Fund objectives and investment policy

The Schroder Singapore Fixed Income Fund (the "Fund") aims to provide investors with diversified exposure to the Singapore fixed income market through investment in Singapore dollar denominated bonds or where in foreign currency, hedged back to SGD.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Performance over 5 years (%)

Past performance and any forecasts are not necessarily a guide to the future or likely performance.

The value of investments and income from them can go down as well as up and is not guaranteed. Returns of more than 1 year are annualised. The distributions are not guaranteed and might be changed at the Manager's discretion in accordance with the Trust Deed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital, subject to trustee approval. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Some performance differences between the fund and the benchmark may arise as the benchmark returns are not adjusted for non-dealing days of the fund. On 01.03.2017 the iBoxx ALBI Singapore Index replaced the UOB SGS All Index. The full track record of the previous index has been kept and chainlinked to the new one. The performance returns shown above are calculated based on the NAV after dilution adjustments (if any) have been applied. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.

This fund has been awarded an Integrated accreditation. ESG factors are embedded into the investment process and can be clearly evidenced. There is a strong commitment to stewardship and company engagement.

Important information

The Central Provident Fund ("CPF") interest rate for the CPF- Ordinary Account ("OA") is based on the 3-month average of major local banks' interest rates. Under the CPF Act, the CPF Board pays a minimum interest rate of 2.5% per annum when this interest formula yields a lower rate. The interest rate for the Special and Medisave Accounts ("SMA") is pegged to the 12-month average yield of 10-year Singapore Government Securities ("10YSGS") plus 1%, or 4% p.a. whichever is higher, reviewed quarterly. The interest rate to be credited to the Retirement Account ("RA") is the weighted average interest rate of the entire portfolio of Special Singapore Government Securities ("SSGS") the RA savings are invested in which earn a fixed coupon equal to the 12-month average yield of the 10YSGS plus 1% at the point of issuance, or 4% p.a. whichever is the higher, reviewed yearly. The Singapore government will maintain the 4% p.a. minimum rate for interest earned on all SMA and RA monies until 31 December 2021. Thereafter, interest rates on all CPF account monies will be subject to a minimum rate of 2.5% p.a. . In addition, the CPF Board will pay an extra interest rate of 1% per annum on the first S\$60, 000.00 of a CPF member's combined balances, including up to S\$20, 000.00 in the CPF-OA. The first S\$20, 000.00 in the CPF-OA and the first S\$40, 000.00 in the CPF-Special Account ("SA") are not allowed to be invested under the CPFIS. Investors should note that the applicable interest rates for each of the CPF accounts may be varied by the CPF Board from time to time.
