collateralised by the ICAV to each counterparty as at financial year end.

19. Soft commissions and directed brokerage expenses

During the financial year ended 30 September 2023 and 30 September 2022, the Sub-Investment Managers entered into soft commission arrangements with brokers in respect of which certain goods and services used to support the investment decision process were received. The Sub-Investment Managers and their respective connected persons do not make direct payments for these services but do transact business with the brokers on behalf of the Sub-Funds, and commissions are paid on these transactions.

Under these agreements, each broker has agreed to provide best execution. These services assist the Sub-Investment Managers in carrying out their investment decision-making responsibilities in respect of the relevant Sub-Funds. During the financial year ended 30 September 2023 and 30 September 2022, Heptagon Capital LLP and Harvest Global Investments did not participate in any soft commission arrangements for the Sub-Funds to which they acted as Sub-Investment Manager.

20. Cross liability

Each Sub-Fund of the ICAV will be treated as bearing its own liabilities and the ICAV will not be liable as a whole to third parties provided, however, if the Directors are of the opinion that a particular liability does not relate to any particular Sub-Fund or Sub-Funds, that liability will be borne jointly by all Sub-Funds pro rata to their respective net asset values at the time when the allocation is made.

Certain jurisdictions, however, other than Ireland, might not recognise such limited right of recourse inherent in the ICAV's segregated structure. In such a case, creditors of a particular Sub-Fund could have recourse to assets of other Sub-Funds within the ICAV at the date of the authorisation of the financial statements. The Directors are not aware of any such existing or contingent liability.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

21. Significant events during the financial year

When the unfortunate events began to unfold at the end of February 2022 due to the Russian invasion of Ukraine, the Investment Manager together with the ICAV's Board began processing all the information, articles and opinions that were circulating at the time since Kopernik holds Russian investments. There were many reports on asset managers writing down Russian securities which were discussed with the Sub-Investment Manager, Kopernik Global Investors LLC. The Investment Manager, the ICAV's Board, the Manager as well as the Depositary felt that a conservative approach should be taken in the valuation of the Russian securities in Kopernik.

There are a total of 10 Russian investments in the portfolio as at 30 September 2023; 3 of which are GDR's and 7 are common stocks. Due to the 100% write down, exposure to Russian assets is nil. Should there be a time when the sanctions on Russia and Russian equities are lifted allowing them to be freely traded and priced on exchanges, it could be the case that the ICAV's Board in discussions with the Investment Manager and the Manager, may decide to use the market price when valuing the securities once again. A shareholder notification was circulated to the shareholders of the Sub-Fund regarding the valuation of Russian securities.

The Prospectus of the ICAV and new Supplements to the Prospectus of the ICAV for all Sub-Funds except for Harvest China were noted by the Central Bank on 1 December 2022 in order to address Sustainable Finance Disclosure Regulation (the "SFDR") requirements.

The new Supplement to the Prospectus of the ICAV for Qblue was noted by the Central Bank on 16 June 2023 in order to reflect details of new Class of Shares - Class SSEK SEK.

The latest Supplement to the Prospectus of the ICAV for WCM Global was noted by the Central Bank on 12 July 2023 in order to reflect details of new Classes of Shares - Class CGH GBP, Class CSG SGD, Class XG GBP and Class Y3 US\$.

The latest Supplement to the Prospectus of the ICAV for Driehaus Emerging was noted by the Central Bank on 4 August 2023 in order to consider Principle Adverse Impact indicators and reflect details of new Classes of Shares - Class M US\$, Class X US\$ and Class XED EUR.

Easterly entered into liquidation with the full redemption of shares on 21 August 2023 according to the intention of the Investment Manager and the Sub-Investment Manager.

The new Supplement to the Prospectus of the ICAV for Driehaus Small was noted by the Central Bank on 25 September 2023 in order to re-categorise the Sub-Fund from an Article 6 to an Article 8 fund under the SFDR. Additionally, the Sub-Fund now considers sustainability performance against four Principle Adverse Impact indicators.

New Classes of Shares have been launched for Yacktman, Driehaus Emerging, Future Trends, WCM Global, Driehaus Small and Qblue. Details of these Classes of Shares are provided in the Statement of Financial Position on pages 80 to 89.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023

22. Post financial year end events

Vacktman

Summit Sustainable Opportunities entered into liquidation with the full redemption of shares on 9 October 2023 according to the intention of the Investment Manager and the Sub-Investment Manager.

The latest Supplement to the Prospectus of the ICAV for Yacktman was noted by the Central Bank on 12 October 2023 in order to reflect details of new Class of Shares - Class M US\$.

The latest Supplement to the Prospectus of the ICAV for WCM Global was noted by the Central Bank on 12 October 2023 in order to reflect details of new Classes of Shares - Class G US\$ and Class M US\$.

The Manager changed the office address to 55 Charlemont Place - 3rd Floor, Dublin 2 D02 F985, Ireland on 1 November 2023.

Details of dividends declared and paid subsequent to the financial year end 30 September 2023 are included in the tables below:

There were no other significant events subsequent to the financial year end, up to the date the financial statements were approved, that would impact these financial statements.

23. Comparative disclosures

These financial statements are the financial statements of the ICAV for the financial year ended 30 September 2023, with comparative figures for the financial year ended 30 September 2022.

These financial statements do not present Totals at the ICAV's level. According to the ICAV Act, separate accounts may be prepared and presented in respect of a sub-fund or sub-funds; and all references to an ICAV be read as, where appropriate, referring to the sub-fund or sub-funds in respect of which the separate accounts are to be prepared.

Where necessary, comparative information has been adjusted to conform to the changes in presentation in the current year information. There are no reclassifications and the changes made to comparative information are not material.

24. Approval of the financial statements

The Board of Directors approved the financial statements on 29 January 2024.

SIGNIFICANT PORTFOLIO MOVEMENTS FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2023 (CONTINUED)

In accordance with the UCITS Regulators, the annual report documents material changes that have occurred in the disposition of the assets of the ICAV during the financial year/period. A material change is defined as aggregate purchase of a security exceeding 1 percent of the total value of purchased for the financial year/period and/or aggregate disposals greater than 1 percent of the total value of sales for the financial year/period. If there are fewer than 20 purchases/sales that meet the material change definition, the ICAV shall disclose those purchase/sales and such number of the next largest purchases/sales so at least 20 purchases/sales are disclosed.

APPENDIX 1 – TOTAL EXPENSE RATIOS AND PORTFOLIO TURNOVER RATIOS (UNAUDITED)

APPENDIX 3 – REMUNERATION DISCLOSURE (UNAUDITED)

The European Union Directive 2014/91/EU as implemented in Ireland by S.I. No. 143/2016 - European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, requires management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

To that effect, Carne Global Fund Managers (Ireland) Limited (the "**Manager**"), has implemented a remuneration policy that applies to all UCITS for which the Manager acts as manager (the "**Remuneration Policy**") and covers all staff whose professional activities have a material impact on the risk profile of the Manager or the UCITS it manages ("**Identified Staff of the Manager**"). The Remuneration Policy also applies to all alternative investment funds for which the Manager acts as alternative investment fund manager. In accordance with the Remuneration Policy, all remuneration paid to Identified Staff of the Manager can be divided into:

- Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

The Manager has designated the following persons as Identified Staff of the Manager:

- 1. The Designated Persons;
- 2. Each of the Manager's directors;
- 3. Head of Compliance;
- 4. Risk Officer;
- 5. Head of Anti-Money Laundering and Counter Terrorist Financing Compliance;
- 6. Money Laundering Reporting Officer;
- 7. Chief Executive Officer;
- 8. Chief Operating Officer; and
- 9. All members of the investment committee.

The Manager has a business model, policies, and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale, and complexity of the Manager and the UCITS. The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

The Manager has determined not to constitute a separate remuneration committee and for remuneration matters to be determined through the Manager's Compliance and AML Committee, a Committee of the Manager's Board.

The Manager's Compliance and AML Committee is responsible for the ongoing implementation of the Manager's remuneration matters and will assess, oversee, and review the remuneration arrangements of the Manager as well as that of the delegates as relevant, in line with the provisions of the applicable remuneration requirements.

The Manager has a number of directly employed staff. The Manager's parent company is Carne Global Financial Services Limited ("**Carne**"). In addition, Carne also operates through a shared services organisational model which provides that Carne employs staff and further enters into inter-group agreements with other Carne Group entities within the group to ensure such entities are resourced appropriately. As at 31 December 2022, 10 of the Identified Staff are employees of another entity within the Carne Group, and are remunerated directly based on their contribution to Carne Group as a whole. In return for the services of each of the Carne Identified Staff, the Manager pays an annual staff recharge to Carne (the "**Staff Recharge**").

The independent non-executive directors are paid a fixed remuneration. The Other Identified Staff member's remuneration is linked to their overall individual contribution to the Manager or the Carne Group, with reference to both financial and non-financial criteria and not directly linked to the performance of specific business units or targets reached or the performance of the UCITS.

The aggregate of the total Staff Recharge, remuneration of the directly employed identified staff of the Manager and the remuneration of the independent non-executive directors is EUR2,502,802 paid to 16 Identified Staff* for the year ended 31 December 2022.

* This number represents the number of Identified Staff as at 31 December 2022.

APPENDIX 3 – REMUNERATION DISCLOSURE (UNAUDITED) (CONTINUED)

The Manager has also determined that, on the basis of number of sub-funds / net asset value of the UCITS relative to the number of sub-funds / assets under management, the portion of this figure attributable to the UCITS is EUR62,692.

The ICAV does not pay any fixed or variable remuneration to identified staff of the Investment Manager.

APPENDIX 4 – SFDR AND TAXONOMY REGULATION DISCLOSURES (UNAUDITED)

The European Union's ("EU") Sustainable Finance Disclosures Regulation (Regulation EU/2019/2088) ("SFDR") requires the Company to provide transparency on how sustainability considerations are integrated into the investment process with respect to each of the Sub-Funds. The EU's Regulation on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation EU/2020/852) (the "Taxonomy Regulation") requires the Company to provide additional disclosure with respect to each of the Sub-Funds in order to enhance transparency and to provide for objective comparison of financial products regarding the proportion of such financial products' investments that contribute to environmentally sustainable economic activities, noting that the scope of sustainable investments under SFDR.

The following Sub-Funds are categorised as Article 6 sub-funds:

On the basis that the following Sub-Funds are not financial products which are subject to either Article 8 or Article 9 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"), the following statement, which is in prescribed form, applies to these Sub-Funds and to their underlying investments: "The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities".

- Yacktman US Equity Fund
- Driehaus US Micro Cap Equity Fund
- Kopernik Global All-Cap Equity Fund
- Heptagon Listed Private Assets Fund
- Heptagon Kettle Hill US L/S Equity Fund

The following Sub-Funds are categorised as Article 8 sub-funds:

- Heptagon Future Trends Equity Fund
- Heptagon Future Trends Hedged Fund
- Driehaus US Small Cap Equity Fund*
- WCM Global Equity Fund
- Heptagon European Focus Equity Fund
- Driehaus Emerging Markets Sustainable Equity Fund
- Summit Sustainable Opportunities L/S Equity Fund**
- Easterly US Value Equity Fund**

The following Sub-Funds are categorised as Article 9 sub-funds:

- Qblue Global Sustainable Leaders Fund

* The Sub-Fund was reclassified as an Article 8 sub-fund on 25 September 2023 and as such, periodic reporting for this fund would only cover five days to year end 30 September 2023. Therefore, a periodic report has not been completed but will be included in the accounts for the next financial year.

** These Sub-Funds were closed during reporting period and this is referenced in the relevant Sub-Funds summary.

The Article 8 sub-funds promote, among other characteristics, environmental and/or social characteristics in the manner described in the Company's prospectus but does not have as its objective sustainable investment. Article 11(1) of SFDR requires certain information to be disclosed in its annual accounts where a sub-fund is subject to Article 8 of SFDR including the extent to which environmental or social characteristics are met.

Even though certain percentage of the sub-funds' assets were aligned with the two Taxonomy Regulation criteria for climate change adaptation and climate change mitigation, the investments underlying the sub-funds do not take into account the EU criteria for environmentally sustainable economic activities for the purposes of the Taxonomy Regulation as at the end of the reporting period and the 'do no significant harm' principle applies only to those investments that take into account EU criteria for environmentally sustainable economic activities.

The Investment Manager expects taxonomy alignment in normal circumstances to be 0% for all Article 8 sub-funds but that there may be coincidental alignment from time to time. The Investment Manager has access to an external data vendor for the purpose of measuring the alignment of economic activities to environmental objectives.

APPENDIX 4 – SFDR AND TAXONOMY REGULATION DISCLOSURES (UNAUDITED) (CONTINUED)

Driehaus Emerging Markets Sustainable Equity Fund

Over the reference period, the E/S characteristics of the Fund were promoted through:

- Embedding ESG scores and considerations into the investment research process,
- Abiding by the exclusion criteria,
- Through engagement with investee companies in certain instances,
- Through its proxy voting policy, and
- By consideration of Principle Adverse Impacts (PAI).

The Sub-Fund Manager also engaged with the management teams of fourteen companies across the Fund specifically related to their ESG business practices. The purposes of these interactions included seeking a better understanding of the management teams' views and actions related to their ESG rating which prompted the need for more focus on ESG-related issues, proxy voting discussions and environmental impacts on corporate strategy.

The Fund also considers several PAIs:

- Carbon footprint
- Exposure to companies active in the fossil fuel sector
- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
- Board gender diversity
- Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons).

Heptagon European Focus Equity Fund

The Fund employs a high conviction, bottom-up, low turnover, research driven strategy with a focus on companies that exhibit sustainable long-term growth. ESG considerations are essential to the investment process, and the Fund engaged in active dialogue with companies to foster good ESG practices and improve the sustainability profile of companies in the long-term. The Fund also has a comprehensive exclusion list which prohibits the strategy from investing in harmful sectors, such as fossil fuel, weapons, tobacco, gambling and adult entertainment. The Fund generally avoids businesses regarded as harmful to society – a belief that "doing well and doing good is mutually dependent" for being a good long term-investment.

The E/S characteristics of the Fund were promoted through the approach taken by the Sub-Investment Manager. The Fund considers a number of ESG metrics and assesses these through two lenses: improving companies' absolute data, or for ongoing improvement in E/S productivity as a percentage of sales and by employee, for example:

- environment improvement of GHG/water/waste per unit of sales and per employee;
- social improvement of women/female executives per unit of sales and per employee.

Heptagon Future Trends Equity Fund and Heptagon Future Trends Hedged Fund

During the period covered by this report, the Fund complied with its environmental and social characteristics via the following:

- · Application of the Fund's exclusion policy as detailed in the Fund's prospectus
- Consideration of ESG ratings and data from external providers and in house analysis
- Dialogue and engagement with the Fund's holdings, including onsite visits to company headquarters and operations.

The Sub-Investment Manager considers the factors below to monitor how underlying companies meet the desired E/S characteristics:

- a positive rate of change, progress in respect of the company's environmental and social objectives and disclosures; and
- areas for improvement, which leads to further engagement with investee/potential companies.

Throughout the period, the Sub-Investment Manager also engaged with selected companies, in particular on where the underlying companies within the Fund could improve in respect of their sustainability initiatives. Key topics of focus include increased levels of financial disclosure and the linkage between progress on sustainability metrics and executive remuneration. In some instances the Sub-Investment Manager has specifically engaged with businesses on how to scope and then improve their sustainability strategies.

APPENDIX 4 – SFDR AND TAXONOMY REGULATION DISCLOSURES (UNAUDITED) (CONTINUED)

Summit Sustainable Opportunities L/S Equity Fund

The Summit Sustainable Opportunities L/S Equity Fund was closed on 9 October 2023 and no longer forms part of the Heptagon ICAV. The periodic report contained within covers the reference period from 1 October 2022 to 30 September 2023.

The Sub-Investment Manager views sustainability as a driver of disruption and sustainably oriented businesses as companies offering lower environmental impact and less resource-intensive products or services than incumbent players. The Fund applies exclusionary criteria which prohibits investment in harmful industries or business activities. Throughout the reference period, the Fund constantly monitored ESG factors under consideration and negative concerns in this regard were not identified. On balance, the Fund met the environmental and social characteristics promoted - the Fund reduced its holdings of companies that lag in governance practices and increased its holdings in companies that lead in this respect.

When assessing the sustainability indicators, the Sub-Investment Manager also aims to:

- Understand the business activity of the company and whether a component, core component or by-product of that company's activities is, in the opinion of the Sub-Investment Manager, a more sustainable way of doing business;
- Map the business activity to the United Nations Sustainable Development Goals (UN SDGs); and
- Cross reference the investment thesis with third party sustainability data providers, if available.

WCM Global Equity Fund

A key component of the Fund's bottom-up fundamental approach is non-financial ESG analysis with respect to corporate culture and governance research on at least 80% of the Fund's net assets on an ongoing basis (or as the investment horizon of a particular company may dictate).

Throughout the reference period the Fund continued to apply exclusionary screens as detailed below and no investments in these sectors were made by the Fund:

- Oil & gas drilling, exploration and production
- Coal and consumable fuels
- Power generation via fossil fuels combustion
- Tobacco
- Controversial weapons
- Companies who fail to meet corporate culture internal rating criteria

All positions in the Fund were also subject to analysis under the Sub-Investment Manager's Culture and Human Capital Framework. The Framework is a structured process through which all prospective and current holdings are assessed, and which define characteristics that are considered essential to promoting healthy, sustainable corporate cultures. Over the reference period, no new investments were included in the Fund where material deficiencies were identified, and all Fund holdings passes the Sub-Investment Manager's Culture and Human Capital Framework. Additionally, the Sub-Investment Manager also engaged with selected companies, in particular on the mental health of employees, by sharing cultural findings with multiple companies' board members and employees, and on management remuneration policies, among other issues.

Easterly US Value Equity Fund

The Easterly US Value Equity Fund was closed in August 2023 and no longer forms part of the Heptagon ICAV. As such, this periodic report covers the reference period from 1 October 2022 to 31 August 2023.

ESG considerations are a meaningful component in the Sub-Investment Manager's framework for assessing a company's management, corporate culture and strategy alignment. The Sub-Investment Manager seeks to engage in active dialogues with the management teams of companies to discuss ESG practices. The Fund has a comprehensive exclusion list which prohibits the strategy from investing in harmful industries or business activities and there were no concerns in this regard identified.

APPENDIX 4 – SFDR AND TAXONOMY REGULATION DISCLOSURES (UNAUDITED) (CONTINUED)

Easterly US Value Equity Fund (continued)

Overall throughout the reporting period, the Fund met the environmental and social characteristics promoted. The Fund as a whole increased the proportion of companies with leading environmental, social and governance metrics. Additionally, the percentage of Fund holdings classified as laggards with respect to environmental, social and governance metrics decreased. Additionally, there was no exposure to firms with severe environmental, social or governance controversies.

The following Sub-Funds are categorised as Article 9 sub-funds:

- Qblue Global Sustainable Leaders Fund

The Article 9 sub-fund is a Fund that has sustainable investment as its objective. Sustainable investments are defined as any of the following:

- Investments in economic activity that contributes to an environmental objective;
- Investments in economic activity that contributes to a social objective and in particular an investment that contributes to tackling inequality, an investment fostering social cohesion, social integration or labor relations; and
- Investments in human capital or economically or socially disadvantaged communities;

provided that such investments do not significantly harm any of those objectives and that the investee companies follow good governance practices, particularly with respect to sound management structures, employee relations, remuneration of staff and tax compliance. Article 11(1) of SFDR requires certain information to be disclosed in its annual accounts where a sub-fund is subject to Article 9 of SFDR including the extent to which the sustainable objective was met.

The Article 9 sub-fund may report higher taxonomy alignment than Article 8 sub-funds, but fund holdings are not expected to fully align with the taxonomy. For example, over the period, only 8% of the companies in the Qblue Global Sustainable Leaders Fund investment portfolio reported their revenue alignment with the EU Taxonomy. Taxonomy alignment for the remaining companies was estimated using MSCI's EU Taxonomy Methodology.

Qblue Global Sustainable Leaders Fund

The Fund met its sustainable objective by investing solely in ESG industry leaders, best positioned for the transition to a low carbon economy and aligned with the UN SDGs. The Fund meets its sustainability objectives through (i) exclusions and (ii) the Sustainability CubeTM score which includes management of adverse impacts. Over the reporting period, there were no breaches of the Fund's exclusion list and all screening criteria was met. The scoring thresholds associated with the Sustainability CubeTM were also achieved. Adverse impacts are also incorporated into the Sustainability CubeTM score which also contributed to the Fund achieving its sustainability objective.

Contribution to the sustainable investment objective is assessed using the the Sub-Investment Manager's proprietary sustainability model, The Sustainability CubeTM. The model calculates the combined contribution across the three areas:

- Transition to a low carbon economy
- ESG Leadership
- Contribution to United Nations 17 Sustainable Development Goals

On a given day, the sustainable investment objective is attained if the capital weighted average Sustainability CubeTM score of the portfolio companies, within each industry (as per MSCI GICS level 1) within each region, is better than the 90th percentile of the sustainability scores in the investment universe. That is, if the average company, within each region and sector, is among the 10% most sustainable companies as measured by the Sustainability CubeTM.

APPENDIX 4 – SFDR AND TAXONOMY REGULATION DISCLOSURES (UNAUDITED) (CONTINUED)

Qblue Global Sustainable Leaders Fund (continued)

The investment objective of the Sub-Fund is to provide long-term capital growth, investing globally in the shares of companies that the Sub-Investment Manager believes contribute positively to social and environmental factors. The Sub-Fund aims to achieve its objective by investing in companies that, as measured by the Sub-Investment Manager's proprietary sustainability model (the Sustainability CubeTM), are ESG industry leaders, best positioned for the transition to a low carbon economy and aligned with the UN SDGs. Further information on the Sustainability CubeTM is set out below. The average Sustainability CubeTM score over the period, across regions and sectors, was 7.5, corresponding to the 97th percentile among all scores in the investment universe. In other words, the holdings in the investment portfolio was on average among the top 3% most sustainable companies measured by the Sustainability CubeTM score.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Driehaus Emerging Markets Sustainable Equity Fund

Legal entity identifier: 549300N15SH1J38TR077

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes	X No
It made sustainable investments with an environmental objective:% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do	 It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 not qualify as environmentally sustainable under the EU Taxonomy It made sustainable investments with a social objective:% 	 with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective X It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund mainly invests in equity securities of companies in emerging markets which are listed or traded on Recognised Markets. In order to meet the environmental and/or social characteristics promoted by the Fund, the Sub-Investment Manager incorporates ESG criteria as part of its investment research.

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the sustainable objectives of this financial product are attained.

Over the reference period, the E/S characteristics of the Fund were promoted through (1) embedding ESG scores and considerations into the investment research process (2) abiding by the exclusion criteria (3) through engagement with investee companies in certain instances (4) through its proxy voting policy and by (5) PAI consideration.

Examples of ESG considerations within the reference period were:

- Carbon emissions
- Water scarcity
- Waste management
- Air and water pollution
- Electronic waste
- Workplace safety
- Data protection and privacy
- Employee and management diversity
- Labor standards
- Employee training and development
- Customer satisfaction protection policies

In addition to the environmental and social characteristics, the Fund excluded companies directly involved in the following sectors as part of its investment research:

- coal production;
- tobacco;
- weapons production; and
- controversial weapons production/distribution.

How did the sustainability indicators perform?

• ESG scores from third party vendors:

Over the reference period, the Fund consisted of a greater proportion of companies rated AAA, AA, and A (as rated by MSCI) than the MSCI Emerging Markets Net Return USD Index, suggesting that companies that the Fund invests in tend to show strong and/or improving management of financially material environmental, social and governance issues. These companies may be more resilient to disruptions arising from ESG events and better suited to leverage opportunities, such as the green transition. Overall, the Fund is rated by MSCI as A vs BBB for the benchmark at the end of the reporting period.

• <u>Number and % of companies that do not meet the ESG exclusion criteria of the Sub-</u><u>fund</u>:

Over the reference period, there were no investments by the Fund in companies that are directly involved in, and/or derive significant revenue from:

- Controversial Weapons production/distribution (>0% revenue) (namely antipersonnel landmines, cluster munitions, biological and chemical weapons).
- Weapons production/distribution (>10% revenue).
- Tobacco production (>5% revenue).
- Coal production and/or distribution (>30%).
- <u>Number and % of companies that are in violation of UN Global Compact</u>
 <u>Compliance</u>

In addition to the above-mentioned industries, the Fund seeks to exclude companies with known serious violations of internationally recognised norms and standards such as, but not limited to, the UN Global Compact, that the Sub-Investment Manager believes do not show a positive outlook and where it's believed that appropriate remedial action has not been taken. As of September 30th, the Fund was invested in one company in violation of the UN Global Compact. The violation was due to the company's lack of disclosures on specific social issues such as data management. The Sub-Investment Manager engaged on multiple occasions with the company and believes it has taken positive actions towards making its ESG practices more publicly available. The Sub-Investment Manager will continue to regularly monitor the company's practices and engage with management as it deems necessary.

• <u>Total number of companies engaged on ESG topics</u>

The Sub-Investment Manager engaged with the management teams of fourteen companies within the portfolio of the Fund specifically related to their ESG business practices. These engagements were conversations between the Sub-Investment Manager and the companies' management teams. The purposes of these interactions included seeking a better understanding of the management teams' views and potential actions related to their MSCI ESG rating, which prompted the need for improved disclosures or focus on ESG-related issues, proxy voting discussions and environmental impacts on corporate strategy.

<u>Total number of proxies voted</u>

The Sub-Investment Manager has retained ISS Shareholder Services Inc. ("ISS") to facilitate its proxy voting process for the Fund. In the past year, the Fund voted 1,170 proxies.

In addition to the above, the attainment of the environmental or social characteristics promoted will also be measure by the Sub-Investment Manager using the PAI regime. Please see below for more information.

...and compared to previous periods?

Not applicable. There has been no previous reporting.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable. The Fund promoted E/S characteristics but did not make any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Investment Manager's PAI consideration is two-fold:

A. Exclusions: At the outset, certain companies are excluded from the investment universe of the Fund due to involvement in controversial weapons and, in certain instances, for violations of the UN Global Compact. Given the Fund's exclusionary policy, the PAI related to violations of the UN Global Compact and exposure to controversial weapons are deemed considered to the extent the impacts are neutralized by each exclusion.

B. PAI process: Further to the Fund's exclusionary policy, each month, the Sub-Investment Manager's risk management team runs a "PAI Portfolio Report" using the SFDR Solutions tool provided by a third-party vendor. The report is run at a portfolio level and includes aggregated data for certain PAIs as are selected by the risk management team and confirmed by the portfolio management team. The selected PAIs may be changed at the discretion of Driehaus's portfolio management and/or risk team, but are currently the following (as at 30 September 2023):

PAI indicator	Impact	Unit
Carbon footprint	26.40	tCO2e / M USD sales
Exposure to companies active in the fossil fuel	2.63%	Share of investments
Violations of UN Global Compact principles and Organisation for Economic Cooperation	1.32%	Share of investments

4

Asset allocation describes the share of investments in specific assets.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is 30/09/23.

and Development (OECD) Guidelines for		
Multinational Enterprises		
Board gender diversity	20.44	Ratio of female to male
		board members
Exposure to controversial weapons	0.00%	Share of investments
(antipersonnel mines, cluster munitions,		
chemical weapons, and biological weapons)		

What were the top investments of this financial product?

The table below shows the 15 largest holdings in the Fund as of 30 September 2023.

¹² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds^{*}, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities invested in by the Fund was 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. There has been no previous reporting.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

346

Cash and other instruments such as deposits were used for liquidity, hedging and efficient portfolio management. To the extent that these instruments were used, they constituted a minority of the Fund's holdings and have adequate minimum safeguards, achieved through exclusions and investment screening criteria.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the supplement for the Fund. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

The Sub-Investment Manager also engaged with the management teams of fourteen companies across the Fund specifically related to their ESG business practices. These engagements were conversations between the Sub-Investment Manager and the companies' management teams. The purposes of these interactions included seeking a better understanding of the management teams' views and potential actions related to a relatively low MSCI ESG rating, which prompted the need for improved disclosures or focus on ESG-related issues, proxy voting discussions and environmental impacts on corporate strategy.

How did this financial product perform compared to the reference benchmark?

How did the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark? Not applicable.
- How did this financial product perform compared with the broad market index? Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The investment objective of the Fund is to provide long-term capital appreciation by investing in European equities. The Fund employs a high conviction, bottom-up, low turnover, research driven strategy with a focus on companies that exhibit sustainable long-term growth. ESG considerations are essential to the investment process, and the Fund engaged in active dialogue with companies to foster good ESG practices and improve the sustainability profile of companies in the long-term.

1

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

The Fund has a comprehensive exclusion list which prohibits the strategy from investing in harmful sectors, such as fossil fuel, weapons, tobacco, gambling and adult entertainment. The average age of a portfolio company is 90+ years; they are all leaders in their respective fields of operation and pursue excellence in the widest possible sense. The Fund therefore only invested in companies that promote sound characteristics which support society.

The characteristics promoted by the Fund consist of investing in companies that may exhibit E/S characteristics such as:

- Improving greenhouse gas (GHG) emissions; there is a growth-tilt to the strategy. As such, it is fair to assume that over time, companies will emit more GHG, use more energy, water and let out more waste. However, as 'growth' is a pre-requisite for conducting a sensible business, the Fund aims to ensure that each portfolio company is becoming more efficient in GHG, energy, water and waste terms by looking at productivity. The Fund monitors portfolio companies' progress is by dividing each ESG factor by sales as well as by number of employees with a view to observing an improvement over a continuous 3 5 year period. Overall, the Fund's investee companies show improving GHG-emission intensity (as measured by GHG per sales and employee unit) in other words they are becoming more GHG-efficient. While there may have be 1-2 outliers over a single year due to structural changes (generally caused by acquisitions), it has not been observed that over a 3-5 year period any of the Portfolio companies have reported deteriorating GHG-efficiency. Consequently, all the management teams of the Portfolio companies are actively striving to become more GHG-efficient.
- Improving energy/electrivity usage development; over-and-above the aforementioned, how much of portfolio companies' overall energy usage is sourced from renewable sources is also monitored. Over time, the Fund is seeking to observe a higher proportion stemming from renewable energy in Fund holdings.
- Transparency and disclosure of environmental and social reports; all portfolio companies in the Fund are publishing transparent and consistent ESG reports with few (if any) restatements to prior years. An example of restatement is Adidas (aprox 4.5% exposure), where a change in company strategy, due to a change in top-management, led to some of the environmental metrics for 2022 being re-stated.

Eurofins Scientific was for some time the least strong company in terms of ESG disclosure. Partly for this reason, the holding was divested from in March 2023.

• Lack of material environmental and/or social controversies; no portfolio company has had any meaningful shortcomings in terms of E/S.

The Fund is aware that some companies in the portfolio needs to source raw materials from developing countries – **Lindt & Sprüngli** and **Nestlé** are two such examples. **Lindt** sources cocoa from the Ivory Coast. During the full and half-yearly reporting points, management addressed this issue by showcasing how they are monitoring child labour. In Q3 2023, it was highlighted that **Nestlé** had encountered a similar controversy regarding child labour in Indonesia in the field of palm oil.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

- Human rights considerations; there have been no human rights considerations in any of the portfolio companies to the knowledge of the Sub-Investment Manager.
- Overall good environmental practices; overall in the Portfolio, individual portfolio company practices are gradually becoming better (albeit from already high levels). There has been a dramatic increase in the number of portfolio companies which are relying on Science Based environmental targets. On average, the portfolio companies aim to be carbon-neutral by 2023 (Scope 1 and Scope 2) and fully carbon-neutral by 2050 (including Scope 3).
- Employee diversity; all portfolio companies are making concerted effort to increase employee diversity.
- Alignment with UN Sustainable Development goals; all portfolio companies are making progress to incorporate a larger number of United Nations Sustainable Development goals.

The extent to which the environmental and/or social characteristics promoted by the Fund product were met during the reporting period is stated in the answer below, "How did the sustainability indicators perform?" of this annex.

• How did the sustainability indicators perform?

When assessing the metrics' performance below, the Sub-Investment Manager initially looks for improving portfolio companies' absolute data, or for ongoing improvement in E/S productivity, and analyses data points, where measurable, as a percentage of sales and by employees.

This is best demonstrated with an example. Below showcases the ESG analysis of the biggest position in the Fund - **Novo Nordisk** (9.5% exposure)

- Environment: improvement of GHG/water/waste pre unit of sales and per employee
- Social: improvement of women/female executive per unit of sales and per employee

	2017	2018	2019	2020	2021	2022	5yr CAGR	Verdic

The Sub-Investment Manager screens investments according to the following environmental and social criteria which may vary depending on the sector as well as data availability:

Environment:

Most portfolio companies show the following profile with 2019 as a base year. GHG, waste, water, energy etc. fell sharply from 2019 to 2020 due to the Covid-19 lockdowns. In 2021, the same ESG metrics showed deterioration as economies opened up and companies wanted to make up for 'lost sales' in 2020. There has been a real improvement in the same ESG metrics from 2021 to 2022.

Answers can be found in above table for Novo Nordisk.

- Greenhouse gas (GHG) emission development; higher in absolute GHG, but lower by unit of sales and per employee.
- Improving energy/electricity usage and development; higher in absolute terms but lower by unit of sales and per employee.
- Improving renewable energy/electrivity usage development; Novo Nordisk already sources all its energy consumption (Scope 1 and Scope 2) from renewable sources.
- Improving waste and water consumption development. Waste: higher in absolute terms; lower by unit of sales but higher per employee (we have assumed this is a one-off as the company rolled out a new block-buster the anti-obesity drug Wegovy). Water: higher in absolute terms but lower by unit of sales and per employee.

Social

- Fair wages/salaries; the Sub-Investment Manager looked at staff-turnover as part of its check-list when it goes through the annual reporting. It also looks at portfolio companies' internal employee surveys to the degree that they are disclosed. However, as most of the portfolio companies are multinational/transnational companies, this is a fairly meaningless metric since salarly levels vary greatly where the companies are operating and/or how much of their production is outsourced to developing markets.
- Ethical supply-chain product sourcing and outsourcing to third party suppliers; the Sub-Investment Manager monitors 'controversies' to the degree when they are highlighted. Since the portfolio companies are extremely reputable businesses (irrespective of their industry), the Sub-Investment Manager almost takes for granted that they have more to lose by reputational issues than setting a good example. The Sub-Investment Manager has never encountered any ethical supply chain issue with any of the portfolio companies.
- Employee diversity; Women's participation to units of sales and in terms of overall headcount; please refer to the above table of **Novo Nordisk**. Women's participation to units of sales lower (because sales growth has been much stronger than overall staff and female staff growth). Women as a percentage of overall headcount higher.
- Women's executive participation in terms of the overall management structure has increased over time.

...and compared to previous periods?

Not applicable. There has been no previous reporting.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable. The Fund promoted E/S characteristics but did not make any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. — Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider PAIs for the reference period of this periodic report.

What were the top investments of this financial product?

The table below shows the 15 largest holdings in the Fund as of 30 September 2023.

Holding	Sector	Weight (%)	Country
Novo Nordisk AS Class B	Healthcare	9.52	Denmark
Atlas Copco AB Class A	Industrials	6.14	Sweden

Beiersdorf AG	Consumer Staples	4.76	Germany
Coloplast AS Class B	Healthcare	4.73	Denmark
EssilorLuxottica SA	Healthcare	4.70	France
Nestle SA	Consumer Staples	4.52	Switzerland
Straumann Holding AG	Healthcare	4.48	Switzerland

What was the proportion of sustainability-related investments?

Not applicable.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

What was the asset allocation?

In which economic sectors were the investments made?

Portfolio sector breakdown 30th Sep-23 – see table below.

Portfolio exposure
16.4%
25.1%
27.0%
12.0%
12.7%
4.8%
2.0%
100.0%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

turnover
 reflecting the
 share of revenue
 from green
 activities of
 investee
 companies

capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

 operational expenditure (OpEx) reflecting green operational activities of investee companies.

sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities invested in by the Fund was 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. There has been no previous reporting.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

benchmarks are indexes to measure whether the financial product attains the sustainable objective.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash and other instruments such as deposits were used for liquidity, hedging and efficient portfolio management. To the extent that these instruments were used, they constituted a minority of the Funds holdings and have adequate minimum safeguards, achieved through exclusions and investment screening criteria.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

During the period the Sub-Investment Manager also engaged with selected portfolio companies, in particular on governance. Particularly, the Fund divested Eurofins Scientific in March 2023 due to poor transparency and a change to the investment case (caused by higher inflation).

How did this financial product perform compared to the reference benchmark?

How did the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark? Not applicable.
- How did this financial product perform compared with the broad market index? Not applicable.

'ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Heptagon Future Trends Equity Fund

Legal entity identifier: 549300XTPVBSVPM7K354

Sustainable investment objective

Did this financial product have a sustainable investment objective?

• Yes	• X No
It made sustainable investments with an environmental objective:% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	 It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective
It made sustainable investments with a social objective:%	X It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period covered by this report, the Fund complied with its environmental and social characteristics via the following:

• Application of the Fund's exclusion policy as detailed in the Fund's prospectus;

1

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

- Consideration of ESG ratings and data from external providers and in house analysis; and
- Dialogue and engagement with the Fund's holdings, including onsite visits to company headquarters and operations.

Over the 12-month period ending 30 September 2023, the Fund has shown broad progress in respect of Environmental and Social credentials. 77% of the underlying investments within the Fund have emissions targets in place, versus 73% a year prior. Further, 57% of these are science-based, a 16 percentage-point improvement relative to 2022. From a social perspective, 100% of the underlying investments in the Fund have qualitative diversity commitments in place (unchanged versus a year prior), but the percentage of businesses quantifying these commitments has increased, from 55% to 59%.

How did the sustainability indicators perform?

The Sub-Investment Manager considers the below when monitoring how underlying companies invested in by the Fund meet E/S characteristics:

- A positive rate of change, progress in respect of the company's environmental and social objectives and disclosures; and
- Areas for improvement, which leads to further engagement with investee/potential companies.

The Sub-Investment Manager has published quarterly sustainability reports since Q2 2020 that tracks the progress of the Fund on both a qualitative and quantitative basis. A proprietary database of information gathered from published Sustainability Reports and conversation with the businesses owned within the Fund supports this output. The Sub-Investment Manager also uses data published by external agencies (particularly MSCI) as a way to assess sustainability progress. Notwithstanding changes to the portfolio over the 12-month period, 80% of the underlying investments in the Fund currently receive a leading (AAA or AA) rating from MSCI in respect of sustainability, versus 67% as of 1 October 2022.

The share of investments in transitional and enabling activities invested in by the Fund was 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. There has been no previous reporting.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

roj

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy. Cash and other instruments such as deposits were used for liquidity, hedging and efficient portfolio management. To the extent that these instruments were used, they constituted a minority of the Funds holdings and have adequate minimum safeguards, achieved through exclusions and investment screening criteria.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the supplement for the Fund. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

Throughout the period, the Sub-Investment Manager also engaged with selected companies, in particular on where the underlying companies within the Fund could improve in respect of their sustainability initiatives. Key topics of focus include increased levels of financial disclosure and the linkage between progress on sustainability metrics and executive remuneration. Naturally, discussion topics will vary by business. In some instances the Sub-Investment Manager has specifically engaged with businesses on how to scope and then improve their sustainability strategies.

How did this financial product perform compared to the reference benchmark?

• How did the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark? Not applicable.
- How did this financial product perform compared with the broad market index? Not applicable.

inv	 made sustainable vestments with an onmental objective:% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy in activities that do not qualify as environmentally sustainable under the EU Taxonomy 		char whil sust	 omoted Environmental/Social (E/S) facteristics and e it did not have as its objective a ainable investment, it had a proportion of of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective
	ade sustainable investments h a social objective:%	Х		omoted E/S characteristics, but did not e any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period covered by this report, the Fund complied with its environmental and social characteristics via the following:

• Application of the Fund's exclusion policy as detailed in the Fund's prospectus;;

1

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

- Consideration of ESG ratings and data from external providers and in house analysis; and
- Dialogue and engagement with the Fund's holdings, including onsite visits to company headquarters and operations.

Over the 12-month period ending 30 September 2023, the Fund has shown broad progress in respect of Environmental and Social credentials. 77% of the underlying investments within the Fund have emissions targets in place, versus 73% a year prior. Further, 57% of these are science-based, a 16 percentage-point improvement relative to 2022. From a social perspective, 100% of the underlying investments in the Fund have qualitative diversity commitments in place (unchanged versus a year prior), but the percentage of businesses quantifying these commitments has increased, from 55% to 59%.

How did the sustainability indicators perform?

The Sub-Investment Manager considers the below when monitoring how underlying companies invested in by the Fund meet E/S characteristics:

- A positive rate of change, progress in respect of the company's environmental and social objectives and disclosures; and
- Areas for improvement, which leads to further engagement with investee/potential companies.

The Sub-Investment Manager has published quarterly sustainability reports since Q2 2020 that tracks the progress of the Fund on both a qualitative and quantitative basis. A proprietary database of information gathered from published Sustainability Reports and conversation with the businesses owned within the Fund supports this output. The Sub-Investment Manager also uses data published by external agencies (particularly MSCI) as a way to assess sustainability progress. Notwithstanding changes to the portfolio over the 12-month period, 80% of the underlying investments in the Fund currently receive a leading (AAA or AA) rating from MSCI in respect of sustainability, versus 67% as of 1 October 2022.

	nade sustainable investments h a social objective:%	X		with a social objective omoted E/S characteristics, but did not e any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund invests primarily in equity securities of large cap global companies located worldwide, including emerging markets, which are listed or traded on Recognised Markets. As a key component of the Fund's bottom-up fundamental approach, the Sub-Investment Manager conducts a non-financial ESG analysis, with respect to corporate culture and governance research as detailed below, on at least 80% of the Fund's net

assets on an ongoing basis, or as the investment horizon of a particular company may dictate.

Throughout the reference period the Fund continued to apply exclusionary screens as detailed in the prospectus and below. No investments in these sectors were made by the Fund:

- Oil & gas drilling, exploration and production
- Coal and consumable fuels
- Power generation via fossil fuels combustion
- Tobacco
- Controversial weapons
- Companies who fail to meet corporate culture internal rating criteria

All positions in the Fund were also subject to analysis under the Sub-Investment Manager's Culture and Human Capital Framework. The Framework is a structured process through which all prospective and current holdings are assessed and which define characteristics that are considered essential to promoting healthy, sustainable corporate cultures. The Factors that are considered are:

• Internal candor and communication

Examples of material deficiencies:

o Willful ignorance of shortcomings that causes problems to go unaddressed

o "Cultures of fear" in which feedback is discouraged and/or punished

o Dysfunctional communication norms that prevent issues from being surfaced to leadership in a timely manner

Risk Management

Examples of material deficiencies:

o Cultural norms which encourage excess risk taking and/or disregard for regulatory compliance

o Silencing and/or punishment of whistleblowers

Employee engagement and retention

Examples of material deficiencies:

o Evidence of prolonged, systemic disengagement and/or lack of employee "buy-in"

o Levels of employee turnover that are unsustainable with respect to the company's ability to hire and train suitable replacements

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

• Cultural stewardship and succession planning

Examples of material deficiencies:

o Failure of management to uphold and reinforce the stated values of the organization

o Poorly planned and/or executed succession in key leadership positions, leading to cultural deterioration

• Idiosyncratic risk factors

Examples of material deficiencies:

- o Norms which encourage predatory sales practices
- o Norms which create unsafe working conditions for manufacturing personnel
- o Norms which introduce excess risk of cybersecurity breache

Any new companies under consideration for inclusion in the Fund but which were found to have a material deficiency in the Human Capital Factors were not eligible for portfolio inclusion (the test is binary). For the Fund's current holdings, where there is a material deficiency and no constructive response and enagement to change by the company, will lead to divestment by the Fund.

For clarity, a material deficiency is defined as a pattern of behaviour likely to cause sustained impairment of an organisations' human capital and corproate culture. An example of a material deficiency could be silencing and/or punishment of whistleblowers.

Over the reference period, no new investments were included in the Fund where material deficiencies were identified and all Fund holdings passes the Sub-Investment Manager's Culture and Human Capital Framework.

How did the sustainability indicators perform?

When assessing the sustainability indicators, together with the consideration of governance factors and qualitative data, the Sub-Investment Manager also aims to:

- Understand the trajectory of a company's ESG practices, positive change may reveal a cultural priority within the company that can be value enhancing in the short and long term;
- Identify companies with high social standards, as the Sub-Investment Manager believes this is an enhancer of investment value; and
- Complement the analysis of a company's moat trajectory.

The result of the Sub-Investment Manager's engagement and investment philosophy when it comes to fossil fuels has resulted in significantly lower carbon intensity when compared to a comparator (MSCI All Country World Index Net Total Return USD). The weighted average carbon intensity of the portfolio was 107.23 compared to 141.28 for

the comparator. This naturally results from a far lower emission exposure than the comparator (c. 34k tCO2e vs 186k tCO2e).

...and compared to previous periods?

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Summit Sustainable Opportunities L/S Equity Fund

Legal entity identifier: 549300B0PYQ607JJ0395

Sustainable investment objective

Did this financial product have a sustainable investment objective?

••	Yes		Х	No
inv	 made sustainable vestments with an conmental objective:% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 		char whil sust	 omoted Environmental/Social (E/S) racteristics and e it did not have as its objective a ainable investment, it had a proportion of of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective
	ade sustainable investments h a social objective:%	Х	-	omoted E/S characteristics, but did not e any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Summit Sustainable Opportunities L/S Equity Fund fund was closed on 9 October 2023 and no longer forms part of the Heptagon ICAV. This periodic report covers the reference period from 1 October 2022 to 30 September 2023.

The Fund is designed to achieve capital appreciated and deliver risk-adjusted returns over a market cycle and seek investments in companies that offer market-driven

1

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the sustainable objectives of this financial product are attained.

solutions to global sustainability challenges. The Sub-Investment Manager views sustainability as a driver of disruption and sustainably oriented businesses as companies offering lower environmental impact and less resource-intensive products or services than incumbent players.

The Fund has applied exclusionary criteria which prohibits investment in harmful industries or business activities. Throughout the reference period, the Fund constantly monitored ESG factors under consideration and negative concerns in this regard were not identified. Additionally, a third party data provider was used to enhance ESG analysis and identify where negative performance has occurred. While there were no material issues throughout the investment period, the Sub-Investment Manager regularly engage with investee and prospect companies on sustainability and other issues and actively votes proxies. This stewardship was continued throughout the reporting period.

On balance, the Fund met the environmental and social characteristics promoted. Over the reference period, the Fund reduced its holdings of companies that lag in governence practices and increased its holdings in companies that lead in this respect. Additionally, there was no exposure to firms with severe environmental, social or governance controversies.

Further numerical evidence is provided below.

How did the sustainability indicators perform?

When assessing the sustainability indicators, the Sub-Investment Manager also aims to:

- Understand the business activity of the company and whether a component, core component or by-product of that company's activities is, in the opinion of the Sub-Investment Manager, a more sustainable way of doing business;
- Map the business activity to the United Nations Sustainable Development Goals (UN SDGs); and
- Cross reference the investment thesis with third party sustainability data providers, if available.

The Fund's sutainability indicators showed improvement over the reference period:

- The Fund continued being analysed as a low carbon risk portfolio. As well as being classed as such, the carbon risk of the portfolio also decreased from 67.5 tCO2e/\$M to 31.9 tCO2e/\$M sales.
- The Fund's holdings also improved their waste and water management practices. The Fund showed a nearly 100% decrease in freshwater withdrawal intensity. This implies that companies in the Fund diverted less freshwater to their operations over the reference period.
- While the proportion of investments aligned or neutral to supporting a UN SDG was already very high at the start of the reference period, the percentage increased

Asset allocation describes the share of investments in specific assets.

Principal adverse

impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. further over the reporting cycle. 97.3% of the Fund is now aligned or neutral in repspect to supporting one or more of the UN SDGs.

...and compared to previous periods?

Not applicable. There has been no previous reporting.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable. The Fund promoted E/S characteristics but did not make any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider PAIs for the reference period of this periodic report.

What were the top investments of this financial product?

The table below shows the 15 largest holdings in the Fund as of 30 September 2023.

investments constituting the greatest proportion of investments of the financial product during the reference period which is 30/09/23.

Holding	Sector	Weighting (%)	Country

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover
 reflecting the
 share of revenue
 from green
 activities of
 investee
 companies
- capital

 expenditure
 (CapEx) showing
 the green
 investments
 made by investee
 companies, e.g.
 for a transition to
 a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy. The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

x No

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments in transitional and enabling activities invested in by the Fund was 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. There has been no previous reporting.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Cash and other instruments such as deposits were used for liquidity, hedging and efficient portfolio management. To the extent that these instruments were used, they constituted a minority of the Funds holdings and have adequate minimum safeguards, achieved through exclusions and investment screening criteria.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

How did the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark? Not applicable.
- How did this financial product perform compared with the broad market index? Not applicable.

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the sustainable objectives of this financial product are attained. traded on Recognised Markets. ESG considerations are a meaningful component in the Sub-Investment Manager's framework for assessing a company's management, corporate culture and strategy alignment. The Sub-Investment Manager seeks to engage in active dialogues with the management teams of companies to discuss ESG practices.

The Fund has a comprehensive exclusion list which prohibits the strategy from investing in harmful industries or business activities. Throughout the reference period, the Fund constantly monitored ESG factors under consideration, including through news flows and market developments. Negative concerns in this regard were not identified.

The Fund continued to embed ESG considerations throughout the reference period. A third party data provider was used to identify any holdings in the Fund where there was a decline in ESG ratings and/or negative perceptions over the operating practices of a business. Holdings with these characteristics were not identifed during the reference period.

Overall throughout the reporting period, the Fund met the environmental and social characteristics promoted. The Fund as a whole increased the proportion of companies with leading environmental, social and governance metrics. Additionally, the percentage of Fund holdings classified as laggards with respect to environmental, social and governance metrics decreased. There was also no exposure to firms with severe environmental, social or governance controversies.

Further numerical evidence is provided below.

How did the sustainability indicators perform?

When assessing the sustainability indicators, together with the consideration of governance factors and qualitative data, the Sub-Investment Manager also aims to understand:

- A positive rate of change, progress in respect of the company's environmental and social objectives and disclosures; and
- Areas for improvement, which leads to further engagement with investee/potential companies.

The Fund's sutainability indicators showed improvement over the reference period:

- The weighted average environmental, social and governance score of the Fund's holdings improved which indicates that the sustainability profile of these companies improved;
- The Fund siginificantly decreased the carbon risk of the portfolio, ending the reference period at 177.6 tCO2e/\$M sales, down from 257.8 tCO2e/\$M sales.
- The Fund's holdings also improved their waste and water management practices. The Fund showed a nearly 21% decrease in freshwater withdrawal intensity. This implies that companies in the Fund diverted less freshwater to their operations over the reference period.

...and compared to previous periods?

Not applicable. There has been no previous reporting.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable. The Fund promoted E/S characteristics but did not make any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

 Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider PAIs for the reference period of this periodic report.

'ANNEX V

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Qblue Global Sustainable Leaders Fund

Legal entity identifier: 54930044JKI8BK4ULR38

Sustainable investment objective

Did this financial product have a sustainable investment objective?

•• × Yes	• No
 It made sustainable investments with an environmental objective: 35% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	 It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
x It made sustainable investments with a social objective: 35%	with a social objective It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

The investment objective of the Fund is to provide long-term capital growth, investing globally in the shares of companies that the Sub-Investment Manager believes contribute positively to social and environmental factors.

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this

financial product are

attained.

Sustainable investments contributed to the sustainable investment objective by being ESG industry leaders, best positioned for the transition to a low carbon economy and aligned with the UN SDGs.

The Fund meets its sustainability objectives through (i) exclusions and (ii) the Sustainability Cube[™] score which includes management of adverse impacts. Over the reporting period, there were no breaches of the Fund's exclusion list and all screening criteria was met. The scoring thresholds associated with the Sustainability Cube[™] were also achieved. Detail on the advserse impact performance is also shown below and as they are incorporated into the Sustainability Cube[™] score, they also contributed to the Fund achieving it's sustainability objective.

How did the sustainability indicators perform?

Contribution to the sustainable investment objective is assessed using the the Sub-Investment Manager's proprietary sustainability model, The Sustainability Cube[™]. The model calculates the combined contribution across the three areas

- Transition to a low carbon economy
- ESG Leadership
- Contribution to United Nations 17 Sustainable Development Goals

The specific sustainability indicators used to calculate the Sustainability $Cube^{TM}$ are included in the SFDR website disclosure for the financial product.

On a given day, the sustainable investment objective is attained if the capital weighted average Sustainability Cube[™] score of the portfolio companies, within each industry (as per MSCI GICS level 1) within each region, is better than the 90th percentile of the sustainability scores in the investment universe. That is, if the average company, within each region and sector, is among the 10% most sustainable companies as measured by the Sustainability Cube[™].

When assessing attainment of the sustainable investment objective over a period, the sustainable investment objective is met if it is met 90% of the time. The 10% shortfall is allowed to avoid forced selling of portfolio companies when new data are included in the Sustainability Cube[™] score.

The table below shows, for each region and sector pair over the reference period, the percentage of business days over the period where the sustainable investment objective was met. With the exception of Consumer Staples in Europe, all region and sector pairs met the sustainable investment objective more than 90% of the time. In the 50% of days where Consumer Stables in Europe was below the 90th percentile threshold, it was between the 79th and 89th percentile.

The average Sustainability Cube[™] score over the period, across regions and sectors, was 7.5, corresponding to the 97th percentile among all scores in the investment universe. In other words, the holdings in the investment portfolio was on average among the top 3% most sustainable companies measured by the Sustainability Cube[™] score.

...and compared to previous periods?

N/A

How did the sustainable investments not cause significant harm to any sustainable investment objective?

— How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for adverse impacts on sustainability factors were taken into account by (i) exclusions, and (ii) the Sustainability Cube[™] score used to assess if a company qualifies as a sustainable investment. All screening criteria and thresholds presented in the pre-contractual disclosures were met for all sustainable investments during the period.

 Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

All holdings in the Fund (sustainable as well as not sustainable) were screened twice during the reporting period for mis-alignment with OECD Guidelines for Multinational Enterprices and UN Guiding Principles on Business and Human Rights. The screening was done by the Sub-Investment Manager's engagement partner, Engagement International, and no holdings in the Fund were flagged in the screening.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. Principal adverse impact indicators are integrated into the Sustainability $Cube^{TM}$ score, and hence used actively to select – and de-select – investments for the Fund.

The table below shows the average adverse impact indicators for the Fund during the period (1 October 2022 to 30 September 2023).

PAI indicator	impact	unit
1.1(1) Scope 1 Emission	1,649	tCO2e (investor share of)

The table below shows the fifteen largets holdings in the Fund as of September 30,

What was the proportion of sustainability-related investments?

Asset allocation during the reporting period is calculated as the average allocation on quarter-end dates. An investment is considered sustainable if it is among the top 25% best ranked companies within its region and sector. The below diagram shows the asset allocation of the Fund over the reference period.

What was the asset allocation?

Asset allocation

describes the share of investments in specific assets.

In which economic sectors were the investments made?

Sector	Sub-Industry	% Assets
Communication Services	Alternative Carriers	0.3%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The extent to which sustainable investments with an environmental objective was aligned with the EU Taxonomy was 12% over the period, measured by turnover.

Over the period, only 8% of the companies in the investment portfolio reported their revenue alignment with the EU Taxonomy. Taxonomy alignment for the remaining companies was estimated using MSCI's EU Taxonomy Methodology. The MSCI category "potentially aligned revenue" was used as estimate for taxonomy alignment.

Taxonomy alignment for CapEX and OpEx was only based on reported numbers with no attempt to estimate alignment for companies without reported numbers.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

	Yes:		
		In fossil gas	In nuclear energy
Х	No		

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds^{*}, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments in transitional activities was 0% over the period.

The share of investments in enabling activities was 0% over the period.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

reflecting the share of revenue from green activities of investee companies - capital

expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

 operational expenditure (OpEx) reflecting green operational activities of investee companies.

are

sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

N/A

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that was not aligned with the EU taxonomy was 51%.

The sustainable investment objective of the Fund is to invest in companies that contribute across a broad range of sustainability goals and ESG factors. This includes taxonomy aligned activities, but also other factors. This is whay the financial product invested in economic activities that were not taxonomy-aligned.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 49%.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

The Fund did not invest in any companies classified as "not sustainable" over the period.

The Fund may have companies in the portfolio that are classified as "not sustainable" if an investment was classified as "sustainable" when it was included in the portfolio, but at a later point in time are re-evaluated and classified as "not sustainable". In such cases, the Sub-Investment Manager will sell the investment within 30 days.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Investment process ensured that all investments made for the Fund over the reporting period were selected among companies within the 10% best ranked companies as measured by the Sustainability $Cube^{TM}$. This was the most important action taken to attain the sustainable investment objective.

During the reporting period the Sub-Investment Manager engaged with selected companies in the Energy sector with purpose of improving their carbon reduction targets – both in terms of level of ambition and transparency.

The Sub-Investment Manager implemented new voting templates for 'GHG emissions', and 'UN Global Compact' with the purpose of improving voting coverage and consistency.

How did this financial product perform compared to the reference sustainable benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective. How did the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

N/A

- How did this financial product perform compared with the reference benchmark? N/A
- How did this financial product perform compared with the broad market index? N/A
